## Guarantee Conditions\*

a) Coffee machines, kettles, toasters, irons, hand mixers, slicers, rod mixers. Carry in appliances to BSH or dealers stores Total guarantee: 1 year from date of purchase. If faulty appliances cannot be repaired, the appliance will be replaced.

b) Automatic espresso machines, kitchen machines, vacuum cleaners. Carry in appliances to BSH or dealers stores. Total guarantee: 1 year full guarantee for all parts and labour

### Condition governing appliance service

1. A guarantee claim ceases once repair or work is undertaken by a person not entitled by BSH to do so or if the appliance is provided with spare parts, attachments or accessories that are not original, therefore causing damage.
2. The guarantee is given in such a manner that defective parts are repaired free of charge or – and this is BSH choice – replaced by perfect parts.
3. A claim under guarantee does not cause an extension of the guarantee period nor does it start a new guarantee period.
4. If BSH refuses repair or repair fails and the end user so requires, a replacement of equal value is supplied free of charge within the above guarantee period.
5. These conditions of guarantee are applicable to appliances purchased in South Africa. If appliances are taken abroad and meet the technical requirements (e.g. voltage, frequency, type of gas etc) of such country while also being suitable for the respective climate and environmental conditions, these terms of guarantee are applicable only if BSH have an approved customer service network in such country.
