No fuss, no stains.
 Perfectly clean
 laundry every time.

EcoSilence Drive
 For long-lasting performance, quiet operation
 and perfect wash results.
 Learn more at www.bosch-home.co.id

EcoSilence Drive™
Powerful, silent and built to last.

Without using carbon brushes like traditional motors, our innovative EcoSilence Drive™ friction-free motor minimises any heat and wear. The result – a drive system that is not only powerful and long lasting, but also one of the most silent in operation.

AntiVibration™ Design
More stability, less vibration.

The special AntiVibration™ design of the side walls makes the Bosch washing machines and dryers extremely quiet. It helps reduce vibrations and ensures greater stability so you can do your washing without disturbing your loved ones.

With a variety of wash programmes and options, experience total convenience and customised care for your laundry.

Allergy Plus

The perfect solution to ensure that the clothes of you and your loved ones are allergen free. Extra rinse cycles remove allergens and detergent residue reliably for allergy-prone adults and children.

SuperQuick 15'/30'

Perfect for newly bought or lightly soiled clothes, this 15'/30' minute programme that handles loads up to 2/3.5kg is amongst the shortest wash programmes in the market.

VarioPerfect™

The ultimate in convenience.

Bosch VarioPerfect™ lets you decide whether your laundry is done quickly or more economically, giving you ultimate control over your time and money. When time is of the essence, you can achieve outstandingly clean results with the SpeedPerfect®* option – by up to 65% faster. When thinking green, save on energy consumption by choosing EcoPerfect*.

The machine then automatically adjusts the wash process for perfect washing results every time.

*Both options can be selected with most wash programmes.

100% Washer
100% Dryer

Not only have we rolled two appliances into one, we've also made sure our Washer Dryer is a top performer.

At the touch of a button, you can easily wash 8kg of laundry with 4.5 star water efficiency or effortlessly wash and dry 5kg of laundry in just 60 minutes.

AirCondensation Technology™

Did you know that some washer/dryers use water to dry clothes? At Bosch, we think that's wasteful so we developed AirCondensation Technology™. Thanks to this revolutionary technique, the Avantixx condensation system uses air to dry your clothes instead of water, making it one of the most water-efficient dryers.*
