

# BOSCH

Invented for life

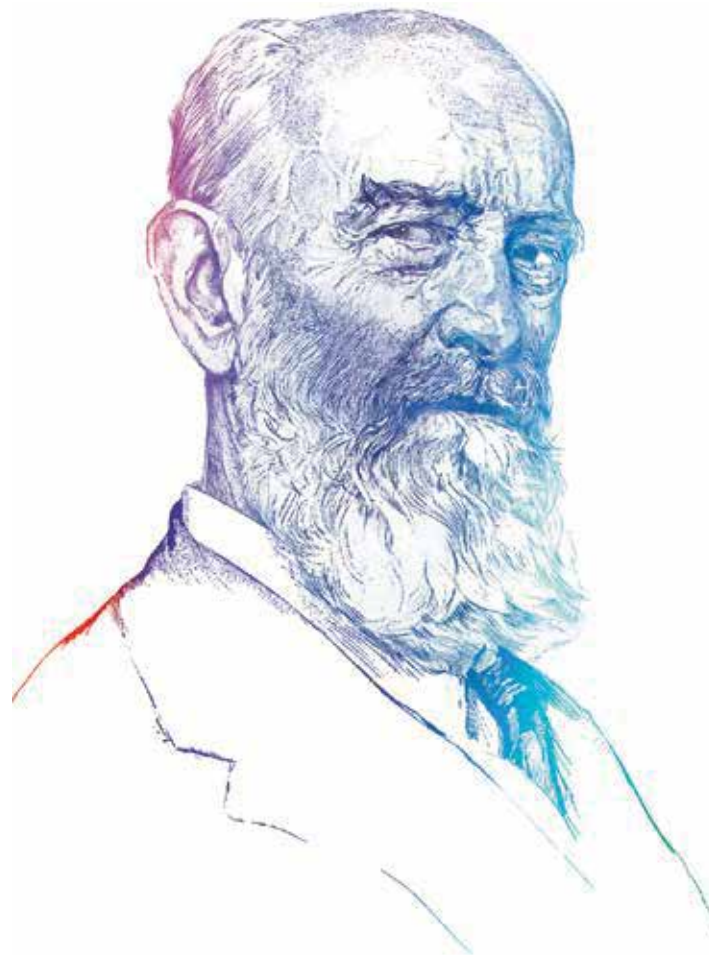

## Inspired by innovation, designed for fabric care.

We believe in going that extra mile to ensure utmost fabric care with the help of our best in class German Engineered laundry appliances.

\*Source: Euromonitor International Limited; volume sales 2021. \*12 years warranty (only on motor) for all Front Load Washing Machine and Washer Dryer.  
\$3 years of comprehensive warranty on select models for Front Load Washing Machines. Images used for representation purpose only.

# Why Bosch?

“ I have always acted according to the principle that it is better to lose money than trust. The integrity of my promises, the belief in the value of my products and in my word of honour have always had a higher priority to me than a transitory profit. Robert Bosch, 1921 ”

Founded in 1886, our assurance of perfection is credited to German engineering – a combination of high class workmanship, creativity and the innovative strength of our engineers. Bosch has been synonymous with outstanding technology and craftsmanship. At Bosch, we ensure that quality down to the minutest detail. Every appliance is carefully designed, produced and tested by our engineers and meets the highest standards in quality, performance and convenience.

## Proven Quality

“I would rather lose money than trust”. This philosophy of the company’s founder - Robert Bosch, continues to guide us in developing high-quality products, even today. Bosch home appliances come with innovative, German engineered technology, timeless design and remarkable ease of use, which gives you better peace of mind at home. These attributes, along with the premium quality of our products, has helped us bring home many international accolades, such as ‘Reddot Design Award’, the ‘If Product Design Award’ and other endorsements, year after year.

## Top Performance

What drives us every day is our desire to improve. We strive to make the best even better by developing functional, durable and energy-efficient innovations that surpass all expectations.

## Maximum Convenience

Staying true to our philosophy ‘Invented for Life’, Bosch is dedicated to making life easier. Both, our built-in and free-standing appliances, are designed to offer you complete solution for living. The simple, elegant, yet concise design of our appliances turn every kitchen into an art space, while catering to the unique needs of every consumer.

No worries on the spare parts with 12 years motor warranty.

Get complete peace of mind with 3 years comprehensive warranty.

## German Engineering

Before our washing machines leave our factory, we test every tiny detail and subject them to extensive stress tests. Only when every one of the 1,000 or so components in our washing machines meets our high standards of function, quality and reliability 100%, is a Bosch appliance ready to face its most important challenge : being used by you at home.

## Europe's No 1

Bosch is Europe's No.1 brand for large domestic appliances. It is not only Germans who put their trust in brand Bosch, but people across Europe. Today, it is difficult to imagine a kitchen without at least one Bosch home appliance, with Bosch currently the top-selling brand for large domestic appliances in Europe.

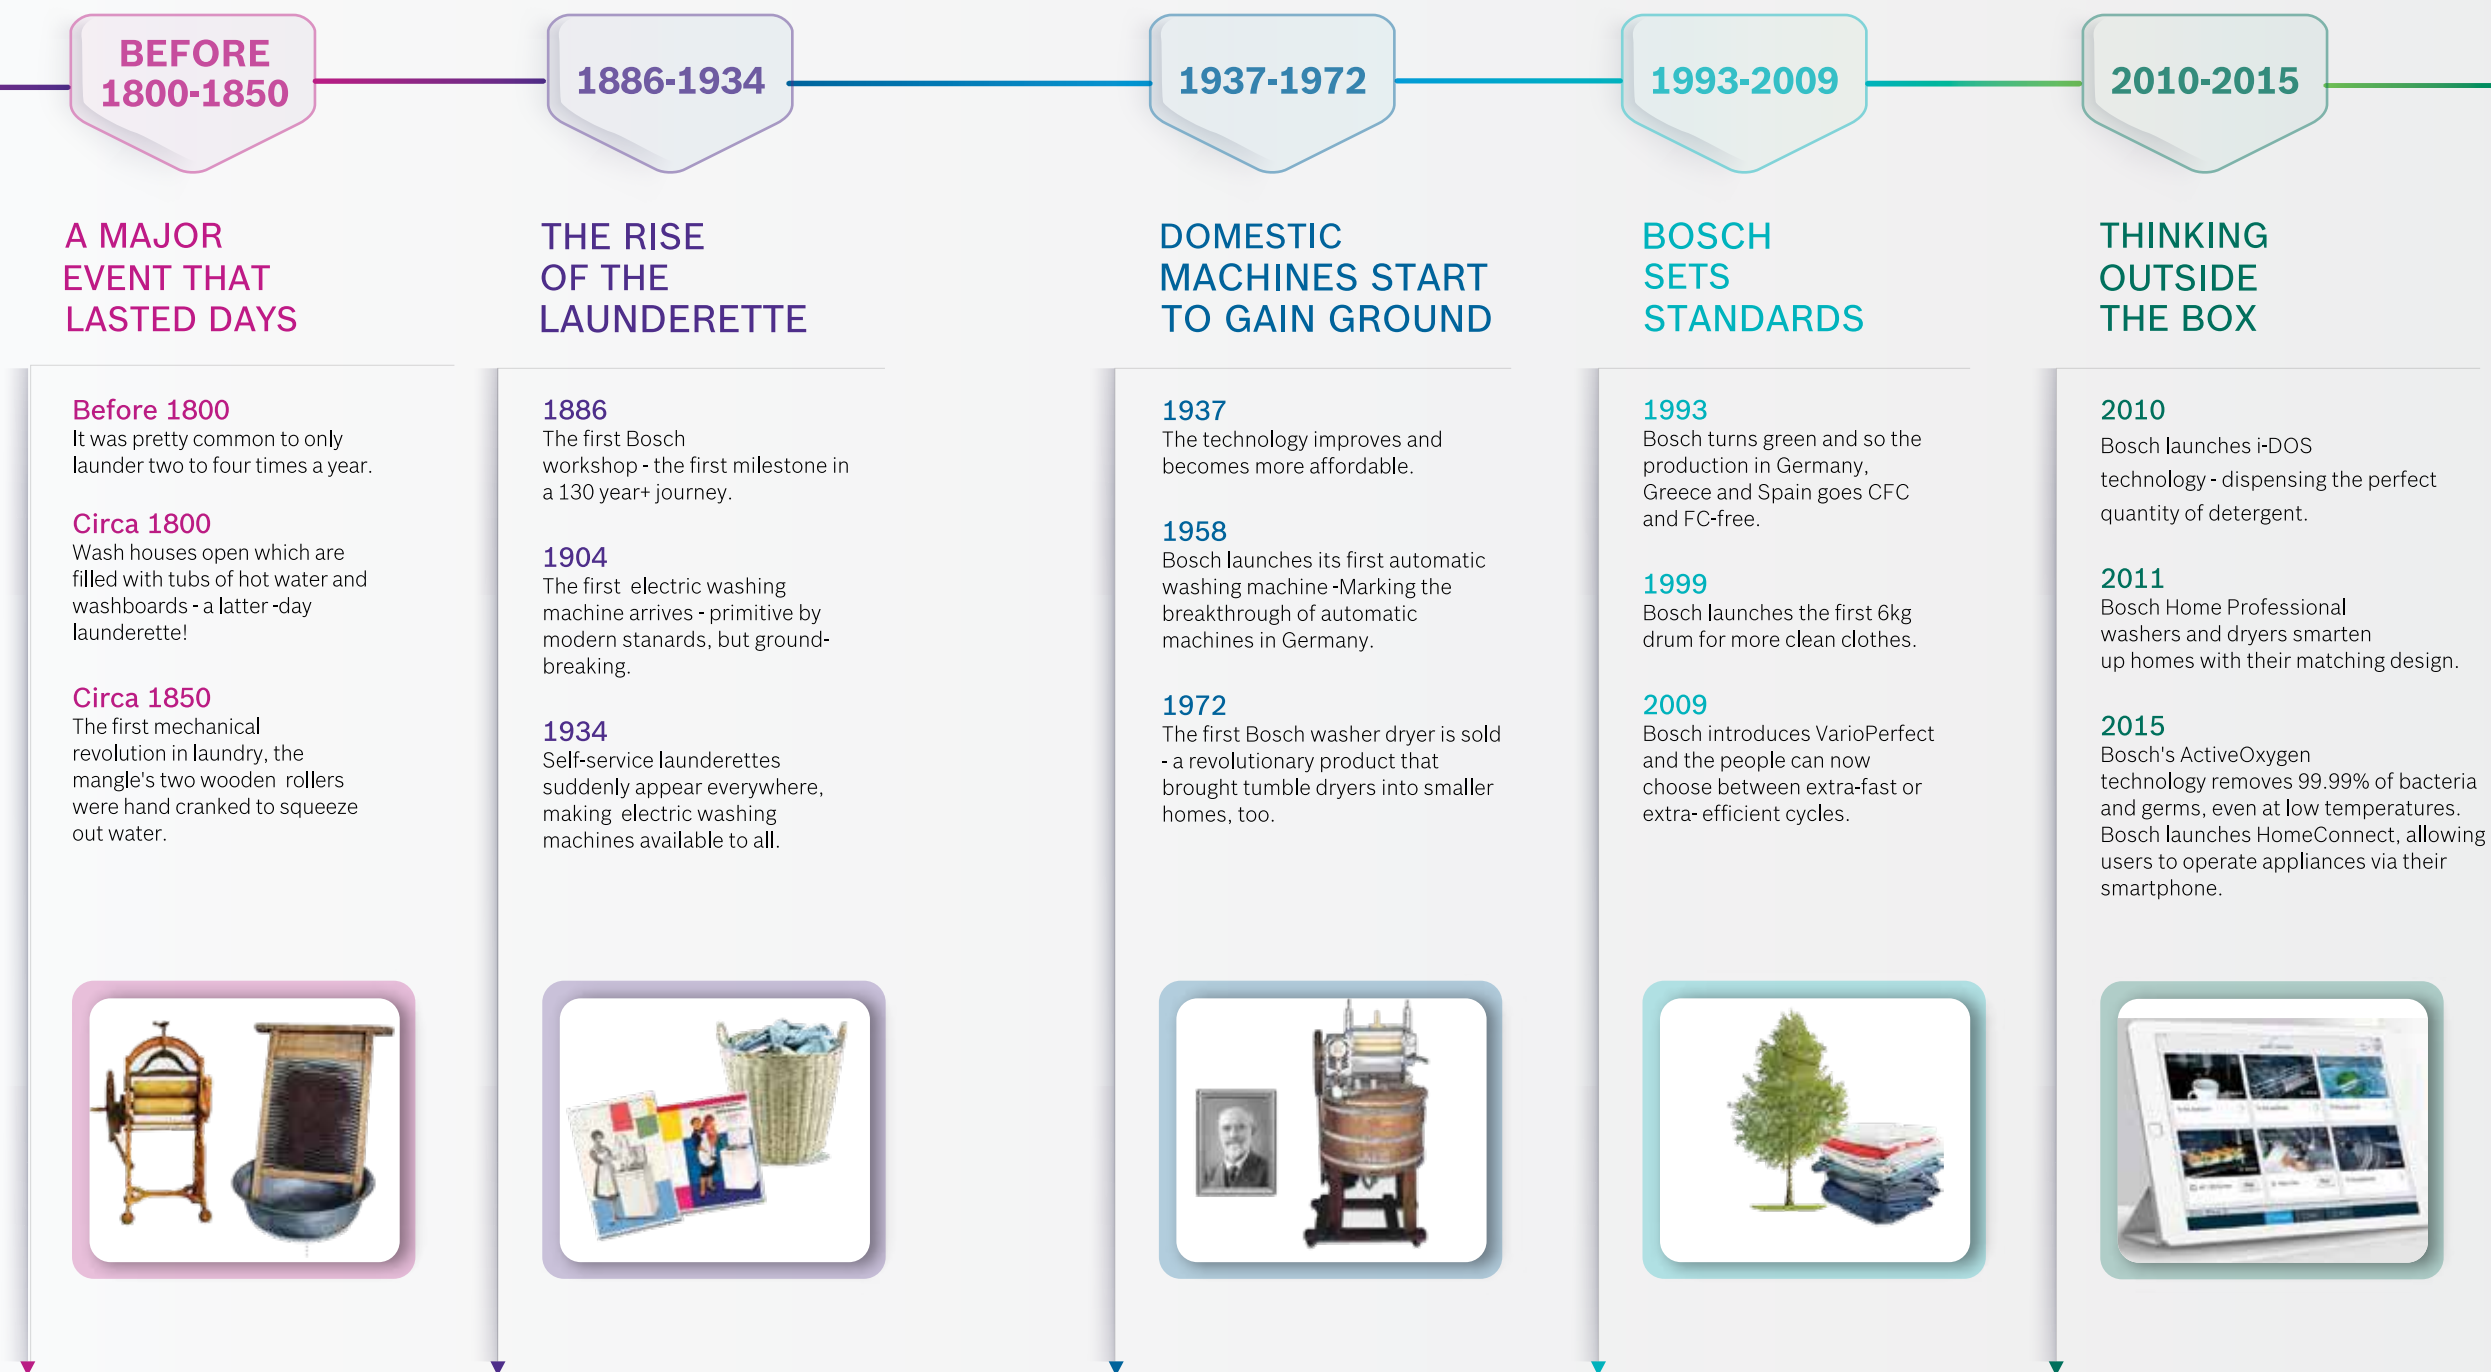

## Water Saving

We don't do things by halves. Except when it comes to saving water. Have you ever tried to halve your water consumption? We have. Since 1990, we've been able to cut the water consumption of our appliances by more than half.

\*Source: Euromonitor International Limited; volume sales 2020. \*12 years warranty (only on motor) for all Front Load Washing Machine and Washer Dryer.  
\*3 years of comprehensive warranty on select models for Front Load Washing Machines.

# Pioneers of laundry

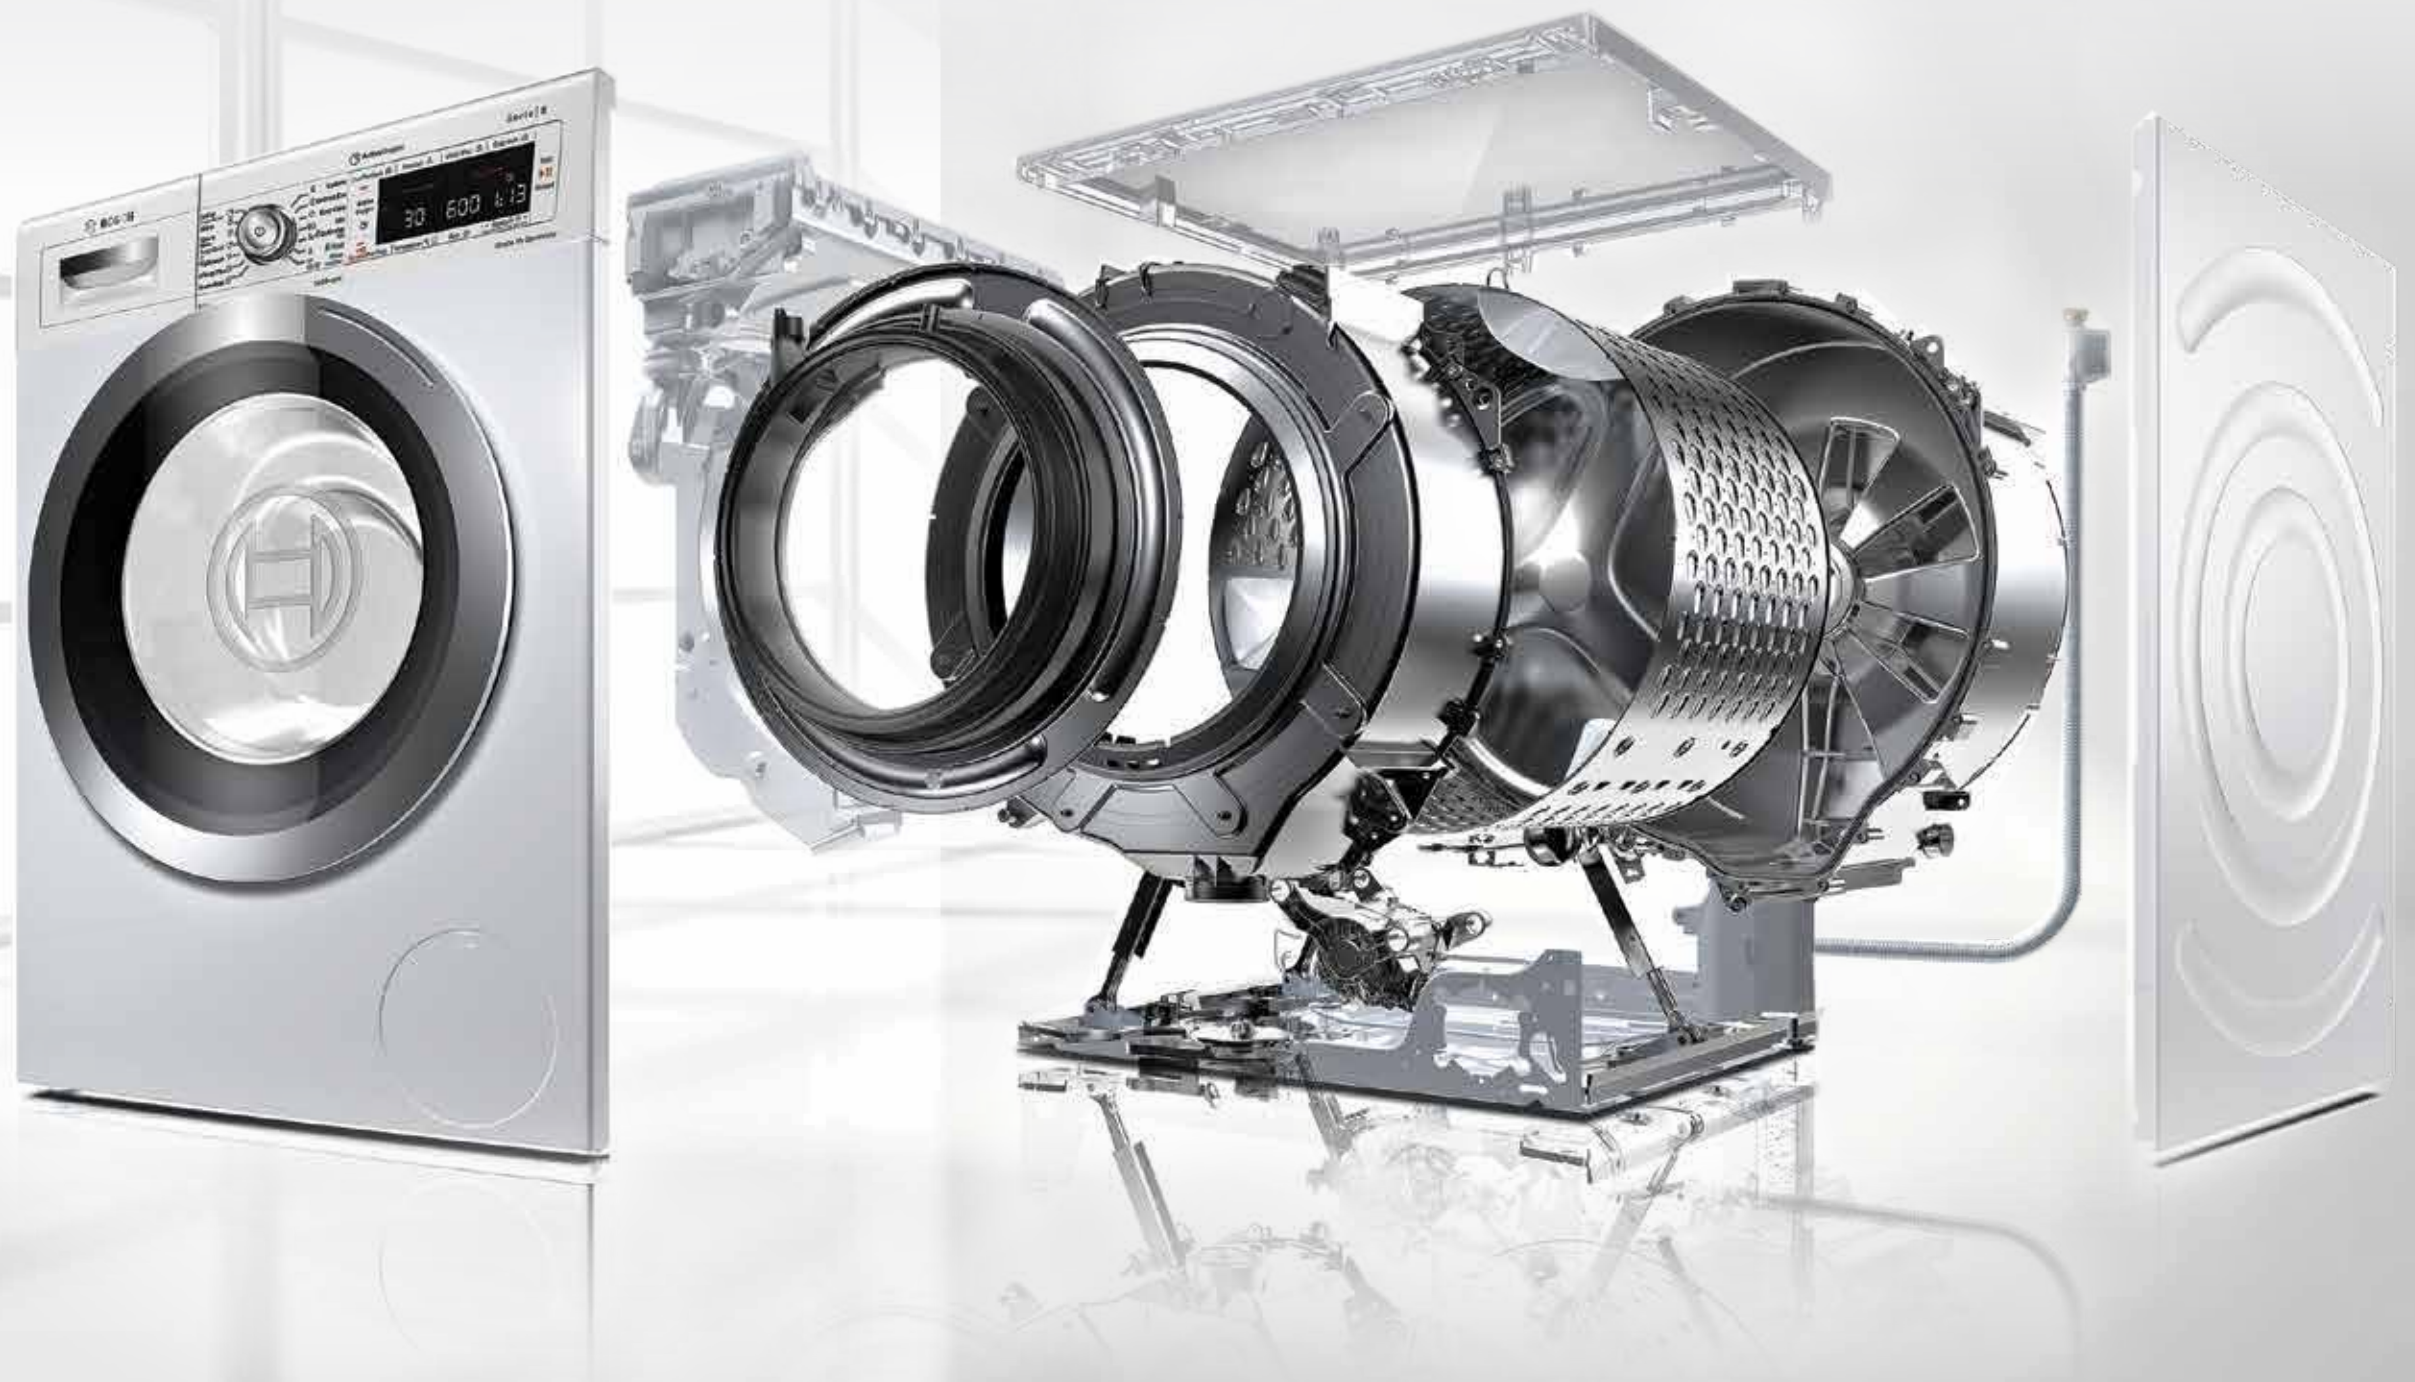

136 years of expertise and still improving.

## Inspiring Innovation for a better quality of life

You care so much for your favourite clothes. That's the reason we never stop innovating. Our home appliances are made by keeping all those things in mind that matter to you the most. We involve new age technologies, high-quality material, an eye for meaningful design, and last but not the least, sustainability to bring you the best experiences. We have come so far in our Research & Development that our German technologies are often touted as future-ready. Let's take a look at them.

# Why Front Load Washing Machine?

## More Energy & water efficiency

Front load washing machines are well known for using less water and detergent per load while providing better washing results.

## Better Cloth care

Laundry is washed with a tumbling motion similar to washing by hand. This imposes less friction on clothes, minimising wear and tear.

## Silence

Front load washing machines have a load sensor, counter-weights and padding to ensure silent performance.

## More programs & customizable options

Bosch Washing Machines feature a list of special programmes and functions for individual needs to help make life easier.

# Advanced technologies from Bosch

## i-DOS - The automatic self-dosing system.

The intelligent automatic dosing system (i-Dos) carefully determines the exact wash conditions and automatically dispenses the correct amount of liquid detergent to the very millilitre. Fill up once and wash up to 30 times\*. No more over or under dosing, the Bosch i-DOS does everything exactly right.

## ActiveOxygen - Gentle care of delicate fabrics

Sometimes, it can be challenging to clean delicate garments, which require special care such as dry cleaning or manual hand washing. With Bosch ActiveOxygen technology, a cold fog of activated oxygen removes odors from your laundry at low temperatures without the use of chemical additives.

\*As per User Manual, Light Soiling / Soft to Medium Water Hardness for 440 ml capacity.

# A world of possibilities in one app, right at your fingertips

Apart from being able to remotely control and monitor all your Bosch home appliances, the HomeConnect app provides you with helpful tips and tricks for maintenance and care. You can also access the user manuals for your appliances via the app, so you no longer need to worry about misplacing the physical copies.

**EasyStart**  
EasyStart recommends the best program based on the types of clothes you select in the app.

**Remote monitoring**  
With HomeConnect, your device can send you status updates, including when a cycle is complete, so you can master your day.

**Notifications and Reminders**  
HomeConnect users get notifications or reminders when the detergent level in the detergent compartments of their auto-dosing washing machine is low, or when their washing machine completes its washing cycle, or when the water tank of the dryer gets full.

# Introducing the Bosch laundry range

Energy and water-saving technologies across our latest laundry appliances give you peace of mind when washing and drying your clothes. To help you choose the right appliance, we have divided them into three categories.

Image used for representation purpose only.

## Washing solutions

### Value added Premium

Perfection in every detail, our Premium range of laundry appliances stands out from the crowd with superior quality, results and first-class design. Discover cutting-edge features such as i-DOS automatic dosing in our washing machines and ActiveOxygen™ for clean & fresh laundry. Monitor and control your wash remotely with our Home Connect models, developed to give you complete control over your laundry.

### Mid-Level

Our Mid-Range models offer advanced features to make life easier. VarioPerfect™ provides high performance programmes that allow you to clean your laundry with 20% less energy using EcoPerfect or reduce cleaning time by 65% with SpeedPerfect™, all this without compromising results.

### Entry Level

Easy to operate with family life in mind, our entry-level range truly understands your requirements. Practical and straightforward to use, these appliances combine easy operation with stylish design. These models benefit from the Reload function, which allows you to open the whole door throughout the cycle so you can add or remove items of any size. Moreover, it has a Pressure sensor that detects half-loads and cuts water intake in half. And also has Start/Reload function to pause machine operation for adding in last minute laundry items.

## Drying solutions

### Dryer

Now you don't have to wait for the rain to stop before drying your favourite jeans. The drying power is in your hands. Our one of a kind dryer is crafted to save time without compromising on the result. It has intelligent sensors like AutoDry to measure the temperature and residual moisture content of your laundry load in the drum, and automatically stops the drying programme once your laundry is dry. It ensures your clothes stay soft and wrinkle free for long.

### Washer Dryer

With Bosch, integrated solutions are always a smart option, never a compromise: our washer dryers not only wash flawlessly clean, they also dry perfectly and quickly, all in one solid appliance. This makes them the ideal choice for all those who value high performance and efficiency.

## Freshen up your fabric without using water

Sometimes all that your laundry needs is a quick freshening up. ActiveOxygen™ technology washes without water to remove the lingering odours which makes it suitable for delicate fabrics not meant for machine wash. Save yourself time and a trip to the dry cleaner with Bosch washing machines and ActiveOxygen™ technology.

### ActiveOxygen™ Refresh

Sometimes, your laundry just needs to be quickly freshened up.

Clothes that are clean but, for instance, no longer smell great following a trip to a restaurant can be completely freshened up again in 45 minutes with the programme [ActiveOxygen™ Refresh](#). It is even suitable for highly delicate fabrics that are not supposed to be machine-washed. The [ActiveOxygen™ Refresh](#) programme saves you time and a trip to the dry cleaner's, and also protects the fibres of the fabrics.

### ActiveOxygen™

What you love the most, we treat the best.

Whether it's a silk blouse, band T-shirt, black jeans, high-performance sportswear, your child's favourite outfit or delicate lingerie, [ActiveOxygen™](#) preserves delicate fabrics and protects their colours. Meaning your favourite clothes will stay your favourites for a very long time. Simply at the push of a button and without any chemical additives.

# A quick guide to use ActiveOxygen™ with regular wash cycle

ActiveOxygen™  
with washing programme

ActiveOxygen™ Refresh

Select your preferred wash programme and activate the ActiveOxygen™ button.

Select the ActiveOxygen™ Refresh programme.

At the start of the wash programme, a fine mist of ActiveOxygen™, which is produced by the system itself, is emitted into the drum. No other additives are needed.

A fine mist of ActiveOxygen™ is emitted into the drum, removing unpleasant odours from your fabrics. No other additives are needed.

Before the final spin cycle, your laundry is treated with ActiveOxygen™. This process takes 30 minutes in total.

During the selected cycle, The machine activates the waterless program and it all takes just 30-45 minutes.

The result: hygienically clean laundry.

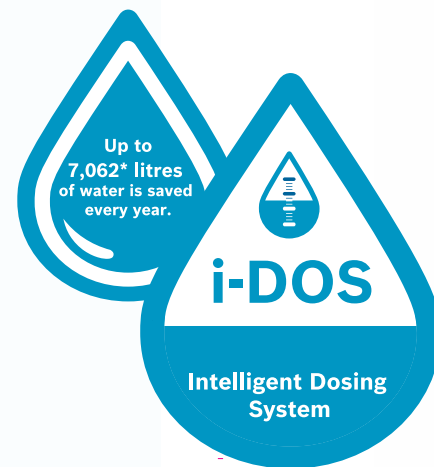

The result: fresh-smelling laundry.

# So intelligent that it does everything by itself

i-DOS is the intelligent technology of doing your laundry, by requiring no human assistance for deciding the right amount of detergent. It senses the type of fabric & degree-of-soiling and from there on automatically decides the exact amount of detergent required. By avoiding over usage you will also prevent additional rinse cycles to remove the soap scum from washing detergents.

## Too much? Too little? Just right with i-DOS.

Once activated, the i-DOS system measures the detergent automatically, to the nearest millilitre. Sensors inside the washing machine detect the type of fabric, the load volume in the drum and the degree of soiling, and adjust the detergent to the optimum dose accordingly. In this way, you'll achieve the best results for your clothes, whilst **saving detergent and water**.

\*Compared to manual dosing of liquid detergent based on an average manual overdosing of up to 38% according to the International Journal of Consumer Studies 38 (2014), 265 f.

### Manual dosing

If you prefer, you can of course continue to dose manually for all programs, except the automatic ones. This is ideal for when you wish to use a special detergent, powder or stain remover.

### i-DOS drawer 2

Add up to 0.5 litres of liquid detergent or fabric softener to this drawer.

### i-DOS drawer 1

Add up to 1.3 litres of liquid detergent (e.g. universal or colour) to this drawer.

### i-DOS programs

The unique i-DOS automatic dosing system doses liquid detergents and fabric softener with maximum precision. Special sensors determine the laundry's weight, type of textile and, in the automatic program, even the degree of soiling.

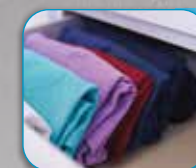

### Ideal for sensitive skin

i-DOS technology helps to ensure residue-free laundry by never dosing too much. It also means you'll avoid skin irritation and allergies just right for anyone with sensitive skin.

### Whites stay white

Too little and whites may not be perfectly clean, leading them to lose their fresh, crisp finish. Automatic dosing from i-DOS ensures all your whites and lights will stay brighter for longer.

### Keep colours colourful

When i-DOS automatically measures the precise amount of detergent your coloured clothes will stay their original colour for longer.

# What could be more simple?

## Fill up once for up to 30 washes\*

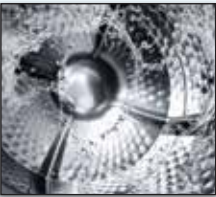

You can rely on this convenience: Fill up once and save every time you wash. Thanks to intelligent automatic dosing and automatic programs, the Bosch i-DOS always does everything exactly right.

### Smart. Efficient. Holistic.

#### Effortless washing

Now all you need to do to achieve perfect washing results is put in the laundry, start the automatic programme - and then relax.

#### Save water

i-DOS doesn't just automatically protect your laundry - it also protects the environment. The precise automatic dosing system allows your washing machine to save up to 7,062\* litres of water per year.

#### More convenience

You may not know how many loads you can wash with 1.3 litres of liquid detergent - but your washing machine does. Simply fill up the convenient tank just once and wash several loads of laundry. In addition to the tank for liquid detergent, the i-DOS system also has a second tank for fabric conditioner.

#### Save detergent

With i-DOS, your washing machine takes perfect care of your laundry and your bank account. You don't just save a lot of water - you also use up to 30% less liquid detergent.

\*As per User Manual, Light Soiling / Soft to Medium Water Hardness for 440 ml capacity.

### How i-DOS works

Each wash is intelligently weighed by the automatic load detection.

Water hardness and detergent concentration is considered.

Using the Automatic programme will detect the type of fabrics being washed.

Automatic soil detection assesses how dirty the clothes are.

i-DOS automatically doses the precise amount of detergent for each load.

The amount of water is optimized for each load.

With two large detergent and softener chambers, you can handle multiple washes without refilling.

Images are used for representation purpose only.

AntiWrinkle | Reduces wrinkles

Less wrinkles.  
Less worries.  
More care

The AntiWrinkle feature is the latest innovation by Bosch which reduces wrinkles by upto 50%\*. Tested and certified by TÜV, the function can be used in tandem with most washing programmes to deliver perfect washing results without damaging fabric.

## How It Works

Bosch washing machines can achieve this superlative feat with a specially tailored combination of speed spin, washing time, and carefully calibrated drum rotations to gently clean laundry without damaging clothes that are dear to you.

\*Reduces Wrinkles by up to 50%. Tested in TÜV SÜD South Asia in India.

AntiTangle | Minimize tangles

## Break free from tangles

We know how much you treasure your apparel. That's the reason Bosch brings you the AntiTangle feature, which minimizes tangles in the laundry by up to 50%, ensuring that your clothes are tangle-free and damage-free. Now you don't have to pull or tug your garments when you remove them after wash cycles.

**VarioInverter Motor**

**AntiBacteria**  
99.99% hygienic wash\*

**1400 High spin speed**

**Chrome Door & Knob**

**WaterResistant Touch Panel**

\*Up to 99.99% reduction of *E. coli*, *C. albicans*, *S. enterica*, *A. brasiliensis*, *S. aureus*, bacteriophage MS2 in the washing program "Hygiene Mix 20 C" with liquid laundry detergent at recommended dosage and a load size of 4 kg.

\$3 years of comprehensive warranty on select models for Front Load Washing Machines.

## Fresh laundry in just 60\*\* minutes

Quick is the word for our new ExpressWash feature. Now finishing your washing chores will take no longer than 60\*\* minutes. So you can have more family time every day. Just to make every moment you spend washing your laundry worth your while.

### TIME COMPARISON CHART

Program	Normal wash cycle	With ExpressWash**
Cottons	175 MIN	60 MIN
Synthetics	119 MIN	59 MIN
Mix Load	63 MIN	45 MIN
Delicate	44 MIN	38 MIN

\*\*Timings may vary from model to model without additional program option selected.

AntiBacteria | Hygienic wash

## Washes clothes at 60° C Kills 99.99%\* bacteria

We know that it is important that your laundry is not only visibly clean but also hygienically clean after each wash. That's why we have designed the AntiBacteria wash programme which ensures 99.99%\* of bacteria reduction & germ-free laundry at each wash so that you can ensure optimum health of your loved ones.

\*Up to 99.99% reduction of *E. coli*, *C. albicans*, *S. enterica*, *A. brasiliensis*, *S. aureus*, bacteriophage MS2 in the washing program "Hygiene Mix 20 C" with liquid laundry detergent at recommended dosage and a load size of 4 kg.

## AntiVibration™ Design More stability, less vibration

Inevitably, the drum's movement transmits vibration waves to the washing machine's walls. The side anti-vibration panel in our washing machines manage to absorb these waves, thus providing greater stability and reducing vibration. Noise is reduced thanks to the innovative anti-vibration panels, even during the spinning cycle.

## VariolInverter Motor So quiet, the only thing you will notice is its results

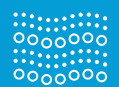

Combining the latest in German engineering and innovation, VariolInverter Motor from Bosch gives you perfect cleaning results every time, while ensuring incredibly quiet and powerful operation—so you can expect a surprisingly silent and relaxing home, at any time of the day

### Advantages of VariolInverter motor:

- Minimizes wear & tear
- Energy Efficient
- Powerful & long lasting

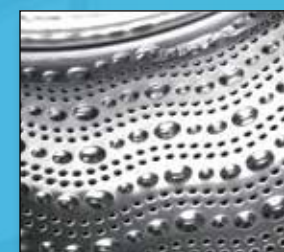

## Gentle with your clothes, firm with the stains

Bosch is proud to bring you the VarioDrum™ technology. It is a specially designed drum to protect your delicate clothes and fine fabrics. As the drum rotates in one direction, the flat side of the paddle gently cleans fine textiles and when it spins in the opposite direction, the steep side of the paddle ensures a deep clean thanks to its Wave Droplet Design. Now put your new and expensive clothes to wash without any worries.

### Power of 3 forces

#### **VarioDrum™** Wave Droplet Design

Soft & gentle on all your fabric

#### **Big Paddle** Design

Tough on stains. Gentle on your clothes

#### **Large Capacity** Design

Ample space to maneuver for the clothes

# Features and functions for everyday use

**VarioPerfect™: Wash faster or more energy efficiently**

VarioPerfect™ ensures top wash results for all types of fabrics and every load. With VarioPerfect™, you can set most programs to be quicker or more efficient with the SpeedPerfect and EcoPerfect functions. This reduces time by up to 65% or energy by up to 50%.

**ActiveWater Plus™: Technology that saves on running costs and the environment, thanks to the efficient water management system**

ActiveWater Plus™ technology takes this to the next level of intelligence, boasting up to 256 load levels which can detect the precise amount of water flowing into the machine. This means that 1kg of laundry can be washed just as efficiently as a full 10kg load.

**Touch control Buttons**

The Machine comes with elegant panel of TouchControl buttons. The variety of buttons like On/Off, Prewash,Ready in, SpeedPerfect, Reload, Spin speed, etc., allows you to control your machine with a touch of your finger tip.

**Foam Detection**

Have your laundry ready when you need it. Just delay the start of your programme with one simple button.

**Child lock**

For added safety, the door can be locked manually to prevent children from accidentally opening the door. The buttons can also be locked to prevent tampering during operation.

# Programs that are tailor made for you

When it comes to caring for your favourite items Bosch has you covered. With specially targeted programs and our fabric-protecting drum structure, your clothes are in the best hands when it comes to washing and drying.

## Wash Options

### Sportswear

Sportswear are usually only soiled with sweat, so a short wash and rinse cycle delivers greater energy efficiency. A lower temperature ensures the synthetic fibers won't crease during drying.

### Wool

Extra care for textiles such as cashmere and labelled hand wash only is taken by reducing the drum action, using a low temperature, and automatic surface drying at a low temperature.

### Delicates / Silk

To gently and effectively wash delicate textiles like silk, satin and viscose, the programme reduces the spinning intensity.

### SuperQuick 15' / 30'

Short wash programme of approximately 15 / 30 minutes for up to 2 / 3.5kg of lightly soiled washing. Packing in a wash, two rinse cycles and improved rinse spinning, this is one of the shortest complete wash programmes in the market.

### Mix / Daily Wash

Designed to wash mixed loads of cottons and synthetic fabrics

### GentleWash

With Gentle Wash, you no longer have to hand-wash delicate fabrics. This program uses precise drum action designed to be super gentle yet thorough.

### Freshen up

Whether it's freshening up wet or lightly soiled clothes or removing odours from damp clothes that remain after cold washing - our Freshen up Program will get the job done quickly and easily. This wash program with a warm, final rinse cycle reduces moisture and shortens the drying process by 10% for quicker drying - perfect for the wet and humid monsoon season.

### Time Delay

Select the end time of your wash with this option. Enjoy greater flexibility with your daily schedule.

### Reload

Forgot a sock or a shirt after starting the wash cycle or mixed a coloured item with the load of white laundry? The Reload option allows you to open the door early in the cycle to add or remove the items easily.

## Programs for specific fabric

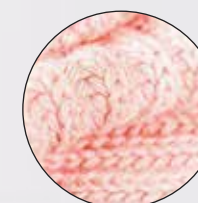

### Silk

Take extra care when it comes to your delicate items, simply wash with the **Delicates/Silk**. then dry with the **low heat Delicates** program in our **Condensor** dryer to ensure your sensitive textiles are always protected.

### Cotton

Wash and dry with the Bosch **Cotton** program featuring a wide temperature range to achieve great results for your everyday clothes. Or try our **SuperQuick** programs for your smaller loads to get the laundry done from as little as 15 minutes.

### Wool

With the Bosch **Wool** program, your favourite knits are washed at the perfect temperature paired with a gentle wash process. With the **Wool in basket program** your woolen items can be dried without any mechanical action.

# Introducing Bosch dryers Zero percent effort Hundred percent drying

Say goodbye to clothes lines, drying racks back ache. Bosch dryers use tumble drying and hot air passage to give you dry, ready-to-wear clothes in under sixty minutes. what's more, you don't even need to iron them. Make life simpler with German technology on your side.

[www.bosch-home.com](http://www.bosch-home.com)

## Not just efficient, but also effortless.

### **AutoDry**

With AutoDry sensor technology you can ensure gentle and precise drying results. AutoDry automatically knows when your load is perfectly dry by constantly measuring the humidity, protecting your clothes against overheating.

### **Anti-Crease Cycle**

This program is meant to reduce your ironing worries. Its gentle drum action automatically separates and smoothens your garments for up to 60/90 minutes, giving your clothes a wrinkle-free and ready-to-go look.

### **Wool Finish Program**

This program is perfect for your woolens. It treats your woolens with low force and cold water so that the fabric is not stretched. It also makes sure your woolens are dried well and fit you right, time after time.

### **EasyClean**

The EasyClean condenser filter makes it simple to access and maintain after every 20 cycles.

### **Saves Space, Lets You Plug & Play**

Our condenser dryers are compact in size, economical and extremely simple to use. All you need to do is plug your Bosch Dryer and get started.

# Thoughtful Features

## SensitiveDrying System

Our dryers have an airflow system that combines with the unique drum and paddle action, to create an exceptionally efficient and caring environment. The large drum with a unique textured surface ensures greater care of the most delicate fabrics, improving the airflow and keeping the laundry raised from the surface of the drum.

## Low Heat Drying

Worried that your delicate fabrics will get spoilt due to overheating? Don't worry, there is a solution. The machine senses the nature of the load. It reduces the drying temperature and increases the cycle time to make sure you get perfectly dry clothes without hurting the fabric.

## AntiVibration™ Design

Besides being eye-catching, the sidewalls with AntiVibration™ Design don't let the dryer shake and shift, giving you a quiet, vibration-free spin cycle. It's so quiet, you may even sleep off while your clothes dry.

## Wool drying hanger

The rack basket is specially designed for the wool drying rack, which completes every detail of drying in a more professional way, drying more clothes, and also more convenient for your use.

# Washes them to perfection Dries them flawlessly All under 60\*\* minutes

With Bosch, integrated solutions are always a smart option, never a compromise: our washer dryers not only wash flawlessly clean, they also dry perfectly and quickly, all in one solid appliance. This makes them the ideal choice for all those who value high performance and efficiency but lack space.

## Wash. Dry. Hygiene in 60 mins.

No over dry or under dry. Moisture sensor; which checks the moisture in the air allowing the machine to prolong or reduce the drying cycle time.

### Automatically knows when your clothes are perfectly dried.

Now with AutoDry you can ensure gentle and precise drying results. AutoDry automatically knows when your load is perfectly dry by constantly measuring the humidity while protecting your clothes against overheating. Simply choose the suitable program, then the Wash&Dry function and the machine will automatically adjust the optimal settings to the type of clothing in your load. Bosch AutoDry always offers the best treatment to each of type of textile you want to dry.

### Hygienically clean laundry, even for your delicate garments.

Sometimes clean is just not clean enough. Baby garments are simply too delicate to be washed at high temperatures. You can take special care of them with the hygiene care programme suitable for laundry which can only be washed at low temperatures while killing germs and bacteria. When activated, the dry clothes are heated up by the air drying system to 65° C that fabrics can resist to kill germs and bacteria on dry laundry, followed by 60 minutes low temperature washing cycle for an extra hygienically clean laundry.

### The best way to remove stains? Automatically.

Our 10/6 washer dryer comes with Antistain feature which removes up to 4 most common stains (blood, butter/oil, grass, red wine). It Adjust the water temperature, speed and washing rhythm, with the laundry detergent, for better collapse of stubborn stains.

## Wash Options

### SpeedPerfect™

It offers the shortest wash cycles across all programs, saving precious time by doing the laundry up to 65%\* faster yet giving 100% wash performance. In short, it reduces washing time, without compromising on washing quality.

### EcoPerfect

Our washer dryer reduces power consumption by up to 50%. It does this by sensing the fabric type and volume of load. Temperature sensors regulate and prolong the heating process according to the available time. This in turn makes detergent-use more effective and saves electricity.

### Reload Function

We've all done it - left a sock in the shoe, then realized it's too late because the wash cycle has started. Or perhaps you've put a red garment into a white-only load by mistake. Now there's a solution to this problem: the ReloadFunction. It allows you to open the door early in the cycle to add or remove the items.

## Thoughtful Features

### VariInverter Motor

It is quiet, powerful and durable. It ensures low power consumption and high cleaning efficiency. It works without brushes and ensures top results. Not just that, its innovative technology works without friction for virtually wear-free operation.

### AntiVibration™ Design

Now enjoy watching TV while your washer dryer works without much noise. The AntiVibration™ Design of Bosch washer dryers comes with sidewalls that reduce vibrations during the spin cycle and are designed to ensure that they do not shake when in action.

### Wash & Dry Program within 60\*\* min

Get cupboard-dry clothes at the touch of a button. This feature washes and dries your clothes up to 100% within 60 Min\*\*. Just load your machine, select this feature and go back to your daily chores. When you return you will have clean, dry and ready-to-wear clothes.

## Frequently Asked Questions:

### 1. Can I save water with Front Load Washing Machine?

Yes, our ActiveWater feature adjusts the water level by sensing the amount of load and fabric type. In this way, our front load washing machine saves water.

### 2. Are Front Load Washing Machines More Efficient?

Overloading your machine or putting too much detergent can lead to more rinse cycles, consuming more water and electricity. With Bosch i-DOS technology, you will not only get the perfect amount of detergent every wash, but you will also be saving water and electricity with less wash cycles.

### 3. Do we get Hygienic wash with Front Load Washing Machines?

Our AntiBacteria program washes laundry at 60°C, giving a germ-free and hygienically clean load of laundry.

### 4. Will my delicate fabric get spoilt due to overheating in a Dryer?

No, our Sensitive Drying feature will reduce the drying temperature and increase the cycle time to make sure you get perfectly dry clothes without hurting the fabric.

### 5. I don’t have space to install a Tumble Dryer. What are my options?

Not having space for a dryer? Never mind, the Bosch Washer Dryer with DuoTronic Technology dries as efficient as it washes. AutoDry automatically knows when your load is perfectly dry by constantly measuring the humidity to ensure precise and gentle drying. At last, the washer dryer for ready-to-wear results. Wash and dry up to 6kg all in one go or just washing up to 10 kg.

### 6. Why should I buy a Bosch washing machine?

Not all washing machines are built equal. We have put together a suite of technological features and wash programmes to help you achieve perfect wash results. Bosch washing machines go above and beyond to deliver more than just effortless cleaning. With a varied list of washing machines, we are sure there’s one that is perfect for your everyday needs.

<sup>\*</sup>12 years warranty (only on motor) for all Front Load Washing Machine and Washer Dryer.  
<sup>§</sup>3 years of comprehensive warranty on select models for Front Load Washing Machines.
