

BOSCH

Invented for life

Refrigeration Range.

Get fresher food for a healthier lifestyle.

Why choose Bosch?

Quality comes from experience.

All Bosch products are manufactured to the highest possible standards, using only premium quality materials. We undertake quality and endurance tests for our products under continuous usage conditioning. Not a single appliance leaves our factory until it has been proven to meet our high standards.

Extensive Customer Service Network.

Our friendly Bosch Customer Care team is on-hand to provide competent, reliable assistance. Before or after purchase, the Bosch team will be happy to advise you on products, their use and special functions.

Reliability Guaranteed.

We offer a 2 year manufacturer warranty on all our appliances. The appliance must be registered with the warranty card or online at www.bosch-home.co.nz/mybosch

Advanced technologies from Bosch.*

VitaFresh*: Keeps healthy food fresh for longer.

With VitaFresh, you'll be able to store your fruits and vegetables safely to lock in the freshness. And with an adjustable humidity setting on the drawer, you'll be keeping your fresh food in a perfectly controlled environment. You'll also find two drawers, one for fish and one for meat, with a temperature regulating slider which lets you lower the temperature up to 4°C lower than the rest of the fridge.

LED lighting*: Ideal lighting for the fridge area.

LED lights bring a completely new lighting concept to fridges, guaranteeing even, glare-free interior illumination. LED lights use less electricity than conventional fridge lights and last longer.

Super Cooling*: Cool down your fridge quickly.

Putting new food into your fridge causes the internal temperature to rise, which means the fridge has to work harder to cool down and regulate the temperature again. Activating the Super Cooling function will prepare your fridge by rapidly reducing the temperature, keeping the contents cool, and quickly cooling the new groceries down to 2°C.

Super Freezing*: Rapidly freeze fresh food.

Adding new food to the freezer can increase the internal temperature, which can affect existing food by partly defrosting. The Super Freezing function rapidly lowers the temperature in the freezer, ensuring the fresh food is frozen quickly, while surrounding food stays frozen.

*Features vary depending on model. Please check individual product specifications.

Bosch Refrigeration.

All our refrigeration appliances not only make everyday life tastier, they also make it easier thanks to their clever technology and storage systems. To help you choose the right Bosch fridge freezer we have divided them into the four ranges.

Fully Integrated Refrigeration

Fridge Freezer

Series 6 KIN86AD30A

Design

For seamless integration with your kitchen configuration*
LowFrost Fridge / NoFrost Freezer
Right hinged door (reversible)

Food Freshness System

1 VitaFresh plus drawer

Key Features – Fridge Section

LED Light
Super Cooling function
Electronic control
5 shelves
4 adjustable shelves
5 door bins/shelves
Safety glass shelves
LED temperature display
Warning signal door open

Key Features – Freezer Section

Electronic control
Warning signal door open
Super Freezing function
3 compartments/drawers

Additional Information

3 Star Energy rating
339kWh per annum
273L total gross capacity
Fridge 189L/Freezer 84L gross capacity
38dB operating noise

Integrated Fridge and Freezer

Integrate your fridge and freezer seamlessly into your kitchen. Bosch offers a range of integrated models that can be concealed entirely behind door panels to match the design of your kitchen cabinetry.*

Single Door Fridge and Freezer

Single door fridge and freezer are designed to sit side-by-side to give you the double door effect. With hinges that can be fitted to either side of the appliances, you can choose which side you would like your fridge and freezer. If you want your appliances separate this is possible as well.

Bottom Mount Fridge Freezer

With these freestanding fridge-freezers, the cooling section is straight in front of you, at eye level. The lower part contains a spacious freezer section. Divided right in the middle, you can also remove chilled food without bending down.

Side-by-Side Fridge Freezer

Side-by-side refrigerators are stylish and spacious, giving you copious amounts of room to store your chilled and frozen food. In addition to the premium design, this model is also available with ice and chilled water dispensers for greater convenience at home.

While stock lasts

Designed to be redesigned.

The innovative Vario Style system is equipped with a clever combination of invisible hooks and magnets so you can easily change the colour of your door.

You don't need any specific tools or technical knowledge. Within just 3 easy steps your kitchen style is transformed.

With our Vario Style fridge freezers and VitaFresh freshness system, both your food and your kitchen will always be fresh and in season.

For more information, visit our website www.bosch-home.co.nz/variostyle.

Features and functions for everyday use.*

Performance

NoFrost.*

Never worry about having to defrost the freezer again. The NoFrost system prevents the build-up of ice by automatically initiating the defrost operation as required.

LowFrost.*

LowFrost reduces the amount of ice formation in your freezer, meaning you still have to manually defrost the appliance but on a less frequent basis.

MultiAirflow: Even cooling on all levels.

Thanks to a constant stream of cold air on all levels, the ventilator supported, MultiAirflow, ensures that there are fewer temperature fluctuations. This also means that the cool-down time is shorter. This feature protects your food and guarantees consistently optimal conditions in the entire refrigeration compartment.

Convenience

Save time with flexible storage.

Put away the weekly shop more easily, and get what you need faster too, thanks to height adjustable shelves and fully extendable drawers. The EasyLift door shelf can be raised to make space for taller items to be stored in the door. The EasyAccess shelf can be conveniently extended so you can more easily view the food in your fridge.

More space.

Our freezers are extra spacious meaning you will find it easy to fit everything in – perfect for busy households. The extra-deep frozen food drawer, BigBox, offers practical stacking of frozen foods containers or large frozen items like gateaux or pizzas. While the MultiBox transparent drawer with wave bottom is ideal for the storage of fruits and vegetables.

Fingerprint Free.

Your appliance will stay fingerprint free and looking clean and fresh.

Safety

Safety Glass.

Strong glass shelves ensure heavier items can be stored safely.

SoftClose* doors.

As there could be many small and larger hands opening and shutting the fridge door, it's nice to know that we've integrated SoftClose doors in many models – so doors do not get accidentally left open.

Fixed Hinges to fit in with your kitchen.

Fixed hinges allow heavier furniture doors to be fitted to the appliance, ideal for kitchen cabinets made from heavier hard wood. This also allows the door to be open at a wider angle, making the whole fridge cavity easily accessible.

*Features vary depending on model. Please check individual product specifications.
