The industrial-style range collection.

The perfect balance of bold design and high-performing function, fit for a versatile range of kitchen design aesthetics.

High-efficiency burners

The high-efficiency burner technology requires less gas BTUs to achieve a faster boiling time for faster cooking.

Easy clean up

The easy to clean black enameled cooking surface is scratch and stain resistant.

Industrial-chic design

The bold freestanding design with pedestal feet and heavy duty knobs makes the industrial-style range a focal point in any kitchen.

Dishwasher-safe grates

The grates can be cleaned in the dishwasher instead of by hand for convenient clean-up.

The slide-in range collection.

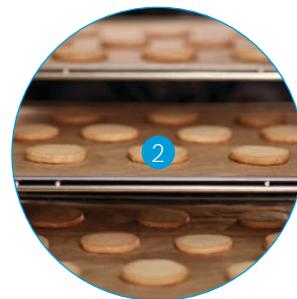

Fits any cutout

Our slide-in range can replace a freestanding range and slides back against the wall, providing a sleek built-in look.

Always even baking results

With Genuine European Convection (select models only), a third heating element in the back and a fan circulates heat evenly so you get evenly golden results no matter where you place your pan.

Fast self-cleaning cycle

For busier days, 2 and 3 hour cycles are available for a quick clean that requires no effort.

QuietClose® door*

Dampened hinges softly and quietly guide the QuietClose® door shut.

* Available in Benchmark® models only

Range line-up.
