The kitchen is more than a place to cook.

It's where we gather, share, create and savor all of life's moments. Through our products, we strive to enhance the daily quality of life. At Bosch, we believe that a cooktop should be a recipe for ease, that the joy of simplicity is anything but minimal, and that quality goes beyond the material.

Quality that holds true.

From the feel of an oven handle, to the quiet of a dishwasher, to the ease of a cooktop, it's these small details, obsessed upon by our engineers and repeatedly tested in our factory that manifest as the tangible difference of Bosch quality. Each innovation is thoughtfully designed, combining form and function, to bring efficiency and joyful ease to your daily tasks.

A brand you can trust.

Quietest dishwasher brand in the U.S.*

With impressively low decibel levels, Bosch dishwashers are quiet enough to keep peace in your kitchen. Now, when hosting a dinner party you can start the dishes after dinner, instead of waiting until everyone leaves.

485 quality checks

Every dishwasher must pass 485 quality checks—including running every single one with water—before leaving the factory. So you can rest assured that your dishwasher is built to withstand whatever life throws your way.
