# SHUMAI

## CHINESE PORK AND SHRIMP DUMPLINGS

### Preparation method

- Use mincer attachment of a kitchen machine to grind the pork shoulder and transfer to a big bowl. Add sugar, white pepper, corn starch, Shaoxing wine, light soy sauce, sesame oil and oyster sauce. Mix everything together to a fine paste.
- Coarsely chop shrimp and shiitake mushrooms. Finely chop scallions and ginger. Combine everything in the bowl with the pork to make the filling. Let chill in the fridge while you make the dough for the wrappers.
- Add flour, salt and egg to the bowl of a kitchen machine with a dough hook. Slowly add water and knead until a dough forms. Remove the dough and let rise for approx. 10 min. Return dough to the stand mixer and knead for 8 – 15 min. until the dough is smooth. Then let rise at room temperature for 30 mins.
- Flour the working space. Use the pasta machine attachment to roll out the dough into thin bands. Use a cookie cutter to cut out circles. Sprinkle cornstarch over the circles to avoid them from sticking to the work space or cookie cutter.
- To assemble the shumai, take 1 wrapper and add approx. 2 tsp of the pork filling to the middle. Gather the edges of the wrapper up around the filling and squeeze the sides together with your fingers, forming a little pleated cup with the filling still visible from the top. Repeat with all the wrappers and filling. Garnish the top of each shumai with 1 pea.
- Transfer shumai to a bamboo steamer lined with bamboo steamer liners. Steam over boiling water for approx. 12 min. Serve with dark rice vinegar and enjoy!

# HERB-PRINTED PASTA

## Ingredients

- 400 g of flour
- 4 eggs
- Selection of herbs:  
eg. basil, oregano
- Edible flowers, eg. violas,  
if desired
- 4 tbsp. of butter for serving

## Preparation method

- Add the flour to the bowl of your kitchen machine, then crack in the eggs. Knead the dough on slow speed to begin with. Once you have a shaggy dough, increase speed to medium and continue to knead for approx. 10 min., or until the dough looks shiny and is slightly elastic.
- Remove dough from the bowl, shape into a ball, wrap in plastic, and leave to rest in the fridge for 1 hr. In the meantime, wash and dry the herbs you intend to use.
- After resting, your dough will look darker and more moist. Set up your pasta machine attachment on the Series 4 Kitchen Machine (MUM 5). Divide dough into 4 pieces, flattening them in preparation to feed them through the machine by rolling them out slightly using a rolling pin or simply stretching them out with your hands to flatten them.
- Turn the pasta accessory onto the widest setting and feed the dough pieces through the machine, adjusting the setting to decrease in size between each repetition, until you have lasagne-like sheets. You may need to trim down your sheets so they are easier to handle. Place your pasta sheets on greaseproof paper or a lightly floured work surface. Repeat the process until your dough is used ensuring you have an even amount of sheets to pair.
- Place a selection of herbs on half of the pasta sheets. Cover these with the remaining sheets and press down gently. Carefully feed the sheets through the pasta machine to gently press the sheets together—taking care that the setting allows the pasta to slide through with ease, without bunching up. Slice your herb-laminated pasta into thirds lengthwise, so you have very thick strips.
- Since we want the nuanced flavours of the herbs in the fresh pasta to shine, we only need a very simple sauce. Melt 4 tbsp. butter in a frying pan, along with 1 finely minced garlic clove, and let bubble for 1 min. Then, turn off the heat while you cook the pasta. To do so, prepare a large pot of salted water. Once boiling, gently lower in the laminated pasta and cook for approx. 2 – 3 min. or until al dente. Save approx. ½ cup of pasta water to add to the pan with the melted butter and garlic, along with the pasta. Stir gently to coat.
- Serve pasta with freshly grated Parmesan cheese.

Spoon the apple filling onto the rounds. Brush the edges with beaten egg, fold the pastry over on itself and press the edges together. Brush the turnovers with egg, place on the baking sheet and bake for approx. 10 – 12 min. in a preheated oven at 200°C until golden brown.
