Why choose Bosch?

Most Reliable Washing Machines 2023

Precisely engineering and manufacturing quality laundry appliances since 1958. Bosch appliances are built to make everyday life easier, with the latest in features and intuitive designs.

CO₂ neutral

CO₂ neutral

Bosch is CO₂ neutral worldwide (scope 1 and 2) since 2020.

Quality and Performance

Bosch appliances are tested to the highest standard of quality, performance and reliability prior to leaving our factories around the world.

10 Year EcoSilence Drive motor warranty

The EcoSilence Drive is Bosch's most powerful motor to date. Instead of supplying electricity to the rotating armature via carbon brushes, we equipped the armature itself with extremely strong permanent magnets. As a result, we are able to offer a 10-year motor warranty on washing machine models that feature the EcoSilence Drive.

T&Cs apply visit www.bosch-home.com.au

Quiet Operation

We know that noticeable noise from appliances can be disruptive. That's why we've tested the noise levels of our laundry appliances and discovered ways to reduce them. Our unique EcoSilence brushless motor improves energy efficiency, eliminates friction and noticeably reduces noise.

WQG235D8AU

Bosch Heat Pump Dryer benefits.

Energy efficient

ActiveAir technology makes Bosch Heat Pump dryers amongst the most economical dryers in Australia. Energy is saved by reusing existing heat efficiently during the entire drying process.

Fabric-friendly drying

With the Sensitive Drying System, laundry is dried with great fabric care. Warm air coming from all sides of the dryer, leads to an even distribution of heat. Garments are also gently tumbled by the SoftFlow paddles, instead of lying flat on the fabric-friendly drum structure. Simply put, no overheating.

Optimised air quality

Bosch Heat Pump dryers re-use air during the drying process, to reduce humidity and lint pollution in your home. Stored water from the condenser tank is used to perform a cleaning cycle to flush away lint and fluff gathered in the condenser.

Perfect programs for your favourite fabrics.

When it comes to caring for your favourite items, Bosch has you covered. With specially targeted programs and our fabric-protecting drum structure, your clothes are in the best hands when it comes to washing and drying.

Suitable Bosch programs

Silk

Take extra care when it comes to your delicate items, simply wash with the **Delicates/Silk**. Then dry with the **Low Heat Delicates** program in our Heat Pump dryer to ensure your sensitive textiles are always protected.

Cotton

Wash and dry with the Bosch **Cottons** program featuring a wide temperature range to achieve great results for your everyday clothes. Alternatively try our **SuperQuick** programs for your smaller loads to get the laundry done in as little as 15 minutes.

Wool

With the Bosch **Wool** program, your favourite knits are washed at the perfect temperature paired with a gentle wash process. With the **Wool program** and optional basket accessory (sold separately) your woollen items can be dried optimally.

i-DOS 2.0 intelligent auto dosing.

Get the precise level of dosing - wash after wash.

Get maximum efficiency for your laundry care with the i-DOS automatic dosing system. Just fill up the detergent and softener compartments once, and the i-DOS sensors will measure out the precise amount of detergent and water needed for each load, wash after wash. i-DOS adapts the amount of detergent required depending on the fabric type, degree of soiling and the weight of the load.

Take the guesswork out of dispensing laundry detergent.

How does it work?

Each wash is intelligently weighed by the automatic load detection.

Water hardness and detergent concentration is considered.

Sensors detect the type of fabrics being washed.

Automatic soil detection assesses how dirty the clothes are.

i-DOS automatically doses the precise amount of detergent for each load.

The amount of water required is optimised for each load.

Manual dosing

The hand dosing compartment is available for you to continue using your special detergent, powder or stain remover. Available for all programs, except Automatic.

i-DOS drawer 1

Add up to 0.98 litres* of liquid detergent (e.g. universal or colour) to this drawer.

Softener drawer 2

Add up to 430ml* of fabric softener to this drawer.

*Detergent drawer size can vary by model.

*Fabric softener drawer size can vary by model.

The perfect laundry pair.

All Bosch washing machines and Heat Pump dryers offer advanced technology across the range, with many options to suit your lifestyle needs.

The ultimate laundry design.

If you are looking to upgrade the design of your laundry space, the matching graphite appliances are the perfect addition to your home.

The washing machine doesn't fall short of inclusions, including i-DOS automatic dosing, AntiStain system and a large 9kg capacity. The matching heat pump dryer features a new reverse tumble-drying bed sheets program, half load drying option and self-cleaning condenser which helps to maintain optimal energy efficiency.

High energy efficiency and the latest features.

Bosch heat pump dryers are highly energy efficient. The 9 star energy rated Series | 8kg heat pump dryer is an ideal option for the energy conscious. It features a self-cleaning condenser which removes lint and fluff automatically up to four times during the drying process to maintain top energy performance. The German made Series | 9kg i-DOS washing machine is the perfect matching pair, with automatic detergent dosing and an AntiStain system that reliably tackles 4 common stains.

Large households and more washing.

The Series | 6 10kg washing machine is ready to tackle loads of laundry! With its large capacity, it is the perfect solution for larger households and for bulky items like bedding and curtains. The Series | 6 9kg heat pump dryer is the perfect pair to match, featuring a touch control panel and additional options like Half Load and Iron Dry, for even greater flexibility.

The everyday performer.

Bosch Series | 4 laundry appliances are reliable machines, great for daily washing and drying needs. The quiet, durable and highly efficient EcoSilence brushless motor is found within all Bosch washing machines for optimal performance, as well as quick 15/30 min programs when you're on the go. Bosch dryers are extremely stable with an anti-vibration design. All Bosch heat pump dryers feature a Sensitive drying system to gently dry garments, as well as an Auto Dry program to achieve your preferred level of drying.

Most Reliable Washing Machines.

The latest Bosch laundry appliances give you peace of mind when washing your clothes. German engineering paired with the latest technology make sure your laundry is gently cared for wash after wash.

Features and functions for everyday use.

Discover the advanced features available on selected Bosch washing machines.

ActiveWater Plus:
Saves on running costs and the environment.
 Highly efficient water management technology. The exact load is automatically detected to then determine the most efficient water flow possible. This means that 1kg of laundry can be washed just as efficiently as a full load.

EcoPerfect or VarioPerfect:
Use energy efficiently.
 Selected models with **EcoPerfect** can reduce energy consumption by up to 50%.*

EcoSilence Drive
 Setting a benchmark in energy efficiency, the EcoSilence Drive brushless motor is our most powerful motor to date that works without brushes to eliminate mechanical stress. It is extremely energy efficient, durable, and one of the quietest motors in its class. As a result, we are able to offer a 10-year motor warranty on washing machine models that have the EcoSilence Drive.

VarioDrum
 The VarioDrum design gently and efficiently washes all types of clothing without stretching, creasing or damaging your clothing. The droplet-shaped design and the asymmetrical paddles gently rotate your laundry to the centre ensuring an intensive, quick, and thorough clean of the entire load.

AntiVibration side walls
 The side wall design provides greater stability and reduces vibration. The enhanced insulation also regulates noise levels, making Bosch washing machines very quiet even during the spin cycle.

AquaStop anti-flood protection*
 The AquaStop system provides 100% anti-flood protection^.
 *Applies to: WGG24402AU

Child lock
 For added safety, the door can be locked manually to prevent children from accidentally opening the door. The buttons can also be locked to prevent tampering during operation.

AquaSecure anti-flood protection*
 The AquaSecure self-sealing hose minimises the risk of flooding.
 *Excludes WGG24402AU

Wash programs and options explained

WGG244A0AU

Standard wash programs.

(available on all washing machines)

Cottons

This program is ideal for hard-wearing items made from cotton, linen or blended fabrics. For optimal results wash white cottons at 60°C or higher, while multi-coloured cottons are better suited to lower temperatures.

Cottons Eco

The Cottons Eco wash program offers an initial 60 minute wash cycle before the first rinse. Ideal for light-to-medium soiled garments, a longer wash reduces resource consumption, while still providing impressive wash results.

Delicate/Silk

The wash temperature is preselected at 30°C, and depending on the fabric wash instructions, may be increased to 40°C or even reduced to a cold wash to provide a temperature-controlled wash. Suitable for silks, delicate viscose and synthetic items.

Drum Clean*

To prevent odour build-up, a regular drum clean is recommended if you regularly wash at 40°C or lower. An LED reminder will flash after more than 20 washes (of 40°C or lower) to let you know that a drum clean is required.

Easy Care

Recommended for synthetic and blended fabrics of up to 4kg, with a temperature of 60°C.

Wool

The wool program provides a gentle wash action at an optimum temperature of 30°C. The gentle spin at the end of the cycle extracts water, helping garments retain their shape.

Rinse

Rinses the laundry with cold water, spins the load and drains the water.

Spin/Drain

Spins the wet laundry and drains excess water.

Sportswear*

Designed specifically for sports and performance fabrics with micro-fibre technology, like those used for gym, cycling or jogging. The Sportswear program offers two rinse cycles with a gentle washing action for greater fabric protection.

SuperQuick 15/SuperQuick 30*

Freshen up lightly soiled garments of up to 2kg with SuperQuick 15 min program, or up to 3.5kg of laundry with the SuperQuick 30 min program.

*Programs not available in washer dryer model: WNA254U1AU.

Additional programs.

(available on selected models)

Prewash

For stubborn stains and heavily soiled garments.
Available in WAN24124AU.

Automatic 30 degree

Exclusive to washing machines with i-DOS technology, the Automatic program adjusts the dosing and spin speed based on the detected load size, textile type and the soiling level.
Available for up to 3 different temperatures.
Available in WGG244ARAU, WGG244A0AU and WAX32K41AU.

AllergyPlus

Suits items that need to be hygienically clean such as towels, bed sheets or pillow cases by washing them thoroughly at 60°C.
Available in all washing machines excluding WAN24124AU and washer dryer WNA254U1AU.

Shirts/Blouses

This program is ideal for shirts and blouses. The gentle spin cycle makes ironing effortless.
Available in all washing machines except WGG24409AU, WGA254U0AU and washer dryer WNA254U1AU.

Jeans/Dark Wash

Dark clothes, particularly jeans, often need special treatment. This program optimises water, temperature and spin speed for dark cotton and synthetic textiles to protect fibres against bleeding.
Jeans available in WGG24402AU and WGG2449RAU.
Dark wash available in WGG24401AU and WAN24124AU.

Kidswear

An energy optimised program for heat-resistant children's clothing made of cotton or linen. Suitable for washing whites, and for multi-coloured laundry at various temperatures.
Available in WGG24409AU, WAN24124AU and WGA254U0AU.

Mixed

A program designed to wash mixed fabrics in approximately 60 minutes. Ideal for garments that need to be washed urgently, without the need to wait for a full load.
Available in WGA244U0AU, WGG24409AU and washer dryer WNA254U1AU.

Quick Mix

A program designed to wash mixed fabrics in less time with the SpeedPerfect option. Wash up to 3.5kg of laundry quickly.
Available in WAN24124AU, WGG2449RAU, WGG24401AU, WGG24402AU and WGG244ARAU.

Night Wash

The end sound is switched off in this program, making it suitable to run at night. It washes at 40°C with a spin speed of 800rpm resulting in lower noise output. Suitable for cotton, synthetic fabrics or blended fabrics. Maximum load capacity 3.5kg.
Available in WAX32M41AU.

Quilt/Duvet

This program uses higher water levels for washing and rinsing. Ideal for washing larger textiles such as quilts, duvets, blankets, bed covers and pillows filled with synthetic fibres up to 2.5kg.
Available in WGG24409AU and WGA254U0AU.

Wash programs and options explained

WGG244A0AU

Washing options.

(available on selected models)

Automatic

Exclusive to washing machines with i-DOS technology, the Automatic program adjusts the dosing and spin speed based on the detected load size, textile type and the soiling level. Available for up to 3 different temperatures.

Temperature and Spin Speed selection

Selected programs allow you to manually adjust the temperature of the wash cycle and spin speed to suit the specific garments in the load.

Finish in (delayed start)

You can enjoy even more flexibility by delaying the start of the program by up to 24 hours. Simply preset the required end time for the washing machine program to be completed exactly when you want.

Easy Iron

Clothes are tumbled gently during the program spin cycle and then at the end of the spin phase. This helps to keep laundry fluffy and tangle-free for reduced creasing and easy ironing.

EcoPerfect

Wash more efficiently with the EcoPerfect mode and save up to 50% in energy consumption.**

Prewash

For stubborn stains or heavily soiled garments, and to loosen and remove debris prior to the main wash. Add additional detergent to both detergent chambers for the prewash.

Rinse Plus

Adds more rinse cycles, suited for highly soiled clothing.

SpeedPerfect

Speeds up the selected program by up to 65% of the standard duration without compromising the wash result.**

AntiStain

The washing machine automatically adjusts the temperature, drum movement and soaking time to easily remove up to 4 common stains.

Intensive Plus

Adds an extra 30 min to the wash to provide a cleaning boost for dirty laundry.

i-DOS

Automatically measures and dispenses the precise amount of liquid detergent and water.

Reload

Forgot an item? This option pauses the program, unlocks the washer door and allows you to add more items to the wash. Simply press Start when ready.

Features vary depending on model. Please check individual product specifications.

** Difference between the duration of Easy Care program 40°C and the duration of Easy Care program 40°C with SpeedPerfect. Duration of time saved varies based on load size.

***Basis: Difference between the duration of the Cottons 40°C program & pressing EcoPerfect.

Forgot to add an item?

The 'reload' function on our washing machines allows you to add a forgotten garment after the wash cycle has started. You can add items of laundry up to 89% through the wash cycle, while it is within safe water and temperature levels*.

*Reloading is not possible when suds temperature is higher than 50°C or when water level is too high.

WGA254U0AU

QuickWash

Bosch washing machines include a handy 15/30 min SuperQuick wash program which is suitable for lightly soiled laundry. Wash up to 2kg in approximately 15 minutes or 30 minutes if washing more.

SpeedPerfect

A 9kg cottons wash at 40°C would usually take 3½ hours. With SpeedPerfect this program would take only 60mins. That's a saving of 2½ hours!

ActiveAir technology

Bosch Heat Pump dryers are designed to work without conventional heating. Thanks to ActiveAir technology, existing heat is reused efficiently during the entire drying process, making them amongst the most economical dryers in Australia.

WQG235D8AU

Heat Pump Dryer innovations.

SelfCleaning Condenser

Selected dryers have a SelfCleaning Condenser to protect your clothing while remaining highly energy efficient. The condenser is cleaned automatically, up to four times during the drying process, providing low energy consumption, cycle after cycle.

Sensitive drying system

A textile-friendly drum design and SoftFlow paddles ensure soft and fluffy laundry. The large capacity drum additionally protects laundry and reduces creasing.

AutoDry

Selected Bosch dryers feature AutoDry technology which finishes the program at the exact level of dryness you want – whether that's dry enough to iron or extra-dry and ready to fold. The sensors constantly measure the temperature and moisture to protect your laundry from over-drying.

AntiVibration side walls

Psst! The special AntiVibration design of the side walls makes Bosch dryers extremely quiet. It also helps reduce vibrations and ensures greater stability... just in case you want to do the drying at night.

Program options.

WQG235D8AU

Half load

Optimises the drying settings (load and duration) for small loads

Easy Iron 60'/120' – Anti-crease technology

Ensures that the laundry is loosened once the program has ended, the drum moves the laundry at regular intervals minimising creases.

Timer (delayed start)

The time remaining display shows you how long is left on the program, while the delay function allows you to delay the start of drying up to 24 hours.

Child safety control lock

Prevents children from tampering with the program settings and turning on the appliance.

Drying Target

Set the desired dryness level:
Cupboard Dry for regular items.
Cupboard Dry Plus for thicker garments.

Iron Dry for items that still need a to be a little damp after drying for ironing or hanging up.

Drying Level

If you feel that the laundry is too damp when the drying program has ended you can adjust the drying level for future uses of the program.

Low Heat

Reduce the drying temperature for delicate fabrics.

End Signal

Activate or deactivate the audible signal at the end of the program

Features vary depending on model. Please check individual product specifications.

*Based on 160 cycles / year in standard cotton program accordingly to the EU regulation 392/2012. Figures might vary depending on usage behaviour.

Drying programs explained

WQG235D8AU

Standard drying programs.

Shirts/Blouses

Specially created for blouses or business shirts, which should be ironed or hang up immediately after the program completes.

Down Wear*

A moisture-controlled program with interval spinning. It dries down items to soft and feather-light perfection without the addition of agitating aids (e.g. tennis balls).

Sportswear

A gentle drying program developed to handle performance and sports fabrics with micro-fibre technology that complements the Sportswear washing program in Bosch washing machines.

Towels

Heavy textiles are fully dried thanks to this moisture-controlled program which constantly measures the moisture remaining in the garments. Terry towelling items like bath robes and hand towels come out soft and fluffy.

Super 40'

Short program for synthetic fabrics and light cottons

Cottons

Developed for drying hard wearing fabrics, which do not require sensitive temperatures.

Cottons Eco

Ecological optimised cotton program that ensures maximum wash performance with minimum consumption of energy and water.

Mixed

For mixed synthetic and cotton textiles that do not require sensitive temperatures. Moisture is measured several times during the drying process and the drying time is adjusted accordingly to ensure optimal drying results.

Delicates

An innovative low heat feature that protects temperature sensitive textiles by automatically reducing the heat and extending the drying time.

Wool Finish*

Special time program developed to loosen up fabrics made from wool or a wool blend that are suitable for tumble drying after washing.

Timed Program Warm

Selected dryers allow you to manually set a custom drying time. Use the Timed Program Warm for drying slightly damp or multi layered thick items.

*Not available for WTH83001AU.

Dryer Basket (WMZ20600)

Drying basket for drying shoes or woollen clothing to avoid tumble action.

Additional drying programs.

(available on selected models)

Easy Care

Drying program for items made from synthetic or blended fabrics that complements the Easy Care washing program in Bosch washing machines.

Quilt/Duvet

Quilts program for optimal drying of fabrics, pillows quilts or bedspreads filled with synthetic fibres. We recommend drying large items individually.

Hygiene Plus

Developed to dry textiles with higher temperatures for optimal drying of hard wearing items that need to be hygienically clean.

Bed sheets with reverse tumble

Automatic program that finishes when the selected drying target is reached - ideal for bed sheets due to reverse drum motion.

Dry approximately 3.5 kg of cotton fabrics per load.

Timed Program Cold

Selected dryers allow you to manually set a custom drying time to refresh dry clothing that has already been worn but does not require washing.

Bosch dryers.

WQG235D8AU Heat Pump Dryer

Design and Performance

- ▶ 8kg Capacity
- ▶ Large LED display
- ▶ ActiveAir heat pump technology
- ▶ SelfCleaning Condenser
- ▶ Anti crease cycle
- ▶ Right side door hinge
- ▶ LED Drum Light
- ▶ Illuminated control dial with integrated power On/Off button
- ▶ Operating noise level: 64 dB(A)
- ▶ Anti-Vibration Design
- ▶ Sensitive Drying System
- ▶ Large water condensation container

Features

- ▶ 11 standard programs
- ▶ 3 additional programs: Bed Sheets, Easy Care, Hygiene Plus
- ▶ 9 touch control options: Iron Dry, Cupboard Dry, Cupboard Dry Plus, Low Heat, Half Load, Finished In, Easy Iron, Mute, Start / Pause
- ▶ AutoDry Sensor drying
- ▶ Easy clean lint filter
- ▶ Child safety control lock
- ▶ Glass door with 175° opening angle

Energy Rating

- ▶ 9 Star energy rating For Drying (Energy consumption 145 kWh per year on Cottons, Cupboard Dry Plus, Drying level 1, used once per week. When tested in accordance with AS/NZS 2442.2. Actual energy use and running costs will depend on how you use the appliance.)

Energy Rating

- ▶ 3 Star energy rating, Excellent Energy Efficiency and Drying Performance, 43 litres of water used in the drying cycle when drying a 5 kg load. (Energy consumption 191 kWh Intensive Dry, Cupboard Dry used once per week. When tested in accordance with AS/NZS 2442.2. Actual energy use and running costs will depend on how you use the appliance.)

Dimensions (HxWxD*) 848 x 598 x 590mm*
*665mm including door handle

AntiStain option helps to remove four of the most stubborn stains.

The washing machine automatically adjusts the temperature, drum movement and soaking time to easily remove up to 4 stains.

Save space by stacking.

Stacking a washing machine and dryer is the perfect solution for small laundry spaces. Stacking kits anchor the machines together to ensure stability and ease of use.

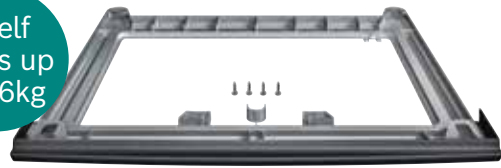

The stacking kit with shelf can hold up to 16kg of weight, so you can conveniently add and remove laundry from a basket.

Installation Tip:

If a stacked washer and dryer are placed on a wooden floor it is recommended to use fixing brackets.

Bosch part number: 00493529.

Shelf holds up to 16kg

Bosch stacking kits

Suitable dryers

WTZ2741C – Stacking Kit (graphite) WQG235DRAU

WTZ20410 - Stacking Kit

WQG235D8AU

OR

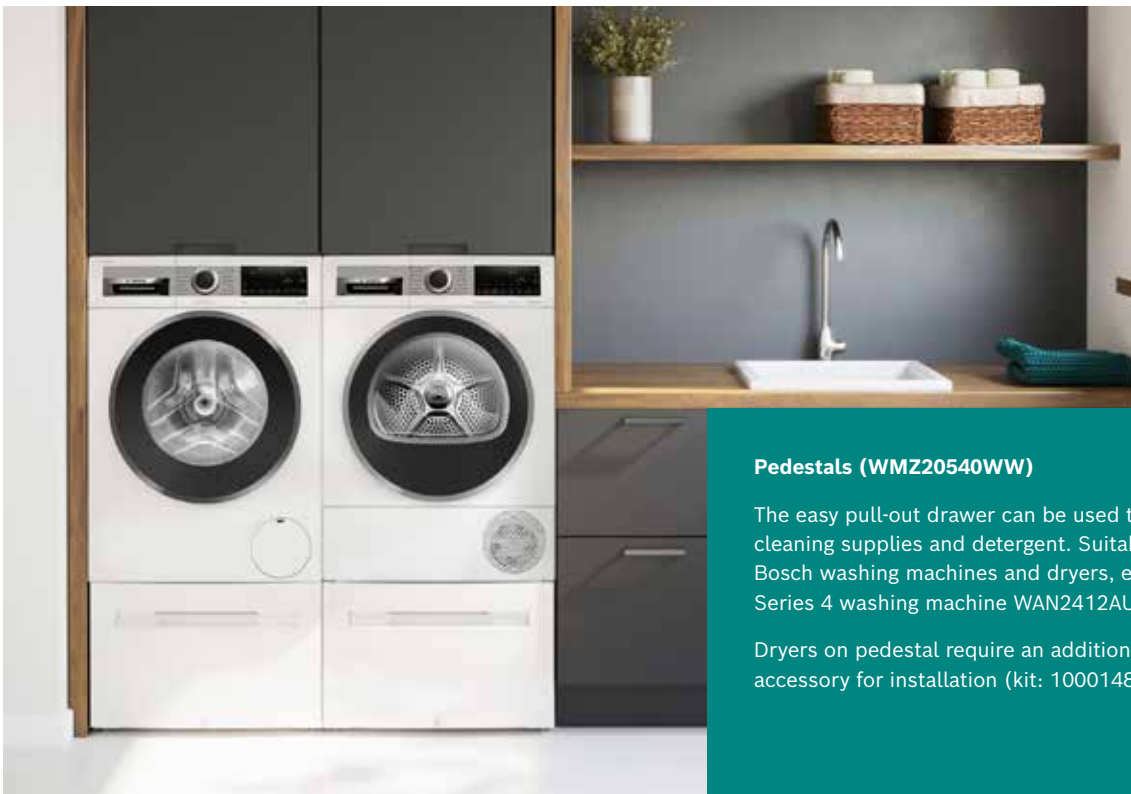

WQG24201AU

WTZ11400 - Stacking Kit with shelf

WQG24200AU

WTH83001AU

All Bosch washing machines are compatible with the above stacking kits, except WAN24124AU.

Pedestals (WMZ20540WW)

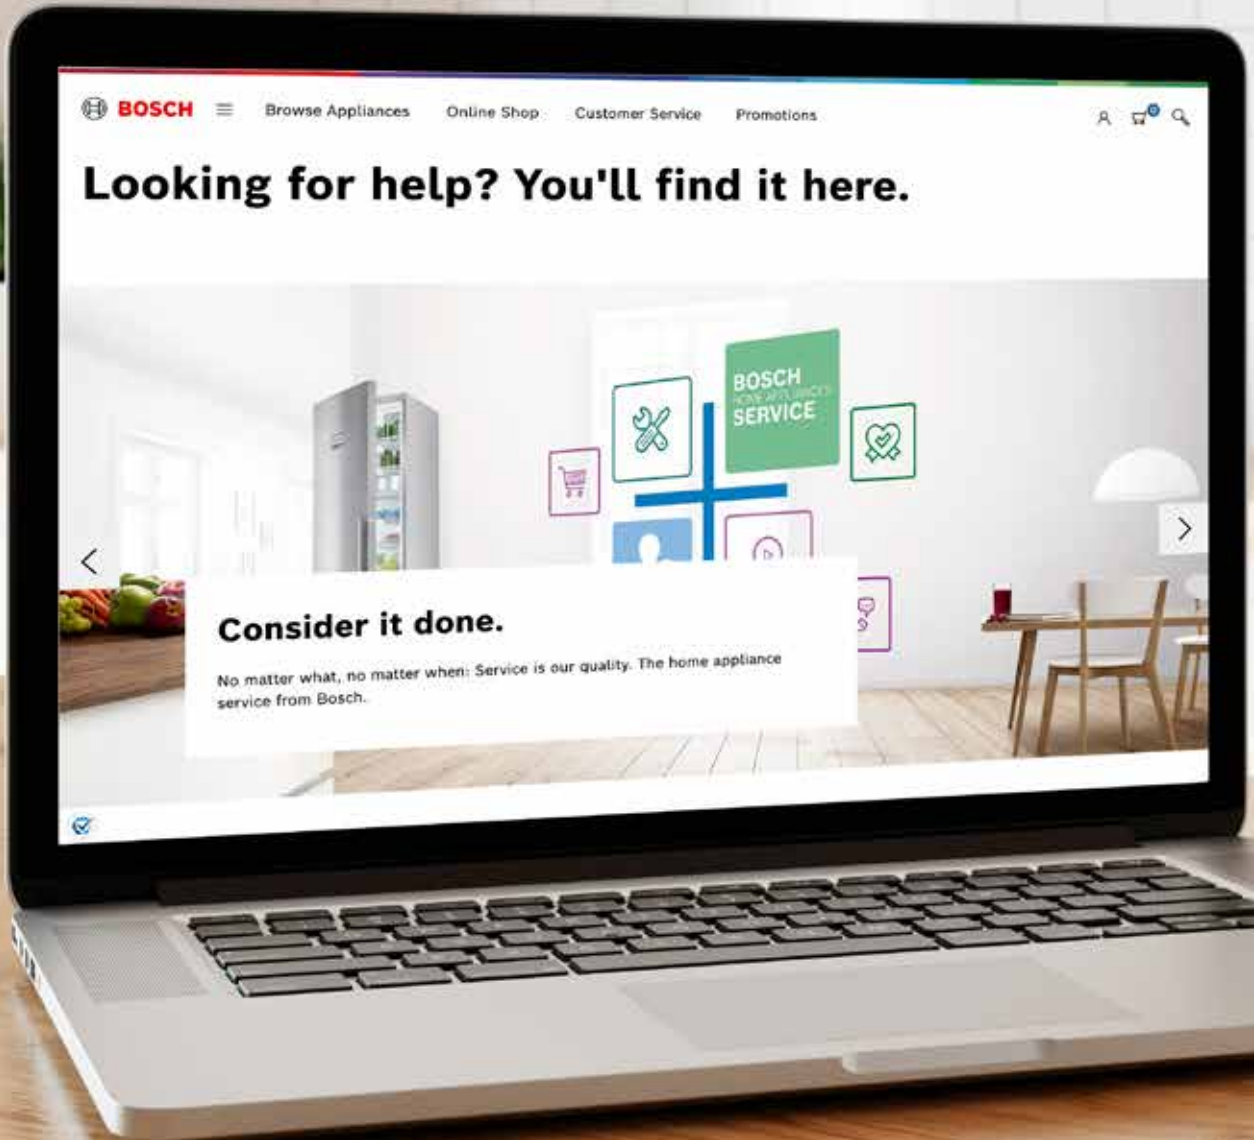

The easy pull-out drawer can be used to store cleaning supplies and detergent. Suitable for all Bosch washing machines and dryers, excluding Series 4 washing machine WAN2412AU.

Dryers on pedestal require an additional kit accessory for installation (kit: 10001484)

This much is for sure: you can trust our service.

Reliable, experienced, fast. The customer service of Bosch – before and after purchase.

Quality service straight from the manufacturer.

We are committed to quality even when it comes to after-sales service because no one knows Bosch appliances better than our highly-trained service engineers. Working with the latest equipment for measuring, diagnostics and repairs, Bosch service engineers only use original Bosch spare parts.

Reliability guaranteed. No compromises.

All Bosch home appliances are produced with maximum care using high-quality materials. We promise it in our two year manufacturer's warranty on all appliances.

Original accessories.

Cleaning and care products.

Take a look at our extensive range of accessories to help you make the most out of your appliance. With the right care, you will be able to enjoy your high-quality appliance for many years to come. To help you do so, we offer a wide range of Bosch certified cleaning and care products.

Extensive customer service. Just a call away.

Customer Care

Our friendly Bosch Customer Care team is on-hand to provide reliable assistance. Before or after purchase the Bosch team will be happy to advise you on products, how-to instructions and special functions.

Service & Repairs

Our team is there to provide the right advice on errors or faults, arrange a visit of a service engineer and order the right accessories or spare parts.
