Why Bosch?

“I have always acted according to the principle that it is better to lose money than trust. The integrity of my promises, the belief in the value of my products and in my word of honor have always had a higher priority to me than a transitory profit.”

Robert Bosch

For over 125 years, the Bosch name has been synonymous with engineering excellence. Our home appliances are renowned for their quality, reliability and performance which derives from our inherent, unflagging commitment and the painstaking thoroughness with which every unit is made. As you would expect from Bosch, there are no gimmicks or frills with our products – just pure, clean lines and beautiful, functional simplicity that will enhance any kitchen.

The values that shaped Robert Bosch's vision for his new company in 1886 are the same principles that guide the business today; never lose the trust of your customers, look after your staff and partners and change things for the better. It's what has kept Bosch at the forefront of the home appliance industry and what will keep it there in the future.

Bosch in every detail. German Engineered.

Every detail of every appliance has been carefully designed, produced and tested by our engineers to fully satisfy the highest standards in quality, performance and convenience. The result is cutting-edge technology, timeless design and remarkable ease of use, reducing the workload for you in the kitchen and consistently delivering perfect results.

Proven quality

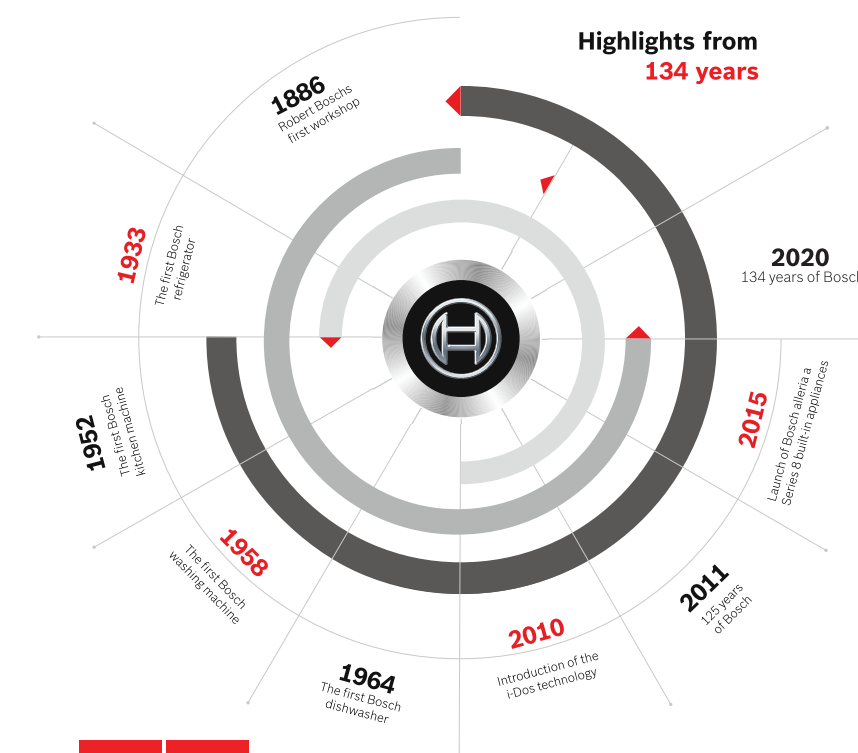

Bosch appliances offer premium quality, advanced technology, ease of operation and outstanding German made and engineered technology. These attributes have earned us many national and international accolades, such as the red-dot Design Award, the iF product design award and other endorsements, year after year.

Top performance

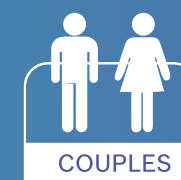

What drives us every day is our desire to improve. We strive to make the best even better, by developing functional, durable and energy-efficient innovations that surpass all expectations.

Maximum convenience

Bosch is dedicated to making your life easier. Our innovative built-in appliances are easy to use, while sophisticated features deliver the best results every time, saving you time and effort.

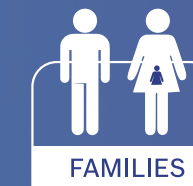

RANGE OF REFRIGERATORS

COUPLES

Bosch Top Freezer Refrigerators have robust build quality, advanced technology and a lot of space for all your cooling needs. It gives you superior performance and increased efficiency to make your everyday life more convenient while keeping food fresh always.

FAMILIES

Bosch Bottom freezer refrigerators come equipped with the VitaFresh Plus system which is a product of unique German innovation. It balances the humidity in the vegetables and fruits compartment ensuring that the food stays fresh for really long!

BIG, BIGGER, BIGGEST

Bosch Side-by-Side refrigerators are all about elegance, convenience and comfort. The refrigerators come equipped with the latest technology and an intuitive touch panel display to give you the ultimate cooling experience.

Fridge-freezers | Top freezer

Enjoy the luxury of space with a Bosch Refrigerator #sabfithojayega

With 80-20 ratio for fridge and freezer, thinner side walls and a large crisper box, Bosch Refrigerators provide the biggest* usable fridge space in India.

Holiday Mode

No more stress over
electricity bills when
you return from a holiday

Our automatic Holiday Mode detects the usage and goes into energy-saving mode after 8 hours. So, now you can enjoy a tension-free holiday while Bosch Refrigerator has got you covered.

*As per internal test, in comparison Bosch products have a better Fridge:Freezer ratio compared to competition as per available market information, within the same capacity classes.

^As per internal test in comparison, Bosch products have a bigger size crisper box compared to competition as per available market information, within the same capacity class.

**T&C apply. Features available in select models only. Refer specification sheet for details.

Experience the best in cooling technology with a Bosch Refrigerator.

VariolInverter Compressor

Unlike a conventional compressor that operates consistently at a single speed, the Bosch VariolInverter compressor adjusts its speed efficiently according to the surrounding conditions and refrigerator loads. This helps to optimize the cooling conditions for you to enjoy energy savings and freshness at the same time.

VitaFresh - keeps fruits and vegetables fresh.

With VitaFresh technology, you can rest assured that your food will stay fresh longer. The refrigerator maintains the right storage conditions always, and with two boxes one for meats and the other for vegetables, you can segregate and keep food hygienic and smelling fresh.

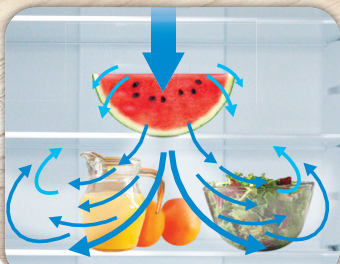

SuperFreezing - prevents frozen food items from defrosting.

SuperFreezing prevents frozen food items from defrosting as you add new food items into the freezer. Once the set temperature is reached, it switches off automatically to prevent energy wastage.

SuperCooling - quickly chills food and beverages with a touch of a button.

If the SuperCooling function is activated, food that's just been purchased is cooled more quickly. At the same time, it stops food already in the fridge from warming up. The temperature is lowered by pushing a button to 2°C at the lowest. To prevent unnecessary power consumption, the function automatically switches back after about 6 hours.

MultiAirflow System - minimizes fluctuating temperatures by ensuring optimal and uniform air circulation in the fridge.

The fan-assisted multiAirflow System causes gentle, even currents of cold air to emerge at all levels of the chilling and freezing area. Temperature fluctuations are minimized and cooling times reduced which helps your foods retain their flavour for longer.

Fridge-freezers | Ergonomic bottom freezer design

Thoughtfully designed to take care of your back.

Our bottom freezer refrigerators are ergonomically designed for easy access. As common food items are stored in the main compartment at eye level, you no longer have to bend your back frequently for your food.

Reversible door

Bosch refrigerators come equipped with reversible doors to make your life easy. Now when you need your appliance to fit into a difficult space, you can choose to switch your doors to either side and open them without any hindrance.

For top fridge compartment

- Reach for milk, vegetables, fruits, fish and meat easily without having to bend down frequently
- Allows easy cleaning of drawers

For bottom freezer compartment

- Compartmentalized drawers for easy sorting of food items
- Removable drawers for easy cleaning

Lasting freshness and hygiene

VarioInverter Compressor

Unlike a conventional compressor that operates consistently at a single speed, the Bosch VarioInverter compressor adjusts its speed efficiently according to the surrounding conditions and refrigerator loads. This helps to optimize the cooling conditions for you to enjoy energy savings and freshness at the same time.

VitaFresh Plus - keeps fruits and vegetables fresh 2x longer.

Bosch refrigerators come equipped with the VitaFresh Plus cooling technology is a product of unique German innovation. It balances the humidity in the vegetables and fruits compartment ensuring that the food stays fresh for really long! VitaFresh Plus efficiently maintains the original flavour, texture and appearance of fruits and vegetables and you are assured of fresh tasting food every day.

SuperFreezing - prevents frozen food items from defrosting.

SuperFreezing prevents frozen items from defrosting as you add new food items into the freezer. Once the set temperature is reached, switches off automatically to prevent energy wastage.

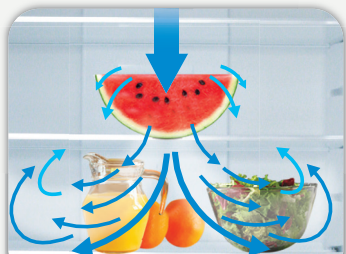

SuperCooling - quickly chills food and beverages with a touch of a button

If the SuperCooling function is activated, food that's just been purchased is cooled more quickly. At the same time, it stops food already in the fridge from warming up. The temperature is lowered by pushing a button to 2°C at the lowest. To prevent unnecessary power consumption, the function automatically switches back after about 6 hours.

Reversible Doors - fit into a specific space, without compromising the ease of opening and closing your fridge freezer's doors.

Bosch refrigerators come equipped with reversible doors to make your life easy. Now when you need your appliance to fit into a difficult space, you can choose to switch your doors to either side and open them without any hindrance.

MultiAirflow System - minimizes fluctuating temperatures by ensuring optimal and uniform air circulation in the fridge.

The fan-assisted MultiAirflow System causes gentle, even currents of cold air to emerge at all levels of the chilling and freezing area. Temperature fluctuations are minimized and cooling times reduced – which helps your foods retain their flavour for longer.

FreshSense - perfect storage climate.

Thanks to the optimum storage conditions, your food preserves in an ideal consistency; ice cream, for instance, is neither too soft nor too hard. A constant temperature in the fridge interior is a decisive factor in achieving more freshness and flavour. FreshSense sensors constantly monitors and controls the ambient, fridge and freezer temperature. A constant temperature inside the fridge, independent of the outer temperature, is the result.

LED interior lighting - Illuminates the refrigerator evenly and glare-free, and lasts for its entire life.

Giving you better visibility and aesthetic looking interiors whenever you open the refrigerator.

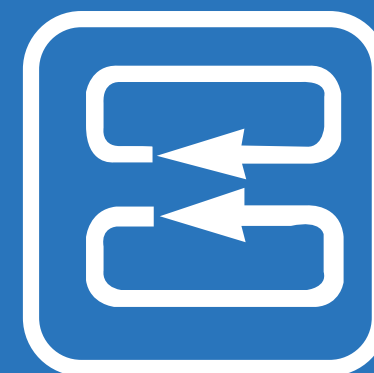

Fridge-freezers | Side By Side

Enjoy the luxury of space inside and the elegance outside.

Our double door side-by-side fridge-freezers combine technical excellence with outstanding design. Our refrigerators are equipped with beautiful glass door and digital display which seamlessly fits into any modern home. These are no longer just a place to store your food, but an integral part of a modern design kitchen.

TwinCooling System

A refrigerator that cools faster and stays that way longer

The TwinCooling System is a highlight with this refrigerator. Cold air is not shared between the fridge and the freezer. The temperature in the freezer and fridge is maintained constant at the desired level and is subject to very less fluctuation. Thus there is no transfer of odour and humidity from the fridge to freezer and vice versa. Power consumption is also reduced as the cooling systems function optimally in their respective sections.

For those who want twice as much of the best.

VarioInverter Compressor

Unlike a conventional compressor that operates consistently at a single speed, the Bosch VarioInverter compressor adjusts its speed efficiently according to the surrounding conditions and refrigerator loads. This helps to optimize the cooling conditions for you to enjoy energy savings and freshness at the same time.

VitaFresh Plus - keeps fruits and vegetables fresh .

Bosch refrigerators come equipped with the VitaFresh Plus system which is a product of unique German innovation. It balances the humidity in the vegetables and fruits compartment ensuring that the food stays fresh for really long! VitaFresh Plus efficiently maintains the original flavour, texture and appearance of fruits and vegetables and you are assured of fresh tasting food every day.

SuperCooling - quickly chills food and beverages with a touch of a button .

If the SuperCooling function is activated, food that's just been purchased is cooled more quickly. At the same time, it stops food already in the fridge from warming up. The temperature is lowered by pushing a button to 2°C at the lowest. To prevent unnecessary power consumption, the function automatically switches back after about 6 hours.

SuperFreezing - prevents frozen food items from defrosting.

SuperFreezing prevents frozen items from defrosting as you add new food items into the freezer. Once the set temperature is reached, switches off automatically to prevent energy wastage.

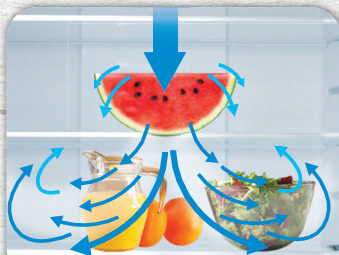

NoFrost - prevents ice from forming, thus, saving you time and effort from defrosting.

The humidity in the air is collected on the central fin evaporator rather than building up in the appliance or on the foods. This chiller, which draws the warmth out of the freezer area, automatically defrosts from time to time. The resultant condensation is taken to the outside and evaporated using the compressor warmth in a special collecting pan. This lowers humidity in the appliance, which means that almost no ice forms. So you don't need to worry about defrosting any more.

AirFresh filter - for hygienic and fresh air circulation.

Of course you don't want your kheer to smell like fish. AirFresh Filter makes sure the food smell doesn't mix up, and nothing smells fishy. It removes the odour and filters the bacteria inside the fridge, making sure the air inside is clean, fresh and safe for your family's health.

MultiAirflow System - minimises fluctuating temperatures by ensuring optimal and uniform air circulation in the fridge.

The fan-assisted MultiAirflow System causes gentle, even currents of cold air to emerge at all levels of the chilling and freezing area. Temperature fluctuations are minimised and cooling times reduced – which helps your foods retain their flavour for longer.

Two separate cooling circuits are more convenient and save energy.

What's kept in the freezer should stay in the freezer. Exactly why, there are two separate cooling circuits for the fridge and freezer, so there is no odour mixing and the temperature can be controlled independently, keeping the freshness of the food intact and the smell of the food in place.

Technology that keeps apples fresh for 90 days+.

Bosch refrigerators come equipped with the VitaFresh⁺Plus system which is a product of unique German innovation. It balances the humidity in the vegetables and fruits compartment ensuring that the food stays fresh for really long! VitaFresh Plus efficiently maintains the original flavor, texture and appearance of fruits and vegetables and you are assured of fresh tasting food every day.

Fruits

	VitaFresh ^{plus}	VitaFresh
Apple	Up to 90 days+	Up to 70 days+
Apricots	Up to 14 days+	Up to 10 days+
Cherries	Up to 15 days+	Up to 10 days+
Kiwi	Up to 30 days+	Up to 20 days+
Raspberries	Up to 3 days+	Up to 3 days+
Strawberries	Up to 4 days+	Up to 3 days+

Cabbage	Up to 50 days*	Up to 30 days*
Broccoli	Up to 10 days*	Up to 8 days*
Celery	Up to 23 days*	Up to 20 days*
Lettuce	Up to 14 days*	Up to 10 days*

*Actual storage life of fruits and vegetables may vary depending on the state of the food item when bought, type of storage compartment and different test and storage condition.
*VitaFresh freshness system may vary depending on the model. Please refer to specification information for more details.
*VitaFresh Plus results are based on an independent study comparing Bosch VitaFresh Plus refrigerators against Bosch conventional refrigerators performed by an independent research company in the USA.
*The displayed figures illustrate an average rate of decay of produce stored properly with VitaFresh Plus and with conventional refrigeration. All displayed figures are guidelines and depend on factors including the quality of the produce and also assume appropriate storage and an uninterrupted refrigeration cycle from harvest until storage. Individual cases may vary.

VariolInverter Compressor | Save up to 40% energy

An inverter that adjusts to both what's inside and outside the fridge **Vario**Inverter Compressor.

The refrigerator in your house has to run 24/7, 365 days a year. Thanks to Bosch technology, our refrigerators provide energy efficiency and performance at the same time. The VariolInverter compressor adjusts its speed efficiently according to the surrounding conditions and refrigerator loads.

Home UPS compatible

Runs on home inverter/UPS during power cut*.

Automatic holiday mode[‡]

Automatically detects the usage & goes into energy-saving mode after 8 hours.

Lower noise levels

Lowest noise level among models within the same capacity class*.

Automatic fan stop

The fan switches off as soon as the fridge door opens. It helps keep the cold air inside and saves energy.

Makes the best out of a low voltage situation

Bosch refrigerators can now operate safely without a stabilizer while withstanding voltage fluctuations between the range of 135V and 290V**.

₹ 6,500.00 energy savings[^]

Get up to 40% energy savings with VariolInverter Compressor.

10 year warranty on compressor[~]

Bosch refrigerators are long running and conveniently low maintenance.

VariolInverter[†]

Unlike a conventional compressor that operates consistently at a single speed, the Bosch VariolInverter compressor adjusts its speed efficiently according to the surrounding conditions and refrigerator loads. This helps to optimize the cooling conditions for you to enjoy energy savings and freshness at the same time.

*T&C: For VariolInverter compressor saving up to 40% is based on internal test based on IS15750 and in comparison with 2017 models (KDN43VS20I vs KDN43VL40I).

**In selected models only (BEE 2016). Please refer to specification list for details.

†Conditions subject to home inverter/ UPS capacity.

‡Est conducted in BSH lab under defined test conditions - In Top Freezer models - KDN30VS30I, KDN30VR30I, KDN43VS30I, KDN43VR30I, KDN30VV30I, KDN30VU30I, KDN43VV30I and KDN43VU30I and In Side-By-Side model – KAN56V4ONE.

***Terms & Conditions apply.

[^]T&C: Energy Saving calculation is made in comparison between KDN43, 2 star model and KDN43, 4 star model. Energy Saving is calculated over a period of 10 years (at the rate of ₹7.00 per kWh (i.e. per unit) & may differ model wise basis respective state electricity tariff rates.

Flexible storage space

Make space for your needs.

Our Bosch fridge gives you the flexibility and room you need with its extendable shelves and removable drawers. No more leaving expired food items that you have forgotten about in the fridge or worrying about storing large frozen food items.

EasyAccess shelf - Extendable shelves for perfect access to items at the back.
The fully extendable safety glass shelves can be pulled out for easy access and storage of food items. You will get a clear view of all food items – even those at the back of the fridge.

BigBox - Lots of space for huge frozen items
An extra-large frozen food drawer for practical stacking of frozen food containers or large frozen items like cakes or pizzas. Whether you have to store huge quantities of food for your house party or freeze a large turkey, you will find enough space for large frozen food items

Smart organization for your food.

Glass shelf

- Cheese cake
- Smoked foods
- Salad

Sensors that keep an eye out for energy saving^.

Bosch Refrigerators come equipped with many sensors that make them more efficient and less energy-consuming.

1

Defrost Sensor
Senses the temperature and activates defrost timer.

2

Voltage Sensor
Protects from high & low wattage and insures flawless operation between 135-290V.

3

Internal Temperature Sensor
Detects the temperature inside the refrigerator to determine the required cooling power.

4

Ambient Sensor
Detects surrounding temperature to determine the optimum cooling power at any time of the day.

5

Door Sensor
Detects how frequently the door is opened & closed to ensure same temperature

6

Inverter Motor Sensor
Increase and reduces compressor motor rotation, depending on requirement. There by saving energy.

^T&C Apply. Different sensors in different models. Placement of Sensors for representation purpose only, actual placement may vary.

Additional features

Alarm system

To alert the prolonged opening of refrigerator doors.

IceTwister

IceTwister is easy to operate and gives quick and fuss-free access to ice cubes.

Electronic Temperature Control With Touch Screen Controller

This regulates temperature, ensuring the selected temperature setting is accurately maintained at all times. The tempered glass touch panel can be cleaned with a simple wipe.

Low Voltage Startability

Even when the voltage is low, Bosch fridges have no problem. They can with stand voltage fluctuations within the range of 135-290V.

Movable Twist Ice Tray

Being able to shift the position of the ice tray allows you flexibility for better use of the storage space.

Wine Rack

Wine bottles need to be stored at the optimum angle, so we designed this shelf which also works as a no-roll shelf.

EasyAccess Shelf

Get easy access to all your food thanks to a layout that makes even the back-bench items easy to spot.

Perfect Fit

No distance to wall or furniture needed. Even if you have to place the fridge directly next to the side wall, you have full access. Also, you get full access to all drawers even if placed directly to side wall thanks to a 90° opening angle.

SafetyGlass Shelf

Easy to clean and therefore maintains a hygienic storage environment.

Double Layer Door Pocket

A useful pocket to help you organize bottles of different sizes with ease.
