## Athlet Zoo'o: For maximum flexibility thanks to its attachable accessory kit.

### Versatile accessories.

The Athlet Zoo'o ProAnimal kit includes an attachable adapter with a hose, shoulder strap, an upholstery nozzle, crevice nozzle and car seat nozzle. This means it is perfect for cleaning textiles, crevices and corners.

### Athlet Zoo'o Included Accessories

*Small Handle*  
*reduces size and weight*

*XXL upholstery nozzle*  
*for efficient hair removal*

*XXL Crevice nozzle*  
*for deep crevices*

*Upholstery crevice nozzle*  
*for cleaning car seats*

*Adjustable strap*

### Extremely manoeuvrable.

The flexible nozzle joint makes the Athlet Zoo'o ProAnimal nimble and easy to manoeuvre. It therefore vacuums safely and reliably around furniture and even reaches remote corners under sofas, cupboards and chests of drawers. And as its freedom of movement is not restricted by a power cord, you can use the appliance in places where there is no power socket anywhere to be seen.

# Removes animal hairs up to 30% faster.\*

Thanks to its special brush, the Athlet Zoo'o ProAnimal from Bosch delivers excellent cleaning results on all types of floors.

Cleaning animal hairs is a chore, they spread all round the home and are hard to get rid of. Conventional vacuum cleaners can perhaps keep up on parquet and tiles – but when it comes to textiles, carpets or crevices, they reach their limits.

Thanks to its SensorBagless™ Technology and the motorised HighPower Brush, the Athlet Zoo'o ProAnimal doesn't just deliver the cleaning results of a conventional vacuum cleaner, but also effortlessly picks up animal hairs on all types of flooring.

**On all types of flooring the cleaning results are comparable with a cable-based conventional vacuum cleaner.\*\***

## **New and innovative Zoo'o ProAnimal AllFloor HighPower Brush**

Zoo'o ProAnimal roller – picks up pet hair 30% faster. Specialised soft red bristles have been optimised for carpets to remove animal hairs quickly and efficiently.

# Comparable performance to a 2400W conventional vacuum.

Unique SensorBagless™ Technology: Incredibly powerful with minimal maintenance required.

## Efficient vacuuming without a bag.

### High air flow for thorough cleaning performance.

A high air flow is ensured by the efficient, robust separator system and the aerodynamic optimised HighPower Airflow System with low air resistance. This means thorough cleaning combined with a particularly high level of energy efficiency.

### Minimal maintenance.

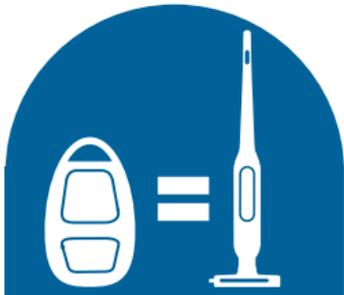

The SensorControl system in the Athlet range indicates whenever the filter cartridge needs to be cleaned to ensure your appliance always delivers optimum performance when you are vacuuming.

### No follow-up costs.

The innovative, washable high-tech filter materials will last the entire lifetime of the appliance. Neither do you incur any follow-up costs as you don't need to buy dust bags.

**Sensor Bagless Technology™:**  
SensorControl  
The SensorControl system sends an LED alert when the filter needs cleaning.

# Extra long run time: up to 75min.\*\*

High-performance Lithium-Ion rechargeable batteries with an extra-long life.

## Long-lasting high performance.

### High performance.

The tried and tested Bosch Lithium-Ion Technology used in Bosch Power Tools and E-Bikes is synonymous with high performance, short charging times and a long battery life. When combined with the highly efficient and aerodynamically optimised LongLife Motor, the cordless Athlet range is thus equipped for intensive use.

### Long running time – short charging time.

The highly efficient system and Bosch's Lithium-Ion batteries with their outstanding capacity means that the Athlet range can operate for up to 75 minutes without interruption\*\*. In addition, the battery is already 80% charged after just 3 hours. A three-stage electronic protection system reliably prevents overcharging, overheating and deep discharge of the batteries.

Up to 75 minutes  
of autonomous  
operation.

The combination of a motor with long-lasting lithium-ion battery (25.5V) allows the Bosch Athlet vacuum to function up to 75 minutes.\*\*
