

Invented for life

More performance. Less energy usage. Perfect results with the World's No. 1 Brand*.

Every appliance we manufacture has our belief in quality engineering and innovative at its core delivering perfect results every time to make consumer's life easier. That's why we've been named the World's No. 1 Brand*.

VarioDrawer

An exclusive drawer that gives you extra space for all your cutlery items.

Extra Clean Zone

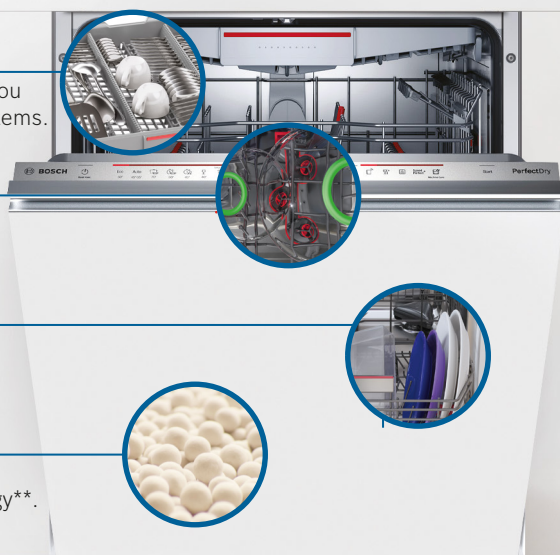

Thorough cleaning of heavily soiled dishes.

PerfectDry

Perfect drying results even for your most demanding items.

Less energy usage

Patented Zeolith with natural minerals saves up to 20% energy**.

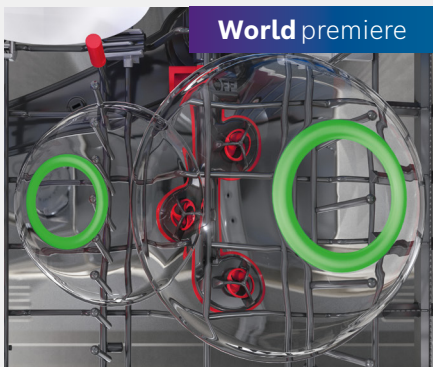

PerfectDry

Perfectly dries with less energy usage.

PerfectDry with patented Zeolith technology ensures perfect drying results even for hard to dry items like plastic dishes. The natural mineral uses the humidity of the cleaning phase and turns it into hot air. In a strong, yet gentle "3D" airflow this hot air is evenly distributed throughout the dishwasher and effectively dries all dishes, even those with hard to dry materials. Moreover, the entire process requires less energy. That makes Zeolith, not only the effective choice but the sustainable one as well.

World premiere

Extra Clean Zone

Extra cleaning for heavily soiled dishes.

The zone is positioned in the redesigned upper basket and consists of 3 rotating water nozzles for which heavily soiled items like bowls with dried-in cereal or burnt-in crème brûlée are no longer a problem. Through the rotating nozzles and constant watering, 3x more water reaches the dishes for proven better cleaning performance: and that without an increase of detergent or temperature. The rotating nozzles can easily be switched on and off with just one touch.

EfficientDry

Automatic door opening for better drying performance.

With EfficientDry, the door automatically opens after the program has finished to boost the drying process and stop water condensation. This not only saves energy and ensures optimal dryness, but also allows the dishes to cool down, thus being easier to unload.

ExtraDry

Extended drying phase.

Whenever you need a little extra heat, you can also choose ExtraDry. The option extends the drying phase for 15-20 minutes and further enhances drying results.

With Home Connect function, you can easily control and monitor your home appliances where ever you are. Moreover, you have continuous access to digital user guides and useful tips that make everyday life as easy as it gets and guarantees best results.
