## Let There Be Light

Good feng shui thrives in well-lit and clear pathways for a smooth energy flow or good “Chi”. Built-in kitchen appliances can help reduce clutter and blockages for a better flow of good Chi.

## Bring On Balance

The elements of feng shui - wood, fire, water, earth and metal, promote balance for the home.

Our appliances such as hoods, hobs and ovens represent fire, while dishwashers and washing machines represent water. A balance of these elements promote positive energy and harmony.

## Cook Up Positive Vibes

Promote good feng shui in the kitchen by keeping work tops clean and surfaces free from clutter. Invite good feng shui with an ergonomic “work triangle” connecting your wash area (kitchen sink), food storage (fridge) and cooking area (cook top and oven).
