Invented for life

BOSCH

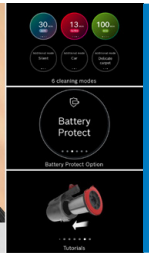

Unlimited 10

Clean beyond the visible with MicroClean Technology.

Vacuuming Redefined

Experience the next level of hygienic cleaning with the Unlimited 10, a masterpiece of German engineering.

TFT display with smart features

Full control and customisation with smart TFT Display.

The innovative TFT display indicates the remaining runtime and shows useful tutorials. Choose from additional cleaning modes for your needs: Silent, Car, and Delicate Carpet. Activate the Battery Protect Option to prolong the lifetime of your battery or enable the Energy Saving Mode for extended runtime.

Unlimited flexibility for convenient cleaning.

Clean even hard-to-see spots with ease. The practical 90° bendable Flex Tube guarantees effortless cleaning under low furniture and in hard-to-reach places. The Nozzle Foot Release allows you to switch from floor cleaning with the nozzle to overhead cleaning with the suction tube in one step and without bending down.

Our longest runtime. Clean up to 300 sqm with one battery charge.

The Unlimited 10 ProPower pairs our longest runtime with Bosch‘s best dust pick-up. With the rechargeable 5.0 Ah Power For All Battery, even demanding cleaning tasks can be mastered effortlessly. With a fully charged battery you can clean for up to 100 minutes or up to 300 sqm.

Accessories to meet all needs.

Distinguishably different, yet strikingly similar.

Clean beyond the visible with MicroClean Technology.

The Unlimited 10 and Unlimited 9 were designed to meet different needs, yet they both share striking similarities. Find out more on what makes them the essential appliance of every home.

The MicroClean Sensor in the handheld unit detects any particle that is vacuumed in, even the ones that are invisible to the human eye.

The powerful MicroClean Brush with LED lights removes more than 99.9% of dust – even the invisible, down to 0.3 microns.

The MicroClean Ring provides feedback about the cleaning result. When illuminated in white, particles are still being vacuumed in but when the MicroClean Ring is fully illuminated in blue, you know for sure that the surface is deep clean.

The Easy Empty Dust Box with Compress Slider allows emptying of the dust box up to 50% less frequently with dust and dirt compression. The act of emptying also becomes a breeze as the compressed dust and dirt are effortlessly expelled from the box with a simple push.

The specially designed roll brush ensures 3 times less hair tangling. The unique bristles and the big diameter of the bristle roller stops hair from getting stuck, so you don‘t have to deal with annoying tangles.

Hygienic handling at it’s best.

With unparalleled hygienic maintenance and up to 50% less frequent emptying, it’s time to take your cleaning routine to new heights!

The HEPA Filtration System captures more than 99.99% of dust particles and even traps allergens, allowing for exhaust air that is cleaner than your home‘s ambient air and ideal for allergy sufferers.

Distinguishably different, yet strikingly similar.

What's the difference?

Here's an overview of the cleaning modes offered by both models and their respective runtime.

Cleaning Modes

For both U10 and U9

Eco
Good performance combined with longest runtime.

Auto
Most balanced combination of high performance and runtime.

Turbo
Highest Perfomance

Only available for U10

Silent
Bristle roller is switched off and blower noise is reduced.

Car
Performance between Auto and Turbo mode, ideal for cleaning with accesory.

Delicate Carpets
Bristle roller is switched off for gentle carpet cleaning.

Runtime Overview

	Unlimited 10	Unlimited 9
Handheld only (in Eco Mode)	80 Min	60 Min
Eco Mode (with Nozzle)	65 Min	50 Min
Auto Mode (with Nozzle)	25 Min	17 Min
Turbo Mode (with Nozzle)	11 Min	10 Min

What’s unique in Unlimited 9?

LED display with 3 power modes.

The Unlimited 9 provides a practical LED display with 3 power modes for every challenge. “Turbo” boosts performance for difficult tasks while the intelligent “Auto” mode adjusts performance and runtime depending on the floor and surface. Lastly, “Eco” provides extra-long, optimal runtime for everyday cleaning tasks.

Especially designed for pet owners.

The Unlimited 9 ProAnimal vacuum cleaner tackles not only invisible dust with the unique MicroClean Technology, but swiftly and efficiently removes pet hair. Its motorised Mini Power Nozzle allows you to effortlessly pick-up fine dust, fibers, and pet hair from upholstery, all while preventing hair from tangling around the brush roller.

High flexibility for convenient cleaning.

In just 1 step, the Nozzle Foot Release allows you to switch from floor cleaning with the nozzle to overhead cleaning with the suction tube without the need to bend down. The Quick Stand keeps the nozzle and the tube standing on their own while vacuuming with the compact handheld unit.
