Bosch in every detail. German Engineered.

Every detail of every appliance has been carefully designed, produced and tested by our engineers to fully satisfy the highest standards in quality, performance and convenience. The result is cutting-edge technology, timeless design and remarkable ease of use, reducing the workload for you in the kitchen and consistently delivering perfect results.

“I would rather lose money than trust.”

Robert Bosch

Awards

Bosch because...

Perfect results.

We at Bosch, always believe in achieving perfect results by exceeding customer expectations and setting new standards with our superior technology. While the Self Clean Chimney provides hassle free cleaning with one click, our new Brass Burner hob provides faster cooking with equal heat distribution leading to the perfect dish.

Precision with effortless cleaning.

Our stylish beveled glass and durable glass finish make cleaning just a matter of a single swipe to deliver complete ease of utility. Our chimney have been engineered with Self Clean Technology, which allows for the self-cleaning of the chimney's interiors and the ovens too come equipped with multiple cleaning functions like Pyrolytic cleaning and Eco-clean.

The power of German design.

The simple and timeless German design ensures that your kitchen will always be your favourite place in the house. This design approach of Bosch home appliances has won over 200 International design awards in the past 5 years.

Efficiency of the brand.

For over 130 years, we are building strong on Robert Bosch's core principles of providing exceptional customer service by manufacturing superior quality products with highly-skilled resources. At Bosch, right from our product design to our relationship management, everything is engineered around you.

Catering to support our customers.

Our customers are the center of our foundation and we pride ourselves in delivering the highest levels of satisfaction and happiness to our consumers. Which is why, we've trained our engineers to deliver top-class installation with minimum intrusion. Additionally, there is post purchase service support and one can also avail warranty schemes to cover product life.

Designed to make your everyday life easier.

Chimneys

When it comes to your kitchen, convenience comes first. Bosch Chimney is the perfect infusion of technology and innovation. Produced in sync with the highest German standards and engineering, every feature is thoughtfully crafted. From Self-Clean Technology to a High Suction Motor, and even an intuitive reminder feature; Bosch Chimneys are the answer to your kitchen's need.

Microwave

You can't cook faster than in a microwave. Or thaw, heat up and even bake. In addition to the classic heating methods for baking, they also have an integrated microwave.

Ovens

High-quality stainless steel combined with sleek black glass offers timeless design, while sophisticated features deliver the best results meaning less work and more cooking pleasure.

Dishwashers

A dishwasher is a must in any modern kitchen to save you the hassle of cleaning up. Choose from semi and fully integrated models to perfectly match the kitchen cabinetry.

Hobs

The intense cook in you requires a powerful burner made from solid brass with technical precision. The True Brass Hob provides total power output of 12 KW meeting all your.

GAS HOBS

For the chef in you!

India is a proud land that celebrates food and Indian cooking is characterized by a rich diversity culinary experiences. Well, the different styles of cooking co-relate with the different kind of cooks. The Weekend Cook, the Everyday Cook, the Meticulous Cook, the 2-minute Cook, the Gourmet Cook, the Traditional Cook, the Minimalistic Cook. Making everyone a master chef in their own way.

Whoever the cook or however you cook, Bosch Burners can take on anything right from rare, medium and well done. Especially engineered for elaborate Indian Cooking which relies on an abundance of ingredients, our burners generate an even flame to ensure that the food is cooked evenly in super busy Indian kitchens where all the action happens. Where, when the breakfast rustle-up ends, the lunch simmering starts, then teatime snacks sizzle, after which dinner stirring happens... the process repeats itself, day after day. Heavy-duty Indian kitchens need heavy-duty burners like BOSCH.

The Everyday Cook

Complementing a work life balance is a balanced meal with simple and healthy ingredients. Creating extra special dishes, ensures every meal time is family time. And to give peace of mind to the everyday cook, the intense blue flame from our brass hobs guarantee even cooking every single day.

The Gourmet Cook

In the kitchen, the Gourmet Cooks are the true heroes that bring in meticulous detailing into their culinary art. One hero deserves another one which is our True Brass 3D Burner. It has precision flame control for usage that's really easy. All the 3 rings are burn and perform bright to ensure full capacity cooking that's intense, creative and satisfying.

The Minimalistic Cook

An uncomplicated cooking style defines the minimalist cook who uses minimum ingredients and maximum efforts. Our elegant hobs are the perfect choice for them as they are just as minimalist, timeless, easy to maintain and ideal for daily use.

The Weekend Cook

Unlike the everyday cooks, these are a rare sight. On weekends their culinary skills begin Chilling to them is cooking something for the weekend. They love to experiment, showoff their style and stir up a distinct dish to relish with their partner. And our sealed burner base ensures there is no blockage that comes in-between the weekend cooking creativity.

The 2-Minute Cook

Their mantra is 2-minute cooking from start to finish. Even though always hurried, how well food is cooked should keep pace. And to certify that this pace is kept, our two wok burners perform in full capacity to cook the dish in the minutes they want it to.

The Traditional Cook

Maa believes if it is not traditional and cooked slow, it is not sensational. Hours are juggled cooking tasty dishes, that vanish within minutes. And with our ergonomically designed hobs, Maa gets enough room to be flexible and juggle between dishes, without any utensil clashes.

No matter what's your cooking style, True Brass hobs can take on anything.

The Power of Indian Cooking, Hobs that unleash it.

Made from pure brass with technical precision, it is empowered with 13.7 KW* cumulative power output to take on heavy-duty cooking, effortlessly.

*Applicable in select models.

True Brass 3D

Indian Cooking is all about large and hearty portions. Made from pure brass so you can rely on our burners with 3 flame rings that come with precision flame control that enables easy usage. The internal flame helps to simmer food and for full capacity intense cooking, all 3 flame rings are initiated. You could call it the distinctive rings of trust, that makes control smooth, precise and instinctive. It helps meat, daals and vegetables cook evenly. This makes Indian cooking reliable, safe, versatile and most importantly enjoyable.

Intense Blue Flame

In every Indian kitchen, a range of ingredients and intense sentiments come together to create food, most lovingly. It is this intensity that finds way into the intense blue flame of BOSCH Hobs. The blue flame renders complete combustion where right amount of cooking gas comes in contact with sufficient levels of oxygen. Leading to food being cooked evenly at any flame setting.

GRANDMA'S SECRETS

Use tamarind and jaggery

It's very important to have a nice flavor balance in your dish. This would mean sweetness, saltiness, bitterness, sourness, and some umami. Jaggery would provide some sweetness and tamarind would give the gentle sour taste.

Flame Failure Safety Device in all burners (FFSD)

What happens when a sudden gust of wind or the whirring fan above puts the burner flame to rest? Our FFSD feature gets into action mode. It detects if the gas is on, even though the flame is off and automatically cuts off the gas supply. This safety feature prevents accidents from taking place in the kitchen. Bosch's hobs provides this safety feature in all the burners.

Zero Leak Design

Milk that boiled over, that occasional gravy overflow or droplets of tea that escaped, now can be managed really well. Our best in class Bosch Hobs are engineered with a fully sealed burner base that does not allow any food and liquid particles to get inside the body. Thereby ensuring no blockages. This marvel engineering has another benefit too. It keeps pests at bay and is easy on maintenance.

GRANDMA'S SECRETS

Cook your onions for the right length of time.

If it's a vegetable curry, the onions should be cooked for 15-20 minutes until golden, while for lighter curries the onions only need to be cooked until translucent.

Other Burners

True Brass 3D Wheel

Indian Cooking can be just as demanding as it is rewarding. Our Full Brass 3d Burner crafted from Pure Brass, suits the needs of Indian cooking. As you stir and twirl, the consistent flame rises like a swirl on the well-designed wheel wok burner system.

True Brass 2D

When food is cooked in Indian Kitchens, even the neighbors drop by, uninvited. Adhering to Indian needs, this burner is molded out of pure brass. Equipped with 2 rings of flames and multi-flame control, it glows with a precise flame, providing adequate heat for cooking and an even heat distribution.

True AL 2D

Indian cooking is a labor of love with textures and flavors of tadka to savor. Our True AL 2D Burners knows this. Aluminum's excellent high heat conductivity properties, makes the transfer of heat quick for faster cooking. Cook all that you want on our AL 2D Burners.

The Bosch Safety Promise.

We hail from a lineage that's dedicated to Bosch Safety and Quality Promise. To you, we promise a relationship that is enduring. One that renders excellence at every stage. Maintaining a substantial degree of safety and security, we provide innovative future ready solutions backed by an approach that is result oriented. What's more, the brushed steel finish and the durable glass tops of our hobs are an aesthetic feast for your eyes and promise maximum safety for a wobble-free even cooking experience.

**Our products
are tested 100%
before leaving
the factory**

**The Bosch
Safety Promise
is built into all
our burners**

Other Features

Ergonomic burner placement to accommodate multiple vessels

Indian kitchens use exceptionally big utensils to cook for large families. Our burner placement can accommodate the biggest of 'kadhais or utensils'. It also provides more than enough space for you to juggle between all the dishes.

Stylish toughened beveled glass

Indian cooking is class apart and so is our stylish bevel glass for style and good-looking kitchens.

Utensils are placed firmly with cast iron pan support

Large or small, tall or short, heavy or light, whatever the kind of utensils, our designs ensure that they stay firm and don't shake while you are cooking.

Made by Bosch Made for India

German engineered hobs that are designed and built to take on all challenges of Indian cooks and their cooking styles.

Elegant design - Sword knobs for better grip

The unique sword shape design of the knobs, makes Bosch knobs delightfully easy to use and the precision of the flame stays in your control. Be it the tadka or the garnishing, our Sword Shape Knobs provide better grip in navigating the flame.

2 year Warranty

For peace of mind and stress free cooking guarantee, our hobs come with 2 years comprehensive warranty.

INDUCTION HOBS

Induction Hobs

Why induction?

Save time for the important things in life. Our induction cooktops with PowerBoost function increases power output to selected cooking zone by approximately 50 percent. Which means you can easily heat up 2 liters water in just 4.7 minutes*.

Why is it so fast, so easy to clean and safe?

Induction hobs are easier to clean than traditional hobs, because the ceramic glass doesn't get as hot. Any spillages can be quickly and easily wiped away. With an Induction hob, micro-currents are generated in the bottom of the pot. Consequently, heat is only created when the pan is connected to the hob & heating will stop as soon as it's removed, which means it's far safer than cooking with traditional hobs.

GRANDMA'S SECRETS

Tricks to Reduce Excess Salt in Curries

Make balls of the flour dough about 2-3 depending upon the quantity of your dish and put them in the curry.

Induction hobs

Multiple cooking zones. 17 cooking levels. Endless possibilities!

Efficiency

TouchSelect:

The Touch select panel of our induction hobs lets you select cooking zones with ease and directly set the individual power levels.

QuickStart:

Start cooking quicker. The QuickStart function automatically detects the location of your pot and displays the cooking zone on the control interface. Just select the power level and start cooking without delay.

ReStart function:

If you happen to spill something on the induction or accidentally switch it off, The restart function will restore your last selected settings on your hob if you switch it off accidentally. Simply press the main power switch within 4 seconds.

Touch control-Digital display:

Put your constant worry to rest. The intelligent digital display of our hobs alerts you when your food is ready, while keeping track of your total cooking time as well.

Boost function for all zones:

The 32 cm cooking zones of our inductions is specially designed for an action of up to 5.5kW power. Which means, you can cook your rice three times quicker than usual.

Performance

17 Power levels:

The 17-stage power setting function of our hobs gives you complete control over every recipe by letting you set the cooking zone in increments of 0.5. E.g., 0.5, 1, 1.5, 2, etc.

PowerBoost – now with even more power!

PowerBoost channels increased power to a selected zone to quicken the cooking process. With PowerBoost, you can boil 2 liters of water almost three times faster than on a conventional glass-ceramic hob.

Pan recognition sensor:

The pan recognition sensor detects the diameters of your pots and pans accordingly to determine the size of your cooking zone. And if you remove your pots without switching the induction off, the indicator on the control panel will become inactive until it detects your pots and pans again.

Simplicity

Stage residual heat indicator:

The countdown timer on our hobs allows you to set your desired cooking time and notifies you when the time is up. The cooking zone automatically deactivates once the countdown is completed.

Easy to clean:

Our induction hobs are made of ceramic glass which don't heat up as much. This makes the cleaning of any spillage super convenient and safe.

Child lock

Maximum safety for tiny hands. Lock your hob's control panel and prevent accidental little chefs from 'helping out' and hurting themselves. Enjoy the reassurance of maximum safety for both you and your loved ones.

Safe to use:

With your safety in mind, our induction hobs only heat up when a pot or pan is placed on it. And heating stops immediately once you remove the pot.

Induction Hobs

CHIMNEYS

You'll look up with gratitude.

Self-clean Technology:

Cleaning a chimney has never been this easy, stress-free and gratifying. The Bosch Chimney comes with Self-Clean Technology that cleans itself with just a click of a button. The interior heats up and dissolves the accumulated grease, which flows down into an easily detachable tray. All you have to do is remove the tray and discard the oil.

Smart Motor Technology:

Not everything powerful makes noise. Experience Smart Motor Technology with a powerful motor coupled with the Archimedean Air principle that provides higher suction with lower noise. It also helps lower energy consumption, giving you a happy cooking experience and complete peace of mind.

Booster Function:

Indian cooking is indeed very dynamic, with different cooking techniques. Perfect for Indian cooking, the Booster Function provides maximum ventilation whilst heavy cooking like deep frying puris, tempering dal, shallow frying tikkis, roasting meats, etc.

A chimney that's easy to use, and easier to control.

Delayed Shut off:

While fresh aromas fill your kitchen as you cook, smoke and other odors to linger along after you're done with cooking. But now you can get rid of all the odors by activating the Delayed Shut Off option. This extracts the leftover smoke and automatically turns off the chimney in 10 minutes, leaving your kitchen fresh and clean.

Gesture Control:

Got your hands full in the kitchen? Now control the chimney with just a wave of your hand with Gesture Control. Turn it on or control the speed without even touching it. Experience hands-free control that's absolutely simple.

GRANDMA'S SECRETS

Cook seed and whole spices at the start

whole spices should be added at the start, cooking them 'until they release natural oils and you can smell the aromas'.

GRANDMA'S SECRETS

Add powdered spices half-way through cooking

Adding powdered spices, such as turmeric, chilli, cumin powder and coriander powder or any other liquid half-way through, as a powder they will release their aromatics much more quickly due to their greater surface area, so you don't need to add them at the beginning.

OVENS & MICROWAVES

The cake's taste. The oven's look. Both won't leave your guest's mind.

Our ovens' minimalistic design in glass and stainless-steel complements your other Bosch appliances along, giving you a professional edge. Engineered with the right ingredients, our ovens are designed to cater to all your cooking needs. From continental to Italian, desserts to Indian cuisine, its large capacity makes it ideal for baking and grilling for your entire family. So just set the timer and cook to your hearts content.

GRANDMA'S SECRETS

Add more of the baking soda

If the recipe required you to use half teaspoon of baking soda. This will bring the recipe into the correct proportion, although you may end up with more of the dessert than you anticipated. Use this method only if you're sure of the exact quantity of extra baking soda that you added.

Ovens | Features

Features and functions for everyday use.

Design

TFT touch display

The intuitive control ring and clear TFT display with icons make it easy for you to operate our ovens. Shortcuts to the two most commonly used heating functions, helpful icons and clear descriptions inside the control ring provide you all the information you need to keep track of your cooking.

Easy cleaning

Our oven range comes equipped with catalytic liners, which makes its cleaning super easy. Also thanks to our EcoClean direct cleaning aid and Pyrolytic function, cleaning is not at all task now.

SoftClose door

Oven doors open and close softer and quieter than ever. This convenient feature not only offers a premium finish, it also protects the oven and door during the lifetime of the oven.

Performance

Automatic functions to speed up your cooking

Heat, defrost, roast or grill anything, thanks to up to 1000 watts and up to five power levels. The AutoPilot program helps achieve the best possible results with very little effort. Just insert your roast, enter its weight and select the desired program from the menu.

Extra large cavity

With Bosch ovens, you get 71 usable liters of cooking space and larger baking trays. This increased cavity provides for more uniform baking results due to the improved heat circulation between the racks.

Safety

Cool door

Unlike other ovens, the outer glass door of our ovens is made of triple glass. It keeps the door cool even while you are cooking at a high temperature, giving you that added safety benefit.

Child lock

The child lock facility of some of our ovens prevent any unwanted changes to your settings. The control panel gets locked, so the appliance can only be switched off using the On/Off button.

Ovens | Heating Functions

Take your cooking further with an oven that anticipates your need.

Baking and roasting to perfection require the precision of temperature and the appropriate heating functions. Bosch's ovens have been designed to give you a range of heating functions, from 4D HotAir to HotAir Eco, to suit all your cooking needs.

Function*	Recommended for
 4D HotAir This feature of our oven evenly distributes heat from the ring heating element in the back panel to the cooking compartment in the front. Allowing you to bake and roast on up to 4 different levels, simultaneously.	Cakes and small baked items (Muffins, biscuits) 
 HotAir Eco This feature evenly distributes the energy optimized heat from the ring heating element in the back wall to the cooking compartment in the front. Thus, allowing you to cook selected dishes on one level without having to preheat the oven.	Cakes and small baked items (Muffins, biscuits) 
 Top and Bottom heat This feature ensures that even heat is emitted both from the top and bottom of the oven. Making it ideal for traditional baking and roasting.	Cakes and bread 
 3D HotAir This feature heats up to two levels with equal amount of heat. Thus, allowing you to prepare mawa cake and cookies simultaneously on two different levels.	Tarts and savory cakes 

Function*	Recommended for
 Bottom heat This feature can be used for slow cooking and during the final stage of baking for a crispy base that isn't dry.	Pizza and pies 
 Pizza setting This feature is perfect for dishes like pizza which require a lot of heat from underneath and moderate amount of heat from the top.	Pizza and baguette 
 HotAir grilling This feature with its grill element and the on and off fan switch helps you roast to perfect crispiness.	Poultry, whole fish and larger pieces of meat 
 Full width grill This feature helps you grill flat items like kebabs with ease.	Steak and sausage and making toast 
 Half width grill This feature is ideal for grilling of small quantity of food which require a smaller surface area.	Small portion of steak, sausage and making toast 
 Top and bottom heat Eco This feature is suited for single shelf energy efficient cooking.	Any cooked food 

*To cook on all four levels simultaneously, four wire racks are required for best results. For up to three levels, all accessories are suitable, i.e. universal tray or baking tray. Features may vary depending on models. Please check individual product specifications.

At last, someone in the house who enjoys cleaning up.

Anyone who has ever cleaned an oven by hand knows how exhausting and time-consuming it can be. However, this chore is a thing of the past, thanks to our pyrolytic self-cleaning function. You won't waste a minute on cleaning, leaving you more time to enjoy cooking.

Pyrolytic self-cleaning: the oven that cleans itself

During the pyrolytic cleaning function, the oven heats up to 480°C to burn off grease and food residue*. This means you never have to clean your oven again.

Simply follow these 3 steps:

1. Activate the pyrolytic cleaning function.
2. Choose from three different cleaning levels, depending on the degree of residue that has accumulated.
3. Once the program is finished, wipe off the thin layer of ash in the base of the oven.

EcoClean direct: makes cleaning easier

While your dishes bake or roast, the special direct coating of microfine ceramic particles on the oven cavity walls absorbs grease and residue and breaks them down through oxidation.

Simply follow the below steps and reduce your cleaning time significantly*:

1. Activate the EcoClean direct cleaning program.
2. Once completed, clean remaining surfaces that don't have the special coating.
3. Wipe the base of the oven and inside of the glass door.

The direct coating also regenerates every time you heat the oven and continues to do so for the entire service life of the appliance.

Universal pan and baking tray with ceramic non-stick coating

In addition to the classic universal pan, Bosch is now offering a new universal pan and baking tray for Series 6, 4 and 2 ovens with a ceramic non-stick coating. This special non-stick coating makes the surface easy to clean. And the ceramic coating has another advantage: You no longer need to use parchment paper or to grease the tray, which makes baking, roasting and cleaning much easier.

*Please remove all accessories when activating the specific EcoClean Direct program.

#Metal racks may show slight discoloration after prolonged use of the pyrolytic function. To prevent this you may choose to remove the wire racks during the pyrolytic cycle. Features may vary depending on models. Please check individual product specifications.

GRANDMA'S SECRETS

Take your cookies out when just the edges have hardened

If you wait for them to 'cook all the way through then they'll break your teeth!

Ovens

Model	HBG633BS1J 71 ltrs 4D HotAir 10 heating method

Microwave | Features

Steams so gently, even vitamins stay for dinner.

Cook, heat, thaw or bake within minutes with the multi-purpose Bosch combination microwaves. Providing perfectly well-cooked meal even if you are in a hurry, our Steam feature ensures to retain nutrients and flavors of your food.

8 Automatic programs with weight settings

The microwave oven lets you cook selective dishes easily, thanks to its intuitive 8 Automatic Programs. Just place your food, and enter the weight to be cooked. The microwave oven will automatically set the time required to cook the dish based on the weight. No more guessing game.

High power levels

The 1000 watts and five power levels of our ovens let you heat, defrost, roast or even grill any food item.

Defrost and cook

Our ovens save your time by allowing you to cook and defrost the food simultaneously without you having to thaw it.

Steam

When food needs browning or crisping, the injection of steam alongside traditional hot air is the technique of choice for the most desirable results. With Steam, you can prepare perfectly crispy and juicy dishes simply and efficiently, whilst the full-size cavity models provide even more freedom and flexibility.

GRANDMA'S SECRETS

Peel ginger with a spoon

No need for a special tool to de-skin this oddly-shaped root. Because the peel is fairly thin, simply scrape a metal spoon down the side and around the tricky rounded edges of the ginger to flake the skin away.

DISHWASHERS

Designed and perfected for the Indian Kitchen, now available with new features.

Bosch built-in dishwashers are designed to fit in your new or existing kitchen with style and ease. With thoughtful features like RackMatic and Home Connect, doing the dishes is now easier than ever before.

Perfected for Indian Utensils

The Intensive 70°C program designed to clean oily & masala stained Kadhais, pots, pans, etc.

Home Connect **NEW**

The IOT enabled remote-access ecosystem lets you connect directly with your dishwasher from anywhere, through the Home Connect^ App. Now you can control everything on the go.

Hygienic Wash

With Bosch dishwasher water heats up to 70°C & kills 99.99% germs & bacteria.

RackMatic **NEW**

The 3-Stage Rackmatic flexible basket fits almost everything your kitchen has to offer.

Clutter-free kitchen

Bosch Dishwasher helps you keep your kitchen platform clutter-free and spacious.

No manual pre rinse required

Directly load the utensils in the dishwasher after scraping the leftovers, without any need to manually pre-rinse them.

DosageAssist

The DosageAssist feature maximizes the effectiveness of detergent tablets by dropping them into a specially designed tray that is targeted by water jets, resulting in a tablet that dissolves evenly under control ensuring optimal usage.

Glass Protection Technology

Bosch Dishwashers with glass protection technology constantly regulates the degree of hardness of water to ensure that valuable glasses and crockery are washed with special care.

*HomeConnect is currently available in 9 cities (Mumbai, Pune, Bangalore, Hyderabad, Chennai, Jaipur, Kolkata, Ahmedabad, Delhi) and will be available in other cities very soon. *Remote diagnostic & downloadable programs will be available soon in India as well.
