A pro with 60 years of experience.

The best development in kitchen machines from Bosch—to meet the highest demands of food preparation.

60 years of quality, precision and reliability.

When our engineers combine all of their experience in one kitchen machine, many details add up to create the essence of Bosch kitchen machine technology—the new MaxxiMUM from Bosch:

- The most powerful motor on the market: 1600 watts
- Smart dough sensor for ideal dough processing suitable for heavy bread doughs or light sponge mixtures
- Improved 3D PlanetaryMixing System
- · Wide range of accessories that caters to every requirement

Alongside these features, the high-quality full metal housing and choice of three premium colour variants are sure to impress any of your customers who are connoisseurs of fine dining or lovers of design.

We put everything into achieving perfect results.

The new MaxxiMUM with its unique SensorControl feature represents the best of Bosch's kitchen machine development expertise. For maximum demands when preparing food.

Culinary treat - perfect right down to the cream topping.

The new premium kitchen machine from Bosch combines the essence of 60 years of experience with a unique new way to make perfect cream and whipped egg whites. SensorControl automatically identifies the optimum degree of stiffness for cream and egg whites, and stops when the optimal result has been achieved.

As stiff cream turns into butter after a very short time, the SensorControl aids the user in precise application, delivering perfect results everytime.
