BOSCH
Invented for life

Built-in Appliances 2020

Who are Bosch?

"I have always acted according to the principle that it is better to lose money than trust. The integrity of my promises, the belief in the value of my products and in my word of honour have always had a higher priority to me than a transitory profit."

Robert Bosch, 1921

For over 125 years, the Bosch name has been synonymous with engineering excellence. Our home appliances are renowned for their quality, reliability and performance which derives from our inherent, unflagging commitment and the painstaking thoroughness with which every unit is made. As you would expect from Bosch, there are no gimmicks or frills with our products – just pure, clean lines and beautiful, functional simplicity that will enhance any kitchen.

The values that shaped Robert Bosch's vision for his new company in 1886 are the same principles that guide the business today; never lose the trust of your customers, look after your staff and partners and change things for the better. It's what has kept Bosch at the forefront of the home appliance industry and what will keep it there in the future.

Peace of Mind from Bosch

For help with your home appliance, trust Bosch Home Appliances Service.

Arrange an engineer visit.

Our appliances are manufactured to the highest standards, but if you do need a visit from an engineer we are here to help. We have teams of locally based engineers around the country – employed and trained by Bosch*. This gives them unrivalled expertise and knowledge of our appliances. We repair appliances both in and out of guarantee.
All repairs are analysed in advance by a technical team so that the parts likely to be needed to complete the repair are sent to the engineer's van the night before the visit.

To arrange an engineer visit to your home please call:

UK: 0344 892 8979
IE: 01450 2655

Calls are charged at the basic rate, please check with your telephone service provider for exact charges.

You can also arrange an engineer visit online or find out more about our repair service at: **https://www.bosch-home.co.uk/customer-service/repair-service.** Republic of Ireland customers should visit **www.bosch-home.ie.**

Product advice.

If you need help using programmes or features, or need assistance selecting a new Bosch appliance from our current range, our product advice team can help.

You can call us on

UK: 0344 892 8979
IE: 01450 2655

or visit: **www.bosch-home.co.uk** for frequently asked questions and helpful videos. Republic of Ireland customers should visit **www.bosch-home.ie.**

Visit the Bosch online store.

Find a comprehensive selection of accessories to help you get the most out of your appliance, along with our full range of replacement spare parts and cleaning and care products at the Bosch online store.

You can also purchase Tassimo hot drinks machines, vacuum cleaners, irons, steam stations, kettles, toasters and food preparation appliances directly from us online.

You can call us on

UK: 0344 892 8979
IE: 01450 2655

or visit: **www.bosch-home.co.uk/store.** Republic of Ireland customers should visit **www.bosch-home.ie.**

Register my appliance

We advise that you register your appliances so that we can contact you about any product updates.Visit www.registermyappliance.org.uk for more information.

You can also call Bosch directly to register your appliance on **0344 892 8979** (option 5). Please call us within 28 days of purchase to discuss the full range of options for extending your warranty.

High quality service.

Bosch appliances are renowned for their quality and we believe that our customers deserve exceptional customer service. You can contact us seven days a week for assistance.

Calls will be answered **Monday to Friday 8am to 8pm, Saturday 9am to 5pm and Sunday 9am to 4pm.**

*In some areas we may use an approved service partner. The process may vary for repairs carried out by our service partners.

Accessories.

Many appliances can be enhanced with optional extras, such as telescopic rails for ovens or special cookware for hobs.

When buying a Bosch home appliance, you know you are purchasing a quality, reliable product. However many appliances are used daily, so need cleaning and maintaining to keep them looking great and operating at peak performance.

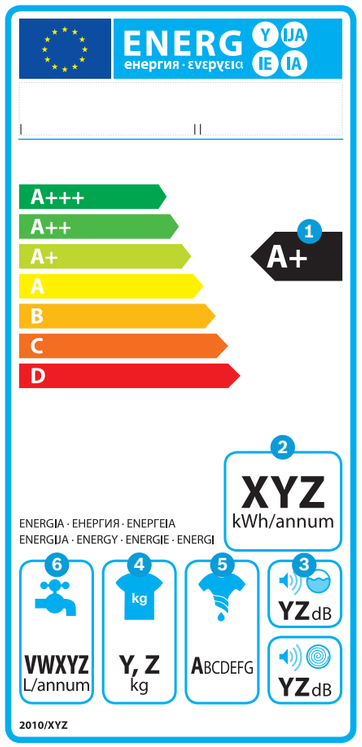

Our cleaning and care products have been thoroughly tested and approved for safe and effective use on your Bosch home appliance.

Replacement spare parts.

We keep in stock a comprehensive range of replacement spare parts for our appliances for up to ten years. All our parts are original spare parts, not copies.

The current Energy Label: Valid until February 28th, 2021.

By using energy-saving home appliances, you save valuable resources as well as money. That's why you should consider low energy and water consumption values when you purchase a home appliance. Since 1995, the European energy label has been providing standardised information on the energy and water consumption of home appliances.
The energy label, which has had the layout depicted below since 2012, specifies the efficiency class of the relevant appliance. It also uses language-neutral pictograms to provide additional information on the appliance, such as its noise value and capacity as well as energy and water consumption. For washing machines and dishwashers, the energy label currently identifies energy and water consumption as annual values. We'll explain the current energy label below using the example of washing machines.

Sample energy label for washing machines:
The energy label for washing machines specifies three additional efficiency classes above A: A+, A++, and A+++, where energy consumption for A++ is up to 24% lower and energy consumption for A+++ is up to 32% lower than that of appliances in class A. The annual energy and water consumption in this energy label refers to 220 standard washing cycles per year.

Key

1. Energy efficiency class
2. Energy consumption in kWh/year (220 standard wash cycles/year)
3. Noise emissions during wash and spin phases in the standard cotton 60°C programme with a full load, expressed in dB(A) re 1 PW
4. Spin efficiency class
5. Maximum load capacity
6. Water consumption in litres/year (220 standard wash cycles/year)

The new Energy Label: Valid from March 1st, 2021.

Technological development over the past few years has resulted in a higher concentration of products that carry labels with a value of A+ or better. Consequently, the label has not been fulfilling its original function as an aid for making purchasing decisions as well as it formerly did. Other basic conditions like user behaviour have also changed. That's why it's time to adapt the existing energy label. The first home appliances to have the new label will be washing machines, washer-dryers, dishwashers, cooling appliances and wine coolers. As of March 1st, 2021 these appliances must show the new label when sold in shops, online, etc. As the new label has to be added to these appliances before this date, we would like to provide you with some information on the future energy label.

The most significant change in the new energy labels is the elimination of the energy efficiency plus classes, for example A+++. In the future, classification will be from A to G. New methods will also be used for measuring energy consumption and determining the label class. According to EU specifications, they should, to the extent possible, take into account the real-life usage of the product and reflect the average consumer behaviour. This means, for example, that energy consumption for washing machines, washer-dryers and dishwashers will no longer be specified per year but per 100 operating cycles of the particular appliance. The duration of the label programme to be tested will also be specified for these products. In the case of washing machines and washer-dryers, there will even be a maximum programme duration that must not be exceeded.

The test programme for labelling washing machines and washer-dryers is also changing. The new 'Eco 40-60°C' programme will be displayed on the appliance panel. For dishwashers, the composition of the standard place setting will also be changed. For these and other reasons, it is not possible to directly convert the current efficiency classes to the new classes.
In addition, you will also be able to retrieve further product information directly via a QR code that is displayed on the energy label. The QR code forwards you to a database operated by the EU from 1.3.2021. This is where you can view and download data sheets for all appliances that require the new energy label. Access to the database is also possible via the Internet.
For more information on the new energy label, visit:
https://www.bosch-home.co.uk/experience-bosch/energy-labels

Home Connect

From controlling your Home Connect Serie 8 oven with your voice, to getting notifications when your laundry is ready, our more helpful smart appliances mean less things to think about and more time to spend on something else. Bosch Home Appliances with Home Connect ensure your home is ready for the future, today.

How you can use your Home Connect app.

Oven	Washer & dryer	Fridge freezers	Dishwasher	Fully automatic coffee machine	Hob & hoods	Services

Adjust oven settings on the go	Programme notifications					

*Set up of Amazon Dash Replenishment Service is required.

Why not try the app?

Experience it yourself: download the free Home Connect app and try Home Connect even if you don't have an appliance.

Download on the App Store | GET IT ON Google play

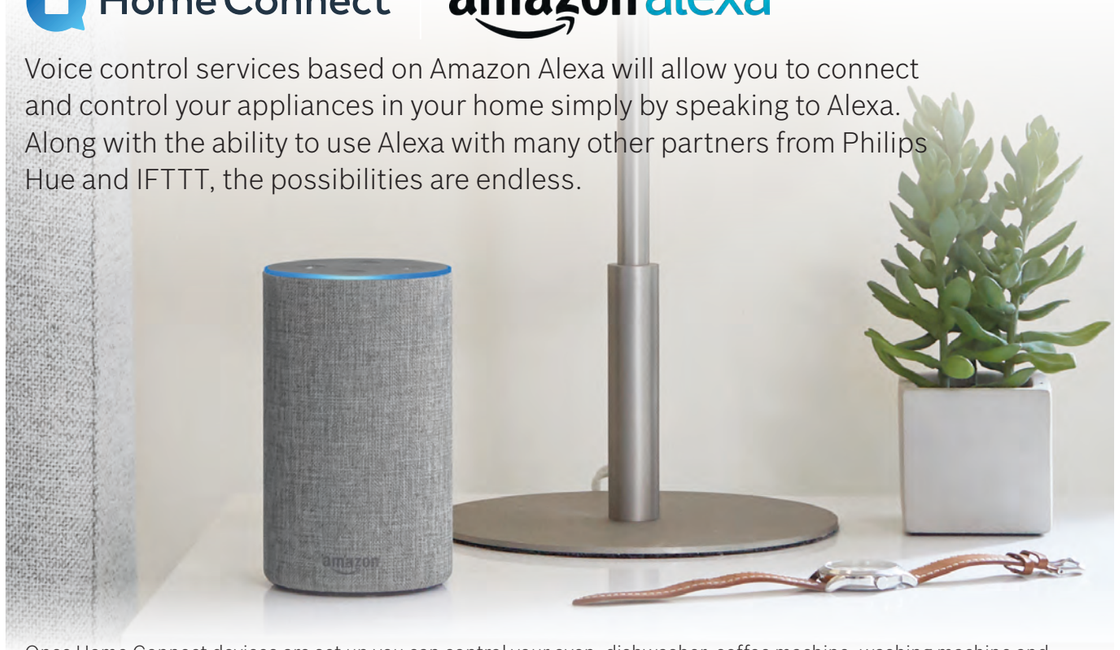

Home Connect is a service offered by Home Connect GmbH.

For more information on Home Connect please visit **www.bosch-home.co.uk**

Home Connect amazon alexa

Voice control services based on Amazon Alexa will allow you to connect and control your appliances in your home simply by speaking to Alexa. Along with the ability to use Alexa with many other partners from Philips Hue and IFTTT, the possibilities are endless.

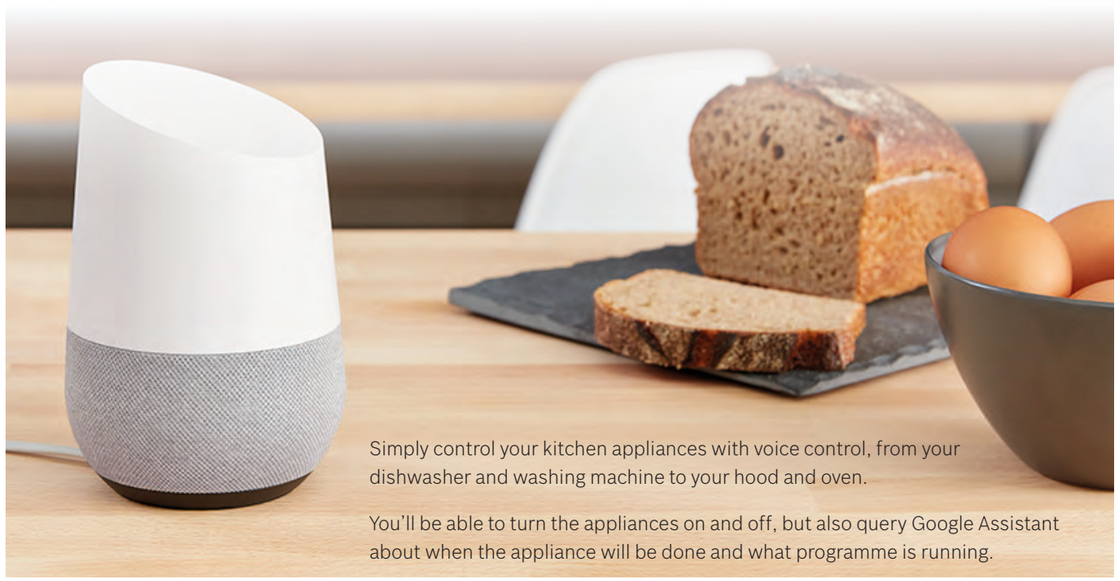

Once Home Connect devices are set up you can control your oven, dishwasher, coffee machine, washing machine and tumble dryer. All you'll need to do is simply ask: **"Alexa, start my oven"** or **"Alexa, start washing machine"**. Alexa will then continue to guide you through. Search for Home Connect in the Skills area of the Alexa app.

Perfect for those moments when you've got your hands full!

Google Assistant

With the Google Assistant, users can get the best of Google and connected home appliances with Home Connect. Just say "Hey Google" to get started.

Simply control your kitchen appliances with voice control, from your dishwasher and washing machine to your hood and oven.

You'll be able to turn the appliances on and off, but also query Google Assistant about when the appliance will be done and what programme is running.

Helpful Home Appliances.

The future has arrived and it’s knocking on your front door. Home Connect brings smart technology to your appliances and lets you control them with your phone or tablet.

So, whether you want to turn the oven on to cook your dinner when you’re on your way home, or check what’s in your fridge while you’re at the shops, you’ll be in complete control.

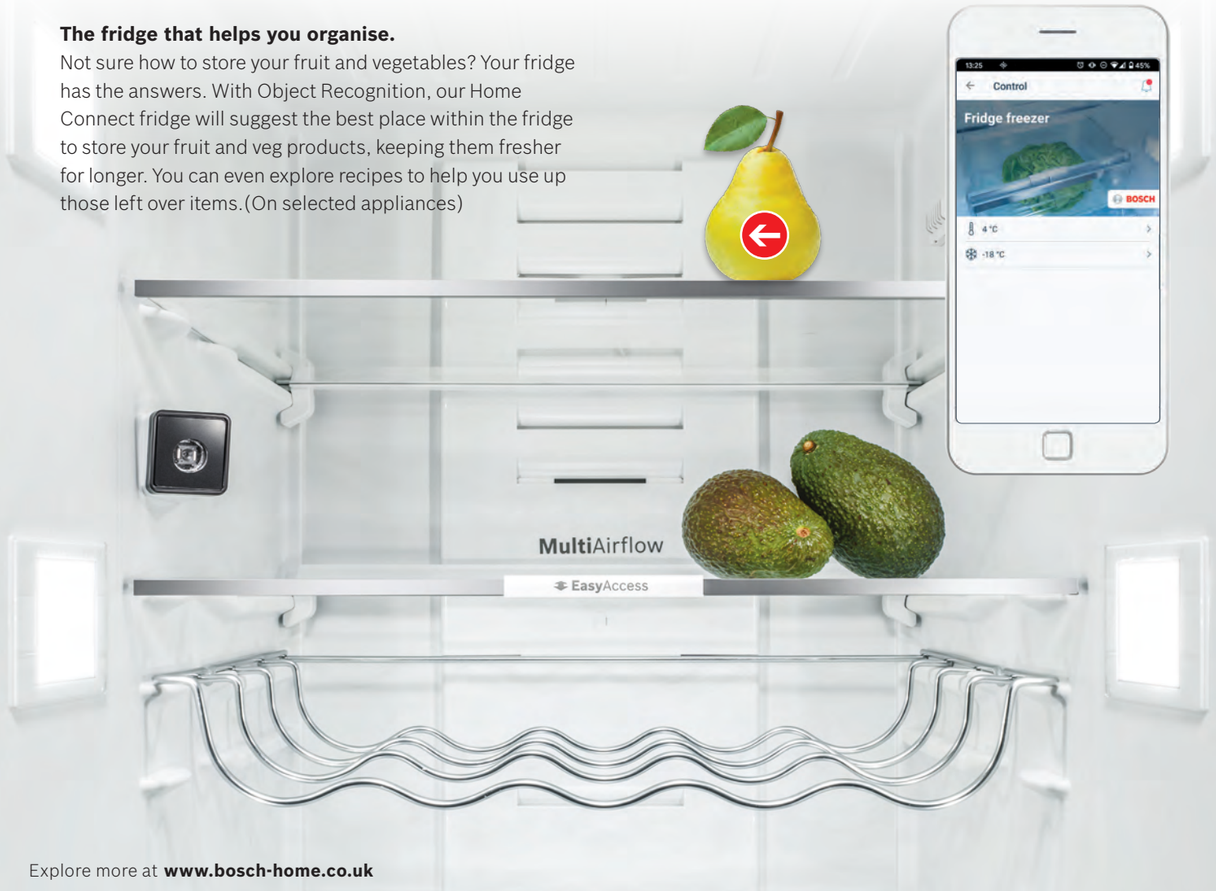

Simple to set up, simple to use.
There’s no need to worry if you’re not a technical genius. We’ve made sure Home Connect is simple and straightforward to set up. If you do need a helping hand, you can call our Customer Service team on: 0344 892 8979 to speak to a dedicated Home Connect operator. You’ll find the Home Connect app just as easy to use. There are lots of pre-set options to get you started quickly, and everything is set out logically and clearly.

Relax – we’re invented for life.
Home Connect uses the same security protocol as online banking so you can enjoy extra peace of mind when you’re using your Bosch appliances. Our app has TUV Trusted App certification, and all of our Home Connect appliances are Wi-Fi certified by the Wi-Fi Alliance.

TÜV TRUST IT
TRUSTED APP
TÜV AUSTRIA Group
✓ Certified privacy

✓ Certified security measures

Check the food in your fridge, before check out.
Thanks to Home Connect, you can now check the contents of your fridge at any given time and place. Interior door cameras take pictures every time the door is closed, and conveniently sends them to your mobile device. Wherever you are, simply access your Home Connect app to get a perfect overview of what‘s in your fridge. Never forget the milk again.

The fridge that helps you organise.
Not sure how to store your fruit and vegetables? Your fridge has the answers. With Object Recognition, our Home Connect fridge will suggest the best place within the fridge to store your fruit and veg products, keeping them fresher for longer. You can even explore recipes to help you use up those left over items.(On selected appliances)

Explore more at **www.bosch-home.co.uk**

Peace of mind with Home Connect

Let us choose the best wash for you.
To stay at their best, different clothes need to be washed in different ways. With the Bosch Home Connect app, simply tell your washing machine what’s in the load and it’ll work out the perfect programme. It’ll even tell you if there’s an item that should come out and be washed a different way.

What’s for dinner?
Meal planning has never been easier. Browse the Home Connect Recipe Book from your favourite armchair. When you’ve made your choice, simply send all the settings from the app directly to your oven so it’s ready to go when you are.

The range of recipes are all tried and tested by Bosch Home Economists around the world, so you’ll find exciting new flavours alongside old family favourites.

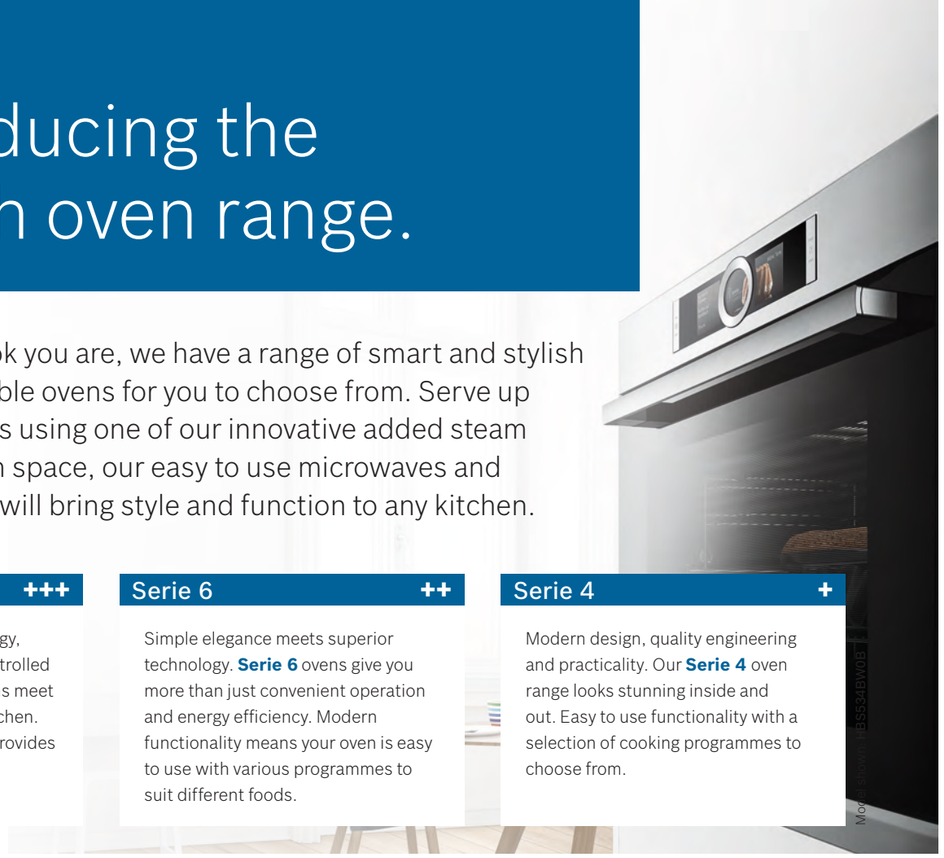

Tablet top up
Amazon Dash Replenishment* will automatically reorder your dishwasher tablets when your supply is running low. Simply activate Dash Replenishment in the Home Connect app and regain time spent shopping for supplies, as tablets will be automatically delivered to your doorstep. Another thing crossed off your to-do list.

*Set up of Amazon Dash Replenishment Service is required

Remote Delayed start
Adjust the settings on your appliance from any room in your house, or even when you’re out and about. So if you’re delayed while you’re out? That’s fine. You can simply adjust the settings from wherever you are and, if the food has already started cooking, you can simply press “pause”. The oven will lower the temperature until you start it again so your meal isn’t ruined.

Introducing the Bosch oven range.

Whatever kind of cook you are, we have a range of smart and stylish built-in single or double ovens for you to choose from. Serve up vitamin-packed meals using one of our innovative added steam ovens or, if limited on space, our easy to use microwaves and compact appliances will bring style and function to any kitchen.

Serie 8 +++

With their impressive technology, elegant design and sensor-controlled programmes, our **Serie 8** ovens meet every need and more in the kitchen. The innovative control wheel provides full control over your dishes at all times.

Serie 6 ++

Simple elegance meets superior technology. **Serie 6** ovens give you more than just convenient operation and energy efficiency. Modern functionality means your oven is easy to use with various programmes to suit different foods.

Serie 4 +

Modern design, quality engineering and practicality. Our **Serie 4** oven range looks stunning inside and out. Easy to use functionality with a selection of cooking programmes to choose from.

Cooking functions explained.

Check model for available functions.

4D Hotair
Place your food on any of the four shelf levels to achieve consistently perfect results: thanks to the fan wheel that changes the direction of rotation during operation to distribute heat evenly on every level.

3D Hotair
By maintaining the right temperature across three shelf levels, consistently even cooking results are achieved.

Top and bottom heat
Conventional baking and roasting on one level.

Top/Bottom heat gentle
Conventional baking and roasting on one level using residual heat, allowing you to gently cook meat, fish and baked items.

Hotair grilling
By operating alternatively, the grill and fan create a rotisserie effect, perfect for creating crisp meats and poultry.

Bottom heat
Only the bottom element is heated – ideal for pastry cases, bain-marie cooking and reheating.

Pizza setting
Create authentic pizzas with crisp bases and moist toppings. Also great for quiches, tarts and frozen foods.

Centre Grill
Use the centre grill for smaller quantities and more efficiency.

Hotair Gentle
For all those times you cook using just one shelf level, Hotair Gentle gives perfect results.

Full width variable grill
Grill large quantities with ease thanks to the precise temperature control. For added efficiency the door can be closed and the smells are kept in the oven.

Defrost
Gently defrosts food evenly and quicker than it would take on the kitchen counter.

Fast heat
For those times when you need your food ready more quickly, select fast heat to warm the oven faster.

Single point probe
The single point meat probe constantly measures the temperature at the core of the roast and as soon as the desired temperature is reached gives an acoustic and switches off automatically.
(Available in selected Serie 6 models only)

Perfect Roast Meat probe
Three highly sensitive measuring points determine the core temperature of your food to the exact degree, guaranteeing perfect roasting results and taking away the guesswork.
(Available in selected Serie 8 models only)

Added Steam
Produces succulent roasts, with juicy meats and crispy skins, as well as breads with the perfect colour and crust.

Pyrolytic cleaning
Heats the oven to around 480°C, which reduces dirt and grease deposits to dust that can be easily wiped away.
(Available in selected models only)

EcoClean Direct
Almost no cleaning is necessary thanks to a special coating of the rear wall that automatically absorbs grime.
(Available in selected models only)

Sabbath setting
Specifically to assist with certain religious requirements. Allows the oven to be set for up to 73 hours at a maximum 140°C to keep pre-prepared food warm. Oven door can be opened/closed without the display changing or causing changes to the heating and cooling fans.

Selecting the right oven for you and your kitchen.

Whether you're designing a new kitchen or you are simply updating one of your appliances, we have a wide variety of cooking products available to you to choose from. Depending on the space you have in your kitchen, you can choose from a single product or combination.

Single ovens.

HRG6769S6B

Double ovens.

MBA5785S0B

Double built-under ovens.

NBA5350S0B

Compact steam ovens.

CSG656BS7B

Compact ovens with microwave.

CMG676BS6B

Compact microwave combination ovens.

CPA565GS0B

Choose our built-in companion appliances to compliment your built-in oven.

Warming drawers.

BID630NS1B (29cm)
(warming drawers available in 29cm and 14cm high)

Coffee machine.

CTL63ES6

Serie 8 ovens

With their impressive technology, elegant design and crystal clear TFT-touch display, our **Serie 8** ovens meet every need and more in the kitchen. The innovative control wheel provides convenience and functionality with full control over your dishes at all times. Plus, thanks to sensor-controlled programmes, you'll achieve **perfect results** every time.

Home Connect.

Allows you to stay on top of your game by giving you easy access to a wide variety of innovative cooking and meal preparation techniques – all from the comfort of your mobile device.

Even heat. Maximum flexibility.

Thanks to **4D Hotair**, you can place your food on any of the four shelf levels and the results will be consistent. Our motor and fan wheel design makes it possible: it changes the direction of rotation during operation to distribute heat evenly on every level. And that's not all: with **4D Hotair**, you can also bake and roast on up to four different levels simultaneously. So you'll enjoy reliable results from top to bottom.

Added steam.

By adding precisely the right amount of steam at precisely the right moment, baking results get even better. **Steam** prevents food drying out, giving bread a deliciously **crispy crust** and a **light, fluffy inside**. Steam is also great for bringing out flavours, when roasting or re-heating. Simply fill the water tank, integrated behind the semi-automatic control panel in the Serie 8 ovens. The added steam function is controlled automatically.

(selected models only)

Model shown: **HRG676956B**

Perfect results at your fingertips.

Discover our sensor-controlled functions with **BoschAssist**, **PerfectBake** and **PerfectRoast**. This feature automatically sets precise information on temperatures and cooking times for all kinds of dishes, plus you can simply scroll through to find our intuitive baking and roasting functions.

Scroll through for the PerfectRoast.

Traditional British beef, Easter lamb or Sunday roast chicken – with the **PerfectRoast meat probe**, perfect results are guaranteed every time. With three temperature sensors for even more accuracy, the meat probe measures the core temperature of the food – removing the guesswork. Just like a professional chef, but with complete ease. Three highly sensitive measuring points determine the core temperature of your food to the exact degree, guaranteeing perfect roasting results and taking away the guesswork.

Scroll through for the PerfectBake.

Baking has never been easier. The **PerfectBake sensor** offers precise sensitivity and constantly measures the moisture level of dishes, as well as automatically regulating the baking process.

Pyrolytic Cleaning.

Cleaning the oven by hand can be very exhausting and time-consuming. Thanks to our ovens with the **Pyrolytic** self-cleaning function, you can now save yourself this task for good, without getting your hands dirty or using any chemical cleaning products. Just remove the trays and rails, select the level of soiling, press 'Start' and your oven will heat up to around 480°C, reducing any grease/food residues to dust. All that's left for you to do is wipe away the dust with a damp cloth.

Serie 6 ovens

Simple elegance meets superior technology. **Serie 6** ovens give you more than just convenient operation and superb energy efficiency. Modern functionality means your oven is easy to use with various programmes to suit different foods, all available to view clearly on the large LCD display.

Added steam.
By adding the right amount of steam at precisely the right moment, baking results get even better. **Steam** prevents food drying out, giving bread a deliciously **crispy crust** and a **light, fluffy inside**. Steam is also great for bringing out flavours, when roasting or re-heating. The water tank is located on the control panel and comes out with a simple push. The added steam function is controlled automatically.
(selected models only)

3D Hotair

3D Hotair allows cooking on up to 3 shelves at any one time. The fan at the back of the oven distributes the heat from the ring heating element, creating consistent temperatures around the cooking cavity ensuring even temperatures.

- Hotair cooks at lower temperatures, so this cuts down soiling of grease and fat.

Single Point Meat Probe

The single point meat probe constantly measures the temperature at the core of the roast and as soon as the desired temperatures reached gives an acoustic and switches off automatically. No monitoring is needed to get the perfect roast. No over cooking or drying out.

- Suitable for leaner meat
- Connects to the oven internally via a plug-in jack
- Wide core temperature range: 30-99 °C
- User manual offers core temperature guidance for cooking results
- Suitable for using with **3D Hotair**, grilling and top bottom heat

Why not match up your **Serie 6** oven with a Compact Oven or built-in Microwave? Find out more on page 27.

Our Bosch **Serie 6** ovens all come with a selection of AutoPilot programmes for you to choose from. This means every dish is a perfect success when you cook using these functions. The selection is made even easier with the electronic control.

Home Connect.
Allows you to stay on top of your game by giving you easy access to a wide variety of innovative cooking and meal preparation techniques – all from the comfort of your mobile device.
(selected models only)

Model shown: **HRS578BS6B**

Twice the cooking pleasure. Our Serie 6 double ovens.

If you need that extra bit of cooking capacity but don't have the space for two single ovens, you can choose from a selection of **Serie 6** built-in and built-under double ovens. With the latest **Serie 6** built-in double ovens you won't need to compromise on features either, with the double Pyrolytic oven – self-cleaning in both cavities.

Bosch Clip.

Clip design extended to feature on hoods and **Serie 4 & 6** ovens. The clip is made of polished chrome and embossed with the Bosch logo.

Also appears on other products in the Bosch portfolio, such as dishwashers and freestanding refrigerators, giving these appliances an unmistakable Bosch character.

Level Independent Telescopic Rails.

Designed to clip to the standard factory fitted shelf support rails, they can be positioned independently on any of the 5 oven shelf positions in the main cavity in our Serie 6 double ovens.

- Suitable for all levels, including the grill level
- Quick and easy installation and removal
- Suitable for single ovens and main ovens in double ovens.
- Additional Telescopic Rails can be purchased separately as an optional accessory.

Model shown: **MBA5785S0B**

Serie 4 ovens

Modern design, quality engineering and practicality. Our **Serie 4** oven range looks stunning inside and out. Easy to use functionality with a selection of cooking programmes to choose from.

2 Piece Slim Universal Pan

The optimum solution for cooking smaller quantities, different foods, different combinations and different cooking durations - all made easier with the two piece slimline pan concept.

- Each pan is the half-width of a universal baking tray - 18.5cm
- Transfers from fridge to oven and to dishwasher when finished.

Why not match up your **Serie 4** oven with a Compact Oven or built-in Microwave? Find out more on page 27.

3D Hotair

The **3D Hotair** allows cooking on up to 3 shelves at any one time. The fan at the back of the oven distributes the heat from the ring heating element behind the back panel evenly around the cooking cavity ensuring even temperatures.

- No intermingling of flavours so you can cook sweet and savoury dishes at the same time with confidence.

Model shown: **HBS573BS0B**

Space and premium features with our Serie 4 double ovens.

If you need that extra bit of cooking space but don't have the space for two single ovens, you can choose from a selection of **Serie 4** Built-in and Built-under double ovens. This means no compromising on the performance features and functions found in the **Serie 4** single ovens.

Our Bosch **Serie 4** double ovens all come with 5 cooking functions in the main cavity and 3 functions in the second oven. These also feature 2 Piece Slim pans and EcoClean, helping you accommodate different cooking needs and clean up after. Available in brushed steel, black or white, so you can select the perfect colour for your kitchen.

Bosch Clip.

Clip design extended to feature on hoods and **Serie 4 & 6** ovens. The clip is made of polished chrome and embossed with the Bosch logo.

Also appears on other products in the Bosch portfolio, such as dishwashers and freestanding refrigerators, giving these appliances an unmistakable Bosch character.

Model shown: **MBS533BS0B**

Single ovens

Whichever model you choose from our Serie ranges, you'll find lots of reasons to love your Bosch oven.

Combination design.

Using the highest quality stainless steel and glass, our ovens and compact appliances combine beautifully to deliver a timeless, elegant and stylish finish to any kitchen with sleek, co-ordinated lines and matching panels.

Combination possibilities.

Create seamless lines in your kitchen with our Serie ranges by combining a single oven together with one of our compact appliances and warming drawers. For the optimum in design co-ordination, choose appliances belonging to the same Serie family to create harmonious lines in your kitchen.

Cooking appliances can be arranged both horizontally and vertically, depending on the space you have in your kitchen.

For Inverter models, the maximum setting offers a time limited boost option for heating liquids. To ensure optimal results and to protect the appliance, the microwave power output is reduced in stages over the first few minutes down to the next power level (600W).
After a cooling period, the microwave boost option will be available once more.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.

For Inverter models, the maximum setting offers a time limited boost option for heating liquids. To ensure optimal results and to protect the appliance, the microwave power output is reduced in stages over the first few minutes down to the next power level (600W). After a cooling period, the microwave boost option will be available once more.

Ovens with integral microwave — When teamed with a single oven, Bosch compact ovens with microwave offer a great alternative to a double oven if you require more space for traditional cooking. Designed first and foremost to function as an oven, with construction, features and functions identical to a traditional single oven, these models benefit from the addition of microwaves at low medium power (max 360W) to deliver oven-led combination cooking, which speeds up the cooking process while retaining traditional cooking results.
Microwave Combination Ovens — These models are designed to provide more functionality than a solo microwave oven, focussing on combination cooking, with the microwave using higher power (max. 600W) to lead the cooking process, supported by Hotair or grill functions to deliver speedy crisp and browned results. Based around a more traditional microwave functionality these models offer the perfect solution if regular microwave heating is the priority, but with the back-up of separate or combination Hotair cooking and grill functionality if required. These models are designed to operate best in combination mode, so when heating using microwave only, it may be necessary to adjust cooking times.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.

● = yes - = no

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.

[1] For further information on inverter technology, please go to https://media3.bosch-home.com/Documents/MCDOC03402966_BOSCH_microwave_details_19.pdf
[2] For Inverter models, the maximum setting offers a time limited boost option for heating liquids. To ensure optimal results and to protect the appliance, the microwave power output is reduced in stages over the first few minutes down to the next power level (600W). After a cooling period, the microwave boost option will be available once more.

Ovens with integral microwave — When teamed with a single oven, Bosch compact ovens with microwave offer a great alternative to a double oven if you require more space for traditional cooking. Designed first and foremost to function as an oven, with construction, features and functions identical to a traditional single oven, these models benefit from the addition of microwaves at low medium power (max 360W) to deliver oven-led combination cooking, which speeds up the cooking process while retaining traditional cooking results.
Microwave Combination Ovens — These models are designed to provide more functionality than a solo microwave oven, focussing on combination cooking, with the microwave using higher power (max. 600W) to lead the cooking process, supported by Hotair or grill functions to deliver speedy crisp and browned results. Based around a more traditional microwave functionality these models offer the perfect solution if regular microwave heating is the priority, but with the back-up of separate or combination Hotair cooking and grill functionality if required. These models are designed to operate best in combination mode, so when heating using microwave only, it may be necessary to adjust cooking times.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.

Smart Coffee Centre.

Your very own barista.
When you take your coffee seriously, your coffee machine needs to be seriously impressive. With the Bosch Home Connect Coffee Centre, you get your very own virtual barista, skilled at producing delicious coffees from all over the world.

Using CoffeeWorld, built into the Home Connect app, you are able to create almost twenty superb drinks and international favourites at the touch of a button. Your kitchen becomes your new favourite coffee shop.

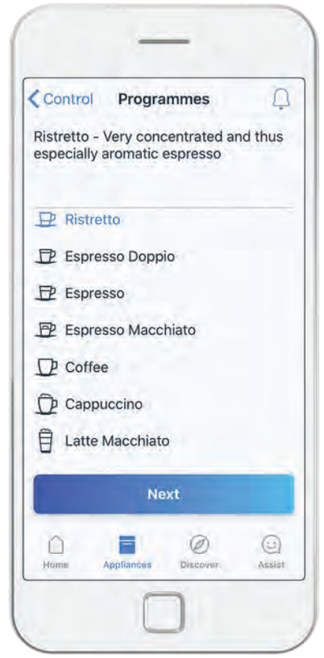

Playlist.
Making drinks for lots of people? There's no need to memorise the list. Simply use the Home Connect app Coffee Playlist feature and get everyone to select their favourite drink.

Home Connect

Download on the App Store

GET IT ON Google play

Your coffee machine will make them all, one by one, at your command. You can even add selections from the CoffeeWorld feature for added luxury.

Your coffee, your way.
Replicating your perfect cup of coffee can sometimes feel impossible. Home Connect now makes getting the perfect coffee easier than ever. Simply save your favorite coffee creation in the Home Connect app. Then sit back and let the machine take over. Treat yourself to the cup of coffee you know and love.

Introducing the Bosch electric hob range.

As you would expect from Bosch, all our electric hobs are made using high quality materials, are easy to use and add contemporary elegance to any kitchen.

To help you choose the right electric hob for your home we have divided them into the three ranges below.

Serie 8 +++

Our **Serie 8** range of electric hobs combines convenience and elegant design, allowing you to select individual cooking zones and power levels. All controlled at just the touch of a button with the modern touch control, TFT or DirectSelect Premium control.

Serie 6 ++

Expect excellent operation and timeless designs with our **Serie 6** range of hobs. You'll get premium engineering and materials, so that you can always cook something a little bit special. Get ultimate control with the easy to use DirectSelect touch control.

Serie 4 +

Featuring a range of **Serie 4** electric hobs that are convenient and simple to operate, our essential range maintains classic design with contemporary style.

Explore more at **www.bosch-home.co.uk**

Model shown: **PXY875KW1E**

Whichever model you choose from our Serie ranges, you'll find lots of reasons to love your Bosch electric hob.

Faster cooking, reduced energy consumption.

Induction hobs generate heat only where it is needed – in the base of the pan. What does this mean for you? More safety and convenience. The lower temperature keeps both big and little hands safe from burning. Not only that, but an induction hob brings water to a boil much faster than a glass-ceramic hob, which also saves a great deal of energy.

Express cooking.

Induction cooking with a turbo boost.The **Boost function** allows you to increase the power of the cooking zone by 50% - perfect for large pots and pans or when you're in a hurry.

Easy to clean.

Automatic pan recognition only heats up the base of the pan and not the rest of the zone, which doesn't waste energy and leaves the rest of the hob cool to touch. Keeping the hob cooler makes it safer and also prevents spillages from burning on so it's easy to clean.

Clean up in an instant.

In case of any spills, simply select the **Freeze function** which freezes all the heat settings so you can thoroughly wipe and clean the hob surface. To restore the previous heat settings simply touch the button again!

Model shown: **PXV851FC1E**

Cooking that's designed around you.

Ultimate flexibility with FlexInduction. One, two or three pots, or even a large casserole: the Bosch FlexInduction hob leaves it up to you. At the flick of a switch, you can combine two induction zones into a large induction surface on which you can cook the way you want.

Even more flexibility.

Available on selected **Serie 8** FlexInduction hobs, the **Extended FlexInduction zone** offers optimum flexibility. The amount of usable surface on the hob is maximised to accommodate even the largest of cookware. With **CombiZone**, two cooking zones can be linked, making the switch from small to large pans effortless. Plus, the **MoveMode function** automatically switches from boil to simmer with a simple slide of the saucepan.

TFT Display.

Clear text and pictures allow simple operation of the integrated touch display.

More control at your fingertips.

Set the correct temperature with a single touch thanks to **DirectSelect**.
No more scrolling up or down, just simply press one button to select the right heat level. Models with **DirectSelect Premium** touch controls feature an additional minimum temperature setting giving you added cooking control.

Cooking with induction is not just quick, safe and clean.

Cooking with induction is safer than all other alternatives. As only the base of the pan is heated and not the entire hob, this will be warm to touch but should not burn.

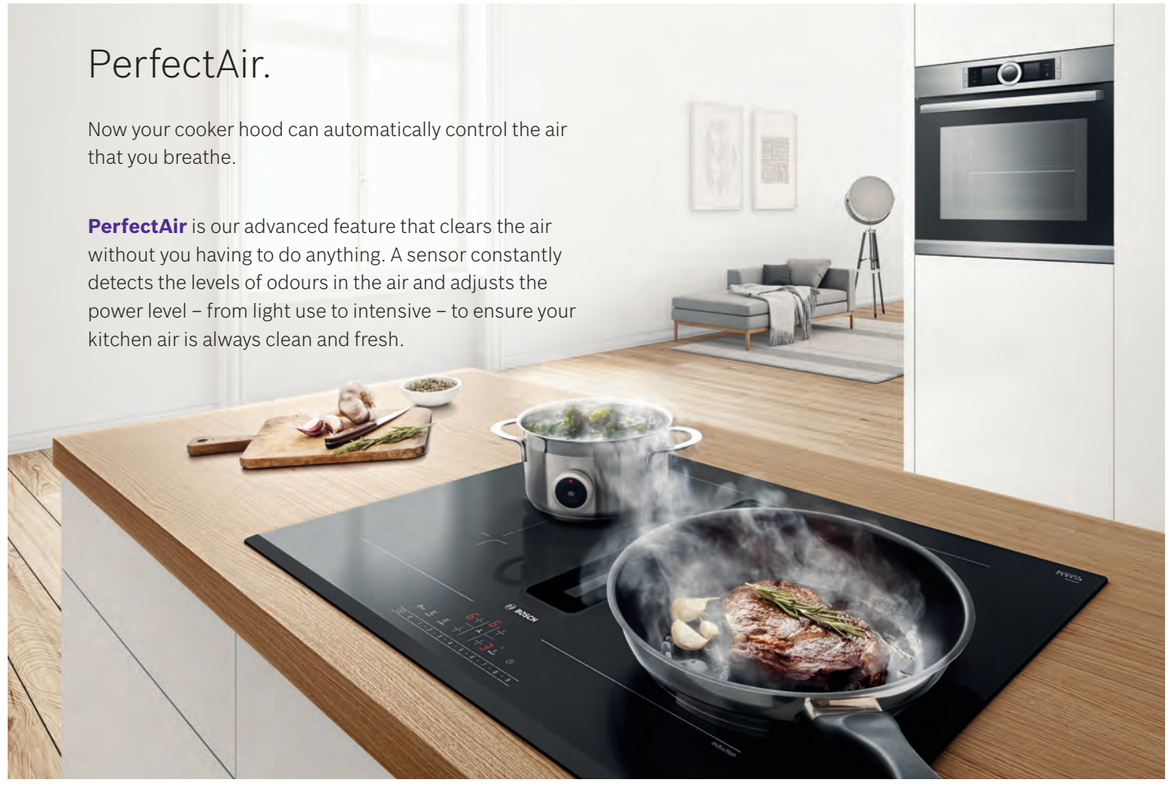

There is also a child safety feature: the built-in lock function means that you can lock the surface of your hob and prevent it from being used accidentally, giving you the highest level of safety.

PerfectAir.

Now your cooker hood can automatically control the air that you breathe.

PerfectAir is our advanced feature that clears the air without you having to do anything. A sensor constantly detects the levels of odours in the air and adjusts the power level – from light use to intensive – to ensure your kitchen air is always clean and fresh.

Perfect results every time.

PerfectCook

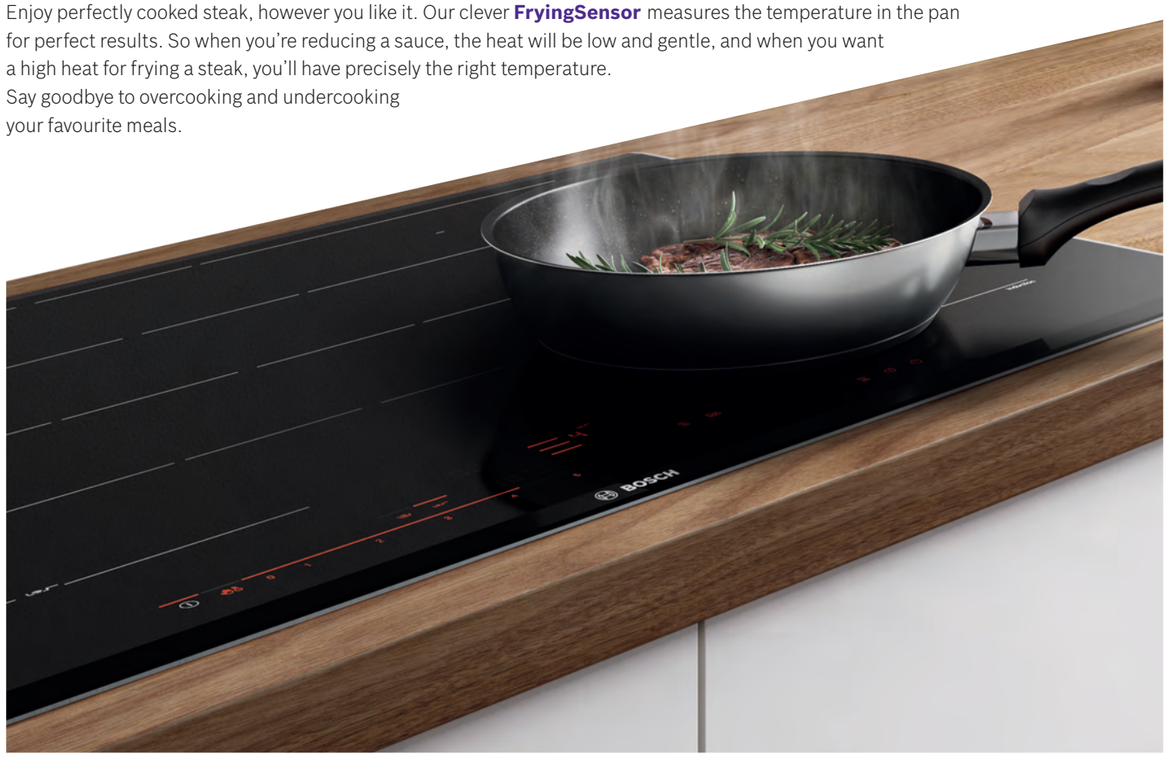

May your pasta never boil over again. Our hobs are designed with a sensor so you'll be able to control your cooking by the temperature in the pan rather than the power level. So whether you're defrosting, warming up, cooking or deep fat frying, you're in control with our smart **CookingSensor**, because precise temperature control guarantees perfect cooking results.

This feature requires the additional purchase of a **CookingSensor** to operate.

Available from www.bosch-home.co.uk/store.

PerfectFry

Enjoy perfectly cooked steak, however you like it. Our clever **FryingSensor** measures the temperature in the pan for perfect results. So when you're reducing a sauce, the heat will be low and gentle, and when you want a high heat for frying a steak, you'll have precisely the right temperature.
Say goodbye to overcooking and undercooking your favourite meals.

Venting hobs

The best of our hobs and cooker hoods. Combined perfectly in just a single appliance.

Serie 8 +++

PXX875D67E

Serie 6 +++

PVS851F21E

PVQ731F15E

Discontinuing September 2020

To allow you more freedom and flexibility in designing your kitchen, we've developed hobs with an integrated ventilation module. These hobs combine the latest technologies of our induction hobs and cooker hoods in a single appliance. The integrated ventilation module extracts steam and odours at their source.

The perfect combination.

The **PerfectAir** venting hob removes odours from the source, leading to fewer cooking smells in the kitchen. It can be easily installed into the work surface to suit any kitchen design and has the added convenience of being easy to clean. Thanks to the **PerfectFry** sensor and **PerfectCook** sensor on the hob, you can achieve perfect results whether you're frying or boiling.

Important: Venting Hobs can be installed in either recirculation or ducted out operation. Therefore each venting hob requires an additional Recirculation Kit or Ducting Kit depending on the intended installation. Please reference the optional accessories section for relevant kits and ensure you select the appropriate kit to install your venting hob.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.

Introducing the Bosch gas hob range.

Welcome to intuitive cooking. The advanced technology built into our hobs makes cooking on gas simple and precise. Understanding how you cook means we've been able to design a FlameSelect feature that lets you fry, stew, steam and boil with confidence – without constantly checking the flame.

Model shown: **PPS9A6B90**

Serie 8 +++

Our **Serie 8** range of gas hobs combines convenience and truly elegant design with ultimate cooking control, meaning a truly professional performance in the kitchen.

Serie 6 ++

Expect excellent operation and timeless designs with our **Serie 6** range of hobs. You'll get premium engineering and materials so that you can always cook something a little bit special.

Serie 4 +

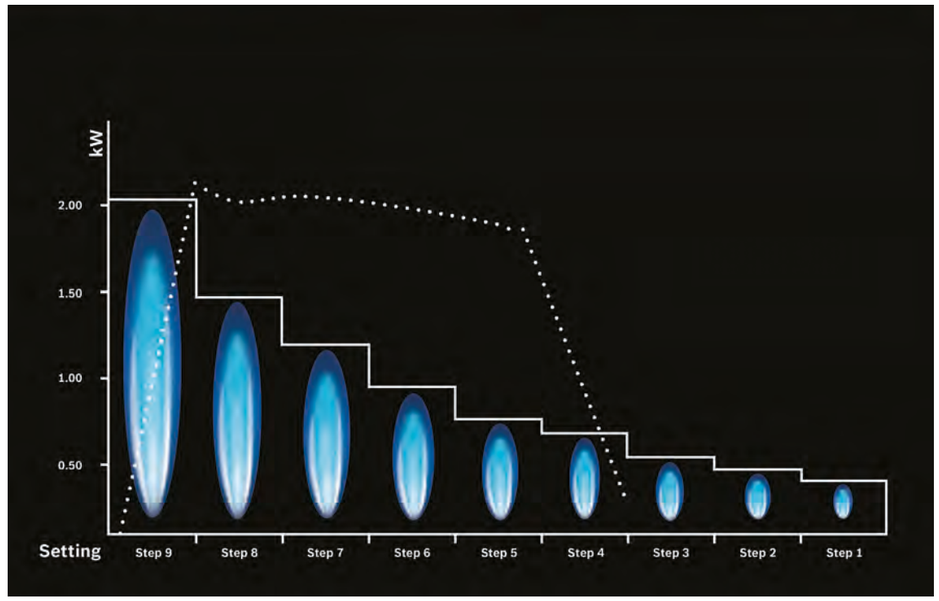

Featuring a range of gas hobs that are convenient and simple to operate, our **Serie 4** range maintains classic design and style.

Explore more at **www.bosch-home.co.uk**

FlameSelect

Gas without the guesswork.

The gas cooktops with FlameSelect are equipped with nine precisely defined power levels which let you adjust the required heat easily and reliably. For simply perfect cooking results.

Standard gas hob valve power output.

FlameSelect valve power output.

FlameSelect.

We're taking the guesswork out of using a gas hob. Our innovative StepValve technology regulates the gas output precisely, so you're able to choose the size of flame. With an easy-to-use setting, all you need to do is decide which of the 9 power settings you want. At last, FlameSelect gives you the confidence to cook on gas without leaning down to check it.

Flame size based on gas setting and energy consumption

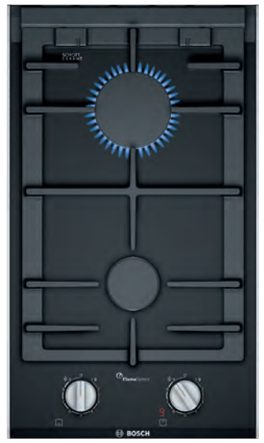

Design match

If you want a selection of cooking options within your kitchen, this can be realised with a combination of our worktop cooking appliances. You can select everything from our great range of Induction, Ceramic or Gas hobs and then combine with one our range of Induction, Ceramic or Gas Domino hobs.

Gas Domino Hobs.

PRA3A6D70

PRB3A6D70

Induction Domino Hob.

PIE651BB1E

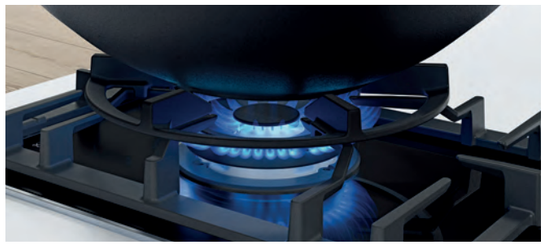

Ceramic Domino Hob.

PKF375FP1E

These hob appliances can be arranged side-by-side to create a larger cooking surface area, or positioned on their own to create a separate cooking space. Ideal for smaller kitchens that do not have the space for large hobs.

TIP: Ensure your extractor hood is the same width as the worktop appliance you choose.

A touch of the Orient.

Powerful, dual ring wok burners are perfect for oriental cooking. They deliver a boost both in power and speed, but can also be used very effectively at lower settings when required.

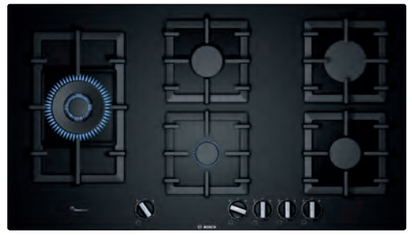

Smart design

Square design pan supports don't just look good, but provide more stability for pots and pans. Cleverly designed to fit together, they are separate pieces, which make them easy to handle and clean. The elegant tempered glass base allows for a choice of surface mounting for quick and easy installation, or flush mounting.

Gas hobs

Serie 6 ++

PPS9A6B90

FlameSelect: A precise adjustment of the flame in nine defined levels.

Wok burner: Powerful cooking at up to 4 kW.

Standard and semi-flush built-in option: Choose between flush or surface mounted installation.

Tempered-glass surface: Elegant design and easy cleaning.

Continuous cast-iron pan support: for high firmness and stability of cookware.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.

Introducing the Bosch hood range.

Offering a blend of function and form, Bosch hoods deliver quiet, effective extraction that makes the kitchen and home a more pleasant environment. Make a bold design statement, or complement a more minimalist look.

To help you choose the right hood, we have divided them into four ranges.

Serie 8 +++

With our **Serie 8** range of hoods experience automatic extraction rate control with **PerfectAir** sensor technology. Our hoods offer high quality craftsmanship combined with cutting-edge technologies to make the kitchen a more pleasant environment.

Serie 6 ++

Ultimate convenience and tasteful design make cooker hoods within our **Serie 6** range an asset to any stylish kitchen. Electronic controls give you ease of use. Experience maximum operating convenience with **DirectSelect** touch controls from Bosch.

Serie 4 +

As the centre of family life, the kitchen needs to have a comfortable atmosphere free of cooking steam and disruptive noise. Our **Serie 4** range of cooker hoods are extremely quiet, easy to operate and impressive with their modern design.

Serie 2

With our **Serie 2** range of hoods, you can be assured of high quality design and features that make your life easier in the kitchen, such as easy-to-use controls and dishwasher proof metal grease filters for greater convenience.

Model shown: DWK98PR60B

Hood functions explained.

(Check model for avalaible functions.)

PerfectAir
A sensor constantly detects the levels of odours in the air and adjusts the power level – from light use to intensive – to ensure your kitchen air is always clean and fresh.

Hob Hood Control
Control your hood via your hob with Hob Hood Control on selected Bosch hobs.

CleanAir Plus Filters
CleanAir Plus recirculation filters for maximum air purity at minimum volume. These filters can increase the odour absorption of the cooker hood by as much as 95% and remove over 99% of pollen in the air at the same time.

EcoSilence Drive
Our EcoSilence Drive brushless friction-free motor is durable and designed to last longer. The motor is highly efficient and offers exceptional performance while saving you energy.

TouchControl
Set the exact power level with a single touch thanks to TouchControl. It's easy to operate: simply select the right power level or turn on the lights and away you go.

Silence
Your guests are not alone in appreciating a relaxed cook. So you can chat with your guests while cooking.

Easy mounting
Easy to install appliances give you another reason to choose a Bosch Hood.

Filter Saturation Indicators
Out of sight, out of mind: When it comes to the filters in our hoods we often forget to check if they need to be changed. With Home Connect you can now check the state of your hood's filters, and receive valuable maintenance information. Simply log onto the app* to check the carbon and grease saturation of your filters and whether a replacement is necessary.

*Selected models only

Explore more at **www.bosch-home.co.uk**

Whichever model you choose from our range, you'll find lots of reasons to love your Bosch hood.

Why shout when you can whisper?

Our ventilation solutions go through advanced sound frequency testing to make them as quiet as possible. Our brushless **EcoSilence Drive™** motors also help to keep sound levels low while delivering powerful performance*. If this wasn't enough the **PerfectAir Sensor** can automatically adjust the power level, and sound level along with it, to the optimum point for performance and a pleasurable cooking experience**.

EcoSilence Drive™

Our hood ranges incorporate energy efficient lighting that can be adjusted for bright illumination to work under, or lower illumination for ambient mood lighting in the kitchen thanks to the dimmer function. In this light, even your electricity bill looks good. Our **EcoSilence Drive™** brushless friction-free motor and energy saving LED lights reduce energy consumption by up to 80% compared to a similar five-year-old model, without compromising results.

*Sound power measured according to EN60704-3 on largest pipe diameter. **Noise level (sound power) based on dB(A) re 1 pW

Hob Hood Control.

Control your hood via your hob with Hob Hood Control on selected Bosch hobs. Both the hob on the hood are equipped with a Wi-Fi module, enabling them to directly connect to each other securely. As soon as your hob is turned on, your hood is also switched on and thanks to the **PerfectAir** sensor, it starts extracting as soon as you start cooking. When you're done cooking, the hood automatically switches off after a brief run-on time, so you can be sure that unpleasant kitchen odours really do disappear. The hood automatically adjusts the power level based on the smells and steam detected, giving you optimised performance for extraction and noise. If you want to control the hood directly, just activate manual mode on the hob controls with the touch of a finger. In addition to the extraction rate, you can also control the lights of the hood via the hob.

Model shown: DWK98PR60B

Making **life easy** through innovative technologies

A hood for every kitchen

Wall-mounted

Wall-mounted cooker hoods are generally mounted above the hob, on the wall between the wall units. This type of cooker hood fits beautifully into the line of your kitchen units whilst providing effective ventilation that you'll barely see – but you'll notice the amazing effect.

Box Chimney

Chimney hoods in a box design perfectly complement your hob installation. Features **Bosch lifeclip** which can be matched with other Bosch appliances in your kitchen.

Glass Chimney

Curved and flat chimney hoods are great for a traditional and stylish kitchen.

Pyramid Chimney

Pyramid hoods impress with classic lines and also the refined contours of the contemporary Slim Pyramid designs.

Flat Slimline

This slim design is perfect for keeping an eye on your pots and pans with a stylish control wheel that matches with Bosch Serie 8 ovens.

Angled Glass

The angled design doesn't restrict headroom so you can keep an eye on your cooking with ease.

Integrated

Canopy

Bosch canopy cooker hoods are powerful ventilation systems that can be integrated into the cabinets above your hob. The hood provides excellent extraction of steam and cooking smells, as well as providing additional lighting for your cooking surfaces.

Telescopic

Telescopic cooker hoods are installed into a wall unit. To operate them, the flat section is pulled out, enlarging the extraction surface. Selected models have easy installation systems and accessories are available, as well as a lowering frame to make the hood invisible when not in use.

Integrated

Integrated cooker hoods have a furniture panel mounted to them installing seamlessly into the kitchen. For use this front panel is pulled forward at an angle, only then making the hood visible.

Built Under

Great performance in a tiny space. Our built-under extractors are housed underneath the kitchen unit and can always be seen.

Island

Our Island cooker hoods have been specially developed for use over your kitchen island and are freely suspended from the ceiling above it. Thanks to the wide choice of classic designs and different sizes, island cooker hoods offer the ideal solution for every kitchen and every requirement.

Chimney

Our chimney hoods use a box design to perfectly complement your island hob installation.

Worktop

DownDraft

The DownDraft hood is concealed inside your worktop, next to your existing induction hob. It rises up smoothly when needed and includes powerful LED lights to illuminate your cooking.

Ceiling

Ceiling

A ceiling cooker hood is installed directly into a load-bearing kitchen ceiling. It not only ensures clean air, it also provides excellent lighting for your hob and all the headroom you need.

Ducted or recirculation mode?

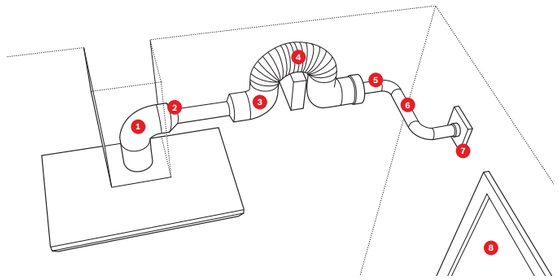

Ducted extraction

Ducting out is the most effective method of extraction if the hood can be sited on an outside wall, or an outside wall can be reached via ducting. The main difference between ducted and recirculation cooker hoods is that ducted systems can extract steam and odours, as well as grease. All our extractors are now standardised to a 150mm diameter outlet for easier installation. Use of 120/125mm diameter ducting is also possible, but will result in reduced air flow and increased noise. Use of 100mm diameter ducting is not recommended.

The following points should be observed for optimum ducted extraction results:

1. Ensure any pipe elbow bends are at least 30cm from the hood ducting opening.
2. Avoid reducing the diameter or area of the ducting.
3. Use wide-angled pipe elbows, but keep the number used to a minimum.
4. Only install pipes with smooth, even inner surfaces. If a flexible hose has to be used, ensure it is pulled tight to smooth out the ridges before fixing.
5. Avoid reducing the diameter or area of the ducting.
6. Use ducting pipes with a diameter of at least 120mm, but ideally 150mm.
7. Keep piping to a minimum – use the most direct route to external outlet.
8. Make sure that there is an adequate supply of fresh air to replace the air ducted out of the kitchen i.e. windows that can be opened, doors to adjacent rooms, air bricks.

Problems with installation may occur if points 1 to 8 are not observed.

Recirculation kit

Cooker hoods with recirculation are energy-efficient and much easier to install. Air is passed through the metal filter to extract the grease and then through a special charcoal filter, which removes odours and in high perfomance **CleanAir Plus filters** also removes over 99% of pollen. The purified air is then returned to the room. As no ducting openings are necessary, this is an energy-efficient method of extraction as no energy can escape (i.e. cool air in the summer or warm air in the winter), making it a good choice for low energy houses. The kit contains all you need to set the hood up for recirculation and installation is relatively easy. Check each model for details on the appropriate recirculation kit accessory.

Tips and hints

1. Calculate the extraction capacity needed.
2. Choose a hood with at least the same width of your hob.
3. Ensure efficient pipe ducting installation.
4. As a guide the hood should be installed at a minimum of 65cm above a gas hob or 55cm above an electric hob.
5. To effectively remove cooking odours from your kitchen, switch the hood on 5-10 minutes prior to cooking.
6. Leave the hood to run at a low setting after cooking has finished for 5-10 minutes to remove any lingering odours. Or simply select the Automatic After Running function, which enables the hood to continue running at a low speed for 10 minutes before automatically turning itself off (available on selected models).
7. Regularly clean metal grease filters to ensure optimum extraction performance. All of our metal grease filters, brushed steel filters and rim ventilation filters are dishwasher-proof.
8. Choosing the correct extractor. As a guideline, the air in the room should be changed 6-12 times per hour. Calculate the floor area in square metres and multiply by the height of the room in metres. Then divide the maximum extraction rate of your chosen hood by the figure calculated above. The resulting figure should be at least 7, but preferably as close to 12 as possible.

   Example

   Kitchen (H x W x D) metres 2.1 x 4.5 x 4.2 = 39.7m^3.
   Assume a maximum of 12 air changes per hour – multiply 39.7m^3 by 12 = 476m^3/h. Choose a hood capable of extracting at least this amount of air per hour – e.g. DWB96DM50B (max ducted extraction rate intensive 580m^3 per hour).

A breath of fresh air in hood design.

Now your cooker hood can automatically control the air in your kitchen. Intuitive sensor technology from Bosch now makes cooking easier than ever.

PerfectAir

When you're busy cooking, the last thing you need to think about is adjusting your hood to clear any steam in the kitchen.

The **PerfectAir** sensor continually detects the level of odours in the air during the cooking process and automatically adjusts the power level to ensure optimum extraction performance.

So there is no longer any need to manually adjust the power levels. This means that you can concentrate on your cooking rather than worrying about whether your hood is on the right setting.

Model shown: **DWK98PR60B** (hood) **PXY875DE3E** (hob)

The Plug&Play ceiling ventilation: for a simple and space-saving solution, with perfect installation in open plan kitchens.

Hob Hood Control: now you never need to touch the hood again. The fan speed or lights of the hood can be conveniently controlled directly from the hob (with selected Wi-Fi enabled hobs).

Recirculation filters: Recirculation hoods require metal grease filters to filter grease and other solid particles out of the extracted air. To keep these filters operating at maximum efficiency, clean them about once a month either by hand or in the dishwasher.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.

Downdraft hood

Serie 8 +++

DDD97BM60B

Discover our Downdraft ventilation hood DDD97BM60B that blends seamlessly into our built-in induction hob appliances. Perfect for kitchen islands or minimalist designs. It can be neatly tucked away into your worktop when not in use.

The Downdraft hood provides a flexible ventilation solution for your open plan and island kitchen. With a sleek modern glass design with Bosch Clip, LED light and TouchControls, our remote installation option ensures efficient but quiet odour and steam removal.

[1] Power automatically reverts back to normal setting after intensive.
[2] Air Flow and noise declarations made in line with CECED Code of Conduct.
[3] Measured according to EN61591 on largest pipe diameter.
[4] Sound power measured according to EN60704-3 on largest pipe diameter.
[5] From top of pan supports.
[6] A type of recirculating kit is required if recirculating. Depending on the model, a 'Recirculating odour filter kit' will consist of the following items: Charcoal filter, flexible hose, air duct, fixing components, installation instructions.

[1] Power automatically reverts back to normal setting after intensive.
[2] Air Flow and noise declarations made in line with CECED Code of Conduct.
[3] Measured according to EN61591 on largest pipe diameter.
[4] Sound power measured according to EN60704-3 on largest pipe diameter.
[5] From top of pan supports.
[6] A type of recirculating kit is required if recirculating. Depending on the model, a 'Recirculating odour filter kit' will consist of the following items: Charcoal filter, flexible hose, air duct, fixing components, installation instructions.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.

Canopy hoods

Serie 6 ++

DHL785CGB

Bosch canopy cooker hoods are powerful ventilation systems that can be integrated into the cabinets above your hob.
The hood provides excellent extraction of steam and cooking smells, as well as providing additional lighting for your cooking surfaces.

Introducing the Bosch laundry range.

Effortlessly efficient, load after load.
Our built-in laundry appliances are designed to perform perfectly, load after load. And our advanced technology means your clothes are cleaned effectively and efficiently.

Serie 8 +++

Perfection in every detail, our **Serie 8** range of laundry appliances stand out from the crowd with superior quality, results and first-class design. Clever features such as the TimeLight take away the guesswork on the progress of the wash. Unique innovations combined with energy efficiency deliver outstanding performance.

Serie 6 ++

Our **Serie 6** range of laundry appliances offer a broad choice of specialist programmes and deliver high performance and effortless convenience to enhance your lifestyle.

Serie 4 +

Models within our **Serie 4** range combine practical features and Bosch build quality in a consistent, value for money package.

Laundry functions explained.

TimeLight
The time remaining on your cycle is projected onto the floor. You can also view the programme progress status.

WaveDrum
Select the programme for your wash and the droplet-shaped drum structure and asymmetrical paddles adjust the drum movements to powerful or gentle.

EcoSilence Drive
Our washing machines with EcoSilence Drive generate a noise level of just 41 decibels.

Aqua Stop
This security gives you peace of mind that the water will stop in the unlikely event of a leak.

Reload
Simply pause the cycle and the machine will automatically adjust the water. This allows you to add or remove items of any size to your wash.

Time Delay
Have your laundry ready when you need it. Just delay the start of your programme with one simple button.

AntiVibration Design
A spiral design on the side of the washing machine that increases stability and reduces vibration. This makes for a quieter machine with improved sound dampening.

Capacity
Our built-in washing machines have a drum capacity of up to 8kg, perfect for those busy households.

Washing machines

Never miss an item again. Reload by Bosch.

For dropped socks, mistaken items with your whites or forgotten clothes, **Reload** function on Bosch washing machines allows you to add or remove clothing of any size to your washes. Simply pause the cycle and the machine will automatically adjust the water level to allow you to open the door. Reload your items and restart the wash.

TimeLight.

Bosch washing machines are so quiet sometimes it's hard to tell whether they are on or off, especially on fully-integrated models where there is no visible control panel. The TimeLight indicates the programme status and time remaining onto any floor surface.

Bosch integrated technology for a peaceful washing experience.

Enjoy the quiet life.

Our latest washing machines with **EcoSilence Drive™** generate a noise level of just 41 decibels – that's quieter than the sound of the sea at 55 decibels. The modern world is noisy enough, so it's good to know that Bosch technology can help make the home environment a little oasis of calm.

Less rock and roll.

We've also created **AntiVibration** technology to cut down noise. The sidewalls of the washing machine feature a spiral design that increases stability and reduces vibrations. Improved sound insulation and low noise shock absorbers further dampen the noise to provide quieter machines.

Washing machines

Ideal for families.

Ideal for families and busy households, the large 8kg capacity means you can wash more laundry in one go. A typical 8kg load could be made of king size bed linen, including 4 pillow cases. So whether you have lots of laundry, or fewer loads but with larger amounts, large capacity will make your laundry life easier.

Introducing the Bosch dishwasher range.

All our built-in dishwashers offer a range of advanced technologies as standard and additional options across the range to suit your individual requirements.

To help you choose the right Bosch dishwasher, we have divided them into the four ranges below.

Serie 8 +++

Our **Serie 8** range combines cutting-edge design and advanced technology, including Home Connect. The **A+++** energy efficiency rating of this range is complemented by our **PerfectDry** function where moisture is absorbed before being released as hot air for energy-efficient drying. Exceptionally quiet, offering additional storage and flexible loading solutions.

Serie 6 ++

Our **Serie 6** range comes packed with technology, from energy and water-saving modes to quick washes for when time is at a premium. They also feature our clever **PerfectDry** technology and **VarioFlex baskets** with coloured touchpoints for flexible loading solutions and accommodating the most awkward shaped dishes.

Serie 4 +

Our **Serie 4** range of models offer great value for money but does not compromise on Bosch build quality. They combine advanced energy and resource-saving features. In addition, they offer flexible **Vario** and **VarioFlex baskets** with foldable racks in the top and bottom baskets.

Serie 2

Our **Serie 2** dishwashers offer you the classic design with easy operation. They are the optimal solution for anyone who wants a reliable appliance with good value for money.

Model shown: **SMV68TD06G**

PerfectDry

A clever function that saves energy by using less electricity to dry everything to perfection. And we do mean everything – plates, pans, glasses and all plastic items. Your lunch boxes and containers will be completely clean and perfectly dry, so you'll never have to pick up a tea towel to finish the job again.

The technology behind **PerfectDry**, unique to Bosch, is called Zeolith®. It is a process applied to every cycle that uses naturally occurring minerals, that heat up when they come into contact with water. The warm air is then distributed evenly over the load.

The dish dryer among dishwashers.

The technology behind **PerfectDry** uses **Zeolith®** minerals to help dry the load economically and efficiently. The dishwasher absorbs humidity from the washed dishes and the clever **Zeolith®** beads then transform that humidity into warm air that speeds up the drying process. So when you need a wash with brilliant drying results, it's time to choose Bosch.

ExtraDry

Want your dishes extra dry? No problem. This function gives you even more drying power when you need it. Just choose the **ExtraDry** option and more heat will be created to extend your load's drying cycle.

A dishwasher for every kitchen.

Model shown: **SMV68ND00G**

Choose the right appliance for you, for the space in your kitchen.

When selecting your built-in dishwasher you can choose from the 3 sizes/designs below, depending on your preference and the space within your kitchen.

Fully Integrated 60cm

Semi-Integrated 60cm

Fully Integrated 45cm

Different types of control.

VarioHinge.

VarioHinge.

The innovative Vario Hinge system is the optimal solution for challenging built-in dishwashers. In kitchens with a low plinth (<90mm) and extra long furniture fronts the door and appliances might collide into each other. With VarioHinge, the furniture front slides up so the door opens perfectly without collision. This ensures perfect design of a fully integrated kitchen.

Dishwasher functions explained.

(Check model for available functions)

TimeLight
Bosch dishwashers are so quiet sometimes it's hard to tell whether they are on or off, especially on fully-integrated models where there is no visible control panel. The TimeLight indicates the programme status and time remaining onto any floor surface.

InfoLight
Coloured light beam projects onto the floor when the machine cycle is started, and turns off when finished.

EmotionLight
Lights up the dishwasher cavity with 2 white LED lights.

VarioSpeed Plus
Our VarioSpeed Plus option reduces programme times without compromising on quality. So you still get hygienically clean and dry dishes but in about a third of the time of the standard programme – ideal for busy households and entertaining.

Place Settings
A selection of our dishwashers will hold up to 14 place settings in one load – perfect for larger households.

Home Connect
To stay at their best, different dishes and glassware need to be washed in different ways. With the Bosch Home Connect app, simply tell your dishwasher what's in the load and it'll work out the perfect programme.

Door OpenAssist
With OpenAssist you can open fully integrated dishwashers by simply touching the front of the unit. This partially opens the door, making it easy to load and unload the dishwasher. The handle-free dishwasher door is the optimal choice for modern designer kitchens with matching-style unit fronts. Activate the electronic child lock for the door to make this a double push to open.

Self-cleaning filters
Self cleaning filter system, with spray arms designed to direct water at the filters on every rotation.
Please note, self cleaning references are to reduce chances of filters being blocked during the cycle, regular maintenance of clearing and cleaning filters is still recommended.

Dosage Assist
Get the most out of your detergent with Dosage Assist; a small area at the front of the top basket that catches the tablet when it's released during the cycle. It controls how the tablet is dissolved for optimum performance.

EfficientDry
Automatically opens your dishwasher door, offering better drying results compared to a closed door (after 30 minutes). Select this feature via the Home Connect app, available on all programmes except pre-rinse and machine care.

Machine care

Your dishwasher will help look after itself with this smart function. Optimising the water and energy consumption, it works on a short run time of 80-90 minutes at high temperatures. It eliminates limescale and grease deposits inside the dishwasher and works with a standard machine-care detergent. On selected Serie 8 and Serie 6 models, it will even remind you to run the programme every 30 cycles.

Model shown: **SMV68MD00G**

10 year anti-rust warranty

Our appliances are made from top quality materials and in addition to our standard appliance warranty, we provide a free of charge warranty against rusting-through of the dishwasher's inner cavity.

Helping to make your life quiet and more efficient.

Whisper quiet washing.

Bosch dishwashers are amongst the quietest. With revolutionary **EcoSilence Drive**™ there are dishwashers in the range which operate at 39 decibels. With the Silence programme selected, the noise is reduced even further.

Energy efficiency.

The opportunity to save energy is now even better. Innovative technology in our dishwashers gets the most out of every single drop of water. Our most energy-efficient dishwashers in Serie 8 and Serie 6 ranges boast an A+++ energy rating.

Save water every load.

The **ActiveWater**™ technology in our dishwashers means it can take as little as 6.7 litres* of water to clean 13 place settings for a three-course meal**.
That's less water than it takes to fill a standard sized kitchen sink.

Bosch dishwasher programmes.

PROGRAMME NAME	ITEMS SUITABLE FOR PROGRAMME	TYPE OF SOILING	ADDITIONAL OPERATIONAL OPTIONS
Economy 50°C	Mixed utensils & cutlery	Part dried, common household food remnants	All
Intensive 70°C	Pots, pans, non-sensitive utensils & cutlery	Very stubborn burned or dried-on food remains containing starch or protein	All
Auto 45-65°C	Mixed utensils & cutlery	Part dried, common household food remnants	All
Glass 40°C	Sensitive utensils, cutlery, temperature-sensitive plastic & glass	Lightly adhering, fresh food remains	IntensiveZone, VarioSpeedPlus, Half load, ExtraDry, Shine and Dry
Silence 50°C	Mixed utensils & cutlery	Part dried, common household food remnants.	IntensiveZone, Half load, HygienePlus, ExtraDry, Shine and Dry
Pre rinse***	All types of dishes.	Cold rinsing, intermediate cleaning.	None
Quick 45°C***	Sensitive utensils, cutlery, temperature-sensitive plastic & glass	Lightly adhering, fresh food remains	ExtraDry, Shine & Dry
1 Hour 65°C	Mixed utensils & cutlery	Part dried, common household food remnants.	ExtraDry, Shine & Dry
Short 60°C	Mixed utensils & cutlery	Part dried, common household food remnants	All
Normal 65°C	Pots, pans, non-sensitive utensils & cutlery	Very stubborn burned or dried-on food remains containing starch or protein	ExtraDry, Hygiene Plus, Intensive Zone, VarioSpeed Plus
Machine Care	Run when empty	Thoroughly cleans your machine - use in combination with a standard machine care detergent	None
Favourite	Available on all NEW 45cm dishwashers (available from July 2020)	Allows you to assign programme and option combinations to the Favourite programme via the Home Connect App	Pre-set favourite programme is pre-rinse

*6.7 litre water consumption on standard Economy 50°C programme.
**Three-course meal as defined by dinner, soup and dessert plate, cup and saucer, glass, knife, fork, soup, tea and dessert spoons for each place setting as well as 1 serving plate, 2 serving bowls, 2 serving spoons, 1 serving fork and 1 sauce spoon.
***Programme does not include drying in the cycle.

● Yes, model has this feature. - Feature not available for this model.
[1] Based on 280 standard cleaning cycles using cold water fill, including consumption of the standby mode.
[2] The Consumption per cleaning cycle of the "Eco 50" programme using cold water fill.
[3] We would recommend our dishwashers are connected to the mains water supply where possible.
However, they may also be connected to an external water softener as long as the water softener produces softened water less than mmo/litre (7.0°e) and the water softener in the appliance is turned off.
Please contact product advice for further information.
Water pressure required: 0.5-10 Bar. Flow rate: 10 litres per minute. Inlet valve connected directly to ¾" screwed joint.

Introducing the Bosch refrigeration range.

Save more, waste less. Our range of built-in fridge freezers save you money thanks to their energy efficiency ratings. They are also packed with innovative technology to keep your food fresher for longer, so you'll throw out less and save on your weekly shopping bill.

To help you choose the right appliance, we have divided them into the four ranges below.

Serie 8 +++

Cutting-edge design meets advanced technologies. All models in our **Serie 8** range are packed with energy efficient and labour saving features that save valuable time, effort and money – perfect for modern, busy households.

Serie 6 ++

Our **Serie 6** range of appliances combines energy efficient performance with convenient storage and superior food preservation.

Serie 4 +

All models in our **Serie 4** range combine practical features with Bosch build quality.

Serie 2

Built to keep electricity costs down. With energy efficiency an increasing priority in homes, the **Serie 2** refrigeration range is just as efficient as it is value for money.

Fridge freezer: KIF86PF30

Making **life easy** through innovative technologies

Selecting the right Refrigeration for you

Built-in fridge freezer
Built-in fridge freezers blend seamlessly into your kitchen cabinets, making it easy to access your chilled food, and still providing plenty of storage for your frozen goods. Select from a variety of options to suit your needs for either larger fridge or freezer.

Built-in fridge
Built-in fridges built into your kitchen cabinets. Add to the expanded space you have for keeping your chilled food fresh.

Built-in freezer
Bosch has a wide range of built-in freezers to suit every size of kitchen. From tall upright freezers to compact under counter models, all Bosch freezers are built to maximise storage space and minimise energy consumption.

Built-under fridge and freezer
Our built-under fridges and freezers are ideal for those limited on space within the kitchen. Under-counter cooling solutions will allow you to have easy access to your chilled food whilst discreetly tucked behind the door.

American-style fridge freezer
American-style refrigerators are stylish and spacious, giving you copious amounts of room to store your chilled and frozen food. In additon to the premium design, some of these fridge freezers also contain great features such as ice and chilled water dispensers or, if you don't have a water connection select our model with a built-in water tank.

Hinges to fit in with your kitchen.

Fixed hinge
Fixed hinges allow heavier furniture doors to be fitted to the appliance, ideal for kitchen cabinets made from heavier hard wood. This also allows the door to be open at a wider angle, making the whole fridge cavity easily accessible.

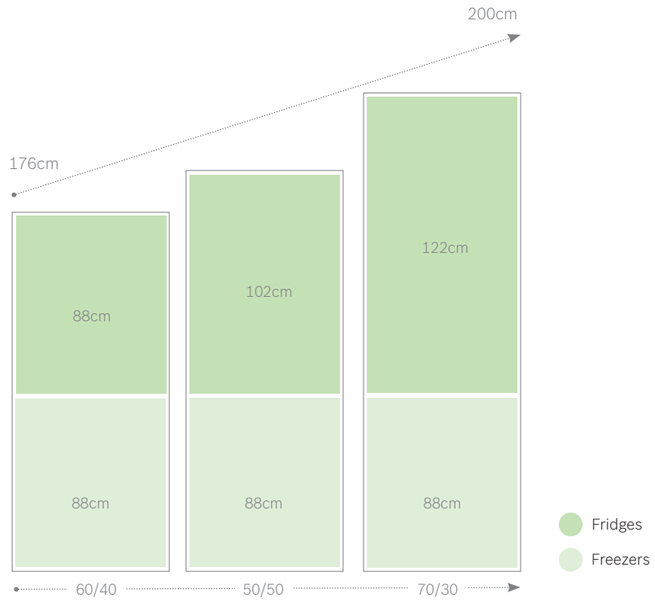

Sliding hinge
Sliding hinges are designed for integrated kitchens and are designed to sit between the appliance and the kitchen furniture, which is secured by a number of brackets. As you open the furniture door, the appliance door also opens thanks to the series of brackets.

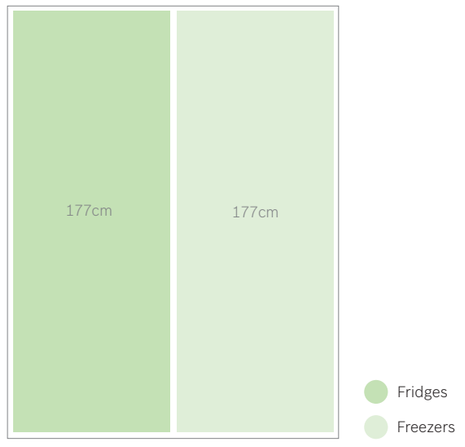

Find the perfect combination for your kitchen.

Over/under
Our over/under installation options are tailored to suit every family household need so you can conveniently 'stack' your fridge and freezer to ensure this. For those who shop little and often, try a smaller capacity fridge and freezer which doesn't impact on space. If you have a busy household and do a full weekly shop, a spacious 50/50 fridge freezer would be ideal.

Side by side
Single door fridges and freezers are designed to sit side by side to give you the double door effect. With hinges that can be fitted to either side of the appliances, you can choose which side you would like your fridge and freezer. Of course, if you want your appliances separate this is possible as well.

Whichever model you choose, you'll find a lot of reasons to love our Bosch cooling appliances.

NoFrost.

Never worry about having to defrost the freezer again. The NoFrost system prevents the build up of ice by automatically initiating the defrost operation as required. This also helps to maintain the appliance's energy efficiency.

LowFrost.

LowFrost cuts ice build up by half meaning you have to defrost your freezer less often, compared to approximately every 3 months for a static freezer, saving you energy and time.

SuperFreeze & SuperCool.

Activating the SuperFreeze function before you go shopping lowers the temperature for a short period, so anything new put into the freezer is frozen quickly. SuperCool on your fridge performs a similar task, keeping everything at the right storage temperature.

Save time with flexible storage.

Put away the weekly shop more easily, and get what you need faster too, thanks to height adjustable shelves and fully extendable drawers. The **EasyLift door shelf** can be raised to make space for taller items to be stored in the door. The **EasyAccess shelf** can be conveniently extended so you can more easily view the food in your fridge.

More space.

Our freezers are extra spacious meaning you will find it easy to fit everything in – perfect for busy households. The extra large **BigBox** is big enough for large bulky items.

VitaFresh

With **VitaFresh**, you'll be able to store your fruit and vegetables safely to lock in the freshness. And with an adjustable humidity setting on the drawer, you'll be keeping your fresh food in a perfectly controlled environment.

You'll also find two drawers, one for fish and one for meat, with a temperature regulating slider which lets you lower the temperature up to 4°C lower than the rest of the fridge.

VitaFresh plus

The **Serie 6** fridge-freezers help you to live healthier. They not only offer you plenty of room for lots of fresh foods, drinks and even big pots and bowls, but also the technology to store it optimally.

The **VitaFresh plus** freshness system guarantees ideal storage conditions at any time and ensures that fish, meat, fruit and vegetables stay fresher for longer. This makes our Serie 6 fridge-freezer not only optimal for your food, but also for yourself.

VitaFresh plus models have the added benefit of a convenient push button for humidity control.

VitaFresh pro

The **Serie 8** fridges feature our best freshness system **VitaFresh pro**. It keeps food fresher for longer with temperatures from -1°C to +3°C while maintaining the perfect humidity level.

This combination of temperature and humidity helps you to protect all the aromas, essential nutrients and valuable vitamins in your fresh food. Hence, it is easier than ever to maintain a healthy diet with fresh fruit and vegetables every day.

Explanation of Refrigeration Icons.

(Check model for avalaible functions.)

NoFrost
Never defrost again, thanks to perfect protection from ice formation that saves time and effort.

LowFrost
Defrost less often thanks to lower ice formation, saves work and is energy-efficient.

BigBox
An extra-deep frozen food drawer for practical stacking of frozen foods containers or large frozen items like gateaux or pizzas.

MultiBox
Transparent drawer with wave bottom, ideal for the storage of fruits and vegetables.

SuperCool
Activating the SuperCooling function before you go shopping lowers the temperature for a short period, so your fresh shopping is kept at the right temperature.

Safety Glass
Strong glass shelves ensure heavier items can be stored safely.

EasyShelf Access
The shatterproof, frameless glass shelves are particularly easy to use, thanks to the smooth pull-out mechanism. And they also give you a clear view of your food at any time.

Fingerprint Free
Your appliance will stay fingerprint free and looking clean and fresh.

Energy efficient.

365 days a year, 24 hours a day, fridges and freezers are always on. In fact, they make up around 17% of the electricity used in the home, or even more if it's a particularly old model.* That's why we design our fridges and freezers to be as energy efficient as possible, and we're proud to be able to offer so many right across our ranges.

Quietly does it.

As there could be many small and larger hands opening and shutting the fridge door, it's nice to know that we've integrated **SoftClosing doors** in many models – so doors do not get accidentally left open.

*Source: www.greenchoices.org/green-living/at-home/fridges-freezers

Easy to Clean Magnetic Door Seals

The magnetic door seals on all of our refrigeration ranges are **removable**, making them easy to clean and/or replace when necessary.

Product installation guide & accessories

2020

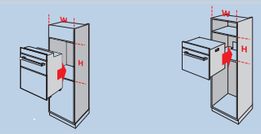

Installation tips

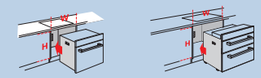

Ovens, microwaves and hobs

Flexibility to choose the way you want to cook
Whether you're creating a feast for fifteen, steaming a healthy meal, cooking for one or popping on a frozen meal, Bosch appliances have the flexibility to do the job.

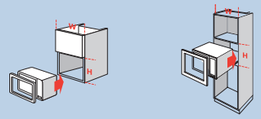

Built-in single and double ovens
The beauty of built-in ovens is that they can be housed in a variety of positions. For optimum convenience, install in standard tall cabinets at a level to suit the main users. Install single ovens alone, or together with a combination oven/microwave, built-in microwave, steam or combination steam oven. Hobs need to be bought separately.

Built-under single and double ovens
Single ovens can also be installed under the work surface, directly below the hob, or apart from it. Bosch also offers double ovens that are specifically designed for installation under the work surface. Hobs need to be bought separately.

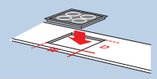

Compact steam, combination ovens and combination microwave ovens
Compact appliances offer a range of combination or specialist functions – for example steam cooking is one of the healthiest methods of cooking available – and are ideal if space is at a premium. If you have more room, they're perfect for providing extra capacity and flexibility above or alongside a suitable built-in single oven. Build in to a standard tall or base cabinet with or without a warming drawer.

Standard built-in microwaves
Depending on the model, you can install into a tall housing, or in a wall cupboard.
Wall cupboard models are available in 50cm or 60cm widths.

Hobs
Choose from gas, induction, ceramic or sealed plate. Available in 6 widths: 30, 60, 70, 75, 80 or 90cm.

Installation tips

Hoods

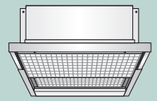

Keep air fresh and free of cooking smells
Extractor hoods are an integral part of a clean and fresh working kitchen environment. Not only do Bosch extractor hoods look good and add a professional touch to your kitchen, they also deal quietly and efficiently with the key tasks of eliminating unwanted odours and removing grease and moisture from the kitchen.

Chimney extractor hoods
Choose between wall-mounted models or an island version to create a striking focal point in the kitchen. Some models are further enhanced by glass canopies. Available 60, 75 and 90cm wide.

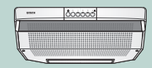

Chimney extractor easy mounting system
Installing your new cooker hood in the kitchen is quick and straightforward with the patented easy mounting system. The self-levelling fixing rings allow you to precision adjust the horizontal position of the hood by up to a 6mm radius.

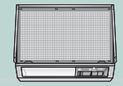

Telescopic extractor
Ideal where an unobtrusive extractor is required. Built into a wall cabinet above the hob, it can be extended when in use, and retracted when not. Use the special handle profile accessory, or if you prefer, a matching pelmet from your kitchen supplier. 60 or 90cm wide.

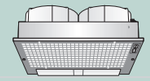

Conventional extractor hoods
Ideal where space is at a premium, these 14cm tall extractors can be mounted directly to the wall or suspended beneath a reduced height wall cupboard. 60cm wide.

Integrated extractor hoods
Integrated extractor hoods are designed to be mounted between two cabinets with a matching furniture door affixed to the front.

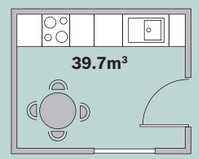

Canopy extractor hoods
Designed to fit discreetly into the base of a wall cupboard, or specially designed furniture canopy with operation from below.

Choosing the correct extractor
As a guideline, the air in the room should be changed 6-12 times per hour. Calculate the floor area in square metres and multiply by the height of the room in metres. Then divide the maximum extraction rate of your chosen hood by the figure calculated above. The resulting figure should be at least 7, but preferably as close to 12 as possible.

Example
Kitchen (H x W x D) metres 2.1 x 4.5 x 4.2 = 39.7m³.
Assume a maximum of 12 air changes per hour – multiply 39.7m³ by 12 = 476m³/h.
Choose a hood capable of extracting at least this amount of air per hour – e.g. DWB96DM50B (max ducted extraction rate intensive 580m³ per hour).

To avoid excessive noise, try to select a model which meets the above requirements on an intermediate speed, rather than at the highest speed.

12 x 39.7m³ = 476m³/h

Quick checklist

Type of hood

- Chimney
- Telescopic
- Conventional
- Integrated
- Canopy
- Ceiling
- Downdraft
- Ducted
- Re-circulated
- Width of hood
- Size of kitchen
- Required extraction rate

One Venting Hob, four installation possibilities.

Recirculation filters

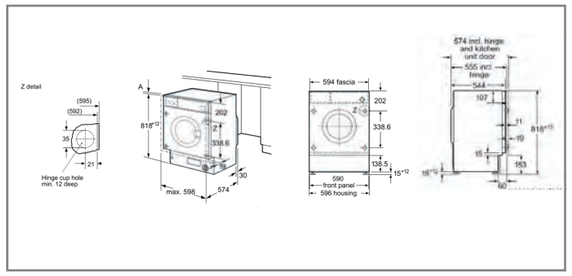

Type	Standard charcoal filter	CleanAir filter	New Regenerative CleanAir filter
			
Odour reduction guide	Up to 86%	Up to 95%	Up to 95% Up to 86% if installed without chimney
Recommended lifetime	6 - 12 months	12 months	10 years
Benefits	Simple installation Anti-fish treatment	High odour reduction Up to 3dB (A) sound reduction Better extraction performance Anti-fish treatment	High odour reduction Up to 3dB (A) sound reduction Regenerated in the oven every 4 months recommended (2 hours, 200°C) Better extraction performance
Installation	Behind grease filter, inside the hood	Extra module attached to hood chimney (stainless steel) **New: Integrated plastic module fitted inside the chimney piece**	Extra module (as per CleanAir filter) onto chimney or inside chimney Chimless installation possible
Installation without chimney possible?	Yes (Angled and Flat hoods only)	No – module must fit onto chimney or inside the chimney	Yes (Angled and Flat hoods only)

A range of recirculation filters are available depending on the model of hood and offer excellent odour reduction rates and performance benefits.
The new regenerative filters can last up to 10 years and are regenerated through a heating process in the oven every 4 months

Installation tips

Dishwashers

Integrated and semi-integrated dishwashers
Energy and water-efficient with outstanding performance, Bosch integrated dishwashers quietly do all the hard work for you behind closed doors.

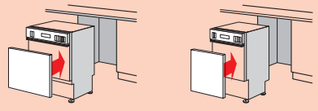

Fully integrated dishwashers
These models can be built under a worktop or sink drainer, between two units or at the end of a run of units. A furniture door is mounted on the appliance door so that the dishwasher is indistinguishable from other kitchen cabinets. Choose from full size 60cm wide, or slimline 45cm wide.

60cm wide

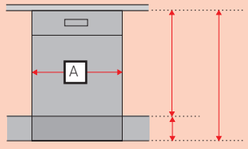

Semi-integrated dishwashers
A furniture door is mounted on the appliance door, so all that is seen of the dishwasher itself is the stylish control panel. Can be built under a worktop or sink drainer, between two units or at the end of a run of units. Available full size 60cm wide.

60cm wide

Built-in dimensions (60m wide)
If you have a recess height of 81.5 – 87.5cm, plan for an 81cm dishwasher. The appliance feet may be screwed out to a total height of 87.5cm. Or, if you have a recess height of 86.5 – 92.5cm plan for an 86cm dishwasher. The appliance feet screw out to a total height of 92.5cm.

We try to keep up to date with constant technological improvements, so from time to time we may update installation guidelines. Therefore we strongly recommend that you download the latest installation guidelines from www.bosch-home.co.uk. Line drawings are for guidance only, and we recommend that you refer to the latest installation guidelines. Though every care is taken to ensure instructions are correct at the time of printing, Bosch cannot accept responsibility for incorrect planning or installation as a result of the use of these line drawings.
