BOSCH
Invented for life

Major Domestic Appliances for perfect results at home.

GERMAN ENGINEERING

EUROPE'S BRAND NO.1*

Contents

"I would rather lose money than trust."

Robert Bosch
(1861 – 1942)

Bosch has been producing household appliances since 1933, when the company presented an electric refrigerator at the Leipzig Trade Fair and kicked off its long-lasting success. By this time, Bosch was already known as a supplier of automotive components with locations in several European nations. It didn't take long for consumers from Norway through to Italy to notice the versatility and outstanding quality of the household appliances from Bosch brand. Today, Bosch is Europe's number one seller of major domestic appliances.

Invented for life.

Unmistakable quality

Quality to be experienced with all your senses, thanks to our outstanding design and carefully selected materials.

Perfect results

Cook like a pro thanks to sensor systems like PerfectBake. Built-in sensor technology continually monitors your dishes, baked goods and the cleanup to always ensure perfect results.

Surprisingly simple solutions

Household chores have never been easier. The automatic programmes will set the optimal temperature and cooking time for you. Everything from cakes and roasts to the cleanup process are made to run flawlessly.

EUROPE'S BRAND NO.1*

Bosch in every detail.
German Engineered.

Every detail of every appliance has been carefully designed, produced and tested by our engineers to fully meet the highest standards in quality, performance and convenience. The result is cutting-edge technology, timeless design and remarkable ease of use, reducing the workload for you in the kitchen and consistently delivering perfect results.

Why choose Bosch?

Proven Quality

Bosch appliances offer premium quality, advanced technology, ease of operation and outstanding German-made and engineered technology. These attributes have earned us many national and international accolades, such as the Red Dot Design Award, the iF Product Design Award and other endorsements, year after year.

Top Performance

What drives us every day is our desire to improve. We strive to make the best even better, by developing functional, durable and energy-efficient innovations that surpass all expectations.

Maximum Convenience

Bosch is dedicated to making your life easier. Our innovative built-in appliances are easy to use, while sophisticated features deliver the best results every time, saving you time and effort.

Legacy meets innovation.

For over 130 years, Bosch has been inventing state-of-the-art appliances that make home life easier. Explore some highlights of our history – and look forward to an exciting future.

1972 Non-stop convenience

The world's first combined washer-dryer was launched over four decades ago, bringing ease into the laundry room. Transferring heavy, wet laundry was a thing of the past.

1886 How it all began

Robert Bosch always acted on the belief that honest workmanship is more important than temporary gain. His first workshop in Stuttgart, Germany, laid the foundation for highest quality and technical perfection.

2017 Our connected future

By 2020, all our appliances will be smart-home-ready – allowing you to check the contents of your fridge from the supermarket, or prepare your favourite coffee while you're in the elevator.

1933 Pioneer in refrigeration

In 1933, the first Bosch refrigerator entered the market, followed in 1952 by our first kitchen machine. Storing food and preparing delicious meals now entailed much less effort.

2020 State-of-the-art production worldwide

As of 2020, Bosch appliances are manufactured worldwide. the Group's 40 production sites are located in Europe, the United States, Latin America and Asia. Thanks to a strong global network and sales, production and service, Bosch empowers consumers around the world with thoughtfully engineered German technology.

Positive energy. Positive mind.

Responsibility at the touch of a button.
Bosch home appliances.

All Bosch home appliances are manufactured with particular care for resources. Because we work completely sustainably in all areas. It starts before production and only ends when the packaging material has been recycled. You'll recognise our most efficient models by the "Green Technology inside" signet. With them, you can tale responsibility for the environment at the touch of a button as you do the housework. And even our most environmentally friendly home appliances are naturally still uncompromisingly powerful.
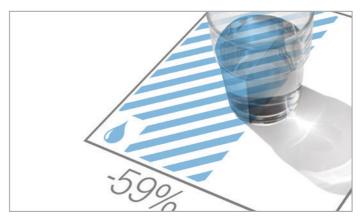

Green Technology inside

With Green Technology inside, we're flying the flag for sustainability.

Around 40% of our patent applications relate to environmental protection and the careful use of resources. Today, our home appliances are amongst the most efficient and economical in the world. That's good for the environment and for your wallet.

We don't do things by halves. Except when it comes to saving water.

Have you ever tried to halve your water consumption? We have. Since 1990, we've been able to cut the water consumption of our appliances by more than half.
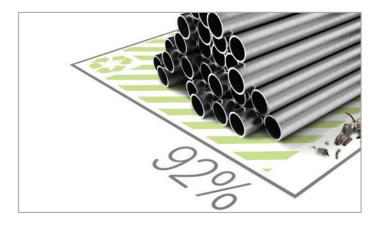

Ingeniously packed, efficiently transported.

We save resources on transport, too. For example, we pack our dishwashers so efficiently that we can now transport even more products at the same time. This not only reduces packaging material, it also saves fuel and thereby cuts CO_2 emissions.

For us, waste isn't just rubbish.

Collecting and separating the production waste in our factories is a matter of course. And now we also recycle 92% of it.

Innovative technology.
Simply beautiful design.
Beautifully simple to use.

It's not enough for a piece of technology to be easy to understand. It should also be approachable. It should be fun to use. At Bosch, simplicity in design and ease of use go hand in hand. The Serie 8 range demonstrates this perfectly.

Outstanding design.

At Bosch, we put passion into the work we do and it shows in the numerous awards we have won throughout the years. We wouldn't be known as one of the leading suppliers of home appliances if we left a single detail to chance. Threfore, our designers ensure that individual modules are combined flexibly and efficiently while still looking wonderful. And we're not the only ones who think so. For years and years, our appliances have been at the pinnacle of international awards, such as the IF Product Design Award and the Best Interior Innovation Award.

Over 200 international Design awards in the past 5 years.

Get creative – we'll take care of the rest.

You don't have to be tech-savvy to use home appliances. You can rely on sensors to automatically detect things you no longer need to worry about. These sensors guarantee consistent results by responding to changes and always ensuring perfect timing. This means you can achieve perfect results with ease, giving you time to get creative in the kitchen.

VitaFresh^{pro}
Keeps food fresh up to 3x longer.

PerfectAir
Automatically adjusts the level of ventilation to the amount of vapour in the air.

SensorControl Plus
Always the perfect consistency – at the touch of a button.

PerfectDry
Dries as perfectly as it cleans – even plastic.

PerfectRoast
Delivers roasted dishes prepared on point.

PerfectBake
Automatically achieves perfect baking results.

PerfectCook
Prevents your dishes from overcooking and boiling over.

Best in class service quality.

Quality, simplicity and perfect results:
The promise of Bosch.

8.300 service engineers worldwide with up-close control of all services by Bosch ready to work on delivering the perfect results.

**A wide support and advice network**
Always ready to assist you.

A 10-year wide range of original Bosch accessories and spare parts availability for your peace of mind.

Suitable warranty made to suit our consumers' needs.

Customer, satisfied.

There are **18** customer service locations in the Arab region which provide you with premium home appliances and service availability around the clock, making your life at home with all the little challenges, better.

United in global projects.

Today, Bosch Home, headquartered in Munich, is active in **50** countries and operates **40** factories across South and North America, Europe and Asia.

This global network not only performs development work, but also boasts highly efficient manufacturing facilities. By setting up local production facilities and sales organisations, we have been able to meet the specific needs of our customers in the various countries with optimum effectiveness.

By offering home appliances that excel in terms of quality, function and design, Bosch home appliances is your experienced partner. After all, quality engineered in Germany is in demand across the world.
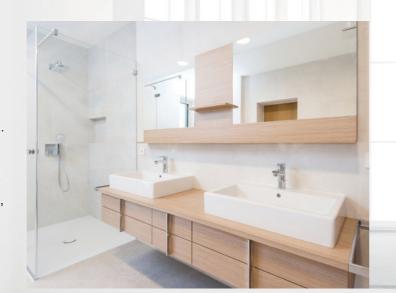

Even more support for your project.

Robert Bosch includes leading brands of connected appliances, security and safety systems, heating and cooling solutions.

Heating and Hot Water

Smart and efficient Bosch's customized solutions for indoor climate and domestic hot water feature state-of-the-art technology, connectivity, ease of use and attractive design.

Bosch uses its comprehensive know-how to provide the right solutions, whether in condensing technology, solar thermal systems, heat pumps, or combined heat and power.

Video Systems

Innovative security where you need it most. Bosch's Video Systems are built to suit your needs and deliver relevant video images and data of the highest quality anytime, anywhere. By using cutting-edge intelligence and video analytics, these systems ensure that big video data remains manageable, network strain and storage requirements are minimized and video data is secure.

Fire Alarm Systems

Bosch offers the most reliable systems that include fire sensors, voice evacuation and control software to quickly locate, detect, verify and contain fires. These systems are comprehensive, tailor-made solutions for almost any project. They fulfill and even exceed aesthetic standards and market requirements.

Intrusion Alarm Systems

With decades of experience and an unwavering dedication to high-quality and high-performing products. Bosch provides outstanding intrusion alarm solutions. Millions of users rely on us for superior intrusion detection, in many prestigious locations around the world.
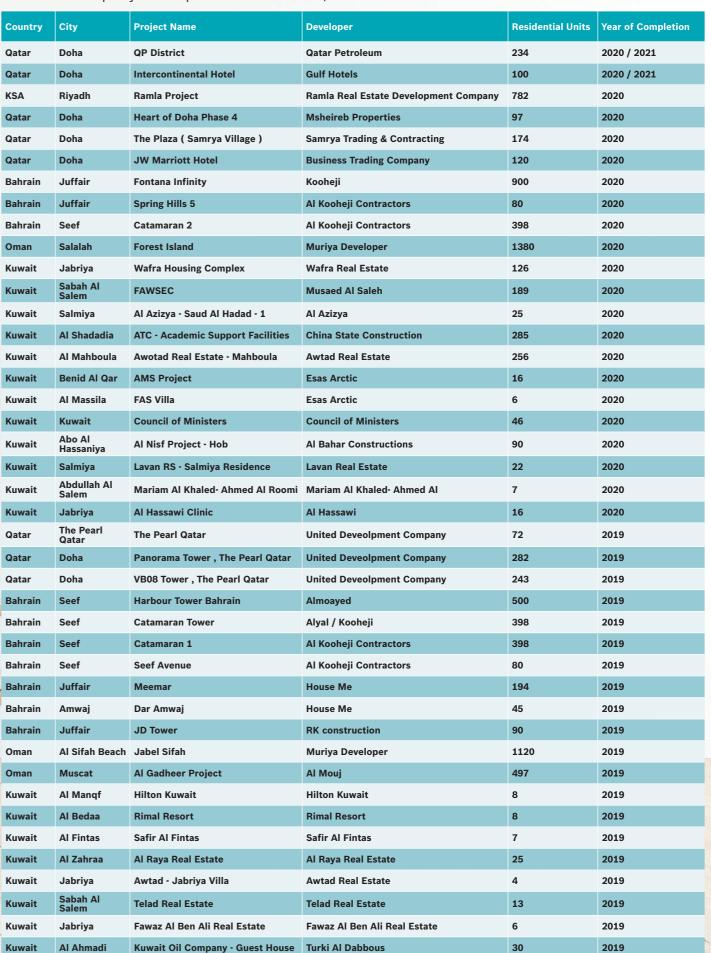

Beyond your homes.

More time to follow all your passions.

With Bosch New Range Cookers and its 147L XXL oven Cavity, you get to have more free time to spend it doing the things you love, rather than the things you have to do.

Model shown: HGV1E0U50M

Introducing the Bosch oven range.

Whatever kind of cook you are, we have a range of smart and stylish built-in single or double ovens for you to choose from. Serve your meals using one of our innovative added steam ovens, and if you're limited on space, our easy to use microwaves and compact appliances will do you the favor of perfecting the results, every single time.

Serie 8   +++

With their impressive technology, elegant design and sensor-controlled programmes, our **Serie 8** ovens meet every need and more in the kitchen. The innovative control wheel provides full control over your dishes at all times.

Serie 6   ++

Simple elegance meets superior technology. **Serie 6** ovens give you more than just convenient operation and energy efficiency. Modern functionality means your oven is easy to use with various programmes to suit different foods.

Serie 4   +

Modern design, quality engineering and practicality. Our **Serie 4** oven range looks stunning inside and out. Easy to use functionality with a selection of cooking programmes to choose from.

Model shown: CFA634GS1B

Cooking functions explained.

Check model for available functions.

4D HotAir
Place your food on any of the four shelf levels to achieve consistently perfect results: thanks to the fan wheel that changes the direction of rotation during operation to distribute heat evenly on every level.

3D HotAir
By maintaining the right temperature across all three shelf levels, consistently even cooking results are achieved.

Top and bottom heat
Conventional baking and roasting on one level.

Hotair grilling
By operating alternatively, the grill and fan create a rotisserie effect, perfect for creating crisp meats and poultry.

Bottom heat
Only the bottom element is heated – ideal for pastry cases, bain-marie cooking and reheating.

Pizza setting
Create authentic pizzas with crisp bases and moist toppings. Also great for quiches, tarts and frozen foods.

Full width variable grill
Grill large quantities with ease thanks to the precise temperature control. For added efficiency the door can be closed and the smells are kept in the oven.

Defrost
Gently defrosts food evenly and quicker than it would take on the kitchen counter.

Fast heat
For those times when you need your food ready more quickly, select fast heat to warm the oven faster.

Single point probe
The single point meat probe constantly measures the temperature at the core of the roast and as soon as the desired temperature is reached gives an acoustic and switches off automatically.
(Available in selected Serie 6 models only)

Perfect Roast Meat probe
Three highly sensitive measuring points determine the core temperature of your food to the exact degree, guaranteeing perfect roasting results and taking away the guesswork.
(Available in selected Serie 8 models only)

Pyrolytic cleaning
Heats the oven to around 480°C, which reduces dirt and grease deposits to dust that can be easily wiped away.

EcoClean Direct
Almost no cleaning is necessary thanks to a special coating of the rear wall that automatically absorbs grime.

Sabbath setting
Specifically to assist with certain religious requirements. Allows the oven to be set for up to 73 hours at a maximum 140°C to keep pre-prepared food warm. Oven door can be opened/closed without the display changing or causing changes to the heating and cooling fans.

CTL63ES6

Selecting the right oven for you and your kitchen.

Whether you're designing a new kitchen or you are simply updating one of your appliances, we have a wide variety of cooking products available for you to choose from. Depending on the space you have in your kitchen.

Serie 8 ovens.

With their superior technology, elegant design and crystal clear TFT-touch display, our **Serie 8** ovens meet every need in the kitchen. The innovative control wheel provides convenience and functionality with full control over your dishes at all times. Plus, thanks to sensor-controlled programmes, you'll achieve **perfect results** every time.

4D HotAir

Even heat. Maximum flexibility. Thanks to **4D HotAir,** you can place your food on any of the four shelf levels and the results will be consistent. Our motor and fan wheel design makes it possible: it changes the direction of rotation during operation to distribute heat evenly on every level. And that's not all: with 4D HotAir, you can also bake and roast on up to four different levels simultaneously. So you'll enjoy reliable results from top to bottom.

Perfect results at your fingertips.

Discover our sensor-controlled functions with **BoschAssist, PerfectBake** and **PerfectRoast**. These features automatically set precise information on temperatures and cooking times for all kinds of dishes, plus you can simply scroll through to find our intuitive baking and roasting functions.

PerfectRoast

Traditional British beef, Easter lamb or Sunday roast chicken – with the **PerfectRoast meat probe**, perfect results are guaranteed every time. With three temperature sensors for even more accuracy, the meat probe measures the core temperature of the food – removing the guesswork. Just like a professional chef, but with complete ease. Three highly sensitive measuring points determine the core temperature of your food to the exact degree, guaranteeing perfect roasting results and taking away the guesswork.

PerfectBake

Baking has never been easier. The **PerfectBake sensor** offers precise sensitivity and constantly measures the moisture level of dishes, as well as automatically regulating the baking process.

Pyrolytic Cleaning

Cleaning the oven by hand can be very exhausting and time-consuming. Thanks to our ovens with the integrated self-cleaning function **Pyrolysis**, you can now save yourself this task for good. Without getting your hands dirty or using any chemical cleaning products. Just remove the trays and rails, press Start and your oven will heat up to max. 480 °C and reduce away any grease/ food residues. All that's left for you is a bit of dust, which is easily wiped away.

Model shown: HRG676956B

Serie 6 ovens.

Simple elegance meets impressive technology. Serie 6 ovens give you more than just convenient operation and superb energy efficiency. Modern functionality means your oven is easy to use with various programmes to suit different foods, all available to view clearly on the large LED display.

2 Piece Slim Universal Pan

The optimum solution for cooking smaller quantities, different foods, different combinations and different cooking durations - all made easier with the two piece slimline pan concept.

▶ Each pan is the half-width of a universal baking tray - 18.5cm

Transfers from fridge to oven and to dishwasher when finished.

3D HotAir
Allows cooking on up to 3 shelves all at once. The fan at the back of the oven distributes the heat from the ring heating element behind the back panel evenly around the cooking cavity ensuring even temperatures.

▶ HotAir cooks at lower temperatures, so this cuts down soiling of grease and fat.

Model shown: HBS573BS0B

Whichever model you choose from our Serie ranges, you'll find lots of reasons to love your Bosch oven.

Introducing the Bosch electric hob range.

As you would expect from Bosch, all our electric hobs are made using high quality materials, are easy to use and add contemporary elegance to any kitchen.
To help you choose the right electric hob for your home we have divided them into the three ranges below.

Combination design.

Using the highest quality stainless steel and glass, our ovens and compact appliances combine beautifully to deliver a timeless, elegant and stylish finish to any kitchen with sleek, coordinated lines and matching panels.

Coordination possibilities.

For the optimum in-design coordination, choose appliances belonging to the same Serie family to create seamless lines in your kitchen.

Serie 8 +++

For more design combinations and alternative VIBs, please visit our website or ask your kitchen designer.

Serie 8 +++

Our **Serie 8** range of electric hobs combines convenience and elegant design, allowing you to select individual cooking zones and power levels. All controlled at just the touch of a button with the modern touch control.

Serie 6 ++

Expect excellent operation and timeless designs with our **Serie 6** range of hobs. You'll get premium engineering and materials so that you can always cook something a little bit special. Get ultimate control with the easy to use DirectSelect touch control.

Serie 4 +

Featuring a range of **Serie 4** electric hobs that are convenient and simple to operate, our essential range maintains classic design with contemporary style.

Model shown: **PXY875KW1E**

Whichever model you choose from our Serie range, you'll find lots of reasons to love your Bosch electric hob.

Twice as fast as gas.

Induction hobs can heat food and boil water nearly twice as fast as gas and three times faster than ceramic hobs*. And as they're also more energy efficient, you'll save money as well as time.

Express cooking.

Induction cooking with a turbo boost. The **Boost function** allows you to increase the power of the cooking zone by 50% - perfect for large pots and pans or when you're in a hurry.

Easy to clean.

Automatic pan recognition only heats up the base of the pan and not the rest of the zone, which doesn't waste energy and leaves the rest of the hob cool to touch. Keeping the hob cooler makes it safer and also prevents spillages from burning on so it's easy to clean.

*Based on time required to heat 2 litres of water at 15°C to 90°C using Bosch hobs. In accordance with EN 50304/ EN 60350: 2009.

Clean up in an instant.

In case of any spills, simply select the **Freeze function** which freezes all the heat settings so you can thoroughly wipe and clean the hob surface. To restore the previous heat settings simply touch the button again!

Model shown: **PXV851FC1E**

Cooking, that is designed around you.

Ultimate flexibility with FlexInduction. One, two or three pots, or even a large casserole: the Bosch FlexInduction hob leaves it up to you. At the flick of a switch, you can combine two induction zones into a large induction surface on which you can cook the way you want.

Even more flexibility

Available on selected **Serie 8** FlexInduction hobs, the **extended FlexInduction zone** offers optimum flexibility. The amount of usable surface on the hob is maximised to accommodate even the largest of cookware. With **CombiZone**, two cooking zones can be linked, making the switch from small to large pans effortless. Plus, the **MoveMode function** automatically switches from boil to simmer with a simple slide of the saucepan.

TFT Display

Clear text and pictures allow simple operation of the integrated touch display.

More control at your fingertips.

DirectSelect
No more scrolling up or down, just simply press one button to select the right heat level. Models with **DirectSelect Premium** touch controls feature an additional minimum temperature setting giving you added cooking control.

Cooking with induction is not just quick, safe and clean

Cooking with induction is safer than all other alternatives. As only the base of the pan is heated and not the entire hob, this will be warm to touch but should not burn.

There is also a child safety feature: the built-in lock function means that you can lock the surface of your hob and prevent it from being used accidentally, giving you the highest level of safety.

Model shown: PXY875KW1E

Perfect results, every time.

✔ **Perfect**Cook

May your pasta never boil over again. Our hobs are designed with a sensor so you'll be able to control your cooking by the temperature in the pan rather than the power level. So whether you're defrosting, warming up, cooking or deep fat frying, you're in control with our smart **CookingSensor**. Because precise temperature control guarantees perfect cooking results.

This feature requires the additional purchase of a **CookingSensor** to operate.

 Available from www.bosch-home.com/ae/

✔ **Perfect**Fry

Enjoy perfectly cooked steak, however you like it. Our clever **FryingSensor** measures the temperature in the pan for perfect results. So when you're reducing a sauce, the heat will be low and gentle, and when you want a high heat for frying a steak, you'll have precisely the right temperature. Say goodbye to overcooking and under-cooking your favourite meals.

Model shown: **PXX975KW1E**

Introducing the Bosch gas hob range.

Welcome to intuitive cooking. The advanced technology built into our hobs makes cooking on gas simple and precise. Understanding how you cook means we've been able to design a FlameSelect feature that lets you fry, stew, steam and boil with confidence – without constantly checking the flame.

Serie 8   +++

Our **Serie 8** range of gas hobs combines convenience and truly elegant design with ultimate cooking control, meaning a truly professional performance in the kitchen.

Serie 6   ++

Expect excellent operation and timeless designs with our **Serie 6** range of hobs. You'll get premium engineering and materials so that you can always cook something a little bit special.

Serie 4   +
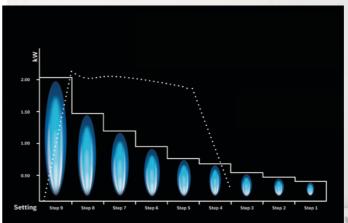

Featuring a range of gas hobs that are convenient and simple to operate, our **Serie 4** range maintains classic design and style.

FlameSelect
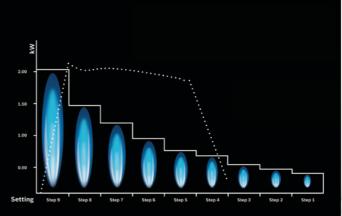

Gas without the guesswork.

The gas cooktops with FlameSelect are equipped with nine precisely defined power levels which let you adjust the required flame intensity, as well as the ideal heat easily and reliably. For simply perfect cooking results.

Standard gas hob valve power output.

FlameSelect valve with consistent power output.

FlameSelect

We're taking the guesswork out of using a gas hob. Our innovative StepValve technology regulates the gas output precisely, so you're able to choose the size of flame. With an easy-to-use setting, all you need to do is decide which of the 9 power settings you want. At last, FlameSelect gives you the confidence to cook on gas without leaning down to check it.

Flame size based on gas setting and energy consumption
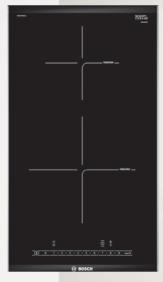

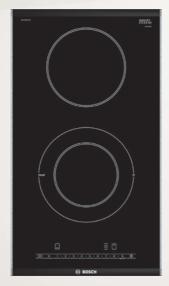

Design match.

If you want a selection of cooking options within your kitchen, this can be realised with a combination of our worktop cooking appliances. You can select everything from our great range of Induction, Ceramic or Gas Domino hobs.

Induction Domino Hob

Ceramic Domino Hob

PRB3A6D70M

PXX375FB1E

PKF375FP1M

These hob appliances can be arranged side by side to create a larger cooking surface area, or positioned on their own to create a separate cooking space. Ideal for smaller kitchens that do not have the space for large hobs.

TIP: Ensure your extractor hood is the same width as the worktop appliance you choose.

Gas hobs.

Serie 6 ++

PPS9A6B90M

FlameSelect: A precise adjustment of the flame in nine defined levels.

Wok Burner: Powerful cooking at up to 4 kW.

Standard and semi-flush built-in option: Choose between flush or surface mounted installation.

Tempered-glass surface: Elegant design and easy cleaning.
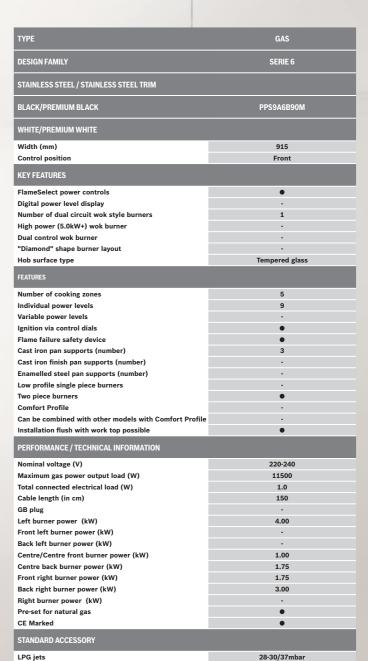

Continuous cast-iron pan support: For high firmness and stability of cookware.

A touch of the Orient

Powerful, dual ring wok burners are perfect for oriental cooking. They deliver a boost both in power and speed, but can also be used very effectively at lower settings when required.

Smart design

Square design pan supports don't just look good, but provide more stability for pots and pans. Cleverly designed to fit together, they are separate pieces, which make them easy to handle and clean. The elegant tempered glass base allows for a choice of surface mounting for quick and easy installation, or flush mounting.

Introducing the Bosch hood range.

Offering a blend of function and form, Bosch hoods deliver quiet, effective extraction that makes the kitchen and home a more pleasant environment. Make a bold design statement, or complement a more minimalistic look.

To help you choose the right hood, we have divided them into four ranges.

Serie 8   +++

With our **Serie 8** range of hoods experience automatic extraction rate control with **PerfectAir** sensor technology. Our hoods offer high quality craftsmanship combined with cutting-edge technologies to make the kitchen a more pleasant environment.

Serie 4   +

As the centre of family life, the kitchen needs to have a comfortable atmosphere free of cooking steam and disruptive noise. Our **Serie 4** range of cooker hoods are extremely quiet, easy to operate and impressive with their modern design.

Serie 2

With our **Serie 2** range of hoods, you can be assured of high quality design and features that make your life easier in the kitchen, such as easy-to-use controls and dishwasher-proof metal grease filters for greater convenience.

Model shown: DWK98PR60B

Whichever model you choose from our Serie range, you'll find lots of reasons to love your Bosch hood.

Why shout when you can whisper?

The motors in all of our hoods need to deliver powerful performance for maximum extraction, but that doesn't mean your home environment has to suffer. We have designed state-of-the-art motors in most hoods that generate noise levels of just 45 decibels*, which is about the same level of sound as a quiet conversation. And our quietest model delivers a library-quiet peacefulness of just 41 decibels**.

*Sound power measured according to EN60704-3 on largest pipe diameter. **Noise level (sound power) based on dB(A) re 1 pW

EcoSilence Drive™

Our **EcoSilence Drive™** brushless friction-free motor and energy saving LED lights reduce energy consumption by up to 80% compared to a similar five-year-old model, without compromising results.

In this light, even your electricity bill looks good.

Our hood ranges incorporate energy efficient lighting that can be adjusted for bright illumination to work under, or lower illumination for ambient mood lighting in the kitchen thanks to the dimmer function.

Hob Hood control

Control your hood via your hob with Hob Hood Control and selected Bosch hobs. Both the hob and the hood are equipped with a Wi-Fi module, enabling them to directly connect to each other securely. As soon as your hob is turned on, your hood is also switched on and thanks to the **PerfectAir** sensor, it starts extracting as soon as you start cooking. When you're done cooking, the hood automatically switches off after a brief run-on time, so you can be sure that unpleasant kitchen odours really do disappear. If you want to control the hood directly, just activate manual mode on the hob controls with the touch of a finger. In addition to the extraction rate, you can also control the lights of the hood via the hob.

Hood functions explained.

(Check model for avalaible functions.)

EcoSilence Drive
Our EcoSilence Drive brushless friction-free motor is durable and designed to last longer. The motor is highly efficient and offers exceptional performance while saving you energy.

TouchControl
Set the exact power level with a single touch thanks to TouchControl. It's easy to operate: simply select the right power level or turn on the lights and away you go.

CleanAir Module
For maximum air purity at minimum volume. Clean is good, even cleaner is better: With our CleanAir module for circulating systems, you can increase the odour absorption of the cooker hood by as much as 95%.

Silence
Your guests are not alone in appreciating a relaxed cook. So you can chat with your guests while cooking, we have made our cooker hoods so quiet you hardly notice them.

Easy mounting
Easy to install appliances give you another reason to choose a Bosch Hood.

PerfectAir
A sensor constantly detects the levels of odours in the air and adjusts the power level – from light use to intensive – to ensure your kitchen air is always clean and fresh.
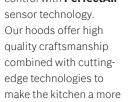

Hob Hood Control
Control your hood via your hob with Hob Hood Control and selected Bosch hobs.

Filter Saturation Indicators
Out of sight, out of mind: When it comes to the filters in our hoods we often forget to check if they need to be changed. With Home Connect you can now check the state of your hood's filters, and receive valuable maintenance information. Simply log onto the app to check the carbon and grease saturation of your filters and whether a replacement is necessary.

A hood for every kitchen.

Wall-mounted.

Wall-mounted cooker hoods are generally mounted above the hob, on the wall between the wall units. This type of cooker hood fits beautifully into the line of your kitchen units whilst providing effective ventilation that you'll barely see – but you'll notice the amazing effect.

Pyramid Chimney

Impress with classic lines and gently inclined contours.

Box Chimney

Chimney hoods in a box design perfectly complement your hob installation.

Canopy

Bosch canopy cooker hoods are powerful ventilation systems that can be integrated into the cabinets above your hob. The hood provides excellent extraction of steam and cooking smells, as well as providing additional lighting for your cooking surfaces.

Flat Slimline

This slim design is perfect for keeping an eye on your pots and pans.

Island

Our Island cooker hoods have been specially developed for use over your kitchen island and are freely suspended from the ceiling above it. Thanks to the wide choice of classic designs and different sizes, island cooker hoods offer the ideal solution for every kitchen and every requirement.

Worktop

DownDraft

The DownDraft hood is concealed inside your worktop, next to your existing induction hob. It rises up smoothly when needed and includes powerful LED lights to illuminate your cooking.

Chimney

Our chimney hoods use a box design to perfectly complement your island hob installation.

Ducted or recirculation mode?

Ducted extraction

Ducting out is the most effective method of extraction if the hood can be sited on an outside wall, or an outside wall can be reached via ducting. The main difference between ducted and recirculation cooker hoods is that ducted systems can extract steam and odours, as well as grease. All our extractors are now standardized to a 150mm diameter outlet for easier installation. Use of 120/125mm diameter ducting is also possible, but will result in reduced air flow and increased noise. Use of 100mm diameter ducting is not recommended.

The following points should be observed for optimum ducted extraction results:

1. Ensure any pipe elbow bends are at least 30cm from the hood ducting opening.
2. Avoid reducing the diameter or area of the ducting.
3. Use wide-angled pipe elbows, but keep the number used to a minimum.
4. Only install pipes with smooth, even inner surfaces. If a flexible hose has to be used, ensure it is pulled tight to smooth out the ridges before fixing.
5. Avoid reducing the diameter or area of the ducting.
6. Use ducting pipes with a diameter of at least 120mm, but ideally 150mm.
7. Keep piping to a minimum – use the most direct route to external outlet.
8. Make sure that there is an adequate supply of fresh air to replace the air ducted out of the kitchen i.e. windows that can be opened, doors to adjacent rooms, air bricks.

Problems with installation may occur if points 1 to 8 are not observed.

Recirculation kit

Cooker hoods with recirculation are energy-efficient and much easier to install. Air is passed through the metal filter to extract the grease and then through a special charcoal filter, which removes odours. The purified air is then returned to the room. As no ducting openings are necessary, this is an energy-efficient method of extraction as no energy can escape (ie. cool air in the summer or warm air in the winter), making it a good choice for low energy houses. The kit contains all you need to set the hood up for recirculation and installation is relatively easy. Check each model for details on the appropriate recirculation kit accessory.

Tips and hints

1. Calculate the extraction capacity needed.
2. Choose a hood with at least the same width of your hob.
3. Ensure efficient pipe ducting installation.
4. As a guide the hood should be installed at a minimum of 65cm above a gas hob or 55cm above an electric hob.
5. To effectively remove cooking odours from your kitchen, switch the hood on 5-10 minutes prior to cooking.
6. Leave the hood to run at a low setting after cooking has finished for 5-10 minutes to remove any lingering odours. Or simply select the Automatic After Running function, which enables the hood to continue running at a low speed for 10 minutes before automatically turning itself off (available on selected models).
7. Regularly clean metal grease filters to ensure optimum extraction performance. All of our metal grease filters, brushed steel filters and rim ventilation filters are dishwasher-proof.
8. Choosing the correct extractor. As a guideline, the air in the room should be changed 6-12 times per hour. Calculate the floor area in square metres and multiply by the height of the room in metres. Then divide the maximum extraction rate of your chosen hood by the figure calculated above. The resulting figure should be at least 7, but preferably as close to 12 as possible.

Example

Kitchen (H x W x D) metres 2.1 x 4.5 x 4.2 = 39.7m^3.
Assume a maximum of 12 air changes per hour – multiply 39.7m^3 by 12 = 476m^3/h. Choose a hood capable of extracting at least this amount of air per hour – e.g. DWB96DM50B (max ducted extraction rate intensive 580m^3 per hour).

A breath of fresh air in hood design.

Now your cooker hood can automatically control the air that you breathe. Intuitive sense technology from Bosch now makes cooking easier than ever.

✹ **Perfect**Air

When you're busy cooking, the last thing you need to think about is adjusting your hood to clear any steam in the kitchen. **PerfectAir** is our advanced feature that clears the air without you having to do anything.

A sensor constantly detects the levels of odours in the air and adjusts the motor level – from light use to intensive – to ensure your kitchen air is always clean and fresh.

A breath of fresh air

The **PerfectAir** sensor continually detects the level of odours in the air during the cooking process and automatically adjusts the power level to ensure optimum extraction performance. So there is no longer any need to manually adjust the power levels. This means that you can concentrate on your cooking rather than worrying about whether your hood is on the right setting.

Cooktop	• Gas cooktop • Burners: 2 standard, 1 economy, 1 high speed • Front left: Rapid burner 3 KW • Rear left: Standard burner 1.75 KW • Rear right: Standard burner 1.75 KW • Front right: Economy burner 1 KW • Two hand ignition • Flame failure safety device • Steel pan supports • Glass cover lid	• Gas cooktop • Burners: 2 standard, 1 economy, 1 high speed • Front left: Rapid burner 3 KW • Rear left: Standard burner 1.7 KW • Rear right: Standard burner 1.7 KW • Front right: Economy burner 1 KW • Two hand ignition • Flame failure safety device • Steel pan supports • Glass cover lid	• Glass ceramic cooktop • 4 HighSpeed cooking zones • Front left: Standard cooking zone 1.2 KW • Rear left: Standard cooking zone 1.8 KW • Rear right: Standard cooking zone 1.2 KW • Front right: Standard cooking zone 2.2 KW • 4-stage residual heat indicator	• Gas cooktop • Burners: 2 standard, 1 economy, 1 high speed • Front left: Rapid burner 3 KW • Rear left: Standard burner 1.75 KW • Rear right: Standard burner 1.75 KW • Front right: Economy burner 1 KW • 1 Hand ignition • Flame failure safety device • Cast iron continuous pan supports • Glass cover lid • Full glass inner door	• Glass ceramic cooktop • 4 HighSpeed cooking zones including 1 dual circuit zone • Front left: Standard cooking zone 1.8 KW • Rear left: Standard cooking zone 1.8 KW • Rear right: Standard cooking zone 1.2 KW • Front right: Dual circuit zone 2.2 KW • 4 stage residual heat indicator • EcoClean Direct: Coating of back panel • Full glass inner door	• Gas cooktop • Burners: 2 standard, 1 economy, 1 high speed • Front left: Rapid burner 3 KW • Rear left: Standard burner 1.75 KW • Rear right: Standard burner 1.75 KW • Front right: Economy burner 1 KW • 1 Hand ignition • Flame failure safety device • Cast iron continuous pan supports • Glass cover lid • EcoClean Direct: Coating of back panel • Full glass inner door	• Glass ceramic cooktop • Front left: Standard cooking zone 1.8 KW • Rear left: Extendable oval zone, Dual circuit zone 2.4 KW • Rear right: Standard cooking zone 1.2 KW • Front right: Dual circuit zone 2.2 KW • 4 stage residual heat indicator
Type of oven / heating system	• Gas freestanding cooker with 2 heating methods: Gas grill, Gas bottom heat • Cavity volume: 71 l	• Cavity volume: 71 l	• Electric freestanding cooker with 5 heating methods: Conventional heat, Bottom heat, Full width variable grill, Half width variable grill • Temperature range 50 °C - 275 °C • Cavity volume: 71 l	• Extra large capacity oven (112 l) with grey enamel • Multifunction oven • 4 Cooking functions: Rotisserie Gas grill, Gas top/bottom heat, Gas bottom heat • Rotary spit • Catalytic oven cavity (rear and side walls)	• Electric freestanding cooker with 6 Heating methods: 3D hotair, Conventional heat, Hot air grilling, Defrost, Hotair gentle, Full width variable grill • Temperature range 50 °C - 275 °C • Cavity volume: 66 l	• Gas combination freestanding cooker with 6 heating methods: 3D hotair, Conventional heat, Hot air grilling, Defrost, Hotair gentle, Full width variable grill • Temperature range 50 °C - 275 °C • Cavity volume: 66 l	• Electric freestanding cooker with 8 heating methods: 3D hotair, Conventional heat, Hot air grilling, Pizza setting, Bottom heat, Defrost, Hotair gentle, Full width variable grill • Temperature range 50 °C - 275 °C • Cavity volume: 66 l
Hook-in racks / rails	• Shelf support rails	• Shelf support rails	• Shelf support rails • Telescopic shelf rails as optional accessory	• Shelf support rails	• Shelf support rails • Telescopic shelf rails as optional accessory	• Shelf support rails • Telescopic shelf rails as optional accessory	• Shelf support rails • Telescopic shelf rails as optional accessory
Design / Cleaning / Comfort							• Retractable controls • Extra large capacity oven with GranitEnamel • EcoClean Direct: coating of back panel • Full glass inner door • LCD-display control (white) • Electronic clock • Rapid heating-up • Halogen interior lighting • Standard drawer for kitchen utensils
Accessory	• 1 x universal pan, 1 x grid	• 1 x enamel baking tray, 1 x grid	• 1 x enamel baking tray, 1 x grid, 1 x universal pan	• 1 x alu baking tray, 1 x universal pan, 1 x grid, 1 x cross support for espresso	• 1 x enamel baking tray, 1 x universal pan, 1 x grid	• 1 x enamel baking tray, 1 x universal pan, 1 x grid, 1 x cross support for espresso	• 1 x enamel baking tray, 1 x universal pan, 1 x grid
Environment and Safety							• Mechanical safety locking device Child lock • Energy efficiency rating (acc. EU Nr. 65/2014): A (at a range of energy efficiency classes from A+++ to D) Energy consumption per cycle in conventional mode: 0.98 kWh Energy consumption per cycle in fan-forced convection mode: 0.79 kWh Number of cavities: 1 Heat source: electrical Cavity volume: 66 l
Technical information	• Length of main cable: 120 cm • Nominal voltage: 220 - 240 V • Total connected load gas: 10.5 KW • Preset nozzle: Liquid gas (28-30/37mbar) • Natural gas nozzles (20 mbar) included	• Length of main cable: 120 cm • Nominal voltage: 230 V • Total connected load gas: 10.5 KW • Preset nozzle: Liquid gas (28-30/37mbar) • Natural gas nozzles (20 mbar) included	• Length of main cable: 120 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 9.25 KW	• Length of main cable: 120 cm • Nominal voltage: 220 - 240 V • Total connected load gas: 10.5 KW • Preset nozzle: Liquid gas (28-30/37mbar) • Natural gas nozzles (20 mbar) included	• Length of main cable: 120 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 10.3 KW	• Length of main cable: 120 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 3.3 KW • Total connected load gas: 7.5 KW • Preset nozzle: Liquid gas (28-30/37mbar) • Natural gas nozzles (20 mbar) included	• Length of main cable: 120 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 10.9 KW
Dimensions	• Adjustable feet by 50 mm • Appliance dimensions (hxwxd): 850 mm x 600 mm x 600 mm	• Adjustable feet by 50 mm • Appliance dimensions (hxwxd): 850 mm x 600 mm x 600 mm	• Adjustable feet by 50 mm • Appliance dimensions (hxwxd): 850 mm x 600 mm x 600 mm	• Adjustable feet by 50 mm • Appliance dimensions (hxwxd): 850 mm x 600 mm x 600 mm	• Adjustable feet by 50 mm • Appliance dimensions (hxwxd): 850 mm x 600 mm x 600 mm	• Adjustable feet by 50 mm • Appliance dimensions (hxwxd): 850 mm x 600 mm x 600 mm	• Adjustable feet by 50 mm • Appliance dimensions (hxwxd): 850 mm x 600 mm x 600 mm

Built-in Oven

Type of oven / heating system	• Heating system multifunction (4 heating modes: Conventional heat, Hot air grilling, Circulated Air, Full width variable grill) • Temperature range 50 °C - 270 °C • Mechanical timer • Cavity volume: 66 l	• Oven with 6 heating methods: 3D hotair, Conventional heat, Hot air grilling, Defrost, Hotair gentle, Full width variable grill • Temperature range 50 °C - 275 °C • Cavity volume: 66 l	• Oven with 8 heating methods: 3D hotair, Conventional heat, Hot air grilling, Pizza setting, Bottom heat, Defrost, Hotair gentle, Full width variable grill • Temperature range 50 °C - 275 °C • Cavity volume: 66 l	• Oven with 8 heating methods: 3D hotair, Conventional heat, Hot airgrilling, Pizza setting, Bottom heat, Defrost, Hotair gentle, Full width variable grill • Temperature range 50 °C - 275 °C • Cavity volume: 66 l	• 3 Operating methods: Full-surface grill/broiler, Max Rotisserie, Gas bottom heating • Grill heating element: Electric 1.8 KW • Oven capacity 60 l	• Oven with 8 heating methods: 3D hotair, Conventional heat, Hot air grilling, Pizza setting, Bottom heat, Defrost, Hotair gentle, Full width variable grill • Temperature range 50 °C - 275 °C • Cavity volume: 66 l	• Oven with 13 heating methods: 4D hotair, Hotair Eco, Conventional heat, Conventional heat ECO, Hot air grilling, Full width grill, Half width grill, Pizza setting, Bottom heat, Low temperature cooking, Defrost, Preheating, Hold warm • Temperature range 30 °C - 300 °C • Cavity volume: 71 l
Comfort	• Interior lighting • Enamelled cavity (brown) • Integral cooling fan	• LED-display control (red) • Electronic clock • Drop down door • Rapid heating-up • Integral cooling fan • Halogen interior lighting	• LCD-display control (white) • Electronic clock • Drop down door • Rapid heating-up • Integral cooling fan • Halogen interior lighting	• LCD-display control (white) • Electronic clock • Drop down door • Rapid heating-up • Integral cooling fan • Halogen interior lighting		• LCD-display control (white) • Electronic clock • Drop down door • Rapid heating-up • Integral cooling fan • Halogen interior lighting	• 2,5"-TFT-color and text display with touch-control buttons • Oven door with SoftOpen and SoftClose, Drop down door • Electronic clock • Rapid heating-up • Halogen interior lighting, Switch for oven illumination • Integral cooling fan • Stainless-steel fan
Cleaning	• Removable oven door for easy cleaning		• EcoClean Direct: coating of back panel • Full glass inner door	• Cleaning system: Catalytic side liners • Full glass inner door (Triple glazed)	• Cleaning system: Catalytic side liners • Full glass inner door (Triple glazed)	• EcoClean Direct: coating of ceiling, back panel, side liners • EcoClean program • Full glass inner door	• EcoClean Direct: coating of ceiling, back panel, side liners • EcoClean program • Full glass inner door
Hook-in racks / rails	• Oven cavity with removable rack supports		• 1 level telescopic shelf	1 level telescopic shelf		• 2 level telescopic shelf rails	• Cavity with shelf support rails • Telescopic slide-out accessory
Accessory	• 1 x universal pan, 1 x combination grid	• 1 x universal pan, 1 x combination grid, 1 x enamel baking tray	• 1 x universal pan, 1 x combination grid, 1 x enamel baking tray	• 1 x universal pan, 1 x combination grid, 1 x enamel baking tray	• 1 x Enamel baking tray, 1 x combination grid	• 1 x universal pan, 1 x combination grid, 1 x enamel baking tray"	• 2 x combination grid, 1 x universal pan
Environment and Safety		• Child lock	• Child lock • Residual heat indicator	• Child lock • Residual heat indicator	• Overheating protection • Thermostat	• Child lock • Residual heat indicator	• Low door temperature • Child lock • Automatic switch off • Residual heat indicator • Start-/Stop button Door contact switch
Technical information	• Length of main cable: 100 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 2.8 KW	• Length of main cable: 100 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 3.3 KW	• Length of main cable: 100 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 3.3 KW	• Length of main cable: 100 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 3.3 KW	• Length of main cable: 115 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 1.9 KW	• Length of main cable: 100 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 3.3 KW	• Length of main cable: 120 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 3.6 KW
Dimensions	• Appliance dimensions (hxwxd): 595 mm x 595 mm x 548 mm • Niche dimensions (hxwxd): 575 mm - 597 mm x 560 mm - 568 mm x 550 mm	• Appliance dimensions (hxwxd): 595 mm x 594 mm x 548 mm • Niche dimensions (hxwxd): 575 mm - 597 mm x 560 mm - 568 mm x 550 mm	• Appliance dimensions (hxwxd): 595 mm x 594 mm x 548 mm • Niche dimensions (hxwxd): 575 mm - 597 mm x 560 mm - 568 mm x 550 mm"	• Appliance dimensions (hxwxd): 595 mm x 594 mm x 548 mm • Niche dimensions (hxwxd): 575 mm - 597 mm x 560 mm - 568 mm x 550 mm	• Appliance dimensions (hxwxd): 592 mm x 597 mm x 570 mm • Niche dimensions (hxwxd): 583 mm - 585 mm x 554 mm - 564 mm x 560 mm	• Appliance dimensions (hxwxd): 595 mm x 594 mm x 548 mm • Niche dimensions (hxwxd): 575 mm - 597 mm x 560 mm - 568 mm x 550 mm	• Appliance dimensions (hxwxd): 595 mm x 594 mm x 548 mm • Niche dimensions (hxwxd): 585 mm - 595 mm x 560 mm - 568 mm x 550 mm

Built-in Oven

	HBG656RS1M Serie | 8, Built-in oven, Stainless steel	CMG656BS1M Serie | 8, Built-in compact oven with microwave function, Stainless steel	VGD011BR0M Serie | 2, Gas built-in oven, 90 cm, Stainless steel	VBC011BR0M Serie | 2, Built-in oven, 90 cm, Stainless steel	VBC514CR0 Serie | 4, Built-in oven, 90 cm, Stainless steel
Type of oven / heating system	• Oven with 13 heating methods: 4D hotair, Hotair Eco, Conventional heat, Conventional heat ECO, Hot air grilling, Full width grill, Half width grill, Pizza setting, Bottom heat, Low temperature cooking, Defrost, Preheating, Hold warm • Cavity volume: 71 l	• Compact oven with microwave with 12 heating methods: 4D hotair, Hotair Eco, Conventional heat, Conventional heat ECO, Hot air grilling, Full width grill, Half width grill, Pizza setting, Bottom heat, Low temperature cooking, Preheating, Hold warm • Additional heating methods with microwave: microwave, combi microwave variable • Temperature range 30 °C - 300 °C • Max. Power: 900 W; 5 Microwave power settings (90 W,180 W,360 W,600 W, max) with Inverter (MW) • Cavity volume: 45 l	• 90 cm built-in gas oven with 2 heating methods: Full-surface grill / broiler, Gas bottom heating • Cavity volume: 92 l	• 90 cm built-in oven with 3 heating methods: Conventional heat, Full width grill, Bottom heat • Cavity volume: 85 l	• 90 cm built-in oven with 8 heating methods: Hot air, Conventional heat, Circulated Air, Hot air grilling, Full width grill, Bottom heat, Conventional heat gentle • Cavity volume: 85 l
Comfort	• 2,5"-TFT-color and text display with touch-control buttons • Oven door with SoftOpen and SoftClose, Drop down door • Baking sensor • Multipoint temperature probe • Electronic clock • Rapid heating-up • Halogen interior lighting, Switch for oven illumination • Integral cooling fan • Stainless steel fan	• 3x 2,5"-TFT color and graphics display with direct touch function • Electronic clock • Oven door with SoftOpen and SoftClose • Rapid heating-up • Integral cooling fan	• Mechanical timer • Integral cooling fan • Halogen circular light	• Extra large capacity oven with grey enamel • Drop down door • Elongated halogen light • Integral cooling fan	• Extra large capacity oven with grey enamel • Electronic clock • Drop down door • Rapid heating-up • Elongated halogen light • Integral cooling fan
Cleaning	• EcoClean Direct: coating of ceiling, back panel, side liners • EcoClean program • Full glass inner door	• EcoClean Direct: Coating of ceiling, back panel, side liners • EcoClean programme • Microwave top door	• Catalytic cleaning: Rear & side wall	• Full glass inner door	• Full glass inner door
Hook-in racks / rails	• Cavity with shelf support rails, • 1 level telescopic shelf, full extension, with Stop function	• Cavity with shelf support rails		• Telescopic shelf rails as optional accessory	• Telescopic shelf rails as optional accessory
Accessory	• 2 x combination grid, 1 x universal pan	• 1 x combination grid, 1 x universal pan	• 1 x combination grid, 1 x universal pan	• 1 x combination grid, 1 x universal pan	• 1 x combination grid, 1 x universal pan
Environment and Safety	• Low door temperature • Child lock • Automatic switch off • Residual heat indicator • Start-/Stop button Door contact switch	• Child lock Automatic switch off • Residual heat indicator • Start-/Stop button Door contact switch	• Overheating protection • Thermostat	• Automatic switch off	• Automatic switch off • Child lock
Technical information	• Length of main cable: 120 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 3.6 KW	• Length of main cable: 150 cm • Total connected load electric: 3.6 KW	• Length of main cable: 115 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 0.13 KW	• Length of main cable: 115 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 3.1 KW	• Length of main cable: 115 cm • Nominal voltage: 220 - 240 V • Total connected load electric: 3.1 KW
Dimensions	• Appliance dimensions (hxwxd): 595 mm x 594 mm x 548 mm • Nichedimensions (hxwxd): 585 mm - 595 mm x 560 mm - 568 mm x 550 mm	• Appliance dimensions (hxwxd): 455 mm x 594 mm x 548 mm • Nichedimensions (hxwxd): 450 mm - 455 mm x 560 mm - 568 mm x 550 mm	• Appliance dimensions (hxwxd): 594 mm x 896 mm x 570 mm • Niche dimensions (hxwxd): 600 mm - 604 mm x 860 mm - 864 mm x 560 mm	• Appliance dimensions (hxwxd): 475 mm x 896 mm x 572 mm • Niche dimensions (hxwxd): 477 mm - 480 mm x 860 mm - 864 mm x 560 mm	• Appliance dimensions (hxwxd): 475 mm x 896 mm x 554 mm • Niche dimensions (hxwxd): 477 mm - 480 mm x 860 mm - 864 mm x 560 mm

Freestanding Microwave/Built-in Oven

Built-in Warming Drawer

	HMT84G451M Serie | 2, Freestanding microwave, Stainless steel	BEL554MS0M Serie | 6, Built-In Microwave Oven, Stainless steel	BFL524MS0M Serie | 6, Built-In Microwave Oven, Stainless steel	BEL634GS1M Serie | 8, Built-In Microwave Oven, Stainless steel
Microwave and heating mode	• Max. Power: 900 W; 5 Microwave power settings: 90 W, 180 W, 360 W, 600 W, 900 W • AutoPilot 8 • 4 defrost and 3 cooking programmes in microwave function,1 programmes for combination function • Cavity volume: 25 l	• Max. Power: 900 W; 5 Microwave power settings: 90 W, 180 W, 360 W, 600 W, 900 W • AutoPilot 8 • 4 defrost and 3 cooking programmes in microwave function,1 programmes for combination function • Cavity volume: 25 l	• Max. Power: 800 W; 5 Microwave power settings: 90 W, 180 W, 360 W, 600 W, 800 W • AutoPilot 7 • 4 defrost and 3 cooking programmes in microwave function • Cavity volume: 20 l	• Max. Power: 900 W; 5 Microwave power settings: 90 W, 180 W, 360 W, 600 W, 900 W • AutoPilot 10 • Intelligent inverter technology: Maximum output power will be regulated to 600 W when used in longer operation • Cavity volume: 21 l
Comfort	• Memory for individual programmes (1 setting) • LED display control • Rotary Control, Pop-out controls, Touch control • Interior lighting	• Electronic clock • LED display control • Rotary Control, Pop-out controls, Touch control • LED light • Electronic door opener • Touch key operation • Memory for individual programmes (1 setting)	• Electronic clock • LED display control • Rotary Control, Pop-out controls, Touch control • LED light • Electronic door opener • Touch key operation • Memory for individual programmes (1 setting)	• Electronic clock • Rotary swivel, Touch control • LED light • Side opening door, hinge left • Electronic door opener • Touch key operation • Start-/Stop button
Accessory	• 1 x grid high	• 1 x Turntable, 1 x grid	• 1 x Turntable	• 1 x Glass tray, 1 x grid
Environment and Safety		• Automatic switch off • Door contact switch • Integral cooling fan	• Automatic switch off • Door contact switch • Integral cooling fan	• Integral cooling fan
Technical information	• Length of main cable: 100 cm • Nominal voltage: 230 - 240 V • Total connected load electric: 1.45KW	• Length of main cable:130 cm • Total connected load electric: 1.45 KW • Nominal voltage: 230 - 240 V • Suitable for high cupboard installation	• Length of main cable: 130 cm • Total connected load electric: 1.27 KW • Nominal voltage: 220 - 230 V • Suitable for high cupboard installation, Can be built in a 60 cm wall cupboard (at least 30cm deep)	• Length of main cable:150 cm • Total connected load electric: 1.99 KW • Nominal voltage: 220 - 240 V • Suitable for high cupboard installation, Can be built in a 60 cm wall cupboard (at least 30cm deep)
Dimensions	• Appliance dimensions (hxwxd): 305 mm x 513 mm x 408 mm	• Appliance dimensions (hxwxd): 382 mm x 594 mm x 388 mm • Niche dimensions (hxwxd): 380 mm - 382 mm x 560 mm - 568 mm x 550 mm	• Appliance dimensions (hxwxd): 382 mm x 594 mm x 317 mm • Niche dimensions (hxwxd): 362 mm - 365 mm x 560 mm - 568 mm x 300 mm	• Appliance dimensions (hxwxd): 382 mm x 594 mm x 318 mm • Niche dimensions (hxwxd): 362 mm - 382 mm x 560 mm - 568 mm x 300 mm

	BIC630NS1M Serie | 8, Built-in warming drawer, 14 cm
Comfort	• Rotary Control • Heating plate made of toughened glass • Cavity volume: 20 l • Loading up to 25 kg • Max. loading espresso cups: 64 PC or Max. loading plates: 12 PC • 5 functions: Dough proving thawing of delicate foods keeping drinks and food warm, pre-warming of crockery gentle cooking • Push-pull mechanism: easy opening and closing thanks to a practical spring mechanism. • Temperature control in 4 levels: ca. 40 °C - 80 °C (glass surface temperature)
Cleaning	• Cleaning convenience: easy to clean hotplate made of tempered glass.
Technical information	• Length of main cable: 150 cm • Total connected load electric: 0.81 KW • Nominal voltage: 220 - 240 V
Dimensions	• Appliance dimensions (hxwxd): 140 mm x 594 mm x 548 mm • Niche dimensions (hxwxd): 140 mm x 560 mm - 568 mm x 550 mm

Electrical Hob

	PKF375CA1M Serie | 2, Domino Electric hob, 30 cm	PKF375FP1M Serie | 6, Domino Electric hob, 30 cm	PKE611D17M Serie | 4, Electric hob, 60 cm	PKE611F17Q Serie | 6, Electric hob, 60 cm	PKF645K17Q Serie | 6, Electric hob, 60 cm	PKN811BA1M Serie | 4, Electric hob, 80 cm	PKN971FB1M Serie | 6, Electric hob, 90 cm
Design	• Domino Electric hob • Ceramic glass • Can be combined with all autarkic hobs in comfort design	• Comfort profile • Domino Electric hob	• Frameless • Electric hob • Ceramic glass	• Frameless • Ceramic glass • Electric hob	• Ceramic glass • Electric hob	• Frameless • Electric hob	• Comfort profile, aluminum color • Ceramic glass • Electric hob
Comfort	• 2 HighSpeed cooking zones, including: Dual zone • Zone extension activation with the knob • Surface-mounted controls • 9 power levels	• 2 HighSpeed cooking zones, including: Dual zone • DirectSelect touch control • 17 power levels • Digital display • Switch off timer for every cooking zone • Timer • ReStart Function • PowerBoost function	• 4 HighSpeed cooking zones • TouchSelect • 17 power levels • Digital display	• 4 HighSpeed cooking zones • DirectSelect • 17 power levels • Digital display • Automatic boil start • Switch off timer for every cooking zone • Wipe protection function	• 4 HighSpeed cooking zones, including:Dual zone • Zone extension activation with a Touch sensor on the hob • DirectSelect • 17 power levels • Digital display • Wipe protection function • Automatic boil start	• 4 HighSpeed cooking zones,including:1 Roasting zone & Dual zone • Zone extension activation with a Touch sensor on the hob • TouchSelect • 17 power levels • Digital display	• 4 HighSpeed cooking zones, including:1 Dual zone with extendable roaster zone & 2 dual zones • Front control • 17 power levels • DirectSelect • Digital display • Switch off timer for every cooking zone • ReStart Function • Automatic boil start • Wipe protection function
Environment and Safety	• 2 power on indicator lights • Residual heat indicator for each zone	• Main switch • Power on indicator light • 2 stage residual heat indicator • Childproof lock • Safety switch-off • Energy consumption display	• 2 stage residual heat indicator • Childproof lock • Safety switch-off • ReStart Function • Power on indicator light • Main switch	• 2 stage residual heat indicator • Childproof lock • Safety switch-off • ReStart Function • Power on indicator light • Main switch • Energy consumption display • Total power limited to 2900 W by PowerManagement function	• 2 stage residual heat indicator • Childproof lock • Safety switch-off • ReStart Function • Power on indicator light • Main switch • Total power limited to 5000 W by PowerManagement function	• 2 stage residual heat indicator • Childproof lock • Safety switch-off • ReStart Function • Power on indicator light • Main switch	• Main switch • Power on indicator light • 2 stage residual heat indicator • Childproof lock • Safety switch-off • Energy consumption display • Total power limited to 7000 W by PowerManagement function
Dimensions	• Min. worktop thickness: 16 mm • Main cable 1 m (without plug)	• Total connected load: 3500 W • Appliance dimensions (hxwxd mm): 38 x 306 x 527 • Niche dimensions (hxwxd mm): 38 x 270 x 490 - 500	• Total connected load: 6600 W • Appliance dimensions (hxwxd mm): 45 x 592 x 522 • Niche dimensions (hxwxd mm): 45 x 560-560 x 490-500 • Min. worktop thickness: 16 mm	• Total connected load: 2900 W • Appliance dimensions (hxwxd mm): 45 x 592 x 522 • Niche dimensions (hxwxd mm): 45 x 560-560 x 490-500 • Min. worktop thickness: 16 mm	• Total connected load: 5000 W • Appliance dimensions (hxwxd mm): 48 x 583 x 513 • Niche dimensions (hxwxd mm): 48 x 560-560 x 490-500 • Min. worktop thickness: 16 mm	• Total connected load: 7500 W • Appliance dimensions (hxwxd mm): 45 x 802 x 522 • Niche dimensions (hxwxd mm): 45 x 750-750 x 490-490 • Min. worktop thickness: 16 mm	• Total connected load: 7000 W • Appliance dimensions (hxwxd mm): 44 x 916 x 527 • Niche dimensions (hxwxd mm): 44 x 880 x 500 - 500 • Min. worktop thickness: 16 mm

Induction Hob

	PUE611BB1E Serie | 4, Induction hob, 60 cm	PXX375FB1E Serie | 6, FlexInduction cooktop, 30 cm	PXX975DC1E Serie | 8, Induction hob, 90 cm
Design	• Frameless • Induction hob	• Comfort profile • FlexInduction cooktop	• Comfort profile • Induction hob
Comfort	• 4 Induction cooking zones • TouchSelect • Digital display • Switch off timer for every cooking zone Timer • QuickStart Function • ReStart Function • PowerBoost function for all zones	• 2 Induction cooking zones • Flex zone • DirectSelect touch control • Digital display • Switch off timer for every cooking zone Timer Count-up timer • Energy consumption display • QuickStart Function • ReStart Function • PowerBoost function for all zones	• 5 Induction cooking zones & 3 Flex Zones • DirectSelect Premium touch control • MoveMode (3 levels) • PerfectFry sensor with 5 temperature settings • Electronic display • Switch off timer for every cooking zone • QuickStart Function • ReStart Function • PowerBoost function for all zones • PanBoost • Energy consumption display
Power and Size	• 17 power levels • Cooking zones: 1 x Ø 180 mm, 1.8 KW (max. power 3.1 KW) Induction; 1 x Ø 180 mm, 1.8 KW (max. Bosch innovation in all our freestanding dishwashers.

Whisper quiet washing.

Bosch dishwashers are amongst the quietest in the world. With the revolutionary **EcoSilence Drive**™ there are dishwashers in the range which operate at 38 decibels, that's even quieter than the sound of a bee buzzing! With the Silence programme selected, the noise is reduced even further.

Energy efficiency.

The opportunity to save energy is now even greater. Innovative technology in our dishwashers gets the most out of every single drop of water. Our most energy-efficient dishwashers in the **Serie 8** and **Serie 6** ranges boast an A+++ energy rating.

Save water every load.

The **ActiveWater**™ technology in our dishwashers means it can take as little as 7,4 litres* of water to clean 13 place settings for a three-course meal**. That's less water than it takes to fill a standard-sized kitchen sink.

*7,4 ltrs water consumption based on Economy 50 degree programme on dishwasher model SMS68TI20M.

**Three-course meal as defined by dinner, soup and dessert plate, cup and saucer, glass, knife, fork, soup, tea and dessert spoons for each place setting as well as 1 serving plate, 2 serving bowls, 2 serving spoons, 1 serving fork and 1 sauce spoon.

PROGRAMME NAME	ITEMS SUITABLE FOR PROGRAMME	TYPE OF SOILING	ADDITIONAL OPERATIONAL OPTIONS
Economy 50	Mixed utensils & cutlery	Part-dried, common household food remnants	All
Intensive 70	Pots, pans, non-sensitive utensils & cutlery	Very stubborn burned or dried-on food remains containing starch or protein	All
Auto 45-65	Mixed utensils & cutlery	Part-dried, common household food remnants	All
Glass 40	Sensitive utensils, cutlery, temperature-sensitive plastic & glass	Lightly adhering, fresh food remains	IntensiveZone, VarioSpeed Plus, Half load, ExtraDry.
Silence 50	Mixed utensils & cutlery	Part-dried, common household food remnants.	IntensiveZone, Half load, HygienePlus, ExtraDry.
Pre-Rinse*	All types of dishes.	Cold rinsing, intermediate cleaning.	None
Quick 45°C*	Sensitive utensils, cutlery, temperature-sensitive plastic & glass	Lightly adhering, fresh food remains	Extra Dry
1 Hour 65°C	Mixed utensils & cutlery	Part-dried, common household food remnants.	Extra Dry
Short 60°C	Mixed utensils & cutlery	Part-dried, common household food remnants	All
Normal 65°C	Pots, pans, non-sensitive utensils & cutlery	Very stubborn burned or dried-on food remains containing starch or protein	Extra Dry, Hygiene Plus, Intensive Zone, VarioSpeed Plus
Machine Care	Run when empty	Thoroughly cleans your machine - use in combination with a standard machine care detergent	None

*Programme does not include drying in the cycle.

60cm dishwashers.

DISHWASHER TYPE	60CM DISHWASHER
DESIGN FAMILY	**SERIE 8**
MODEL	**SMS88TI40M**
Colour	silver inox
GENERAL SPECIFICATIONS	
Capacity	14 place settings
Noise level	42 dB (re 1 pW), built-under 40 dB
Water consumption	7-18 l
PROGRAMMES	
8 programmes	Intensive 70 °C, Auto 45-65 °C, Eco 50 °C, Night programme 50 °C, short 60 °C, Glass 40 °C, Quick wash 45 °C, Pre-Rinse
6 Special options	Intensive Zone, VarioSpeedPlus, Half Load, HygienePlus, Extra Dry & Machine Care
FEATURES	
6 cleaning temperatures	•
ActiveWater hydraulic system	•
Zeolith Drying	•
DosageAssist	•
BLDC motor for heat and drain pump	•
AquaSensor, Load Sensor	•
Heat exchanger	•
Self-cleaning filter system with 3-fold corrugate filter	•
TFT Display inside	•
Acoustic end of cycle indicator	•
LED colour on indicators red/-	•
Electronic delay timer: 1-24 hours	•
LED salt refill indicator	•
LED rinse aid refill indicator	•
BASKETS AND RACKS	
RackMatic height-adjustable top basket (3 stage)	•
6 foldable plate racks in top basket	•
8 foldable plate racks in bottom basket	•
Cutlery drawer 2.1	•
SAFETY	
AquaStop - Prevents Water Leakage	•
Childproof door lock	•
TECHNICAL INFORMATION	
Dimensions of the product (HxWxD):	84.5 x 60 x 60 cm

● = Yes - = No

Key to accessories: SGZ1010: inlet / outlet hose extension (2m), SMZ5300: Wine glass holder, SMZ5002: Silver polishing cassette, SMZ5100: Adjustable cutlery basket, SPZ5100: Vario cutlery basket, SZ73100: Cutlery basket.
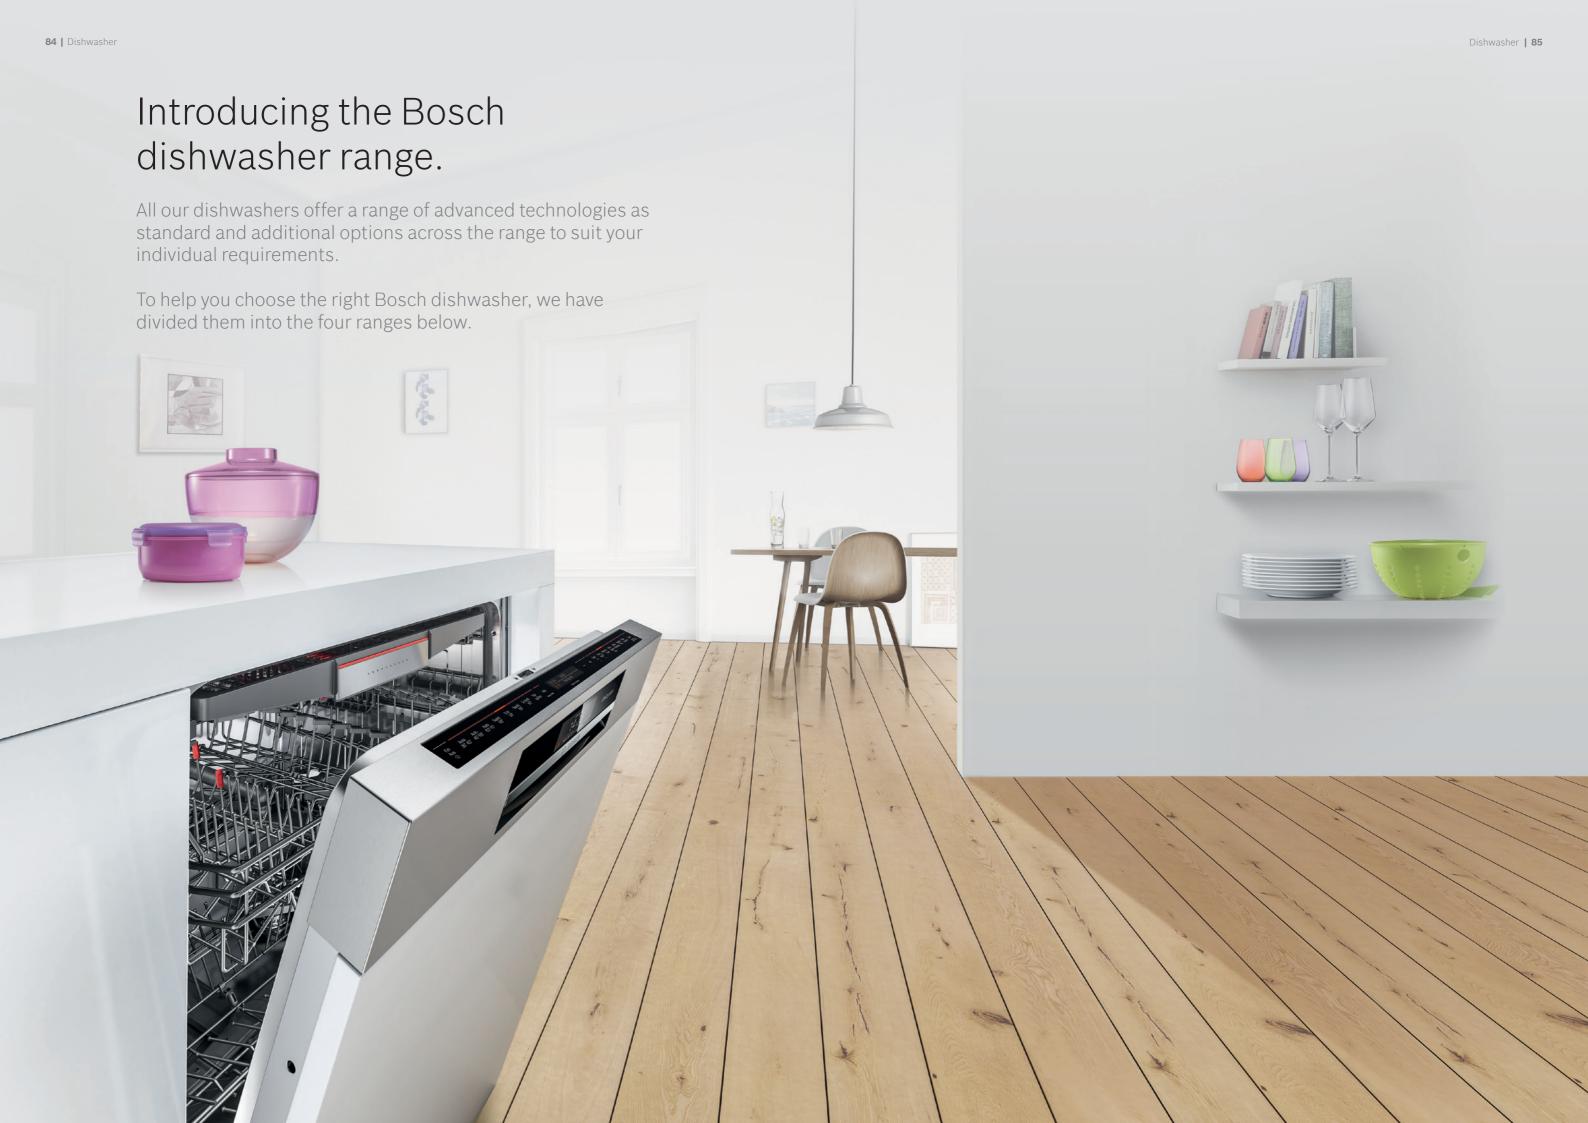

1 Based on 280 standard cleaning cycles using cold water fill, including consumption of the standby mode.
2 The consumption per cleaning cycle of the "Eco 50" programme using cold water fill
3 We would recommend our dishwashers are connected to the main water supply where possible. However, they may also be connected to an external water softener as long as the water softener produces softened water of less than 1.1 mm/litre (7.0°e) and the water softener in the appliance is turned off. Please contact product advice for further information.

Water pressure required: 0.5-10 Bar. Flow rate: 10 litres per minute. Inlet valve connected directly to ¾" screwed joint.
All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off-mode electric power consumption.
Data valid in this table as of April 2019. Subject to modification without prior notice.

Introducing the Bosch dishwasher range.

All our dishwashers offer a range of advanced technologies as standard and additional options across the range to suit your individual requirements.

To help you choose the right Bosch dishwasher, we have divided them into the four ranges below.

Serie 8   +++

Our **Serie 8** range combines cutting-edge design and advanced technology, including Home Connect. The **A+++** energy efficiency rating of this range is complemented by our **PerfectDry** function where moisture is absorbed before being released as hot air for energy-efficient drying. Exceptionally quiet, offering additional storage and flexible loading solutions.

Serie 6   ++

Our **Serie 6** range comes packed with technology, from energy and water-saving modes to quick washes for when or busy days.
They also feature our clever **PerfectDry** technology and **VarioFlex baskets** with coloured touchpoints for flexible loading solutions and accommodating the most awkward-shaped dishes.

Serie 4   +

Our **Serie 4** range of models offers great value for money but does not compromise Bosch build quality. They combine advanced energy and resource-saving features. In addition, they offer flexible **Vario** and **VarioFlex baskets** with foldable racks in the top and bottom baskets.

Serie 2

Our **Serie 2** dishwashers offer you the classic design with easy operation. They are the optimal solution for anyone who wants a reliable appliance with good value for money.

PerfectDry

A clever function that saves energy by using less electricity to dry everything to perfection. And we do mean everything - plates, pans, glasses and all plastic items. Your lunch boxes and containers will be completely clean and perfectly dry, so you'll never have to pick up a tea towel to finish the job again.

The technology behind PerfectDry, unique to Bosch, is called Zeolith®. It is a process applied to every cycle that uses naturally occurring minerals, that heat up when they come into contact with water. The warm air is then distributed evenly over the load.

The dish dryer among dishwashers.

The technology behind **PerfectDry** uses **Zeolith®** minerals to help dry the load economically and efficiently. The dishwasher absorbs humidity from the washed dishes and the clever **Zeolith®** beads then transform that humidity into warm air that speeds up the drying process. So when you need a wash with brilliant drying results, it's time to choose Bosch.

Natural Zeolith® mineral

ExtraDry

Want your dishes extra dry? No problem. This function gives you even more drying power when you need it. Just choose the Extra Dry option and more heat will be created to extend your load's drying cycle.
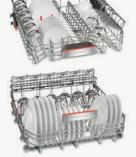

A dishwasher for every kitchen.

# Where every pot has its place.

VarioFlex options

VarioFlex Pro

Stainless steel fascia's.
Colour touch points as standard.
Top rack flexible areas: 6
Bottom basket flexible areas: 8

VarioFlex

Brand coloured plastic fascia's.
Options with and without colour touch points.
Top rack flexible areas: 2
Bottom basket flexible areas: 4

Vario

Grey plastic fascia's.
Top rack flexible areas: 0
Bottom basket flexible areas: 2

Choose the right appliance for you, for the space in your kitchen.

When selecting your built-in dishwasher you can choose from the 3 sizes/designs below, depending on your preference and the space within your kitchen.

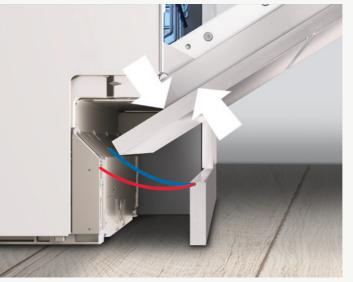

Fully Intergrated 60cm

Semi-Integrated 60cm

Different types of control.

Stainless steel push button with LED display

Black tap through control with LED indicators

Vario Hinge

Vario Hinge

The innovative Vario Hinge system is the optimal solution for challenging built-in dishwashers. In kitchens with a low plinth (<90mm) and extra long furniture fronts the door, appliances might collide into each other. With Vario Hinge, the furniture front slides up so the door opens perfectly without collision. This ensures perfect design of a fully integrated kitchen.

Dishwasher functions explained.

(Check model for available functions)

Machine care

Your dishwasher will help look after itself with this smart function. Optimising water and energy consumption, it works on a short run time of 80-90 minutes at high temperatures. It eliminates limescale and grease deposits inside the dishwasher and works with a standard machine-care detergent. On selected Serie 8 and Serie 6 models, it will even remind you to run the programme every 30 cycles.

10 year anti-rust warranty

Our appliances are made from top quality materials and in addition to our standard appliance warranty, we provide a free-of-charge warranty against rusting-through of the dishwasher's inner cavity.

TimeLight
Bosch dishwashers are so quiet sometimes it's hard to tell whether they are on or off, especially on fully-integrated models where there is no visible control panel. The TimeLight indicates the programme status and time remaining onto any floor surface.

InfoLight
Coloured light beam projects onto the floor when the machine cycle is started, and turns off when finished.

EmotionLight
Lights up the dishwasher cavity with 2 white LED lights.

VarioSpeed Plus
Our VarioSpeed Plus option reduces programme times without compromising quality. So you still get hygienically clean and dry dishes but in about a third of the time of the standard programme - ideal for busy households and entertaining.

Place Settings
A selection of our dishwashers will hold up to 14 place settings in one load – perfect for larger households.

Extra Rinse
Extra Rinse will help remove extra detergent/chemical residues from utensils via adding fresh water in final rinsing phase.

Self-cleaning filters
Self cleaning filter system, with spray arms designed to direct water at the filters on every rotation. Please note, self cleaning references are to reduce chances of filters being blocked during the cycle, regular maintenance of clearing and cleaning filters is still recommended.
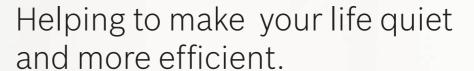

Dosage Assist
Get the most out of your detergent with Dosage Assist; a small area at the front of the top basket that catches the tablet when it's released during the cycle. It controls how the tablet is dissolved for optimum performance.

ExtraDry
Want your dishes extra dry? No problem. This function gives you even more drying power when you need it. Just choose the Extra Dry option and more heat will be created to extend your load's drying cycle.

Helping to make your life quiet and more efficient.

Whisper quiet washing

Bosch dishwashers are amongst the quietest. With revolutionary **EcoSilence Drive**™ there are dishwashers in the range which operate at 42 decibels, that's even quieter than the sound of a bee buzzing! With the Silence programme selected, the noise is reduced even further.

Energy efficiency

The opportunity to save energy is now even better. Innovative technology in our dishwashers gets the most out of every single drop of water. Our most energy-efficient dishwashers in Serie 8 and Serie 6 ranges boast an A+++ energy rating.

Save water every load

The **ActiveWater**™ technology in our dishwashers means it can take as little as 7,4 litres** of water to clean 13 place settings for a three-course meal***. That's less water than it takes to fill a standard sized kitchen sink.
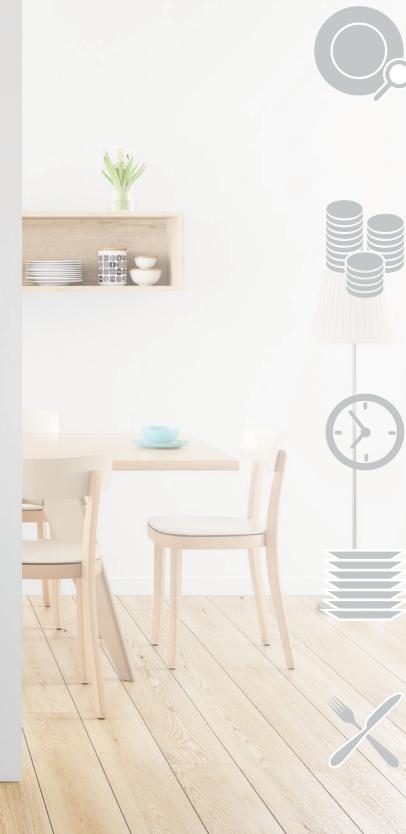

Bosch dishwasher programmes

PROGRAMME NAME	ITEMS SUITABLE FOR PROGRAMME	TYPE OF SOILING	ADDITIONAL OPERATIONAL OPTIONS
Economy 50	Mixed utensils & cutlery	Part-dried, common household food remnants	All
Intensive 70	Pots, pans, non-sensitive utensils & cutlery	Very stubborn burned or dried-on food remains containing starch or protein	All
Auto 45-65	Mixed utensils & cutlery	Part-dried, common household food remnants	All
Glass 40	Sensitive utensils, cutlery, temperature-sensitive plastic & glass	Lightly adhering, fresh food remains	IntensiveZone, VarioSpeed Plus, Half load, ExtraDry.
Silence 50	Mixed utensils & cutlery	Part-dried, common household food remnants.	IntensiveZone, Half load, HygienePlus, ExtraDry.
Pre-Rinse*	All types of dishes.	Cold rinsing, intermediate cleaning.	None
Quick 45°C*	Sensitive utensils, cutlery, temperature-sensitive plastic & glass	Lightly adhering, fresh food remains	Extra Dry
1 Hour 65°C	Mixed utensils & cutlery	Part-dried, common household food remnants.	Extra Dry
Short 60°C	Mixed utensils & cutlery	Part-dried, common household food remnants.	All
Normal 65°C	Pots, pans, non-sensitive utensils & cutlery	Very stubborn burned or dried-on food remains containing starch or protein	Extra Dry, Hygiene Plus, Intensive Zone, VarioSpeed Plus
Machine Care	Run when empty	Thoroughly cleans your machine - use in combination with a standard machine care detergent	None

*Programme does not include drying in the cycle.
**7,4 liter water consumption based on Economy 50 °C programme on dishwasher model SMS68TI20M).
***Three-course meal as defined by dinner, soup and dessert plate, cup and saucer, glass, knife, fork, soup, tea and dessert spoons for each place setting as well as 1 serving plate, 2 serving bowls, 2 serving spoons, 1 serving fork and 1 sauce spoon.

*Model available in selected markets   Model shown: **SMV88TX46M**

Dishwasher vs. Hand-washing.

It's no surprise that using a dishwasher may seem expensive at first. But you'll be surprised to know just how much energy, water and costs you can save on the long run with a Bosch dishwasher. Not only do our dishwashing solutions score on hygiene and convenience, but they're the safest way to take a load off your sink in no time. And with our world-class energy ratings, you have a winner of a kitchen helper on your hands. Here are just some of the reasons you'll love using a Bosch dishwasher.

Ultimate Hygiene

Dishwasher
- Water is heated up to 75°C, eliminating nearly 100% of germs
- No sponges required

Hand-washing
- High degrees of hot water cannot be used to hand wash the dishes, therefore not guaranteeing germ-free dishes
- Sponges used to clean encourage the growth of bacteria

Better Water and Energy Savings

Dishwasher
- 7-12 litres of water is used for 13 place settings
- 0.67 kWh to 1.0 kWh of electricity is consumed in a standard Eco 50°C programme

Hand-washing
- 40 litres of water is used for 13 place settings
- Over twice the energy is used for heating the water (2.6 kWh)

Save Time

Dishwasher
- Maximum of 15 minutes of dishwashing time (13 place settings)

Hand-washing
- An average of 60 minutes of manned dishwashing time (13 place settings)

True Convenience

Dishwasher
- A tidy kitchen as the dishes are collected in the dishwasher

Hand-washing
- A sink full of dirty dishes will make the kitchen untidy

Higher Safety

Dishwasher
- No risk of getting cut by kitchen knives in foamy dishwater

Hand-washing
- High risk of serious injuries with kitchen knives hidden in foamy dishwater

Dishwashing myths.

The use of dishwashers is surrounded by many legends.
Let's look at some of the many distorted views.

ECO Dishes must be rinsed before loading into the dishwasher

No! Pre-rinsing dishes by hand is ineffective, and only wastes energy, water and time. Before loading the dishes into the dishwasher, you only need to remove food leftovers with a fork, and the dishwasher can do the rest on its own.

Washing dishes by hand is better for the environment*

On the contrary. Using a dishwasher saves up to 81% of water and up to 72% of energy compared to washing by hand – provided, of course, that the dishwasher is run fully loaded with dishes.

Washing cutlery in the dishwasher causes it to rust

That's not exactly true. A phenomenon called lightning rust is an oxidation process that occurs among different metals in combination with moisture. So, if you put a utensil not made of stainless steel into the dishwasher, such as a potato scraper from your grandmother, the rust from it will be transferred to the cutlery during washing. So, either do not put anything in the dishwasher that is not made of entirely stainless steel, or, place a piece of tinfoil in the cutlery basket, which will draw the rust onto itself.

Pots and pans will not get clean in the dishwasher

This is not true. Simply place your dishwasher–safe pots and pans along the sides of the lower basket bottom up, and angled to the sides so as not to block the spray arms. All the dishes will get sparkling clean.

The price of the detergent doesn't matter

Yes and no. It's not necessarily the price that is decisive, but you should consider the quality of the product. Poor quality products can turn the cutlery over time and change their color to unsightly brown. This is caused by the brine remnants that occur occasionally in lower quality and sometimes cheap detergents. If you want your silverware to keep its shine, we recommend using, for example, high quality Finish brand detergents.

Introducing the Bosch refrigeration range.

Save more, waste less. Our range of freestanding fridge freezers save you money thanks to their energy efficiency ratings. They are also packed with innovative technology to keep your food fresher for longer, so you'll throw out less and save on your weekly shopping bill.

To help you choose the right appliance, we have divided them into the four ranges below.

Serie 8   +++

Cutting-edge design meets advanced technologies. All models in our **Serie 8** range are packed with energy-efficient and labour-saving features that save valuable time, effort and money – perfect for modern, busy households.

Serie 6   ++

Our **Serie 6** range of appliances combines energy-efficient performance with convenient storage and superior food preservation.

Serie 4   +

All models in our **Serie 4** range combine practical features with Bosch build quality.

Serie 2

Built to keep electricity costs down. With energy efficiency an increasing priority in homes, the **Serie 2** refrigeration range is just as efficient as its value for money.

Model shown: **KGN86AI30M**

Features that make Bosch the right choice.

NoFrost

Never worry about having to defrost the freezer again. The NoFrost system prevents the build up of ice by automatically initiating the defrost operation as required. This also helps to maintain the appliance's energy efficiency.

VacationMode

Go away with a clear conscience, thanks to VacationMode.

When the function is activated, the temperature in the fridge section is approx. +14°C and in the freezer approx. −18°C, protecting frozen foods and preventing energy wastage in the fridge.

SuperFreezing & SuperCooling

Activating the SuperFreeze function before you go shopping lowers the temperature for a short period, so anything new put into the freezer is frozen quickly. SuperCool on your fridge performs a similar task, keeping everything at the right storage temperature.
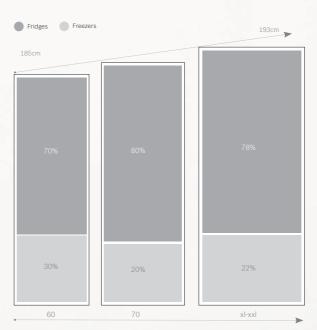

PerfectFit

Our cooling appliances with PerfectFit can be positioned right next to side walls and furniture in your kitchen. This allows the most flexible installation so you have the appliance where you want it.

Model shown: **KGN56HI30M**
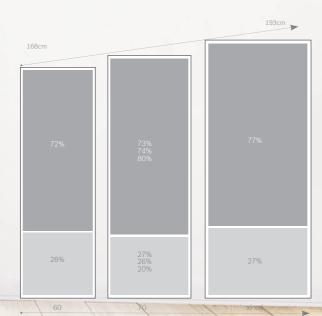

Selecting the right fridge-freezer for you.

Height, width and fridge-freezer split

Our fridge-freezer options are tailored to suit every family household need so you can choose your appliance to ensure this. For those who shop little and often, try a smaller capacity fridge and freezer which doesn't impact space. If you have a busy household and do a full weekly shop, a spacious 70/30 fridge freezer would be ideal.

Top Freezer

(Check model for available functions)

NoFrost
Never defrost again, thanks to perfect protection from ice formation - that saves time and effort.

BigBox
An extra-deep frozen food drawer for practical stacking of frozen food containers or large frozen items like gateaux or pizzas.

MultiBox
Transparent drawer with wave bottom, ideal for storing of fruits and vegetables.

Airfresh filter
Fresh air without bacteria: The airfreshFilter with antiBacteria actively neutralizes odours inside the refrigerator and filters out bacteria. Unpleasant substances from foods with intensive odours are absorbed, and the air remains clean and fresh - without replacing the filter for the life of the appliance.

Safety Glass
Strong glass shelves ensure heavier items can be stored safely.

SuperCooling
Activating the SuperCooling function before you go shopping lowers the temperature for a short period, so your fresh shopping is kept at the right temperature.

MultiAirflow
The fan-assisted MultiAirflow System causes gentle, even currents of cold air to emerge at all levels of the chilling and freezing area. Temperature fluctuations are minimised and cooling times reduced.

EasyAccess Shelf
The shatterproof, frameless glass shelves are particularly easy to use, thanks to the smooth pull-out mechanism. And they also give you a clear view of your food at any time.

FingerPrint-Free
Your appliance will stay fingerprint-free and looking clean and fresh.

Controlling your appliance.

Across the range of cooling appliances, there are different ways you can control the temperature inside your fridge and freezer. Below are the different variations:

Exterior LCD, digital control (touch control).

Exterior touch control (digital control).

Interior LED button control.

Interior LED button (freezer only).

Lock in the freshness.

VitaFresh

With **VitaFresh**, you'll be able to store your fruit and vegetables with a temperature regulating slider which lets you lower the temperature up to 4 °C, lower than the rest of the fridge.

VitaFresh^{plus}

The **VitaFresh plus** freshness system guarantees ideal storage conditions at any time and ensures that fish, meat, fruit and vegetables stay fresh up to 2x longer.

VitaFresh plus models have the added benefit of a convenient push button for humidity control.

This combination of temperature and humidity helps you protect all the aromas, essential nutrients and valuable vitamins in your fresh food. Hence, it is easier than ever to maintain a healthy diet with fresh fruit and vegetables every day.

You'll also find two drawers, one for fish and one for meat, to lock in the freshness at 0 °C.

Whichever model you choose, you'll find lots of reasons to love your Bosch fridge-freezer.

Energy efficient

365 days a year, 24 hours a day, fridges and freezers are always on. In fact, they make up around 17% of the electricity used at home, or even more if it's a particularly old model.* That's why we design our fridges and freezers to be as energy efficient as possible, and we're proud to be able to offer so many right across our ranges.

VarioZone

With more flexibility due to variable-use glass shelves and drawers in the freezer compartment, you have more space to store larger items if need be.

Easy to Clean Magnetic Door Seals

The magnetic door seals on all of our refrigeration ranges are **removable**, making them easy to clean and/or replace when necessary.

Model shown: **KGN86AI30M**

Don't settle for less than 4 times fresher.

ActiveHumidity is a new freshness system working with the same principle in supermarkets: humidification on vegetables. **Active**Humidity is a module that sprays fine moisture into the vegetable drawer to keep vegetables 4 times longer fresh. **Active**Humidity has also an additional humidity control with slider mechanism on top of the drawers.

vari○style

Designed to be redesigned

The innovative Vario Style system is equipped with a clever combination of invisible hooks and magnets so you can easily change the colour of your door.

You don't need any specific tools or technical knowledge. Only with 3 easy steps, your kitchen style is transformed.

With our Vario Style fridge freezers and VitaFresh freshness system, both your food and your kitchen will always be fresh and in season.

Door set colour options

Check specification tables on the following pages for height options and product codes.

Colour	Product Code	Dimensions (HxWxD) cm
Lime Green	KSZ1CVH00	193 x 70 x 80
Pearl Night Blue	KSZ1CVN00	193 x 70 x 80
Cherry Red	KSZ1CVR00	193 x 70 x 80
Aqua	KSZ1CVU00	193 x 70 x 80
Black Matt	KSZ1CVZ00	193 x 70 x 80

Finally, a fridge that you can easily restyle anytime.

The kitchen is more than just a place to eat. It's where parties or a cozy dinner with the family take place. And the central hub, whether it's about food or drinks, is the refrigerator. It's the highlight in any kitchen.

Our vision was to create an innovative fridge that perfectly captures the essence of individualisation, anytime. With the Vario Style bottom freezer with exchangeable colour fronts, this vision has been made real, so you can easily restyle it how you want and whenever you want.

Introducing the Bosch Built-in refrigeration range.

Save more, waste less. Our range of built-in fridge freezers save you money thanks to their energy efficiency ratings. They are also packed with innovative technology to keep your food fresher for longer, so you'll throw out less and save on your weekly shopping bill.

To help you choose the right appliance, we have divided them into the three ranges below.

Serie 6 ++

Our **Serie 6** range of appliances combines energy efficient performance with convenient storage and superior food preservation.

Serie 4 +

All models in our **Serie 4** range combine practical features with Bosch build quality.

Serie 2

Built to keep electricity costs down. With energy efficiency, an increasing priority in homes, the **Serie 2** refrigeration range is just as efficient as its value for money.

Fridge freezer: KIR81AF30M

Selecting the right Refrigeration for you.

Built-in fridge freezer

Built-in fridge freezers blend seamlessly into your kitchen cabinets, making it easy to access your chilled food, and still providing plenty of storage for your frozen goods. Select from a variety of options to suit your needs for either larger fridge or freezer.

Built-in fridge

Built-in fridges built into your kitchen cabinets. Add to the expanded space you have to keep your chilled food fresh.

Built-in freezer

Bosch has a wide range of built-in freezers to suit every kitchen size. From tall upright freezers to compact under counter models, all Bosch freezers are built to maximise storage space and minimise energy consumption.

Built-under fridge and freezer

Our built-under fridges and freezers are ideal for those limited spaces within the kitchen. Under-counter cooling solutions will allow you to have easy access to your chilled food whilst discreetly tucked behind the door.

Hinges to fit in with your kitchen.

Fixed hinge

Fixed hinges allow heavier furniture doors to be fitted to the appliance, ideal for kitchen cabinets made from heavier hard wood. This also allows the door to be open at a wider angle, making the whole fridge cavity easily accessible.
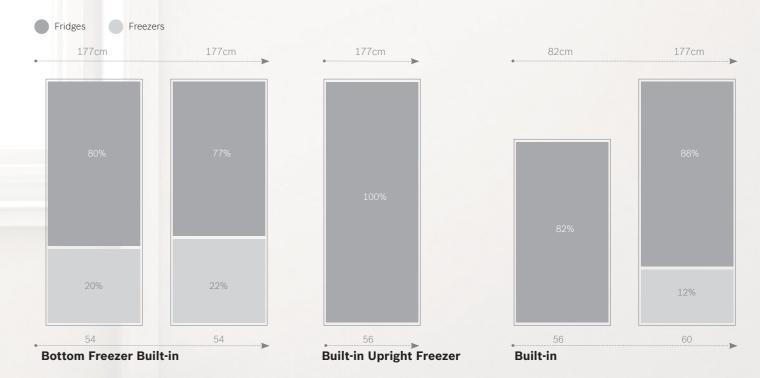

Sliding hinge

Sliding hinges are designed for integrated kitchens and are designed to sit between the appliance and the kitchen furniture, which is secured by a number of brackets. As you open the furniture door, the appliance door also opens thanks to the series of brackets.

Find the perfect combination for your kitchen.

Bottom Freezer Built-in   **Built-in Upright Freezer**   **Built-in**

Whichever model you choose, you'll find a lot of reasons to love our Bosch cooling appliances.

NoFrost

Never worry about having to defrost the freezer again. The NoFrost system prevents the build up of ice by automatically initiating the defrost operation as required. This also helps to maintain the appliance's energy efficiency.

LowFrost

LowFrost cuts ice build up by half, meaning you have to defrost your freezer less often, compared to approximately every 3 months for a static freezer, saving you energy and time.

SuperFreezing & SuperCooling

Activating the SuperFreeze function before you go shopping lowers the temperature for a short period, so anything new put into the freezer is frozen quickly. SuperCool on your fridge performs a similar task, keeping everything at the right storage temperature.

Save time with flexible storage

Put away the weekly shop more easily, and get what you need faster too, thanks to height adjustable shelves and fully extendable drawers. The **EasyAccess shelf** can be conveniently extended so you can more easily view the food in your fridge.

More space

Our freezers are extra spacious meaning you will find it easy to fit everything in – perfect for busy households. The extra large **BigBox** is big enough for large bulky items.

VitaFresh

With **VitaFresh**, you'll be able to store your fruit and vegetables safely to lock in the freshness. And with an adjustable humidity setting on the drawer, you'll be keeping your fresh food in a perfectly controlled environment.

You'll also find two drawers, one for fish and one for meat, to lock in the freshness at 0 °C.

VitaFresh plus

The **Series 6** fridge-freezers help you live healthier. They not only offer you plenty of room for lots of fresh foods, drinks and even big pots and bowls, but also the technology to store it optimally.

The **VitaFresh plus** freshness system guarantees ideal storage conditions at any time and ensures that fish, meat, fruit and vegetables stay fresh up to 2x longer.

VitaFresh plus models have the added benefit of a convenient push button for humidity control.

(Check model for avalaible functions.)

NoFrost Never defrost again, thanks to perfect protection from ice formation - that saves time and effort.

LowFrost Defrost less often thanks to lower ice formation - saves work and is energy-efficient.

BigBox An extra-deep frozen food drawer for practical stacking of frozen food containers or large frozen items like gateaux or pizzas.

MultiBox Transparent drawer with wave bottom, ideal for the storage of fruits and vegetables.

SuperCooling Activating the SuperCooling function before you go shopping lowers the temperature for a short period, so your fresh shopping is kept at the right temperature.

Safety Glass Strong glass shelves ensure heavier items can be stored safely.

EasyAccess Shelf The shatterproof, frameless glass shelves are particularly easy to use, thanks to the smooth pull-out mechanism. And they also give you a clear view of your food at any time.

Fingerprint-Free Your appliance will stay fingerprint-free and looking clean and fresh.

VitaFresh The VitaFresh Freshness system creates the ideal storage conditions for all your fresh food thanks to extra low temperatures and adjustable humidity control.
VitaFresh Plus Keeps food fresh for up to twice as long - thanks to optimal humidity for fruit and vegetables.

Energy efficient

365 days a year, 24 hours a day, fridges and freezers are always on. In fact, they make up around 17% of the electricity used at home, or even more if it's a particularly old model.* That's why we design our fridges and freezers to be as energy efficient as possible, and we're proud to be able to offer so many right across our ranges.

Easy to Clean Magnetic Door Seals

The magnetic door seals on all of our refrigeration ranges are **removable**, making them easy to clean and/or replace when necessary.

Introducing the Bosch freestanding laundry range.

Energy and water-saving technologies across our latest laundry appliances give you peace of mind when washing and drying your clothes. To help you choose the right appliance, we have divided them into three categories.

Laundry functions explained.

(Check model for available functions)

Serie 8 +++

Perfection in every detail, our **Serie 8** range of laundry appliances stands out with superior quality, results and first-class design. Discover cutting-edge features and extras such as **i-DOS** automatic dosing in our washing machines and **ActiveOxygen™** for hygienic washing at low temperatures. Monitor and control your wash remotely with our **Home Connect** models, developed to give you complete control over your laundry.

Serie 6 ++

Our **Serie 6** models strive for sustainability and appreciate the active lifestyle of you and your family. Appliances in this range offer you real benefits and energy-efficient features combined with timeless design. **i-DOS** doses each load with millilitre precision, which not only delivers outstanding results but a host of savings.

Serie 4 +

Easy to operate with family life in mind, our **Serie 4** range truly understands your requirements. Practical and straightforward to use, these appliances combine easy operation with stylish design. With **Reload** function, which allows you to open the whole door throughout the cycle so you can add or remove items of any size.

WaveDrum
Select the programme for your wash and the droplet-shaped drum structure and asymmetrical paddles adjust the drum movements to powerful or gentle.

EcoSilence Drive
Bosch EcoSilence Drive washing machines come with a 10-year guarantee.

iDOS
iDOS automatically senses exactly the right amount of detergent and water to use, as well as the correct temperature, whatever your load, adapting to the fabrics, level of soiling and weight of the load.

ActiveOxygen
This clever system cleans your most delicate fabrics at low washing temperatures, protecting their colour while eliminating 99.99% of the bacteria and germs found in clothes, without the use of any chemical additives.

Reload
Simply pause the cycle and the machine will automatically adjust the water. This allows you to add or remove items of any size to your wash.

Time Delay
Have your laundry ready when you need it. Just delay the start of your programme with one simple button.

AntiVibration Design
A spiral design on the side of the washing machine that increases stability and reduces vibration. This makes for a quieter machine with improved sound dampening.
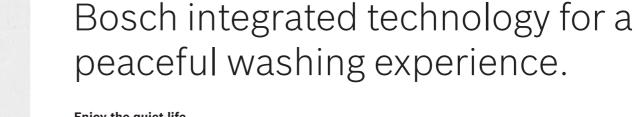

Capacity
Our freestanding washing machines have a drum capacity of up to 10kg, perfect for those busy households.

Model shown: WAV28KHXGC

Never miss an item again. Reload by Bosch.

For dropped socks, mistaken items with your whites or forgotten clothes, **Reload** function on Bosch washing machines allows you to add or remove clothing of any size to your washes. Simply pause the cycle and the machine will automatically adjust the water level to allow you to open the door. Reload your items and restart the wash.

Bosch integrated technology for a peaceful washing experience.

Enjoy the quiet life

Our latest washing machines with **EcoSilence Drive™** generate a noise level of just 41 decibels – that's quieter than the sound of the sea at 55 decibels. The modern world is noisy enough, so it's good to know that Bosch technology can help make the home environment a little oasis of calm.

Less rock and roll

We've also created **AntiVibration** technology to cut down noise. The sidewalls of the washing machine feature a spiral design that increases stability and reduces vibrations. Improved sound insulation and low noise shock absorbers further dampen the noise to provide a whisper-quiet machine.

Everything's just right with i-DOS.

Too much detergent or too little can lead to poor washing results. i-DOS automatically senses exactly the right amount of detergent and water to use, as well as the correct temperature, regardless of the size of the load.

The perfect dose every time.

It's easier than you might think to get the detergent dose wrong when doing the laundry. Thanks to **i-DOS**, it's no longer a worry. The **automatic dosing system** from Bosch uses the optimum amount of detergent for every wash regardless of the size of the load.

The right setting for the load Makes perfect sense

Whether it's a quick sports wash or a full weekly load, sensors within the automatic dosing system determine the amount and type of clothes within each load and set the correct temperature and amount of detergent required for perfect results.

Model shown: WAV28KHXGC

Too much? Too little? Just right with i-DOS

Once activated, the i-DOS system measures the detergent automatically, to the nearest millilitre. Sensors inside the washing machine detect the type of fabric, the load volume in the drum and the degree of soiling, and adjust the detergent to the optimum dose accordingly. In this way, you'll achieve the best results for your clothes, whilst **saving detergent and water.**

Too much

Using too much detergent – even by a little – leads to **significantly higher** water and energy consumption when washing. Visible detergent residues can be left on clothing, which can trigger skin irritation and allergies.

Too little

Using too little detergent can lead to **poorer washing results.** Stains won't be completely removed and could be left on clothes permanently. Insufficient detergent can also result in discolouration and unpleasant odours.

Introducing the Bosch built-in laundry range.

Effortlessly efficient, load after load.
Our laundry appliances are designed to perform perfectly, load after load. And our advanced technology means your clothes are cleaned effectively and efficiently.

Master your day, in your own way.

Discover the connected suite of appliances powered by Home Connect™.

CONNECTED BY Home Connect

Smart connectivity for an easier life.

CONNECTED BY
Home Connect

The future has arrived and it's knocking on your front door. Home Connect brings smart technology to your appliances and lets you control them with your phone or tablet.

So, whether you want to turn the oven on to cook your dinner when you're on your way home, or check what's in your fridge while you're at the shops, you'll be in complete control.

Simple to set up, simple to use.

There's no need to worry if you're not a technical genius. We've made sure Home Connect is simple and straightforward to set up. We've even made videos that will take you through the process and get you up and running in just a couple of minutes.

You'll find the Home Connect app just as easy to use. There are lots of pre-set options to get you started quickly, and everything is set out logically and clearly.

Relax – we're invented for life.

Home Connect uses the same security protocol as online banking so you can enjoy extra peace of mind when you're using your Bosch appliances. Our app has TUV Trusted App certification, and all of our Home Connect appliances are Wi-Fi certified by the Wi-Fi Alliance.

Your very own barista.

When you take your coffee seriously, your coffee machine needs to be seriously impressive. With the Bosch Home Connect Coffee Machine, you get your very own virtual barista, skilled at producing delicious coffees from all over the world.

Using CoffeeWorld, built into the Home Connect app, you are able to create almost twenty superb drinks and international favourites at the touch of a button. Your kitchen becomes your new favourite coffee shop.

Playlist.

Making drinks for lots of people? There's no need to memorise the list. Simply use the Home Connect app Coffee Playlist feature and get everyone to select their favourite drink. Your coffee machine will make them all, one by one, at your command. You can even add selections from the CoffeeWorld feature for added luxury.

MultiAirflow
EasyAccess

How you can use your Home Connect App.

Let us choose the best wash for you.
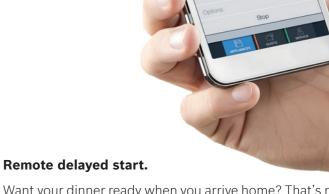

To stay at their best, different clothes need to be washed in different ways. With the Bosch Home Connect app, simply tell your washing machine what's in the load and it'll work out the perfect program. It'll even tell you if there's an item that should come out and be washed in a different way.

Recipes.

Meal planning has never been easier. Browse the Home Connect Recipe Book from your favourite armchair. When you've made your choice, simply send all the settings from the app directly to your oven so it's ready to go when you are. The range of recipes are all tried and tested by Bosch Home Economists around the world, so you'll find exciting new flavours alongside old family favourites. New and seasonal recipes are added on a regular basis, so you'll never be stuck for what to eat.

Remote delayed start.

Want your dinner ready when you arrive home? That's no problem with Home Connect. Simply put your food in the oven before you go out and set the oven to start later in the day so it's ready just as you come back through the front door.

But what if you're delayed while you're out? That's fine. You can simply adjust the start time from wherever you are and, if the food has already started cooking, you can simply press "pause". The oven will lower the temperature until you start it again so your meal isn't ruined.

Making life easy through innovative technologies.

Connectivity, for your kind of control.

Whether you want to simplify daily tasks, set your chores on auto pilot, or take the worry out of everyday life, with Home Connect™, the day becomes yours.

Peace of mind
Because sometimes you just want the reassurance that nothing can go wrong.

Automation
Because sometimes you just want to set it and forget it.

Simplification
Technology is best when it's simple to use and meaningful.

CONNECTED BY
Home Connect

What's easier than the touch of a button? No button at all.

With Bosch home appliances and Home Connect, you can preheat the oven, check on the status of dinner, start the dishwasher, or serve up a cappuccino all at your own convenience and from anywhere you are via the App. Because life should be this easy.

In a hurry to get dinner on the table? Preheat from anywhere.

With remote preheat, you can conveniently start your oven from anywhere, saving you time and hassle at home.

CONNECTED BY
Home Connect

It's 7:30am. Turning On.
Ready to brew a flat white.

Get a notification when the dishwasher tabs are running out.

The tab counter is convenient and helpful. In your Home Connect app, simply enter how many dishwasher tablets you have bought and get the tablet counter to monitor them – whether you start the dishwasher yourself or via the app. You can then check your smartphone at any time to see how many tablets you have left. If you are running low, you are automatically reminded to buy more.

5 Dishwasher tabs remaining.

What's for dinner?
We think we've found
an answer.

Spend less time thinking about what's for dinner, and more time getting inspired. Discover a host of delicious, easy recipes conveniently located in the Home Connect™ app.

Home Connect

Let us choose the best wash for you.

Keep your clothes looking great for longer.

To stay at their best, different clothes need to be washed in different ways. With the Bosch Home Connect app, simply tell your washing machine what's in the load and it'll work out the perfect program. It'll even tell you if there's an item that should come out and be washed a different way.

Model shown: WAW325H0GC and WTWH7560GC

Single ovens.

Serie 8   +++

HBG6764S6M

4D HotAir:
Even heat distribution for perfect results
– on any level.

Pyrolytic self-cleaning:
No cleaning effort thanks to automatic self-cleaning.
Including pyrolytic proof rails.

TFT touchscreen control: Easy-to-use thanks to
the control ring with full text and images.

BoschAssist: Automatic setting of the optimal type
of heat, temperature and time for countless dishes.

OVEN TYPE	PYROLYTIC BUILT-IN OVEN
DESIGN FAMILY	SERIE 8
Brushed Steel	HBG6764S6M
Black	-
White	-
TYPE OF OVEN / HEATING SYSTEM	
Oven with 13 heating methods	4D hotair, Hotair Eco,, Conventional heat, Conventional heat ECO, Hot air grilling, Full width grill, Half width grill, Pizza setting, Bottom heat, Low temperature cooking, Defrost, Preheating, Hold warm
Temperature range	30 °C - 300 °C
Cavity volume	71 l
COMFORT	
3x 2,5"-TFT color and graphics display with direct touch function	●
Electronic functions	actual temperature display, autom. temperature proposal, heating-up control, Pump pressure (bar): 19 Sabbath function
Baking sensor multipoint temperature probe	●
Electronic clock Oven door with SoftOpen and SoftClose	●
Rapid heating-up	●
Halogen interior lighting, Switch for oven illumination	●
Integral cooling fan	●
HomeConnect ready on Wi-Fi	●
CLEANING	
Pyrolytic self-cleaning function	●
Full glass inner door	●
HOOK-IN RACKS / RAILS	
1 level telescopic shelf, full extension, pyrolitic proof, with Stop function	●
ACCESSORY	
2 x combination grid, 1 x universal pan	●
ENVIRONMENT AND SAFETY	
Very low door temperature	●
Child lock	●
Automatic switch off	●
Residual heat indicator	●
Start-/Stop button Door contact switch	●
HOME CONNECT FEATURE	
iService Remote	●
Remote Monitoring and Control	●
TECHNICAL INFORMATION	
Length of main cable	120 cm
Nominal voltage	220 - 240 V
Total connected load electric	3.6 KW
Energy efficiency rating (acc. EU Nr. 65/2014): A+ (at a range of energy efficiency classes from A+++ to D)	
Energy consumption per cycle in conventional mode:	0.87 kWh
Energy consumption per cycle in fan-forced convection mode	0.69 kWh
Number of cavities	1 & Heat source: electrical
DIMENSIONS	
Appliance dimensions (hxwxd)	595 mm x 594 mm x 548 mm
Niche dimensions (hxwxd): 5	85 mm - 595 mm x 560 mm - 568 mm x 550 mm

● = yes - = no

Description	CTL636ES6 Serie | 8 Built-In Fully Automatic Coffee Machine	HBG6764S6M Serie | 8 Built-In Oven
	• Display Panel: Touch - TFT display	• Connection Rating (W): 3600
		• Temperature range: 30 °C - 300 °C
	• Number of programmes: 9	• Timer: Yes
	• List of programmes: Caffe Latte , Cappuccino , Coffee , Espresso , Espresso Macchiato , hot water, Latte Macchiato , Ristretto , warm milk	• Number of heating modes: 13
	• Connection Rating (W): 1600	• Cooking method: Bottom heat, Conventional heat, Defrost, Full width grill, Half width grill, Hot Air-Eco, Hot air grilling, low temperature cooking, Pizza setting, pre-heating, 4D hot air ,warming
	• One-touch function for: Cappuccino, Espresso Macchiato, Latte Macchiato, personalised milk mix beverage, white coffee	• Safety device: childproof lock, Residual heat indicator, Safety switch-off func oven, start button
	• Material of grinder: ceramic	• Integrated Cleaning system: Pyrolytic
	• Milk container present: Yes	
	• Capacity water container (ltr): 2.4	• Electronic functions: actual temperature display, autom. temperature proposal, heating-up control, Sabbath function,
	• Capacity of milk container (ltr): 0.50	• Pull-out system: 1 level telescopic rail
	•Capacity bean container (g): 500	-
	• Pump pressure (bar): 19	-
	• Dimensions of the product (mm): 455 x 594 x 375	• Dimensions of the product (mm): 595 x 594 x 548
	• Required niche size for installation (HxWxD) mm: 449 x 558 x 356	• Required niche size for installation (HxWxD) (mm): 585 - 595 x 560 - 568 x 550
	• Available languages display: Arabic, Chinese, Czech, Danish, Dutch, English, Finnish, French, German, Greek, Italian, Norwegian, Polish, Portuguese, Russian, Slovenian, Spanish, Swedish, Turkish, Ukrainian	• Accessory: 2 x combination grid, 1 x universal pan
	• Optional accessories: TCZ7003, TCZ8001N, TCZ8002N, TCZ8004, TCZ8009N	• Connectivity type: Wi-Fi
	• Country of origin: SI	• Country of origin: DE
	• Highlights: Intelligent heater inside, AromaDouble shot, 8 favourite beverages, Ceramic Grinder	• Highlights: activeClean, Child-proof Lock, Fast Pre-heating function
	• Home Connect Features	• Home Connect Features: iService Remote, Remote Monitoring and Control

Description	DWF97RV60B Built-In Wall chimney hood	KGN56HI30M Serie | 6 Fridge/freezer combination
	• Installation typology: Wall-mounted	Product name/family: Bottom Freezer, Nofrost
	• Type of control: Electronic	-
	• Type of control setting and signalling devices: 2x7-Segment, LED, touch control	Type of control setting and signalling devices: Economy setting / Holiday mode, Super setting for freezer, Super setting fridge, Temperature display fridge, Temperature for freezer, Warning function freezer sect., Warning signal door open, Warning signal for malfunction
	• Type of automatic control devices: Air quality sensor	-
	• Number of speed settings: 3-stage + 2 intensive	-
	• Maximum output air extraction (m3/h): 394	-
	• Noise level (dB): 57	Total unit gross capacity (l): 559
	• Height of the product (mm): 1019-1289/1079-1349	Total unit net capacity (l): 505
	• Width of the product (mm): 890	Refrigerator Gross capacity (l): 417
	• Depth of the product (mm): 263	Freezer Gross capacity (l): 142
	• Filter system: Rim ventilation	Star Rating: 3
	• Type of motor: BLDC for Ventilation	
	• Country of origin: DE	Country of origin: TR
		Highlights: Camera in cooling compartment, ecoMode, VitaFresh plus, VitaFresh plus 0 degree , noFrost, AirFresh Filter, EasyAccess Shelf, MultiAirflow System, bigBox, Supercooling, touchControl, varioZone
	• Connectivity Type: Wi-Fi	
		Home Connect: Camera inside fridge
	Home Connect: Remote Monitoring and Control	Home Connect: Remote update for maitinance

Connected dishwashers.

From remote monitoring, to cycle status notifications, to running diagnostics from the comfort of your home, the Home Connect™ app allows you to remotely monitor and control your Bosch dishwasher from your smartphone for greater convenience.
