Introduction

"I would rather lose money than trust."

Robert Bosch

Why Bosch?

Founded in 1886, our assurance of perfection is credited to German engineering – a combination of high class workmanship, creativity and the innovative strength of our engineers. Bosch has been synonymous with outstanding technology and craftsmanship. At Bosch, we ensure that quality down to the minutest detail. Every appliance is carefully designed, produced and tested by our engineers and meets the highest standards in quality, performance and convenience.

Proven Quality

"I would rather lose money than trust". This philosophy of the company's founder - Robert Bosch, continues to guide us in developing high-quality products, even today. Bosch home appliances come with innovative, German engineered technology, timeless design and remarkable ease of use, which gives you better peace of mind at home. These attributes, along with the premium quality of our products, has helped us bring home many international accolades, such as 'Reddot Design Award', the 'If Product Design Award' and other endorsements, year after year.

Top Performance

What drives us every day is our desire to improve. We strive to make the best even better by developing functional, durable and energy-efficient innovations that surpass all expectations.

Maximum Convenience

Staying true to our philosophy 'Invented for Life', Bosch is dedicated to making life easier. Both, our built-in and free-standing appliances, are designed to offer you complete solution for living. The simple, elegant, yet concise design of our appliances turn every kitchen into an art space, while catering to the unique needs of every consumer.

3 | ExpressWash

ExpressWash | Time is of the essence

Fresh laundry in just 60** minutes.

Quick is the word for our new ExpressWash feature. Now finishing your washing chores will take no longer than 60** minutes. So you can have more family time every day. Just to make every moment you spend washing your laundry worth your while.

TIME COMPARISON CHART

Program	Normal wash cycle	With ExpressWash**
Cottons	175 MIN	60 MIN
Synthetics	119 MIN	59 MIN
Mix Load	63 MIN	45 MIN
Delicate	44 MIN	38 MIN

 ${}^{\star\star} \text{Timings may vary from model to model without additional program option selected}.$

7 | AntiVibration

AntiVibration™ Design & EcoSlience™ Drive | Silent Operation

AntiVibration $^{\text{TM}}$ Design. Washing gets the good vibes.

The special AntiVibration™ Design on the side walls makes Bosch washing machines and dryers extremely quiet, which means more peace to you. It reduces vibrations and ensures greater stability, so that you can do your washing without disturbing your loved ones.

EcoSilence™ Drive Powerful, silent and built to last.

Without using carbon brushes like traditional motors, our innovative EcoSilence™ Drive friction-free motor minimizes any heat and wear-out. The result - a drive system that is not only powerful and long lasting, but also one of the most silent in operation.

Wash programs and options

Wash programs that are tailor-made for you.

We've designed special wash programs to cater to the unique laundry needs of Indian homes so you can do your laundry easier and faster.

Wash Programs

Gentle Wash

With Gentle Wash, you no longer have to hand-wash delicate fabrics. This program uses precise drum action designed to be super gentle yet thorough.

Freshen up

Whether it's freshening up wet or lightly soiled clothes or removing odours from damp clothes that remain after cold washing - our Freshen up Program will get the job done quickly and easily. This wash program with a warm, final rinse cycle reduces moisture and shortens the drying process by 10% for quicker drying - perfect for the wet and humid monsoon season.

SuperQuick 15'/30'

Perfect for newly bought or lightly soiled clothes, this 15'/30' minute program handles loads up to 2/3.5kg, and is the shortest wash programs in the market.

Wash Options

Time Delay

Select the end time of your wash with this option. Enjoy greater flexibility with your daily schedule.

Reload

Forgot a sock or a shirt after starting the wash cycle or mixed a coloured item with the load of white laundry? The Reload option allows you to open the door early in the cycle to add or remove the items easily.

AntiTangle Range

Free from tangles, free from damage.

We know how much you treasure your every apparel. That's the reason Bosch brings you the AntiTangle washing machine range. For washes so perfect, your clothes don't tangle into each other. Now you don't have to pull or tug your garments when you remove them after wash cycles. So they stay damage-free. Start by pressing the AntiTangle button.

Classic Range

Fresh new features for the best washes.

Every detail matters at Bosch. Beyond wash program that deliver perfect results, our machines come with other features to ensure a laundry experience that meets your needs.

Making sure the washing machine is thoroughly cleaned is a must for health conscious families but cleaning can be a chore for those leading a hectic lifestyle. Helping you with this, the self-cleaning Detergent Drawer is cleaned automatically after each wash cycle, to maintain cleanliness and increase protection against allergens. This ensures healthier living, especially for children and the elderly.

Protection from pests

Lizards and rats may be at home in the tropics but they don't belong anywhere near your laundry room. The unique design of our washers keeps pests out of the washing machine's hardware, ensuring smooth operation for every wash.

VoltCheck

Designed specially to deal with fluctuations and interruptions in your power supply, VoltCheck not only features an indicator that blinks whenever this happens but also automatically resumes the wash from the last cycle when stable power is available.

Innovations by Bosch

Inspiring Innovation for a better quality of life.

You care so much for your favourite clothes. That's the reason we never stop innovating.

Our home appliances are made by keeping all those things in mind that matter to you the most. We involve new age technologies, high-quality material, an eye for meaningful design, and last but not the least, sustainability to bring you the best experiences. So far have we come in Research & Development that our German technologies are often touted as future-ready. Let's take a look at them.

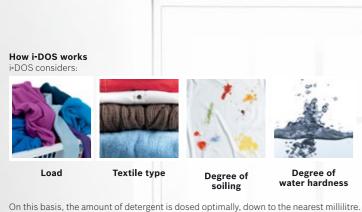

i-DOS | Automatic dosing system

ᇦ i-DOS

For a good wash, start your i-DOS

To use i-DOS, simply fill the tank with up to 1.3 litres of liquid detergent. This smarty optimises the detergent usage and minimises the water and energy usage required during the rinsing process, and thus completes the wash cycles faster. You conserve up to 7,062* litres of water every year and up to 30% of liquid detergent in every wash cycle.

Using integerated sensors, i-DOS automatically dispenses the detergent to the nearest millilitre. This system detects the type of fabric, the volume loaded in the drum, the degree of soiling and even checks the degree of water hardness. All you need to do is press 'Start' to begin your perfect laundry.

*Saving potential with an average of 220 washing loads per year, source: wfk.Institute of Applied Research, Study Report 5132/10. Individual results may vary.

ActiveOxygen | Removes odours without water

ActiveOxygen

Freshen up your fabric without using water.

Sometimes all that your laundry needs is a quick freshening up.

ActiveOxygen technology washes without water to remove the lingering odours which makes it suitable for delicate fabrics not meant for machine wash. Save yourself time and a trip to the dry cleaner with Bosch washing machines and ActiveOxygen technology.

Wash & Dry under 60** min | 100% washing and drying results

Washes them to perfection. Dries them flawlessly. All under 60** minutes.

At Bosch, we aim to make your laundry experiences extraordinary. No wonder then that our Washer Dryers give you a perfect wash and dry clothes just as efficiently. So in goes dirty laundry and out comes 100% clean, ready-to-wear dry clothes in under 60" minutes.

**As per Cottons 40°C program without additional options selected. May vary according to the models.

29 | Washer Dryer

100% at washing, 100% at drying. It's an all-rounder.

We've designed our machine with special washing and drying programs to cater to your unique laundry needs.

Thoughtful Features

EcoSilence™ Drive Motor

It is quiet, powerful and durable. It ensures low power consumption and high cleaning efficiency. It works without brushes and ensures top results. Not just that, its innovative technology works without friction for virtually wear-free operation.

AntiVibration™ Design

Now enjoy watching TV while your washer dryer works without much noise. The AntiVibration™ Design of Bosch washing machines comes with sidewalls that reduce vibrations during the spin cycle and are designed to ensure that they do not shake when in action.

Wash & Dry Program

Wash & Dry Program within 60** min

Get cupboard-dry clothes at the touch of a button. This feature washes and dries your clothes up to 100% With 60 Min⁻. Just load your machine, selcet this feature and go back to your daily chores. When you return you will have clean, dry and ready-to-wear clothes.

Wash Options

SpeedPerfect

It offers the shortest wash cycles across all programs, saving precious time by doing the laundry up to 65%* faster yet giving 100% wash performance. In short, it reduces washing time, without compromising on washing quality.

EcoPerfect

Our washer dryer reduces power cosumption by up to 50%. It does this by sensing the fabric type and volume of load. Tempreture sensors regulate and prolong the heating process according to the available time. This in turn makes detergent-use more effective and saves electricity.

Reload Function

We've all done it - left a sock in the shoe, then realized it's too late beacause the wash cycle has started. Or perhaps you've put a red garment into a white-only load by mistake. Now there's a solution to this problem: the ReloadFunction. It allows you to open the door early in the cycle to add or remove the items.

31 | Tumble Dryer | 32

DuoTronic Technology | Intelligent sensor

A dryer that knows exactly what your clothes need.

Bosch brings you the DuoTronic Technology that dries your clothes as soon as possible by detecting moisture levels and controlling heat. More so, it protects the colours of your clothes, while ensuring that they stay soft and wrinkle-free. So you can save on your time without any compromises.

Built to be the quickest. Moulded to be thoughtful.

Our machine comes with special drying programs so you get Cupboard-Dry clothes at the press of a button.

Thoughtful Features

DuoTronic technology

This dryer is clever. It detects the moisture and regulates the heat accordingly. When your clothes are perfectly dry, it senses and stops the drying process. It also selects the optimum temperature and drying cycle so as not to damage any of your fabrics.

SensitiveDrying System

Our dryers have an airflow system that combines with the unique drum and paddle action, to create and exceptionally efficient and caring environment. The large drum with a unique textured surface ensures greater care of the most delicate fabrics, improving the airflow and keeping the laundry raised from the surface of the drum.

Low Heat Drying

Worried that your delicate fabrics will get spoilt due to overheating? Don't worry, there is a solution. The machine senses the nature of the load. It reduces the drying temperature and increases the cycle time to make sure you get perfectly dry clothes without hurting the fabric.

AntiVibration™**Design**

Besides being eye-catching, the sidewalls with AntiVibration Design don't let the dryer shake and shift, giving you a quiet, vibration-free spin cycle. It's so quiet, you may even sleep off while your clothes dry.

Drying Programs and options

Wool Finish Program

This program is perfect for your woolens. It treats your woolens with low force and cold water so that the fabric is not stretched. It also makes sure your woolens are dried well and fit you right, time after time.

Anti-Crease Cycle

This program is meant to reduce your ironing worries. Its gentle drum action automatically seperates and smoothens your garments for up to 60/90 minutes, giving your clothes a wrinkle-free and ready-to-go look.
