Welcome to the connected home.

Smart homes help people stay in the know when it matters. That’s why Bosch created a collection of connected appliances designed to make your life easier. Home Connect™ allows you to harness the power of connectivity and interact with your appliances and smart devices for new levels of ease and convenience.
You know the feeling when some days just go your way? That’s the philosophy behind Bosch appliances with Home Connect™. Now you can intelligently manage and organize household tasks through the simple convenience of the Home Connect ecosystem.

Master your day, in your own way.
Peace of mind
Because sometimes you just want the reassurance that nothing can go wrong.

Automation
Because sometimes you just want to set it and forget it.

Simplification
Technology is best when it’s simple to use and meaningful.

Connectivity, for your kind of control.
Whether you want to simplify daily tasks, set your chores on auto pilot, or take the worry out of everyday life, with Home Connect™, the day becomes yours.
Peace of mind

Ever wonder if you left the oven or cooktop on? Or if the fridge door is still open? With the Home Connect™ app, simply check on your appliances with your smartphone from wherever you are.* You can also turn your smart appliances on or off with Home Connect whenever you want, so you always have control of your appliances when you’re not there.

*Connectivity and speed varies based on network and WiFi levels.

Focus on the things that matter, and we’ll take care of the rest.

In small, helpful ways, Home Connect™ can help take your mind off things. Home Connect will send a notification to your phone if you accidentally left the refrigerator door ajar. Or get help when something goes wrong. With Remote Diagnostics you can get your appliances back up and running quicker—because we know you have more important things to do than spend your afternoon troubleshooting appliances.

Keep an eye on things even when you’re not home.

You shouldn’t have to feel tied down at home when using your Bosch appliances. From your oven to dishwasher, washer to dryer, remotely monitor your Bosch appliances with Home Connect from the office, the soccer field, or anywhere else you are.*

*Connectivity and speed varies based on network and WiFi levels.
Simplification

Bosch appliances with Home Connect™ turn managing household tasks into an entirely new, simplified experience. From scanning your receipt and having recipes be recommended based on what you have at home with Chefling™, to making a latte from bed—it’s the little things that add up to enhancing the quality of your daily life at home.
What’s for dinner? We think we’ve found an answer.
Spend less time thinking about what’s for dinner, and more time getting inspired. Discover a host of delicious, easy recipes conveniently located in the Home Connect™ app. Or use one of our many culinary partners like Chefling™ or Sidechef™.

How much detergent do you have left at home?
Never run out of detergent again. And better yet, never worry that you might. With Amazon Dash Replenishment service, automatically have your favorite dish detergent tabs reordered when you’re running low.

Automation
Life’s busy, and sometimes you just have other things on your mind besides laundry and dishes. The automation features of Home Connect™ can tackle a wide range of household tasks, making the most of your free time. Get access to guided recipes, have dish detergent tabs delivered to your door, or start your coffee maker the moment you pull into your garage.

It’s 7:30am. Turning On. Ready to brew a flat white.
Connected refrigerators.

The Home Connect™ app allows you to remotely monitor and control your Bosch refrigerator from your smartphone. Control the temperature from wherever you are—for the ultimate convenience.*

Door-ajar notifications
Receive a notification on your phone should you accidentally leave your refrigerator door open for an extended time.

Remote diagnostics
Should you ever encounter a problem, the Bosch customer service team can use remote diagnostics to connect to your refrigerator, helping you find a solution quickly.

Automatic water filter reordering
With Amazon Dash Replenishment, water filters will be automatically reordered when it’s time for replacement, so you will always have clean, filtered water at home.

*Connectivity and speed varies based on network and WiFi levels.
Connected dishwashers.

From remote monitoring, to cycle status notifications, to running diagnostics from the comfort of your home, the Home Connect™ app allows you to remotely monitor and control your Bosch dishwasher from your smartphone for greater convenience.

Automatic Reordering
Home Connect enabled dishwashers keep tabs on themselves—quite literally. Together with Amazon Dash Replenishment, dishwasher tabs are automatically reordered when you’re running low and delivered to your door.

Remote Monitoring
The Home Connect app can notify you once your dishwasher’s cycle is complete, so you’ll know when it’s ready to be unloaded.

Leak Protection
In the rare event a leak should occur, your Bosch connected dishwasher will immediately send an alert on your smartphone, ensuring a little problem doesn’t become a bigger one.
Connected cooking.

Let Home Connect™ enhance the experience of cooking. From preheating your oven from the office, to never needing to manually adjust your hood vent, to discovering new recipes — then cooking them to perfection. Even ask Alexa along the way how dinner is coming along.

Remote preheat
Get meals on the table sooner and be efficient with your time using remote preheat. Preheat your oven from anywhere* using the Home Connect app so the oven is ready to cook when you are.

Automatic cooktop-hood control
Home Connect enabled hoods automatically activate when the cooktop is turned on and adjust the blower speed to match the level of heat detected while cooking.

World of recipes
Access a world of healthy, delicious recipes from the Home Connect app, then send the appropriate settings straight to your wall oven.

*Connectivity and speed varies based on network and WiFi levels.
Alexa, tell my coffee machine to make me a cappuccino.

**Remote brewing**
The Home Connect app lets you order coffee from anywhere*, using your smartphone. So now it’s easier than ever to start your mornings off right.

**CoffeeWorld**
The Bosch built-in coffee maker allows you to access the world of coffee without leaving your kitchen. With CoffeeWorld, explore different brew variations from around the globe. Order directly from the Home Connect app to have your coffee freshly made when you get home.

**Coffee Playlist**
Take the hard work out of entertaining with a Bosch connected coffee machine. You can program customized coffee and tea beverages for all your guests. So while you’re busy entertaining, your coffee machine is brewing the perfect cup. When it’s finished, the coffee machine will alert you in the app.

*Connectivity and speed vary based on network and WiFi levels.
Bosch appliances with Home Connect™ allow you to control your laundry, rather than the other way around. Specify when you need your favorite pair of jeans finished by, take the guesswork out of selecting the right cycle, and start your washer or dryer from anywhere.* Home Connect can even help you select the right program to remove red wine and chocolate.

EasyStart
Thanks to Home Connect, you don’t have to guess which setting to select for your clothes. EasyStart recommends the best program based on the types of clothes you select in the app.

Remote monitoring
With Home Connect, your device can send you status updates, including when a cycle is complete, so you can master your day.

Energy usage
Home Connect provides an energy and water consumption forecast for each laundry program within the app to help you stay on top of your energy usage.

*Connectivity and speed varies based on network and WiFi levels.
At Bosch, we believe our appliances should be able to connect to all aspects of your life. That’s why Bosch appliances with Home Connect™ easily integrate with a variety of partners through our ever-growing, open partner ecosystem.

Check www.home-connect.com/us/en for the most up to date list of partners.
