## For your safety

**Before use, read these instructions carefully in order to become familiar with important safety and operating instructions for this appliance.**

If the instructions for correct use of the appliance are not observed, the manufacturer's liability for any resulting damage will be excluded. This appliance is designed for processing normal household quantities in the home or similar quantities in non-industrial applications.

Non-industrial applications include e.g. use in employee kitchens in shops, offices, agricultural and other commercial businesses, as well as use by guests in boarding houses, small hotels and similar dwellings.

Use the appliance for processing normal quantities of food for domestic use. Do not exceed permitted maximum quantities (see "Application examples").

This appliance is suitable for mixing, kneading and beating food. It must not be used for processing other objects or substances. Other applications are possible if the accessories approved by the manufacturer are used.

Use the appliance with original accessories only. When using the accessories, follow the enclosed operating instructions.

Please keep the operating instructions in a safe place. If passing on the appliance to a third party, always include the operating instructions.

## General safety instructions

### Electric shock risk

The appliance must not be used by children.

The appliance and its power cord must be kept away from children.

Appliances can be used by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and if they understand the hazards involved.

Children shall not play with the appliance.

Cleaning and user maintenance shall not be made by children without supervision.

Connect and operate the appliance only in accordance with the specifications on the rating plate. Do not use the appliance if the power cord and/or appliance are damaged.

Always disconnect the appliance from the supply if it is left unattended and before assembling, disassembling or cleaning.

Do not place the power cord over sharp edges or hot surfaces.

To prevent injury, a damaged power cord must be replaced by the manufacturer or his customer service or a similarly qualified person.

Only our customer service may repair the appliance.

---

## Safety instructions for this appliance

---

### **Risk of injury**

#### **Risk of electric shock!**

Do not insert mains plug until all preparations for working with the appliance are complete.

Never immerse the base unit in liquid or hold under running water.

Do not use a steam cleaner.

Do not adjust the swivel arm while the appliance is switched on.

Wait until the drive has come to a standstill.

Do not change tool/accessory until the drive is at a standstill – when the appliance is switched off, the drive continues running briefly.

Use only the rotary switch to switch the appliance on or off.

When the appliance is not in use, pull out the mains plug.

Before eliminating a fault, pull out the mains plug.

#### **Risk of injury from the rotating tools!**

While the appliance is operating, never place fingers in the mixing bowl.

Attach the cover (12) before operating the appliance!

Do not change tools until the drive has come to a standstill – when the appliance is switched off, the drive continues running briefly and stops in the tool change position. Do not move the swivel arm until the tool has come to a standstill.

For reasons of safety the appliance cannot be operated unless unused drives are covered with drive guards (5, 8).

Before attaching/removing the continuous-feed shredder, wait until the drive has come to a standstill and pull out the mains plug.

Do not reach into the feed tube.

### Risk of injury from sharp blades!

Do not grip the sharp blades or edges of the cutting discs.

Take hold of cutting discs by the edge only.

Do not touch blender blades with bare hands.

### Risk of injury from sharp blades/rotating drive!

Never place fingers in the attached blender! Do not remove/attach the blender until the drive is at a standstill! Operate the assembled blender only and with the lid attached.

### Risk of scalding!

If processing hot liquids, steam escapes through the funnel in the lid.

Add a max. 0.5 litres of hot or frothing liquid.

### Important!

Use the appliance with original accessories only.

When using the accessories, follow the enclosed operating instructions.

Use only one tool or accessory at any one time.

## ▲ Explanation of the symbols on the appliance or accessory

Follow the instructions in the operating instructions.

Caution! Rotating blades.

Caution! Rotating tools.

Do not place fingers in the feed tube.

## Safety systems

### Start lock-out

See “Operating positions” table.

The appliance can be switched on in **pos. 1 and 3** only:

- when the bowl (11) has been inserted and turned until it locks into place and
- the blender drive cover has been attached (8).

### Restart lock-out

If the power is interrupted, the appliance remains switched on but the motor does not start running again when the power is restored. To switch the appliance on again, turn the rotary switch to **0/off**, then switch on.

## Overload protection

If the motor switches itself off while the appliance is being used, the overload protection feature has been activated.

A possible cause may be that too much food was processed at one time.

**If a safety system is activated, see “Troubleshooting”.**

The operating instructions describe several models, see also overview of models (Fig. M). The appliance requires no maintenance.

## Overview

Please fold out the illustrated pages.

Fig. A

### Base unit

- 1 Release button**
  - 2 Swivel arm**  
“Easy ArmLift” function to support the upward movement of the arm (see “Work positions”).
  - 3 Rotary switch**  
When the appliance has been switched off (position **0/off**), the appliance runs automatically to the optimum position for changing the tools.  
**0/off** = Stop  
**M** = Instantaneous switching at maximum speed, hold switch for required blending duration.  
Settings **1–7**, Operating speed:  
**1** = low speed – slow,  
**7** = high speed – fast.
  - 4 Operating indicator**  
Is lit while the appliance is operating (rotary switch on **M** or **1–7**).  
Flashes if the appliance has been operated incorrectly, the electronic fuse has tripped or the appliance is defective – see section “Troubleshooting”.
  - 5 Drive cover**  
To remove the drive cover, press on the rear area and remove cover.
  - 6 Drive for**  
– continuous-feed shredder and  
– citrus press (optional accessory \*).  
When not in use, attach the drive cover.
  - 7 Drive for tools (stirrer, whisk, kneading hook) and mincer (optional accessory \*)**
  - 8 Blender drive cover**
  - 9 Drive for blender (optional accessory \*)**  
When not in use, attach the blender drive cover.
  - 10 Automatic cord winder**
- ### Bowl with accessories
- 11 Stainless steel stirring bowl**
  - 12 Lid**

### Tools

- 13 Professional flexi stirring whisk**
  - 14 Professional beating whisk**
  - 15 Kneading hook with dough deflector**
  - 16 Accessories bag**  
For storage of the tools and cutting discs.
- ### Continuous-feed shredder
- 17 Pusher**
  - 18 Cover with filling shaft**
  - 19 Cutting discs**
    - 19a** Professional Supercut reversible disc – coarse/fine
    - 19b** Grating disc – coarse \*
    - 19c** Asian vegetable disc \*
  - 20 Disc holder**
  - 21 Housing with outlet opening**
- ### Blender \*
- 22 Blender jug**
  - 23 Lid**
  - 24 Funnel**

\* If an accessory is not included in the product package, it can be purchased via the trade or customer service.

## Operating positions

Fig. 13

### ⚠ Attention!

Before operating the appliance, attach the tool/accessory to the correct drive and in the correct position and place in the operating position according to this table.

The swivel arm must be engaged in every operating position.

### Note:

The swivel arm features an "Easy Armlift" function which supports the upwards movement of the swivel arm.

### Selecting the operating position:

- Press the Release button and move the swivel arm.  
Support movement with your hand.
- Move the swivel arm until it engages in the required position.

| Position | Drive | Tool/Accessory | Operating speed |
|----------|-------|----------------|-----------------|
| 1        | 7     |                | 1-5             |
|          |       |                | 1-7             |
|          |       |                | 1-3             |
| 2        | 7     | *              | -               |
| 3        | 6     |                | 3-7             |
|          |       |                | 3-5             |
| 4        | 9     |                | 5-7             |
|          | 7     |                | 5-7             |

\* Insert/remove whisk, stirrer or kneading hook. Add large quantities of ingredients.

## Operation

### Risk of injury!

Do not insert mains plug until all preparations for working with the appliance are complete.

### Attention!

Do not operate the appliance without an accessory/tool in the operating position.

Do not operate the appliance empty.

Do not expose appliance or accessories to heat sources. Parts are not microwave-safe.

- Before operating the appliance and accessories for the first time, clean thoroughly; see "Cleaning and servicing".

### Important information

These operating instructions contain a sticker with reference values for the operating speed of the appliance when using the tools or accessories.

We recommend attaching this sticker to the appliance (Fig. 14).

## Preparation

- Place the base unit on a smooth, clean surface.
- Pull out the power cord (Fig. 15).  
Cord store: Pull out cable to the required length.

### Warning!

Do not twist the cord when inserting it.

If the appliance features an automatic cord winder, do not insert the cord manually.

If the cord jams, pull out the cord all the way and then allow it to wind up.

- Insert the mains plug.

## Bowl and tools

### Risk of injury from rotating tools

While the appliance is operating, never place fingers in the mixing bowl. Attach the cover (12) before operating the appliance!

Do not change tools until the drive has come to a standstill – when the appliance is switched off, the drive continues running briefly and stops in the tool change position. Do not move the swivel arm until the tool has come to a standstill.

For reasons of safety the appliance may only be operated when unused drives have been covered with drive guards (5, 8).

### Attention!

Use bowl with this appliance only.

### Professional flexi stirring whisk (13)

for stirring dough, e.g. cake mixture

### Professional beating whisk (14)

for whisking egg whites, cream and light dough, e.g. sponge mixture

### Kneading hook (15)

for kneading heavy dough and mixing-in ingredients that ought not be cut (e.g. raisins and chocolate chips)

## Important information concerning the use of the whisk

Fig. 13

The whisk should almost touch the bottom of the bowl to ensure that the ingredients are optimally mixed. If not, adjust the height of the whisk as follows:

- Remove mains plug.
- Press the Release button and move the swivel arm to position 2.
- Insert the whisk into the drive until the whisk locks into position.
- Hold whisk in place and loosen nut clockwise using open-ended wrench (size 8).
- Set the whisk to the optimum height by rotating the whisk:

- Turn clockwise: Raise
- Turn anti-clockwise: Lower

- Press the Release button and move the swivel arm to position 1.

Check the height of the whisk and, if required, correct.

- When the height has been set correctly, press Release button and move the swivel arm to position 2.
- Hold whisk in place and tighten nut anti-clockwise using open-ended wrench (size 8).

## Working with the bowl and the tools

Fig. 14

- Press the Release button and move the swivel arm to position 2.
- Insert the bowl:
  - Tilt the bowl forwards and then set it down.
  - Turn anti-clockwise until it locks into place.
- Depending on the processing task, insert the stirrer, whisk or kneading hook until it locks into position.

### Note:

If using the kneading hook, rotate the dough deflector until the kneading hook can lock into position (Fig. 13-4b).

- Put the ingredients to be processed into the bowl.
- Press the Release button and move the swivel arm to position 1.
- Attach the cover.
- Set the rotary switch to the desired setting.

### Our recommendation:

- Professional flexi stirring whisk: First mix at setting 1–2, then setting 3–5 as required
- Professional beating whisk: setting 7, mix in at setting 1
- Kneading hook: first stir in at setting 1, knead at setting 3

## Adding more ingredients

- Switch off the appliance with the rotary switch.
- Add more ingredients through the feed tube in the cover.
- or
- Remove lid.
- Press the Release button and move the swivel arm to position 2.
- Add ingredients.

## After using the appliance

- Switch off the appliance with the rotary switch.
- Remove mains plug.
- Remove lid.
- Press the Release button and move the swivel arm to position **2**.
- Take the tool out of the drive.
- Remove the bowl.
- Clean all parts, see "Cleaning and servicing".

## Continuous-feed shredder

### Risk of injury

*Do not grip the sharp blades or edges of the cutting discs. Take hold of cutting discs by the edge only.*

*Before attaching/removing the continuous-feed shredder, wait until the drive has come to a standstill and pull out the mains plug.*

*Do not reach into the feed tube.*

### Warning!

*The continuous-feed shredder must be completely assembled before use. Never assemble the continuous-feed shredder on the base unit.*

*Operate the continuous-feed shredder in the indicated operating position only.*

### Predetermined breaking point

The built-in predetermined breaking point protects the drive of the appliance. If an overload occurs, the drive shaft of the continuous-feed shredder breaks. However, the drive shaft can easily be replaced.

A new disc holder with drive shaft is available from customer service.

### Professional Supercut reversible disc – coarse/fine

for slicing fruit and vegetables. Process at setting 5.

Designation on the reversible slicing disc: "Grob" for the coarse cutting side  
"Fein" for the fine cutting side

### Warning!

*The reversible slicing disc is not suitable for slicing hard cheese, bread, rolls or chocolate. Slice boiled, waxy potatoes only when they are cold.*

## Grating disc – coarse

for grating raw potatoes, e.g. for potato pancakes or dumplings.

Process at setting 7.

## Asian vegetable disc

Slices fruit and vegetables into fine strips for Asian vegetable dishes.

Process at setting 5.

## Working with the continuous-feed shredder

**Fig. 8**

- Press the Release button and move the swivel arm to position **2**.
- Insert the bowl:
  - Tilt the bowl forwards and then set it down.
  - Turn anti-clockwise until it locks into place.
- Press the Release button and move the swivel arm to position **3**.
- Remove drive cover from the drive of the continuous-feed shredder (**Fig. 8-5a**).
- Hold disc holder at the lower end, ensuring that the two tips are face up.
- Carefully place the required slicing or shredding disc onto the tips of the disc holder (**Fig. 8-6a**). In the case of reversible discs, ensure that the required side is face up.
- Grip disc holder at the upper end and insert into the housing (**Fig. 8-6b**).
- Attach the cover (note mark) and turn all the way in a clockwise direction.
- Place continuous-feed shredder on the drive and rotate all the way in a clockwise direction, as illustrated in **Fig. 8-8**.
- Turn rotary switch to recommended setting.
- Put food to be processed in the feed tube and push down with the pusher.

### Warning!

*Prevent the cut ingredients from building up in the outlet opening.*

**Tip:** To ensure even cutting results, process thin ingredients in bunches.

**Note:** If the food to be processed sticks in the continuous-feed shredder, switch food processor off, pull out mains plug, wait until the drive comes to a standstill, remove cover from the continuous-feed shredder and empty feed tube.

## After using the appliance

- Switch off the appliance with the rotary switch.
- Rotate the continuous-feed shredder in an anti-clockwise direction and remove.
- Rotate the lid in an anti-clockwise direction and remove.
- Remove disc holder with disc. To do this, press finger from below against the drive shaft (Fig. 1).
- Clean parts.

## Blender

### **Risk of injury from sharp blades/rotating drive!**

*Never place fingers in the attached blender! Do not remove/attach the blender until the drive is at a standstill! Operate the assembled blender only and with the lid attached.*

### **Risk of scalding!**

*If processing hot liquids, steam escapes through the funnel in the lid. Add a max. 0.5 litres of hot or frothing liquid.*

### **Warning!**

*Blender may be damaged. Do not process deep-frozen ingredients (except ice cubes). Do not operate blender when empty.*

## Working with the blender

Fig. 8

- Press the release button and move the swivel arm to position 4.
- Remove the blender drive cover.
- Attach blender jug (mark on the handle on mark on the base unit) and turn all the way in an anti-clockwise direction.
- Add ingredients.  
Maximum capacity – liquid = 1.25 litres; maximum capacity frothing or hot liquids max. 0.5 litres; optimal processing capacity – solids = 50–100 g;
- Attach the cover and turn anti-clockwise all the way into the blender handle. The cover must be locked in position.
- Set the rotary switch to the desired setting.

## Adding more ingredients (Fig. 8-8)

- Switch off the appliance with the rotary switch.
- Remove the lid and add ingredients or
- remove the funnel and gradually add solid ingredients through the refill opening or
- pour liquid ingredients through the funnel.

## After using the appliance

- Switch off the appliance with the rotary switch.
- Rotate the blender in a clockwise direction and remove.

**Tip:** It is recommended to clean the blender immediately after use.

## Cleaning and servicing

### **Attention!**

*Do not use abrasive cleaning agents. Surfaces may be damaged.*

## Cleaning the base unit

### **Risk of electric shock!**

*Never immerse the base unit in water or place under running water. Do not use a steam cleaner.*

- Remove mains plug.
- Wipe the base unit and drive cover with a damp cloth. If required, use a little detergent.
- Then dry the base unit.

## Cleaning the bowl and tools

The bowl and tools are dishwasher-proof. Do not wedge plastic parts in the dishwasher, as they could be permanently deformed during the washing process!

## Cleaning the continuous-feed shredder

All parts of the continuous-feed shredder are dishwasher-proof.

**Tip:** To remove the red film after processing e.g. carrots, pour a little cooking oil on a cloth and rub the film off the continuous-feed shredder (not the cutting discs). Then rinse the continuous-feed shredder.

## Cleaning the blender

### **Risk of injury from sharp blades!**

*Do not touch blender blades with bare hands.*

The blender jug, lid and funnel are dishwasher-proof.

**Tip:** After processing liquids, it is often sufficient to clean the blender without removing it from the appliance. Pour a little water and washing-up liquid into the attached blender. Switch on the blender for several seconds (setting M). Pour out the water and rinse out the blender with clear water.

### **Important information**

If required, clean accessories bag. Follow care instructions in the bag.

## Storage

### **Risk of injury!**

*When the appliance is not in use, pull out the mains plug.*

### **Fig. 14**

- Store tools and cutting discs in the accessories bag.
- Keep accessories bag in the bowl.

## Troubleshooting

### **Risk of injury!**

*Before eliminating a fault, pull out the mains plug.*

### **Note:**

The Operating indicator flashes if the appliance has been operated incorrectly or the electronic fuse has tripped or the appliance is defective.

### **The swivel arm must be engaged in every operating position.**

Initially try to eliminate the problem which has occurred with the help of the following information.

## Troubleshooting

Appliance does not start.

### **Remedial action**

- Check the power supply.
- Check the mains plug.
- Check swivel arm. Correct position? Engaged?
- Screw on blender or bowl as far as possible.
- Attach the blender cover and screw on as far as possible.
- Attach drive cover to unused drives.
- The safety lock is active. Switch appliance to 0/off and then back to the required setting.

## Troubleshooting

Appliance switches off during use. The overload protection feature has been activated. Too much food was processed at one time.

### **Remedial action**

- Switch off the appliance.
- Reduce processing quantity. Do not exceed permitted maximum quantities (see "Application examples").

## Troubleshooting

While the drive was running, the release button was inadvertently pressed. The swivel arm moves up. The drive switches off, but does not stop in the tool change position.

### **Remedial action**

- Set the rotary switch to **0/off**.
  - Move swivel arm to position **1**.
  - Switch on appliance (setting 1).
  - Switch off appliance again.
- Tool stops in tool change position.

## Troubleshooting

Blender does not start working or stops during use, the drive is "humming". Blade is blocked.

### **Remedial action**

- Switch off the appliance and pull out the mains plug.
- Detach the blender and remove the obstruction.
- Re-attach the blender.
- Switch on the appliance.

### **Important information**

If the fault cannot be eliminated, please contact customer service.

## Application examples

### Whipped cream

100 g–600 g

- Whip cream with the whisk for 1½ to 4 minutes at setting 7 – depending on the quantity and properties of the cream.

### Egg white

1 to 8 egg whites

- Beat egg white with the whisk for 4 to 6 minutes at setting 7.

### Sponge mixture

*Basic recipe*

2 eggs

2–3 tbs. hot water

100 g sugar

1 packet of vanilla sugar

70 g flour

70 g cornflour

Baking powder if required

- Beat the ingredients (except flour and cornflour) with the whisk for approx. 4–6 minutes at setting 7 until frothy.
- Rotate switch to setting 1 and spoon in the sifted flour and cornflour within approx. ½ to 1 minute.

**Maximum quantity:** 2 x basic recipe

### Cake mixture

*Basic recipe*

3–4 eggs

200–250 g sugar

1 pinch of salt

1 packet of vanilla sugar or peel from ½ lemon

200–250 g butter or margarine (room temperature)

500 g flour

1 packet of baking powder

125 ml milk

- Mix all ingredients with the stirrer for approx. ½ minute at setting 1, then for approx. 3–4 minutes at setting 5.

**Maximum quantity:** 1.5 x basic recipe

### Short pastry

*Basic recipe*

125 g butter (room temperature)

100–125 g sugar

1 egg

1 pinch of salt

A little lemon peel or vanilla sugar

250 g flour

Baking powder if required

- Mix all ingredients with the stirrer for approx. ½ minute at setting 1, then for approx. 2–3 minutes at setting 3.

From 500 g flour:

- Knead the ingredients with the kneading hook for approx. ½ minute at setting 1, then for approx. 3–4 minutes at setting 3.

**Maximum quantity:** 2 x basic recipe

### Yeast dough

*Basic recipe*

500 g flour

1 egg

80 g fat (room temperature)

80 g sugar

200–250 ml lukewarm milk

25 g fresh yeast or 1 packet of dried yeast

Peel of ½ lemon

1 pinch of salt

- Mix all ingredients with the kneading hook for approx. ½ minute at setting 1, then for approx. 3–6 minutes at setting 3.

**Maximum quantity:** 1.5 x basic recipe

### Pasta dough

*Basic recipe*

300 g flour

3 eggs

1–2 tbs. (10–20 g) cold water as required

- Process all ingredients for approx. 3–5 minutes at setting 3 until a dough forms.

**Maximum quantity:** 1.5 x basic recipe

### Bread dough

*Basic recipe*

750 g flour

2 packets of dry yeast

2 tsp. salt

450–500 ml warm water

- Mix all ingredients with the kneading hook for approx. ½ minute at setting 1, then for approx. 4–5 minutes at setting 3.

## Mayonnaise

- 2 eggs
- 2 tsp. mustard
- ¼ l oil
- 2 tbs. lemon juice or vinegar
- 1 pinch of salt
- 1 pinch of sugar

Ingredients must be at the same temperature.

- Process the ingredients (except the oil) in the blender for several seconds at setting 3 or 4.
- Switch the blender to setting 7 and slowly pour the oil through the funnel and mix until the mayonnaise emulsifies.

**Eat the mayonnaise immediately, do not store.**

## Honey bread spread

- 30 g butter (from refrigerator, 7 °C)
- 190 g honey (from refrigerator, 7 °C)

- Cut butter into small pieces and put into the blender.
- Add honey and blend for 15 seconds at setting 7.

## Disposal

This appliance has been identified in accordance with the European directive 2012/19/EG on Waste Electrical and Electronic Equipment – WEEE.

The Directive paves the way for effective EU-wide withdrawal and utilization of waste appliances.

Please ask your dealer or inquire at your local authority about current means of disposal.

## Warranty conditions

The guarantee conditions for this appliance are as defined by our representative in the country in which it is sold. Details regarding these conditions can be obtained from the dealer from whom the appliance was purchased.

The bill of sale or receipt must be produced when making any claim under the terms of this guarantee.

## Optional accessories

**MUZ5ZP1**  
Citrus press

For squeezing oranges, lemons and grapefruits.

**MUZ5CC1**  
Dicer

For cutting fruit and vegetables into equally sized cubes

**MUZ5FW1**  
Mincer

For cutting fresh meat for steak tartare or meat loaf.

**MUZ45LS1**  
Perforated disc set fine (3 mm), coarse (6 mm)

For the mincer MUZ5FW1.  
Fine disc for pasties and spreads, coarse disc for sausages and bacon.

**MUZ45SV1**  
Viennese whirl attachment

For the mincer MUZ5FW1.  
With metal template for 4 different pastry moulds.

**MUZ45RV1**  
Grater attachment

For the mincer MUZ5FW1.  
For grating nuts, almonds, chocolate and dried bread rolls.

**MUZ45FV1**  
Juicer attachment

For the mincer MUZ5FW1.  
For pressing soft fruit, except raspberries, tomatoes and rose hips, to a pulp. At the same time e.g. currants are automatically stemmed and pitted.

**MUZ45PS1**  
Chipper disc

For the continuous-feed shredder MUZ5DS1.  
For slicing raw potatoes for chips.

**MUZ45AG1**  
Asian vegetable disc

For the continuous-feed shredder MUZ5DS1.  
Slices fruit and vegetables into fine strips for Asian vegetable dishes.

|  |   |   |
