Invented for life

BOSCH

Built-in & Freestanding product brochure 2025

Who are Bosch?

"I have always acted according to the principle that it is better to lose money than trust. The integrity of my promises, the belief in the value of my products and in my word of honour have always had a higher priority to me than a transitory profit."

Robert Bosch, 1921

For over 130 years, the Bosch name has been synonymous with engineering excellence. Our home appliances are renowned for their quality, reliability and performance which derives from our inherent, unwavering commitment and the painstaking thoroughness with which every unit is made. As you would expect from Bosch, there are no gimmicks or frills with our products – just pure, clean lines and beautiful, functional simplicity that will enhance any kitchen.

The values that shaped Robert Bosch's vision for his new company in 1886 are the same principles that guide the business today; never lose the trust of your customers, look after your staff and partners and change things for the better. It's what has kept Bosch at the forefront of the home appliance industry and what will keep it there in the future.

Home Connect

Bosch appliances with Home Connect are designed to fit seamlessly into your routine. They provide you with a simple solution to get the most out of your appliances and give you the comfort of control from wherever you are.

Whether that be automatic replenishment, expert help on choosing the best cycle for your clothes and the environment, or voice control when your hands are full. Home Connect is the perfect personalisation solution.

TO FIND OUT MORE ABOUT HOME CONNECT, PLEASE SCAN THE QR CODE BELOW:

When all is said and done
Use voice control with Amazon Alexa or Google Home for a quicker and more convenient way to get things done. Great for multi-tasking, when you're away from the kitchen or when your hands are full.

"Alexa, tell my dishwasher to be quiet."

"Alexa, preheat my oven."

"Alexa, when will my dinner be ready?"

"Alexa, tell my washing machine to pause."

"Alexa, turn on my tumble dryer."

Personalise your control
Monitor the progress of your appliances from the comfort of your sofa via your smartwatch, smartphone or ask for updates using voice control with Alexa or Google Home.

Home Connect | in partnership with

just ask alexa | works with Google Home | Bosch Smart Home | foodliftery | KS | SmartThings

olisto | LaMetric | cair | LOXONE | ckbk

fresco — The easy way into family cooking, creating time spent together as a family.

Works with IFTTT — Removing appliances from your daily routines by making them do the work for you.

Why not try the app?
Experience it yourself by downloading the free Bosch Home Connect app. You can test the app with demo appliances to get to grips with the features.

Download on the App Store | GET IT ON Google play

Home Connect is a service offered by Home Connect GmbH. For more information on Home Connect please visit **www.bosch-home.co.uk**

Explore more at **bosch-home.co.uk / bosch-home.ie**

Simple to set up, simple to use.
There's no need to worry if you're not a technical genius. The Bosch Home Connect app is simple and straightforward to set up. You'll also find lots of useful articles to help you get the most out of your appliances and learn new skills.
If you do need a helping hand, you can call our Customer Service team on: **0344 892 8979** or email **info.uk@Home-Connect.com**.

You can trust us.
Home Connect uses the same security protocol as online banking, so you can enjoy extra peace of mind when you're using your Bosch appliances. All of our Home Connect appliances are Wi-Fi certified by the Wi-Fi Alliance.

Look out for the Home Connect logo for more information on Home Connect features

Home Connect

Optimise your energy usage with Home Connect
The Bosch Home Connect app can help you be energy efficient. Use your smartphone, smartwatch or voice assistant to control the start time of your appliances down to the minute, so you can avoid using energy at peak times and wash your dishes for less*.

*Cost will depend on your energy provider and contract. Available on selected models only.

Never run out of dishwasher tablets again
Avoid running out of dishwasher tablets by linking your smart dishwasher to the Smart Finish service and automatically receive your tablets to your door when you're running low.

Making **life easy** through innovative technologies

Introducing the Bosch oven range

Whatever kind of cook you are, we have a range of smart and stylish built-in single or double ovens for you to choose from. Serve up vitamin-packed meals using one of our innovative steam ovens or, if limited on space, our easy-to-use microwaves and compact appliances will bring style and function to any kitchen.

TO FIND OUT MORE ABOUT OUR BOSCH OVEN RANGE, PLEASE SCAN THE QR CODE BELOW:
Series 8

With their impressive technology, elegant design and sensor-controlled programmes, our **Series 8** ovens meet every need and more in the kitchen. The innovative control wheel provides full control over your dishes at all times.

Series 6

If you need that extra bit of cooking capacity but don't have the space for two single ovens, choose our **Series 6** double oven. You won't need to compromise on features either, with **Pyrolytic Cleaning** in both cavities and various other easy to use programmes to suit different meals.

Series 4

Modern design, quality engineering and practicality. Our **Series 4** oven range looks stunning inside and out. Easy to use functionality with a selection of cooking programmes to choose from, now available in a stylish all-black design.

Model shown: HQA574BB3B

Selecting the right oven and combination for your kitchen.

Whether you're designing a new kitchen or simply updating one of your appliances, we have a wide variety of cooking products available for you to choose from. Depending on the space you have in your kitchen, you can choose from a single product or a combination of products.

Single ovens

Model shown: HBG7784B1

Double ovens

Model shown: MBA578BS7B

Double built-under ovens

Model shown: NBS533BS0B

Compact steam ovens

Model shown: CSG7584B1

Compact ovens with microwave

Model shown: CMG778NB1

Compact microwave combination ovens

Model shown: CMA583MB0B

Warming drawers

Model shown: BIC510NB0

Built-in coffee machine

Model shown: CTL7181B0

Cooking appliances can be arranged both horizontally and vertically, depending on the space you have in your kitchen.

Combination design.

Using the highest quality stainless steel and glass, our ovens and compact appliances combine beautifully to deliver a timeless, elegant and stylish finish to any kitchen with sleek, coordinated lines and matching panels.

Combination possibilities.

Create seamless lines in your kitchen with our Series ranges by combining a single oven together with one of our compact appliances and warming drawers. For the optimum in design co-ordination, choose appliances belonging to the same Series family to create harmonious lines in your kitchen.

Cooking functions explained.

Check model for available functions.

4D Hotair
Place your food on any of the four shelf levels to achieve consistently perfect results: thanks to the fan wheel that heats evenly on every level.

3D Hotair
By maintaining the right temperature across three shelf levels, consistently even cooking results are achieved.

Pyrolytic Cleaning
Heats the oven up to burn dirt and grease to dust so it can be wiped away easily.

Eco Clean Direct
Almost no cleaning is necessary thanks to a special coating of the rear wall that automatically absorbs grime.

Added Steam
Produces succulent roasts, with juicy meats and crispy skins, as well as breads with the perfect colour and crust.

PerfectBake Plus
Perfect Bake Plus is a humidity controlled baking sensor that measures the moisture level of dishes. This automatically regulates the baking process.

Air Fry Function
Use the Air Fry Function for healthier, tastier and crispier meals with hardly any oil. Perfect for anything from vegetables to poultry. Recommended with Air Fry & Grill Tray, see page 26.

PerfectRoast meat probe
Three highly sensitive measuring points determine the core temperature of your food to the exact degree, guaranteeing perfect roasting results and taking away the guesswork.
(Available in selected Series 8 models only)

Defrost
Gently defrosts food evenly and quicker than it would take on the kitchen counter.

The easy way to healthy cooking results.

With their impressive technology, elegant design and crystal clear TFT touchDisplay, our Series 8 ovens meet all your culinary needs and more. The innovative Digital Control Ring engraved into the glass with TFT touchDisplay, provides convenience and functionality with full control over your dishes at all times. Thanks to our sensor-controlled programmes, you'll also achieve perfect results every time.

Digital Control Ring with TFT touchDisplay

Clear, vivid images and info texts in the inner ring of the engraved Digital Control Ring assists you through each step, supported by the high-resolution, plain-text TFT touchscreen and integrated, directly selectable buttons.
Digital Control Ring with TFT touchDisplay Plus

Clear, vivid images and info texts in the inner ring of the engraved Digital Control Ring assists you through each step, supported by the full-surface, high-resolution, plain-text TFT touchscreen and directly selectable buttons.

Digital Control Ring with TFT touchDisplay Pro

Clear, vivid images and info texts in the inner ring of the engraved Digital Control Ring assists you through each step, supported by the 6.8-inch full-surface, high-resolution, plain-text TFT touchscreen and directly selectable buttons.

Perfect results at your fingertips.

Check model for available functions.

Perfect Steam
A precise sensor constantly measures the humidity level in the oven cavity and automatically regulates the steaming process, ensuring that the right level of water is used and turned to steam. Achieve the best steaming results with Perfect Steam.

Steam Function Plus
Steams at a temperature of up to 120°C, so your dishes are cooked faster and retains even more of their vitamins and nutrients. For example, green beans and carrots are ready up to 50% faster*. Broccoli cooked using Steam Function Plus retains up to 54% more nutrients, while potatoes retain up to 25% more Vitamin C**.

PerfectBake
PerfectBake sensor offers precise sensitivity and constantly measures the moisture level of dishes, as well as automatically regulating the baking process.

PerfectRoast meat probe
Three highly sensitive measuring points determine the core temperature of your food to the exact degree, guaranteeing perfect roasting results and taking away the guesswork.

Air Fry Function
Use the Air Fry Function for healthier, tastier and crispier meals with hardly any oil. Perfect for anything from vegetables to poultry. Recommended with Air Fry & Grill Tray, see page 26.

Pyrolytic Cleaning
Heats the oven up to burn dirt and grease to dust so it can be wiped away easily.

Soft open & soft close
A special damping mechanism prevents oven doors from slamming shut. As you gently push the door shut, it stops just before closing and then shuts itself gently and quietly, thus guaranteeing a long life for both your oven and the oven door.

Level independent telescopic rails
Designed to clip to the standard factory fitted shelf support rails, that come as standard on selected models, they can be positioned independently on any of the 5 oven shelf positions in the main cavity in our Series 8 ovens.

Oven Assistant
Find the perfect cooking programme, settings and duration for your dish every time with Bosch Home Connect's Oven Assistant. Search for your dish and ensure your meal is cooked to perfection using the optimal programme.
Home Connect

Download on the App Store   GET IT ON Google play

For full specification details, please log onto our website and download a full specification sheet.

*Steam Functions Plus compared to 100°C Steam, BSH laboratory test.
**Steam Function Plus compared to cooking in boiled water, University of Hohenheim test results 5/2022 and 10/2022.

Roast to the point of perfection.

The PerfectRoast every time with our new Wireless Multi-Point Meat Probe.

By accurately tracking the core temperature of your dish, whether it's meat or fish, the Wireless Multi-Point Meat Probe alerts you when the target temperature is reached and can even automatically switch off your oven.

Model shown: HEZ32WA0, Oven for illustration purposes

The **four sensors** give you accurate core temperature readings, so you can achieve perfect doneness every time.

Connects via **Bluetooth** to the Bosch Home Connect app, allowing you to monitor and even automatically switch off the oven from anywhere.

Get **alerts to your smartphone** when your dish is perfectly cooked, taking the guesswork out of cooking.

Designed to work seamlessly with your oven, hob, outdoor grill, and is ideal for roast beef, fish, or poultry.

Water resistant for hassle-free use and effortless cleaning, ideal for home cooks.

For more information, please see page 41.

  For Inverter models, the maximum setting offers a time limited boost option for heating liquids. To ensure optimal results and to protect the appliance, the microwave power output is reduced in stages over the first few minutes down to the next power level (600W).
  After a cooling period, the microwave boost option will be available once more.

Ovens with integral microwave — When teamed with a single oven, Bosch compact ovens with microwave offer a great alternative to a double oven if you require more space for traditional cooking. Designed first and foremost to function as an oven, with construction, features and functions identical to a traditional single oven, these models benefit from the addition of microwaves at low medium power (max 360W) to deliver oven-led combination cooking, which speeds up the cooking process while retaining traditional cooking results.
Microwave Combination Ovens — These models are designed to provide more functionality than a solo microwave oven, focussing on combination cooking, with the microwave using higher power (max. 600W) to lead the cooking process, supported by Hotair or grill functions to deliver speedy crisp and browned results. Based around a more traditional microwave functionality these models offer the perfect solution if regular microwave heating is the priority, but with the back-up of separate or combination Hotair cooking and grill functionality if required. These models are designed to operate best in combination mode, so when heating using microwave only, it may be necessary to adjust cooking times.

Smart Coffee Centre

Your very own barista

When you take your coffee seriously, your coffee machine needs to be seriously impressive. With the Bosch Home Connect enabled Coffee Centre, you get your very own virtual barista, skilled at producing delicious coffees from all over the world.

Using Coffee World, built into the Bosch Home Connect app, you are able to create almost twenty superb drinks and international favourites at the touch of a button. Make your kitchen your new favourite coffee shop.

Playlist

Making drinks for lots of people? There's no need to memorise the list. Simply create a Coffee Playlist on the Bosch Home Connect app so everyone can select their favourite drink.

Your coffee machine will make them all, one by one, at your command. You can even add selections from Coffee World for added luxury.

Home Connect

Download on the App Store

GET IT ON Google play

Your coffee, your way

Replicating your perfect cup of coffee can sometimes feel impossible. Bosch Home Connect now makes creating the perfect coffee easier than ever. Simply save your perfect coffee as a favourite in the Bosch Home Connect app to access it in one touch from your smartphone. Then sit back and let the machine take over. Treat yourself to the cup of coffee you know and love.

Find Your Perfect Hob.

Our hobs are designed to make every day cooking a success. We offer a range of hobs to suit your cooking needs and kitchen space. To help you find the perfect hob for your kitchen, we've put together this handy guide.

Featured model: **PVS811B16E**

Induction Hobs

Induction hobs are our most energy-efficient cooking surfaces, they heat quickly and are easy to clean.

Multiple cooking zones offer maximum flexibility, while built-in Bosch technology such as PerfectFry Plus and DirectSelect, makes cooking easier and more precise.

Induction hobs use magnetic cookware, such as stainless-steel pots or pans. Incredibly safe to use, there is little residual heat when the saucepan leaves the hob.

Featured model: PXV831HC1E
Series 6 Flex Induction Hob

Electric Hobs

Powerful and stylish, our electric hobs look great as the cooking surface in any kitchen. They are also compatible with all types of pots and pans.

With simple controls, it's easy to select your cooking zone and desired power level, which means you can get on with creating delicious meals with little effort.

Featured model: PKH811BB1D
Series 4 Electric Hob with TouchSelect

Venting Hobs

Our venting hobs give you more freedom and flexibility when designing your kitchen. They combine the latest induction cooking technologies with integrated ventilation in a single appliance. Steam, air, and odours are sucked away by the integrated extractor, leaving the air cool and clear so you can cook comfortably.

Our venting hobs offer maximum flexibility in installation options – unducted, partly ducted, full ducted and ducted out.
Featured model: PXX875D67E
Series 8 Venting Flex Induction Hob

Gas Hobs

Our new range of gas hobs combine classic design with comfortable operation, letting you cook to perfection.

Our patented Flame Select technology ensures precise temperature control for reliable heat output and illuminated sword dials offer total control.

The dials are removable too, and with easy to lift dishwasher safe cast iron pan supports, cleaning your new Bosch gas hob is a breeze.

Featured model: PPQ7A6I40
Series 6 Gas Hob with FlameSelect

Venting hobs range

Venting hobs

TO FIND OUT MORE ABOUT OUR BOSCH VENTING HOB RANGE, PLEASE SCAN THE QR CODE BELOW:

Product shown: PXX875D67E

Series 8

Series 8 combines top of the range technology such as **PerfectAir** and **Move Mode** into one appliance to make your cooking experience as simple and enjoyable as possible.

Series 6

Combining sleek design with reliable functionality, our **Series 6** range offers intuitive technology to further assist you in the kitchen, including **PerfectFry Plus** and **Combi Zones**. A perfect addition to any kitchen.

Series 4

The **Series 4** venting hob range presents an efficient and practical option, featuring multiple cooking zones and an integrated extraction system to effectively remove smoke and odour.

The Perfect combination.

By combining the latest technologies from our induction hobs and hoods into a single appliance we are able to give you more freedom and flexibility in designing your kitchen.

The integrated ventilation module extracts steam and odours at their source, leading to fewer smells in the kitchen. With features such as **Combi Zone**, **Touch Select** and **PerfectFry** available on selected models, our venting hobs can handle any cooking task. A venting hob can be easily installed into the work surface to suit any kitchen design and has the added convenience of being easy to clean.

PerfectAir is our advanced feature that clears the air without you having to do anything. A sensor constantly detects the levels of cooking odours in the air and adjusts the power level – from light use to intensive – to ensure your kitchen air is always clean and fresh.

PerfectFry Plus: The right temperature is crucial for frying. Too high, and even the best steak will cook too quickly and scorch. With **PerfectFry Plus**, scorching is a thing of the past. The **PerfectFry Plus** sensor displays and continuously monitors your pans temperature to prevent scorching. Select from 11 predefined temperatures to suit your dish, ranging from 70 to 220°C, for perfect results every time.

Gain more control.

These additional features allow you to have more control whilst cooking and make your time in the kitchen as easy as possible.

Bosch Home Connect: Gain an extra layer of safety with our smart hobs that allow you to know whether your hob is turned off remotely as well as be aware if child lock is activated, all via the Bosch Home Connect app.

Features dependent on model.

For information on types of installation for venting hobs, please see page 33.

Favourite button: Personalise your cooktop according to your preferences. Select various functions via the Bosch Home Connect app and save them to your hob.

HEZ9VDKR0 - 70cm deep worktops
Scan here to watch the installation video.

An additional straight channel 50cm (HEZ9VDSM1) and connector (HEZ9VDSS1) is required with this kit.

Contains:
• 4 x Clean Air Plus recirculating filters (HEZ9VRCR1)
• Telescopic slider

x4

Contains:
• 1 x Small radius bend (HEZ9VDSB4)
• 1 x connector (HEZ9VDSS1)
• 1 x 50cm straight channel (HEZ9VDSM1)
• 1 x set of 4 acoustic filters

HEZ9VDKR1 60cm contains:
• 1 x Small radius bend
• 1 x Large radius bend

HEZ9VDKR0 70cm contains:
• 2 x Large radius bend

Both contain:
• 3 x connectors
• 1 x 50cm straight channel (HEZ9VDSM1)
• 1 x diffuser (HEZ9VRPD1)

HEZ9VDKR1 60cm contains:
• 1 x Small radius bend
• 1 x Large radius bend

**HEZ9VDKR0 70cm contains:**
• 2 x Large radius bend

Both contain:
• 3 x connectors
• 1 x 50cm straight channel (HEZ9VDSM1)
• 1 x diffuser (HEZ9VRPD1)

Ducting component accessories

| Description	Code
Flat channel ducting component, straight length, 100cm long. Ducting component outlet size: 222mm x 89mm.	HEZ9VDSM2
Flat channel ducting component, straight length, 50cm long. Ducting component outlet size: 222mm x 89mm.	HEZ9VDSM1

Flex Induction hob range

Bosch Flex Induction hobs reduces energy consumption and produce faster cooking results. The amount of usable surface on the hob is maximised to enable you to combine cooking zones to accommodate even the largest of cookware, including griddle plates and Teppan Yaki pans, so you can cook a variety of dishes any way you want.

Model shown: PXX875D67E

Series 6

Maximise your cooking space without compromising on style with our **Series 6** flex induction hob range. This range has advanced features to allow for easy and precise cooking to help you perfect any dish.

Flex induction hob functions explained.

Check model for available functions.

PerfectFry : Our clever Frying Sensor measures the temperature in the pan for perfect results.

PerfectCook : Control your cooking by the temperature in the pan rather than the power level with our smart Cooking Sensor*, which easily attaches to the side of your induction pot.
*This feature requires the additional purchase of a Cooking Sensor to operate.

DirectSelect: Set the correct temperature with a single touch. No more scrolling up or down, just simply press one button to select the right heat level.

Extended Flex Zones: Maximum space on your hob for large cookware.

Easy Flex Zones: Your hob automatically adjusts cooking zones to your needs.

Power Boost: This function allows you to increase the power of the cooking zone by up to 50% - perfect for large pots and pans or when you're in a hurry.

Automatic pan recognition: Only heats up the base of the pan and not the rest of the zone, which doesn't waste energy and leaves the rest of the hob cool to touch.

QuickStart: This function detects where you have placed the cookware and after switching on, automatically selects the corresponding cooking zone.

Timer with switch-off: Automatically turns off the assigned cooking zone after the set time.

Bosch Home Connect: Gain an extra layer of safety with our smart hobs that allow you to know whether your hob is turned off remotely as well as be aware if child lock is activated, all via the Bosch Home Connect app.

Hob-Hood Control: With a connected hood and hob, your hood will automatically turn on as it detects hob cooking. You can then adjust the power level of your hood via your hob or the Bosch Home Connect app.

Smart Hood Automatic: With a connected hood and hob, your hood will automatically turn on and continue to adjust its fan level to match the intensity of your cooking. Enjoy complete hands free cooking.

Favourite button: Personalise your cooktop according to your preferences. Select various functions via the Bosch Home Connect app and save them to your hob.

Assist: Automatic setting of the ideal power level recommendation and cooking time for countless dishes.

Move Mode: Automatically switches from boil to simmer with a simple slide of the saucepan.

Restart: Restores cooktop settings in case of unintentional hob switch-off.

Pause function: In case of any spills, this function freezes all the heat settings so you can thoroughly wipe and clean the hob surface. To restore the previous heat settings simply touch the button again!

Child Safety: The built-in lock function locks the surface of your hob and prevents it from being used accidentally, giving you the highest level of safety.

Flex Induction hobs

Induction hob range

Bosch induction hobs speed up cooking with instant heat, saving you energy while making a stylish statement in the kitchen. Multiple cooking zones with easy clean surfaces provide maximum flexibility and the built-in Bosch technology with advanced features helps to make cooking more precise and easier than ever.

Series 6

Expect excellent operation and timeless design from our **Series 6** range. Elevate your cooking experience with convenient functions for a higher level of control such as **Bosch Home Connect** and **PerfectFry Plus**.

Series 4

Combining convenience, premium engineering and elegant design, our range of **Series 4** induction hobs with advanced features will enhance your cooking experience with reliable results time after time.

Series 2

Our essential range of **Series 2** induction hobs maintains a classic design with contemporary style that are convenient, easy to clean and simple to operate. A great energy efficient addition to any kitchen.

Induction hob functions explained.

Check model for available functions.

PerfectFry: Our clever Frying Sensor measures the temperature in the pan for perfect results.

PerfectCook: Control your cooking by the temperature in the pan rather than the power level with our smart Cooking Sensor*, which easily attaches to the side of your induction pot.

*This feature requires the additional purchase of a Cooking Sensor to operate.

DirectSelect: Set the correct temperature with a single touch. No more scrolling up or down, just simply press one button to select the right heat level.

Combi Zone: Two cooking zones can be linked, making the switch from small to large pans effortless.

Power Boost: This function allows you to increase the power of the cooking zone by up to 50% - perfect for large pots and pans or when you're in a hurry.

Automatic pan recognition: Only heats up the base of the pan and not the rest of the zone, which doesn't waste energy and leaves the rest of the hob cool to touch.

QuickStart: This function detects where you have placed the cookware and after switching on, automatically selects the corresponding cooking zone.

Timer with switch-off: Automatically turns off the assigned cooking zone after the set time.

Bosch Home Connect: Gain an extra layer of safety with our smart hobs that allow you to know whether your hob is turned off remotely as well as be aware if child lock is activated, all via the Bosch Home Connect app.

Hob-Hood Control: With a connected hood and hob, your hood will automatically turn on as it detects hob cooking. You can then adjust the power level of your hood via your hob or the Bosch Home Connect app.

Smart Hood Automatic: Never manually control your hood again. Matching hobs and hoods connected via the Bosch Home Connect app, means your hood will automatically turn on and adjust to the correct power level when you start cooking. Hands-free convenience for cooking, without any distractions..

Favourite button: Personalise your cooktop according to your preferences. Select various functions via the Bosch Home Connect app and save them to your hob.

Assist: Automatic setting of the ideal power level recommendation and cooking time for countless dishes.

Move Mode: Automatically switches from boil to simmer with a simple slide of the saucepan.

Restart: Restores cooktop settings in case of unintentional hob switch-off.

Pause function: In case of any spills, this function freezes all the heat settings so you can thoroughly wipe and clean the hob surface. To restore the previous heat settings simply touch the button again!

Child Safety: The built-in lock function locks the surface of your hob and prevents it from being used accidentally, giving you the highest level of safety.

Electric hob functions explained.

Check model for available functions.

Touch Select: Selection of desired cooking zone and easy setting of the desired power level.

RoasterZone: An extra cooking zone you can switch on for larger cookware e.g. roasters.

Two-Ring Cooking Zone: Use regular or larger cookware on the extendable cooking zone.

Timer with Switch-Off: Automatically turns off the assigned cooking zone after the set time.

Control panel lock: Prevent unintended activation of the hob.

Restart: Restores cooktop settings in case of unintentional hob switch-off.

Quick Stop: Quickly switch off a cooking zone with one longer touch.

Automatic Safety Shut-Off: Cooktop will turn off if the cooking zone has been in use for a long period without any changes.

Child Safety: The built-in lock function locks the surface of your hob and prevents it from being used accidentally, giving you the highest level of safety.

Accessories

We have a range of accessories that are compatible with our range of hobs* to help you elevate your cooking experience!

Making **life easy** through innovative technologies
Gas hob range

Welcome to intuitive cooking. The advanced technology built into our hobs makes cooking on gas simple and precise. Understanding how you cook means we've been able to design a **Flame Select** feature that lets you fry, stew, steam and boil with confidence – without constantly checking the flame. Our new designs also offer removable parts to make cleaning your hob easier than ever.

TO FIND OUT MORE ABOUT OUR BOSCH GAS HOB RANGE, PLEASE SCAN THE QR CODE BELOW:

Model shown: PPM9A6I40

Series 6

Gas hobs with premium engineering and materials providing full gas control and easy cleaning features. With our **Series 6** range, cooking and cleaning has never been easier.

Series 4

Featuring fresh designs and new convenient features, our **Series 4** range is simple to operate and easy to clean to help elevate your cooking experience.

Series 2

Featuring a range of gas hobs that are convenient and simple to operate, our **Series 2** range maintains classic design and style.

🔥 Flame Select

Gas without the guesswork.

The gas cooktops with Flame Select are equipped with nine precisely defined power levels, which let you adjust the required heat easily and reliably. For simply perfect cooking results.
·········· Standard gas hob valve power output. ——— Flame Select valve power output.

Flame Select

We're taking the guesswork out of using a gas hob. Our innovative Step Valve technology regulates the gas output precisely, so you're able to choose the size of flame. With an easy-to-use setting, all you need to do is decide which of the 9 power settings you want. Flame Select gives you the confidence to cook on gas without leaning down to check it.

Flame size based on gas setting and energy consumption

Gas hob functions explained.

Flame Select: A precise adjustment of the flame in nine defined levels.

Dual flame power burner: Two heat options, from full power heat-up to low simmer.

Wok burner: Powerful cooking up to 5kW.

NEW Sword dials: Direct, simple selection of the cooking zone.

Dishwasher-safe pan supports: Easy, scrub-free cleaning.

NEW Removable dials: Removable for easy and effortless cleaning.
NEW Semi-continuous pan supports: Smaller for easy cleaning, yet providing a seamless cooking surface.

Continuous cast-iron pan support: For high firmness and stability of cookware.

Tempered-glass surface: Elegant design and easy cleaning.

Standard and semi-flush built-in option: Choose between flush or surface mounted installation.

NEW Biomethane-ready: Power your gas hob with renewable gas.

Introducing the hood range

Offering a blend of function and form, Bosch hoods deliver quiet, effective extraction that makes the kitchen and home a more pleasant environment.
Make a bold design statement or complement a more minimalist look.

To help you choose the right hood, we have divided them into four ranges.

TO FIND OUT MORE ABOUT OUR COOKER HOOD RANGE, PLEASE SCAN THE QR CODE BELOW:

Series 8

With our **Series 8** range of hoods, experience automatic extraction rate control with **PerfectAir** sensor technology.
Our hoods offer high quality craftsmanship combined with cutting-edge technologies to make the kitchen a more pleasant environment.

Series 6

Ultimate convenience and tasteful design make cooker hoods within our **Series 6** range an asset to any stylish kitchen. Electronic controls give you ease of use. Experience maximum operating convenience with touch controls from Bosch.

Series 4

As the centre of family life, the kitchen needs to have a comfortable atmosphere free of cooking steam and disruptive noise. Our **Series 4** range of cooker hoods are extremely quiet, easy to operate and impressive with their modern design.

Series 2

With our **Series 2** range of hoods, you can be assured of high quality design and features that make your life easier in the kitchen, such as easy-to-use controls and dishwasher proof metal grease filters for greater convenience.

Wall mounted hoods

Model shown: DWK91LT60

Wall-mounted cooker hoods are generally mounted above the hob on the wall. This type of cooker hood fits beautifully into the line of your kitchen units whilst providing effective ventilation that you'll barely see – but you'll notice the amazing effect. These feature the Bosch clip which can be matched with other Bosch appliances in your kitchen.

Island hoods

Model shown: PXX875D67E

Our range of island hoods includes **GlassDraft, Venting hobs, and Ceiling hoods.**
These ventilation solutions are ideal for open plan kitchens and design flexibility.

Model shown for illustration purposes only

Integrated hoods

If you prefer a truly minimalist design, integrated hoods could be the best solution since they are seamlessly built into your cabinetry.

Integrated hoods work well in smaller kitchens too, where it's important to maintain an open and airy space. As they are installed flush with the upper cabinets, they allow your kitchen to maintain a clean and uncluttered look.

Model shown: DLN77AC60B

Making **life easy** through innovative technologies

Installation Options

The best way to remove steam and odours is to extract the air out of the room through ducting. Unfortunately, in apartments or where the hood is too far away from an outside wall, this may not be possible. In this case, the only alternative is to recirculate the air. Stale air is sucked through a grease filter, before being purified in a charcoal filter, and then pumped back into the kitchen via an opening in the hood.
Recirculation

Extraction

Recirculating

Removes between 70-95% of odours depending on the filter used. This requires changing of the charcoal filter on a regular basis, or a longer-lasting regenerative filter for certain models can be used.

Use the following equation to calculate your extraction rate:

Volume of kitchen (length x width x height) eg. 4m x 3m x 2.5m = 30m³

6 x volume in normal operation and 12 x volume in intensive operation.

Please note that these are recommended estimates only to be used as a guide. This assumes a 2.5m standard ceiling height with 12 air changes per hour to match to an intensive extraction rate.

Ducted

Removes up to 98% of odours in an optimal installation. This requires planning of ducting (ducting to be sourced separately), however doesn't require a recirculation charcoal filter.

Regenerative Recirculation Filters

Our new Regenerative Charcoal Filters give you a long lasting filter, thanks to a regenerative process using your oven. This can even be installed without a chimney piece if preferred. You will benefit from up to 95% odour reduction when in recirculation mode.
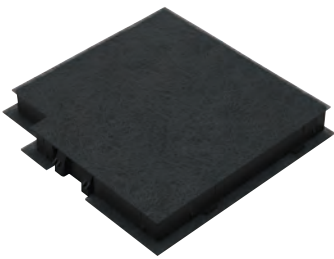

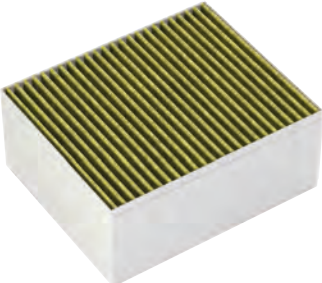

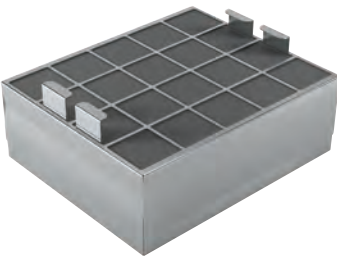

Identify your extraction rate

Your extractor needs to circulate the air in the room 6 times in normal operation and 12 times in intensive operation, per hour. Use the below to help identify the required extraction rate which can then be used to help you select the appropriate extractor.

	2.5M	3M	3.5M	4M	4.5M	5M
2.5M	16m³					
3M	19m³	23m³				
3.5M	22m³	26m³	31m³			
4M	25m³	30m³	35m³	40m³		
4.5M	28m³	34m³	39m³	45m³	51m³	
5M	31m³	38m³	44m³	50m³	56m³	63m³

Recirculation Filters

We offer a range of recirculation filters that are available depending on the model of hood you choose. Featuring powerful odour reduction rates and performance benefits, our new regenerative filters can last up to 10 years and are regenerated through a heating process in the oven every 4 months.

TYPE :	STANDARD ODOUR FILTER	CLEANAIR PLUS FILTER	LONG LIFE REGENERATIVE FILTER
KEY BENEFITS			
Up to 3dB (A) sound reduction	-	•	•
Simple installation	•	-	-
Better extraction performance	-	•	-
Regenerated in the oven every 4 months recommended (2 hours 200℃)	-	-	•
Anti-fish treatment	•	•	-
Removes over 99% of all pollen	-	•	-
Better extraction performance	-	-	•
Odour reduction	Up to 85%	Up to 95%	Up to 95% (Up to 86% if installed without a chimney)
Recommended exchange	Approx. 2 times per year	Approx. once per year	Approx. once every 10 years
INSTALLATION			
Behind grease filter, inside the hood	•	-	-
Extra module attached to hood chimney (stainless steel)	-	•	-
Extra module (as per CleanAir filter) onto chimney or inside chimney.	-	-	•
New Chimney Hoods: Integrated plastic module fitted inside the chimney piece	-	•	-
'Chimless' installation possible (Angled and Flat only)	-	-	•
INSTALLATION WITHOUT CHIMNEY POSSIBLE			
Angled and Flat only	•	•	•

CleanAir Plus and Regenerative filters not available for all styles of hood. Additional module may be required to house the filter. Images for example only, different filters may come in a different sizes and styles.

Installation

The following points should be observed for optimum ducted extraction results and low noise.

1. Ensure any pipe elbow bends are at least 30cm from the hood ducting opening.

2. Avoid reducing the diameter or area of the ducting.

**3.** Use wide-angled pipe elbows, but keep the number used to a minimum.

4. Only install pipes with smooth, even inner surfaces. If a flexible hose has to be used, ensure it is pulled tight to smooth out the ridges before fixing.

5. Use ducting pipes with a diameter of at least 120mm, but ideally 150mm.

6. Keep piping to a minimum – use the most direct route to an external outlet.

7. Make sure that there is an adequate supply of fresh air to replace the air ducting out of the kitchen, i.e. windows that can be opened, doors to adjacent rooms, air bricks. Problems with installation may occur if points 1-7 are not observed.

Easy mounting system

Thanks to an easy wall-mounting system, selected hoods can be installed quickly and securely by one person. Rotating offset 'cam' fixings make it possible for positional adjustments of up to 6mm, helping to get the hood level and stable. (Not available on all our hoods.)

Installation tips

Hoods

Keep air fresh and free of cooking smells
Extractor hoods are an integral part of a clean and fresh working kitchen environment. Not only do Bosch extractor hoods look good and add a professional touch to your kitchen, they also deal quietly and efficiently with the key tasks of eliminating unwanted odours and removing grease and moisture from the kitchen.

Chimney extractor hoods
Choose between wall-mounted models or an island version to create a striking focal point in the kitchen. Some models are further enhanced by glass canopies. Available in the following sizes: 60, 75, and 90cm wide.

Chimney extractor easy mounting system
Installing your new cooker hood in the kitchen is quick and straightforward with the patented easy mounting system. The self-levelling fixing rings allow you to precision adjust the horizontal position of the hood by up to a 6mm radius.

Telescopic extractor
Ideal where an unobtrusive extractor is required. Built into a wall cabinet above the hob, it can be extended when in use, and retracted when not. Use the special handle profile accessory, or if you prefer, a matching pelmet from your kitchen supplier. Available in the following sizes: 60 or 90cm wide.

Built-under extractor hoods
Ideal where space is at a premium, these 14cm tall extractors can be mounted directly to the wall or suspended beneath a reduced height wall cupboard. 60cm wide.

Integrated extractor hoods
Integrated extractor hoods are designed to be mounted between two cabinets with a matching furniture door affixed to the front.

Canopy extractor hoods
Designed to fit discreetly into the base of a wall cupboard, or specially designed furniture canopy with operation from below.

Choosing the correct extractor
As a guideline, the air in the room should be changed six to twelve times per hour. Calculate the floor area in square metres and multiply by the height of the room in metres. Then divide the maximum extraction rate of your chosen hood by the figure calculated above. The resulting figure should be at least seven, but preferably as close to twelve as possible.

Example
Kitchen (H x W x D) metres 2.1 x 4.5 x 4.2 = 39.7m³.
Assume a maximum of 12 air changes per hour – multiply 39.7m³ by 12 = 476m³/h.
Choose a hood capable of extracting at least this amount of air per hour
– e.g. DWB96DM50B (max ducted extraction rate intensive 580m³ per hour).

To avoid excessive noise, try to select a model which meets the above requirements on an intermediate speed, rather than at the highest speed.

39.7m³

12 x 39.7m³ = 476m³/h

Quick checklist

Type of hood

- Chimney
- Telescopic
- Conventional
- Integrated
- Canopy
- Ceiling

- Ducted
- Re-circulated
- Width of hood
- Size of kitchen
- Required extraction rate

Island hoods

Island hoods provide efficient ventilation directly above or in your kitchen island, ensuring the removal of cooking fumes and odours for improved air quality. Additionally, they offer design flexibility and can act as a stylish focal point in the kitchen.

Model shown: DDW88MM60B

Worktop hoods

Our GlassDraft extractor fits seamlessly into your kitchen and disappears out of sight into the cabinets below when not in use.

Guided Air
Perfect extraction performance regardless of pot height and pot position.

PerfectAir Sensor
Automatic extractor control for high performance with low noise.

Hob-Hood Control
With a connected hood and hob, your hood will automatically turn on as it detects hob cooking. You can then adjust the power level of your hood via your hob or the Bosch Home Connect app.

Eco Silence Drive™
The powerful, energy-saving drive for hoods.

To create a seamless combination of hob and hood installation the GlassDraft can be combined with selected hobs.

Model shown: PVS811B16E

Model shown: DRC97AQ50B

Venting hobs

To give you more freedom and flexibility in designing your kitchen, we've developed hobs with an integrated ventilation module.

Integrated ventilation module
The hob and hood in one.

PerfectAir Sensor
Automatic extractor control for high performance with low noise.

Bosch Home Connect
Make controlling your hood simple.

Ceiling hoods

A flush fit ceiling hood is normally installed into a false ceiling. It not only ensures clean air, it also provides excellent lighting for your hob and creates more space in island kitchen cabinets.

Hob-Hood Control
With a connected hood and hob, your hood will automatically turn on as it detects hob cooking. You can then adjust the power level of your hood via your hob or the Bosch Home Connect app.

Eco Silence Drive™
The powerful, energy-saving drive for hoods.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.

Wall mounted hoods

Bosch wall-mounted cooker hoods are ideal for kitchens where the hob is installed on a work surface next to the wall. Steam and odours are removed at the source without being given the chance to spread into your kitchen.

Model shown: DWK91LT60

Pyramid Chimney Hoods

Pyramid hoods impress with classic lines and the refined contours of the contemporary slim pyramid designs.

Quiet extraction
Low noise extraction with powerful performance.

LED Lights
The energy-saving lighting provides bright and clear lighting for the hob area.

Touch Control
Quickly select hood settings via touch.

Model shown for illustrative purposes only

Glass Chimney Hoods

Straight glass chimney hoods are great for a traditional and stylish kitchen.

LED Lights
The energy-saving lighting provides a clear and bright illumination for your cooking area.

Push Button Control
Easy accessibility to control your hood.

Angled Glass hoods

The angled design doesn't restrict headroom so you can keep an eye on your cooking with ease.

Smart Hood Automatic
With a connected hood and hob, your hood will automatically turn on and continue to adjust its fan level to match the intensity of your cooking. Enjoy complete hands free ventilation.

Eco Silence Drive™
The powerful, energy-saving drive for hoods.

PerfectAir Sensor
Automatic extractor control for high performance with low noise.

Hob-Hood Control
With a connected hood and hob, your hood will automatically turn on as it detects hob cooking. You can then adjust the power level of your hood via your hob or the Bosch Home Connect app..

Model shown for illustrative purposes only

Box Chimney Hoods

Chimney hoods in a box design perfectly complement your hob installation.

Intensive Setting
The powerful way to beat intense steam during cooking.

Silence
Maximum hood performance, minimum noise.

LED Lights
The energy-saving lighting provides a clear and bright illumination for your cooking area.

Touch Control
Quickly select hood settings via touch.

Integrated hoods

Built-in **Hoods**   68 | 69

Integrated hoods provide your kitchen with a seamless look by integrating the hoods into the cabinets above your hob.

Model shown: DBB97AM60B

Integrated Design hoods

Flush integrated design with a fold out glass panel, make these hoods the storage champion. Allowing storage each side of the chimney on the hood, discreetly hidden in kitchen furniture.

Storage
10kg storage each side of the chimney hood.

Intensive Setting
The powerful way to beat intense steam during cooking.

Clean Air Plus Filters
The Clean Air Plus filter retains an extremely high amount of airborne pollen and allergens.

Telescopic hoods

Telescopic cooker hoods are installed into a wall unit. To operate them, the flat section is pulled out, enlarging the extraction surface.

Eco Silence Drive™
The powerful, energy-saving drive for hoods.

Intensive Setting
The powerful way to beat intense steam during cooking.

LED Lights
The energy-saving lighting provides a clear and bright illumination for your cooking area.

Model shown: DBB97AM60B

Canopy hoods

Bosch canopy cooker hoods have powerful ventilation systems that can be integrated into the cabinets above your hob.

Intensive Setting
The powerful way to beat intense steam during cooking.

LED Lights
The energy-saving lighting provides a clear and bright illumination for your cooking area.

Push Button Control
Easy accessibility to control your hood.

Model shown: DLN77AC60A

Integrated and built-under hoods

Standard integrated and built-under hoods are a great solution when working with a small space. Both sit under kitchen cabinets and blend seamlessy into any kitchen.

LED Lights
The energy-saving lighting provides a clear and bright illumination for your cooking area.

Push Button Control
Easy accessibility to control your hood.

All diagram measurements are in millimetres (mm)

We try to keep up to date with constant technological improvements, so from time to time we may update installation guidelines. Therefore we strongly recommend that you download the latest installation guidelines from www.bosch-home.co.uk. Line drawings are for guidance only, and we recommend that you refer to the latest installation guidelines. Though every care is taken to ensure instructions are correct at the time of printing, Bosch cannot accept responsibility for incorrect planning or installation as a result of the use of these line drawings.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.

Introducing the Bosch laundry range

TO FIND OUT MORE ABOUT OUR BOSCH FREESTANDING WASHING MACHINE RANGE, PLEASE SCAN THE QR CODE BELOW:

Energy and water-saving technologies across our latest laundry appliances give you peace of mind when washing and drying your clothes. To help you choose the right appliance, we have divided them into three ranges.

Look out for the energy efficiency class icons throughout our brochure and on our product pages.

Model shown: WGB256A2GB

Washing machine functions explained.

Check model for available functions.

Speed Perfect
Wash up to 65%** faster without compromising results. Speed Perfect can be used in combination with most other programmes, all loads and textiles.

Eco Silence Drive™
Bosch Eco Silence Drive washing machines come with a 10-year motor guarantee. Not valid on Series 2 washing machines.

Capacity
Our freestanding washing machines have a drum capacity of up to 10kg, perfect for those busy households.

Aqua Stop
This security gives you peace of mind that the water will stop in the unlikely event of a leak.

Iron Assist
Iron Assist delivers a premium steam treatment to reduce wrinkles and cut down on ironing.

Active Water Plus
Delivers perfect results while only using the precise amount of water needed for every wash.

Reload
Simply pause the cycle and the machine will automatically adjust the water. This allows you to add or remove items of any size to your wash.

Easy Start
Bosch Home Connect will pick the perfect programme for you. Simply input what you're washing and your requirements.

Anti Stain Plus
Easily removes up to 16 of the most stubborn stains, helping you to easily get perfect washing results.

Hygiene Plus
Hygienic washing results that kill 99,99% of common germs*.

Mini load
The mini load programme lets you wash single items or very small loads up to 0.5kg more efficiently.

4D Wash
A combination of the direct water spray and an extra spin wash enables the most efficient and effective use of water and detergent, even when the drum is fully loaded. Achieve spotless laundry results every time.

*Bosch washing machines with the 'Hygiene Plus' wash programme at 40° and 60° fulfill scientifically recommended conditions for 99,99% of germ reduction for Enterococcus Hirae and Pseudomonas Aeruginosa, according to Honisch et al. 2014, "Impact of wash cycle time, temperature and detergent formulation on the hygiene effectiveness of domestic laundering. ° Conducted by University Rhine-Waal.** Difference between the duration of Easy Care Programme 40°C and the duration of Easy Care Programme 40°C in combination with Speed Perfect option. *** This feature will offer varied results on different materials with limited performance on synthetic fabrics and blended fabrics with high synthetic content. This function is not suitable for silk, wool, down, leather and membrane textiles as treatment with steam may be harmful to these materials.

Series 8

Perfection in every detail, our **Series 8** range stands out from the crowd with superior quality, results and first-class design. Discover cutting-edge features and extras such as the **i-DOS** automatic dosing system and targeted **Anti Stain** programmes to take the guesswork out of stain removal. Our **4D Wash** function ensures highly efficient usage of water and detergent guaranteeing spotless results. Monitor and control your wash remotely with our **Bosch Home Connect** models, developed to give you complete control over your washing.

Series 6

Our **Series 6** models offer advanced features to make life easier. **i-DOS** doses each load with millilitre precision, which not only delivers outstanding results but a host of savings. **Speed Perfect** allows you to wash up to 65% faster** without compromising results.

Series 4

Easy to operate with family in mind our **Series 4** range truly understands your requirements. Practical and straightforward to use, these appliances combine easy operation with stylish design. These models benefit from the **Reload** function, which allows you to open the door throughout most of the cycle so you can add or remove items at any time.

Energy efficient rating A-40%.

A rated appliances are efficient, but A-40%* are even more so! Our A-40% energy saving washing machines are 40% more energy efficient than the A rated standard. This means our models exceed the minimum energy efficient requirements for Class A by 40%.

*40% more efficient (30 kWh/100 cycles) than the limit value (51,4 kWh/100 cycles) of the energy efficiency class A according to delegated EU-Regulation 2019/2014 (Retained EU Legislation)

Bosch integrated technology for a peaceful washing experience.

Everythings just right with i-DOS
Once activated, the i-DOS system measures the detergent automatically, to the nearest millilitre. Sensors inside the washing machine detect the type of fabric, the load volume in the drum and the degree of soiling and adjust the detergent to the optimum dose accordingly. This way, you'll achieve the best results for your clothes, whilst **saving detergent and water.**

i-DOS with Detergent Scan
Skip manual dosing and save detergent. Just scan your detergent with your Bosch Home Connect app and i-DOS will do the rest****.

****i-DOS avoids unnecessary rinse cycles due to manual overdosing. Pair your washing machine with your Bosch Home Connect account. Find more information on **www.home-connect.com/gb/en/**

Model shown for illustrative purposes only.

Enjoy the quiet life.
The modern world is noisy enough, so it's good to know that Bosch technology can help make the home environment a little oasis of calm with our **Eco Silence Drive™**.

The right wash for the right stain.
The **Anti Stain Plus System** easily removes up to 16 of the most stubborn stains, helping you to easily get perfect washing results. The washing machine automatically adjusts the temperature, drum movement and soaking time to meet the demands of the relevant stains before your chosen programme starts.

Less rock and roll.
We've also created **Anti Vibration** technology to cut down noise. The sidewalls of the washing machine feature a spiral design that increases stability and reduces vibrations. Improved sound insulation and low noise shock absorbers further dampen the noise.

Speed Perfect.
With **Speed Perfect** you can reduce your washing time by up to 65%** without compromising results. **Speed Perfect** can be used in combination with most of the programmes, all loads and textiles. For example, by selecting the mix programme in combination with **Speed Perfect** you can thoroughly wash up to 4kg of mixed load in just 41 minutes.

Series 6 Washing machines

Introducing our new Series 6 washing machines, designed to make your life easier. With an A-20%* energy rating, these models are packed with all of your favourite features to save you energy, time and water.

Model shown: WGH254A0GB

Also available in graphite

Model shown: WGH254ARGB

Save #LikeABosch with our Series 6 washing machines

✓ Save energy

Our Series 6 washing machines are **20%*** **more energy efficient** than the A rated standard.

This means our models **exceed the minimum energy efficient requirements for Class A by 20%**.

Look out for our **A-% logos** to spot our most efficient models.

*20 % more efficient (40 kWh/100 cycles) than the limit value (50 kWh/100 cycles) of the energy efficiency class A according to EU-Regulation 2019/2014 (Retained EU Legislation)

Just have a single item to wash? **Mini load** means you can save energy, even with smaller loads.

Look out for the energy efficiency class icons throughout our brochure and on our product pages.

✓ Save time

The **Added Steam** wash programme adds a steam phase at the end of a washing cycle, helping to reduce wrinkles by up to 40%*** on both cotton t-shirts and cotton shirts. This programme saves you time and cuts down on your ironing pile.

Iron Assist steams freshly washed items in just 20 minutes. It can also reduce wrinkles on a previously worn dry item of clothing, just place it in the machine and let Iron Assist do the rest.

✓ Save water

With **Active Water Plus** you achieve perfectly clean results and you can save up to 50%⁺ of water when washing smaller loads, thanks to automatic load detection.

It's now even easier to save on both water⁺⁺ and detergent, by skipping manual dosing. **i-DOS with Detergent Scan** automatically ensures your washer uses just the right amount of detergent and softener.

Energy saving of the easy care program 40 °C with a load of 0,5 kg with the mini load option in comparison to the easy care program 40 °C with a load of 0.5 kg without mini load option.*Relating to the crease reduction of commercial cotton garments (T-shirts) in the Mix Program with a 4 kg load and activated Added Steam Option in comparison to textiles not treated with Added Steam option according to DIN EN ISO 15487. ⁺Active Water Plus automatically adjusts water consumption to load. Comparing water consumption of Eco 40-60 with quarters vs. full load per cycle ⁺⁺i-DOS avoids unnecessary cycles due to manual overdosing.

Introducing the Bosch Microplastic filter

Introducing the Bosch Microplastic filter. Did you know that every wash cycle releases hundreds of thousands of microfibers into our wastewater? These tiny particles have the potential to find their way into our drinking water and food chain, impacting our daily lives. Our new microplastic filter, a simple addition to your washing machine, is here to deliver a solution.

Launching Summer 2025

Model shown: WGB256A2GB

Key benefits explained

Microplastic Filter: Filters up to 97%* of microplastics.

Easy cleaning: Our filter self-cleans and prevents clogging to save you time. Look out for the red light on your Micoplastic filter, this signals that the filter needs emptying. The filter is full after approx. 20** washing cycles. For more information on how to empty the filter, please use the QR code below.

Easy to empty filter: Our filter comes with easy maintenance indicators and scraper. Empty it over your bin with ease.

No need for cartridges or filter bags

Universal Fit: Compatible with any washer and washer dryer. Requires mains connection.

Easy installation

Installing our microplastic filter is a breeze. It can be installed anywhere

10 cm above the water level, without the need for drilling.

Water routes through filter via the inlet/outlet hose connections.

PLEASE SCAN THE QR CODE FOR OUR INSTALLATION AND MAINTENANCE GUIDE.

*Percentage of microplastic fibres (nylon flock fiber mixture) filtered out by the microplastic filter, measured using gravimetric methods in a device-independent test rig.
**This number is dependent on your chosen washing cycles, and the contents of your laundry load.

Making **life easy** through innovative technologies

Freestanding washer dryer range

Want to wash and dry in one go? After the wash cycle, a washer dryer automatically switches to the chosen drying mode. No need to transfer wet laundry from one appliance to the other. For items you prefer air drying, just run the wash cycle. You can also use the appliance as a dryer, without washing beforehand. It's one machine for all your washing and drying needs.

TO FIND OUT MORE ABOUT OUR BOSCH FREESTANDING WASHER DRYER RANGE, PLEASE SCAN THE QR CODE BELOW:

Washer dryer functions explained.

Check model for available functions.

Wash & Dry 45
Wash & Dry 45 programme means you can achieve a thorough wash and dry in just 45 minutes. This innovative programme is designed for lightly dirtied clothes and is perfect for washing and drying heat resistant textiles like cottons or linen. It is tailored for a 1kg load, providing exceptional convenience and efficiency.

Iron Assist
Iron Assist is designed to make ironing easier and more efficient. Iron Assist gently steams freshly washed and dried items in just 20 minutes, this ensures that your clothes are gently and evenly dampened, allowing for easier ironing afterwards. It can also reduce wrinkles on a previously worn item of clothing. Just place items in the machine and let Iron Assist do the rest, so you can cut down the ironing pile.

i-DOS
Get maximum efficiency for your wash with the i-DOS automatic dosing system. Just fill up the detergent and softener compartments once, and i-DOS sensors will dispense the precise amount of detergent and water for each load, wash after wash. So it saves detergent, and prevents unnecessary rinsing.

Auto Dry
With Auto Dry sensor technology you can ensure gentle and precise drying results. Auto Dry automatically knows when your load is perfectly dry by constantly measuring the humidity and temperature, protecting your clothes against overheating.

Wrinkle Guard
Thanks to Wrinkle Guard you'll reduce the size of your ironing pile! The drum will continue to move dry laundry for a period of time after the cycle has finished, so clothes are cooled gradually and don't wrinkle when they are still warm.

Eco Silence Drive™
Bosch Eco Silence Drive™ washing machines come with a 10-year motor guarantee. Not valid on series 4 washer dryers.

Speed Perfect
Wash up to 65%* faster without compromising results. Speed Perfect can be used in combination with most other, and loads and textiles.

Capacity
Our freestanding washer dryers have a drum capacity of up to 10kg, perfect for those busy households. Wash and dry up to 6kg of items in one go or wash up to 10kg.

*Difference between the duration of Easy Care Programme 40°C and the duration of Easy Care Programme 40°C in combination with **Speed Perfect** option.

Model shown: WNC254ARGB D / A

Wash & Dry 45

Say goodbye to long laundry cycles and hello to a faster, more effective way of cleaning your clothes. Wash and Dry small loads efficiently in just 45 minutes. It's perfect for jackets, business shirts and even suits*.

*This feature will offer varied results on different materials with limited performance on synthetic fabrics and blended fabrics with high synthetic content. This function is not suitable for silk, wool, down, leather and membrane textiles as treatment with steam may be harmful to these materials.

Convenience for small spaces.

Our washer dryers not only wash flawlessly, they also dry perfectly – all in one appliance. An ideal solution for people with high standards but not much space.

Wash & dry in one.

Now you can wash and dry a load thoroughly in just one hour. This programme is suitable for lightly soiled clothes and for washing and drying heat resistant textiles, such as cottons or linen.

Model shown: WNA144V9GB E / B

Freestanding tumble dryer range

Our tumble dryers are economical, easy to use, and dry your laundry in next to no time. With the help of gentle warm air, a wide range of programmes and our fabric-protecting drum structure, you can always expect the best care for every laundry item.

TO FIND OUT MORE ABOUT OUR BOSCH FREESTANDING TUMBLE DRYER RANGE, PLEASE SCAN THE QR CODE BELOW:

Model shown: WTH85225GB

Tumble dryer functions explained.

Check model for available functions.

Heat Pump dryers
Our heat pump dryers use an innovative heat pump component, which conserves and reuses the hot air to provide most of the energy needed for the dryer processes.

Self-Cleaning condenser
The Self-Cleaning condenser cleverly uses condensation water to automatically clean itself up to four times per drying cycle. This ensures maximum efficiency for the entire working life of the machine – so you'll never have to worry about the condenser again.

Anti Vibration Design
With our Anti Vibration sidewall, our dryers are engineered to be not only extremely stable but also very quiet. This is made possible through the implementation of special vibration protection technology. By minimising vibrations and noise levels, our appliances provide a peaceful and enjoyable experience, allowing you to go about your daily tasks without any disturbances.

Auto Dry
With Auto Dry sensor technology you can ensure gentle and precise drying results. Auto Dry automatically knows when your load is perfectly dry by constantly measuring the humidity, protecting your clothes against overheating.

Speed Perfect
Wash up to 65%** faster without compromising results. Speed Perfect can be used in combination with most other programmes, all loads and textiles.

Iron Assist
Bosch heat pump dryers with Iron Assist reduce or even eliminate the need to iron. A fine mist is created inside the drum which permeates the gently warmed contents and visibly smooths laundry and works well with materials such as cotton, linen and blended fabrics with high cotton contents such as jeans and business shirts*.

Easy Clean
The Easy Clean condenser filter is simple to access and only needs cleaning after every 20 cycles.

*This feature will offer varied results on different materials with limited performance on synthetic fabrics and blended fabrics with high synthetic content. This function is not suitable for silk, wool, down, leather and membrane textiles as treatment with steam may be harmful to these materials. **Difference between the duration of Easy Care Programme 40°C and the duration of Easy Care Programme 40°C in combination with Speed Perfect option.

TO FIND OUT MORE ABOUT OUR BOSCH HOME CONNECT FEATURES, PLEASE SCAN THE QR CODE BELOW:

Short on space? Have you considered a stacking kit? Please refer to compatibility list on page 92.

Smart Dry uses sensors to analyse the load of your washing machine to ensure your dryer automatically selects the ideal drying programme and duration for your clothes.*

This will save you coming back to check if your laundry is dry and will use the minimum amount of energy for the load.

Models shown for illustrative purposes only.
*Both washing machine and tumble dryer need to be connected to the Bosch Home Connect app.

Home Connect

Download on the **App Store** GET IT ON **Google play**

Series 8

Our **Series 8** dryer takes the lead with superior design, quality and results. Stand out features include **Iron Assist** which gently steams freshly washed and dried items in just 20 minutes, reducing wrinkles to help reduce your ironing. Significantly cut down drying time with **Speed Perfect**, so your clothes come out perfectly dry, faster. With **Smart Dry** you can connect your Bosch Home Connect washing machine and tumble dryer so the optimal drying programme will be selected for you, based on your most recent washing cycle*. The smartest way to achieve perfectly dried laundry.

Series 6

Our **Series 6** dryer offers advanced features to make your life easier. The **Self-Cleaning condenser** cleans itself automatically, up to four times during the drying process, keeping top energy performance. Load up your laundry and **Auto Dry** will finish it to the exact level of dryness you want – whether that's dry enough to iron or extra-dry and ready to fold. With **Bosch Home Connect** you can discover additional features to tailor your machine, to your needs.

Series 4

Our **Series 4** dryers are easy to use and quiet in operation. The **Anti Vibration** sidewall, ensures our dryers are extremely stable but also very quiet. By minimising vibrations and noise levels, our appliances provide a peaceful and enjoyable experience. Rest assured with **Auto Dry** that your clothes are protected from high temperatures and over drying.

Built-in laundry range

Effortlessly efficient, load after load. Our built-in laundry appliances are designed to perform perfectly, everytime. And our advanced technology means your clothes are cleaned effectively and efficiently.

Time Light.

Bosch washing machines are so quiet sometimes it's hard to tell whether they are on or off, especially on fully-integrated models where there is no visible control panel. The Time Light indicates the programme status and time remaining onto any floor surface.

Easy Installation - Cardan Drive

With our Cardan Drive system, installing your built-in washing machine is super easy.

Our machines can easily be adapted to the height of your worktop. The Cardan system allows the rear feet to be adjusted from the front of the washer, for any niche up to 60mm. Slide the machine into your kitchen unit, then simply adjust the feet easily from the front with a screwdriver.

Model shown: WIW28502GB

Series 8

Perfection in every detail, our **Series 8** range of laundry appliances stand out from the crowd with superior quality, results and first-class design. Clever features such as **Time Light** take away the guesswork on the progress of the wash. Unique innovations combined with energy efficiency deliver outstanding performance.

Series 6

Our **Series 6** range of laundry appliances offers a broad choice of specialist programmes and delivers high performance and effortless convenience to enhance your lifestyle.

Series 4

Models within our **Series 4** range combine practical features and Bosch quality in a consistent, value for money package.

Laundry functions explained.

Check model for available functions.

Eco Silence Drive™
Our washing machines with Eco Silence Drive™ generate lower noise levels for quieter living.

Anti Vibration Design
A spiral design on the side of the washing machine that increases stability and reduces vibration. This makes for a quieter machine with improved sound dampening.

Reload
Simply pause the cycle and the machine will automatically adjust the water. This allows you to add or remove items of any size to your wash.

Time Delay
Have your laundry ready when you need it. Just delay the start of your programme with one simple button.

Time Light
The time remaining on your cycle is projected onto the floor. You can also view the programme progress status.

Aqua Stop
This security gives you peace of mind that the water will stop in the unlikely event of a leak.

Vario Drum
Select the programme for your wash and the droplet-shaped drum structure will adjust the drum movement for powerful or gentle cycles to suit the load.

Capacity
Our built-in washing machines have a drum capacity of up to 8kg, perfect for those busy households.

Introducing the Bosch dishwasher range

Our built-in and freestanding dishwashers offer a range of advanced technologies and additional options across the range to suit your individual requirements.
To help you choose the right Bosch dishwasher, we have divided them into the four ranges below.

Model shown: SMV6ZCX10G

Series 8

Our **Series 8** range combines cutting-edge design and advanced technology. The **PerfectDry** function absorbs moisture before releasing it as hot air for energy-efficient drying. Exceptionally quiet, offering additional storage and flexible loading solutions our **Series 8** dishwasher is a perfect solution for busy households.

Series 6

Our **Series 6** range comes packed with technology, from energy and water-saving modes to quick washes for when time is at a premium. They also feature our clever **PerfectDry** technology and handy features such as **Max Flex** baskets, **Extra Clean Zone** and **Efficient Dry**.

Series 4

Our **Series 4** range of models offers great value for money but does not compromise on Bosch quality. They combine advanced energy and resource saving features, such as **Efficient Dry**. In addition, they offer **Vario Flex** baskets with foldable racks in the top and bottom baskets.

Series 2

Our **Series 2** dishwashers offer you the classic design with easy operation. They are the optimal solution for anyone who wants a reliable appliance with good value for money.

Get more with Bosch Home Connect
Available on all dishwashers*

To stay at their best, different dishes and glassware need to be washed in different ways. With the Bosch Home Connect app, simply tell your dishwasher what's in the load and it'll work out the perfect programme. Use your voice to start your dishwasher or even find out how long before your dishes are ready. You can even link your Bosch Home Connect-enabled dishwasher with the Smart Finish auto-replenishment service to ensure you never run out of dishwasher tablets again.

Silence & Speed On Demand
Use your Bosch Home Connect app or Amazon Alexa to tell your dishwasher to be quiet or faster.

Intelligent Programme
Our intelligent programme adapts itself for your maximum satisfaction. After 3 cycles, you will be prompted to leave your feedback on the cleanliness, drying or length of the programme, or you can do so manually after every cycle.

Programme Assistant
Use Programme Assistant to tell your dishwasher what it's washing and how you want it cleaned. Bosch Home Connect will then recommend the ideal programme, ensuring the optimum amount of water and energy is used every time.
*apart from these models: SMS26AW08G & SMS26AI08G.

Drying options.

PerfectDry

The dish dryer among dishwashers.

A clever function that dries everything to perfection. And we do mean everything – plates, pans, glasses and all plastic items. Everything will be completely clean and perfectly dry, so you'll never have to pick up a tea towel to finish the job again.

The technology behind **PerfectDry** (unique to Bosch), is called **Zeolith®**. It is a process applied to every cycle that uses naturally occurring minerals that heat up when they come into contact with water. Clever **Zeolith®** beads transform humidity into warm air that speeds up the drying process. The warm air is then distributed evenly over the load.

So if you need a wash with brilliant drying results, it's time to choose Bosch.

Extra Dry

Want your dishes extra dry? No problem. This function gives you even more drying power when you need it. Just choose the Extra Dry option and more heat will be created to extend your load's drying cycle.

Efficient Dry

Automatically opens your dishwasher door, offering better drying results compared to a closed door (after 30 minutes). Select this feature via the Bosch Home Connect app, available on all programmes except pre-rinse and machine care.

Choose the right basket flexibility options for your dishwashing needs.
Max Flex Pro
Stainless steel fascias.
Colour touch points as standard.
Top rack flexible areas: 6
Bottom basket flexible areas: 8

Max Flex
Brand coloured plastic fascias.
Options with and without colour touch points. Top rack flexible areas: 2
Bottom basket flexible areas: 6

Vario Flex
Grey plastic fascias.
Top rack flexible areas: 2
Bottom basket flexible areas: 4

Extra Clean Zone
Extra thorough cleaning for heavily soiled items in the upper basket. This intensive zone doesn't need higher temperatures, it uses 3 jets to clean those stubborn items. So no more pre-soaking before going into the dishwasher!

Glassware support with smooth gliding baskets
New anti-slip elements and stemware support within the upper basket will give extra protection to all glassware. Baskets will glide effortlessly along the internal brackets, thanks to our new pull out systems.

Making **life easy** through innovative technologies

Available sizes:

60cm   **45cm**

Different types of control.

Series 6

LED Display with touch control

LED Display with button control

Series 4

LED Display with button control

Series 2

LED Display with toggle control

Dishwasher functions explained.

Check model for available functions.

Extra Dry
Want your dishes extra dry? No problem. This function gives you even more drying power when you need it. Just choose the Extra Dry option and more heat will be created to extend your load's drying cycle.

PerfectDry
PerfectDry uses Zeolith® technology that's applied to every cycle, which uses minerals that heat up when they come in contact with water. This clever function dries everything to perfection – from plates and pans to all plastic items.

Efficient Dry
Efficient Dry automatically opens your dishwasher door, offering better drying results compared to a closed door (after 30 minutes). Select this feature via the Bosch Home Connect app, available on all programmes except pre-rinse and machine care.

SpeedPerfect+
Our SpeedPerfect+ option reduces programme times without compromising on quality. So you still get hygienically clean and dry dishes but the duration of the cycle could be reduced by up to half the time* – ideal for busy households and entertaining.
*Except: Prewash, Express 45° and Express 65° programme.

Place Settings
A selection of our dishwashers will hold up to 14 place settings in one load – perfect for larger households.

Self-cleaning filters
Self-cleaning filter system, with spray arms designed to direct water at the filters on every rotation.
Please note, self-cleaning filters are designed to keep filters clear during the washing cycle. Regular filter cleaning and maintenance is still recommended.

Dosage Assist
Get the most out of your detergent with Dosage Assist; a small area at the front of the top basket that catches the tablet when it's released during the cycle. It controls how the tablet is dissolved for optimum performance.

Duo Power
Our 45cm models feature a twin spray arm in the top basket to ensure perfect water coverage every time.

Active Water
Save water with every load and only use the right amount of water needed for each load.

Available June 2025

[3]Water consumption in litres/operating cycle (using Eco programme)
[4]Duration of Eco programme
[5]We would recommend our dishwashers are connected to the mains water supply where possible. However, they may also be connected to an external water softener as long as the water softener produces softened water of less than 1.1 mmo/litre (7.0°e) and the water softener in the appliance is turned off. Please contact product advice for further information.Water pressure required: 0.5-10 Bar. Flow rate: 10 litres per minute. Inlet valve connected directly to ¾" screwed joint.

Data valid in this table as of April 2025. Subject to modification without prior notice.

*5 year warranty - Offer dates 01.04.25 – 31.03.26. T&C's apply. Online registration required. Selected models only.

Vario Hinge.

The innovative Vario Hinge system is the optimal solution for challenging built-in dishwashers. In kitchens with a low plinth (<90mm) and extra long furniture fronts, the door and appliances might collide into each other. With Vario Hinge, the furniture front slides up so the door opens perfectly without collision. This ensures perfect design of a fully integrated kitchen. Vario Hinge is available in Series 4, in 81.5cm height.

TO FIND OUT MORE ABOUT OUR BUILT-IN DISHWASHER RANGE, PLEASE SCAN THE QR CODE:

Different types of control.

Grey touch control with LCD display

Grey touch control with LED display
Stainless steel push button control with LED display

Black toggle control with LED display

Time Light
Bosch dishwashers are so quiet that sometimes it's hard to tell whether they are on or off, especially on fully-integrated models where there is no visible control panel. The Time Light indicates the programme status and time remaining onto any floor surface.

Info Light
Coloured light beam projects onto the floor when the machine cycle is started, and turns off when finished.

Emotion Light
Lights up the dishwasher cavity with 2 white LED lights.

Door Open Assist
With Open Assist you can open fully integrated dishwashers by simply touching the front of the unit. This partially opens the door, making it easy to load and unload the dishwasher. The handle-free dishwasher door is the optimal choice for modern design kitchens with matching-style unit fronts. Activate the electronic child lock for the door to make this a double push to open.

Machine care.
Your dishwasher will look after itself with this smart function. Optimising the water and energy consumption, it works on a short run time of 80-90 minutes at high temperatures. It eliminates limescale and grease deposits inside the dishwasher and works with a standard machine-care detergent. On selected Series 8 and Series 6 models, it will even remind you to run the programme every 30 cycles.

Whisper quiet washing.
Bosch dishwashers are amongst the quietest in the world. With the revolutionary **Eco Silence Drive**™ there are dishwashers in the range which operate as low as 40 decibels, when the Silence programme is selected.

10 year anti-rust warranty*.
Our appliances are made from top quality materials and in addition to our standard appliance warranty, we provide a free of charge warranty against rusting-through of the dishwasher's inner cavity.

*T&Cs apply. Registration required.

[3] Water consumption in litres/operating cycle (using Eco programme)
[4] Duration of Eco programme
[5] We would recommend our dishwashers are connected to the mains water supply where possible. However, they may also be connected to an external water softener as long as the water softener produces softened water of less than 1.1 mmo/litre (7.0°e) and the water softener in the appliance is turned off. Please contact product advice for further information. Water pressure required: 0.5-10 Bar. Flow rate: 10 litres per minute. Inlet valve connected directly to ¾" screwed joint.
Data valid in this table as of April 2025. Subject to modification without prior notice.

*5 year warranty - Offer dates 01.04.25 – 31.03.26. T&C's apply. Online registration required. Selected models only.

Installation tips

Dishwashers

Integrated dishwashers

Energy and water-efficient with outstanding performance, Bosch integrated dishwashers quietly do all the hard work for you behind closed doors. These models can be built under a worktop or sink drainer, between two units or at the end of a run of units. A furniture door is mounted on the appliance door so that the dishwasher is indistinguishable from other kitchen cabinets. Choose from full size 60cm wide, or slimline 45cm wide.

60cm wide

Built-in dimensions (60m wide)

If you have a recess height of 81.5 – 87.5cm, plan for an 81cm dishwasher. The appliance's feet may be screwed out to a total height of 87.5cm. Or, if you have a recess height of 86.5 – 92.5cm plan for an 86cm dishwasher. The appliance's feet screw out to a total height of 92.5cm.

Introducing the Bosch refrigeration range

Save more, waste less. Our range of freestanding fridge freezers are packed with innovative technologies to keep your food fresh for longer, so you'll throw out less and save on your weekly shopping bill.

To help you choose the right appliance, we have divided them into the four ranges below.

Series 8
Cutting-edge design meets advanced technologies. All models in our **Series 8** range are packed with features that save valuable time, effort and money – perfect for modern, busy households.

Series 6
Our **Series 6** range of appliances combines efficient performance with convenient storage and superior food preservation.

Series 4
All models in our **Series 4** range combine practical features with Bosch build quality.

Series 2
Built for optimal food storage, the **Series 2** refrigeration range is just as practical as it is value for money.

Model shown: KIN86VSE0G

Lock in the freshness.

Easy-to-clean magnetic door seals
The magnetic door seals on all of our refrigeration ranges are **removable**, making them easy to clean and/or replace when necessary.

Refrigeration functions explained.

Check model for available functions.

No Frost
Never defrost again, thanks to perfect protection from ice formation that saves time and effort.

Low Frost
Defrost less often thanks to lower ice formation, saving work and energy.

Big Box
An extra-deep frozen food drawer makes stacking frozen food containers or large frozen items like a Christmas turkey or pizza boxes easier.

Multi Box
Transparent drawer with wave bottom, ideal for the storage of fruit and vegetables.

Super Cool
Activating the Super Cool function before you go shopping lowers the temperature for a short period, so your fresh shopping is kept at the optimum conditions.

Super Freeze
The Super Freeze function temporarily lowers the temperature in the freezer for when you have new shopping to load in, protecting both new and existing food.

Safety Glass
Strong glass shelves ensure heavier items can be stored safely.

Easy Shelf Access
The shatterproof, frameless glass shelves are particularly easy to use, thanks to the smooth pull-out mechanism. And they also give you a clear view of your food at any time.

Multi Airflow
The fan-assisted Multi Airflow System causes gentle, even currents of cold air to emerge at all levels of the chilling and freezing area. Temperature fluctuations are minimised and cooling times are reduced.

VitaFresh

With **VitaFresh**, you'll be able to store your fruit and vegetables safely to lock in the freshness. And with an adjustable humidity setting on the drawer, you'll be keeping your fresh food in a perfectly controlled environment.

There are two drawer solutions; you'll either find one big drawer for fish and meat or two drawers, one for fish and one for meat. All with a temperature regulating slider, which lets you adjust the temperature up to 4°C lower than the rest of the fridge.

VitaFresh^plus

The **Series 6** fridge freezers help you to live healthier. They not only offer you plenty of room for fresh foods, drinks and even big pots and bowls, but also the technology to store them optimally.

The **VitaFresh plus** freshness system guarantees ideal storage conditions at any time and ensures that fish, meat, fruit and vegetables stay fresh for longer. This makes our Series 6 fridge freezer not only optimal for your food, but also for yourself.

VitaFresh plus models have the added benefit of a convenient push button for humidity control.

VitaFresh^pro

Selected **Series 8** fridges feature our best freshness system **VitaFresh pro**. It keeps food fresh for longer with temperatures from -1°C to +3°C while maintaining the perfect humidity level.

This combination of temperature and humidity helps you to protect all the aromas, essential nutrients and valuable vitamins in your fresh food. Hence, it's easier than ever to maintain a healthy diet with fresh fruit and vegetables every day.

Multi door cooling

TO FIND OUT MORE ABOUT OUR BOSCH MULTI DOOR FRIDGE FREEZER RANGE, PLEASE SCAN THE QR CODE BELOW:

Model shown: KFF96PIEP

Sleek, stunning design, best-in-class freshness system, XXL fridge capacity for effortless organisation and innovative features that are designed to keep your food fresh for longer.

Choosing the right model for your needs.

Model shown: KFI96APEAG

2 door

✓ **Classic side by side design:** easy to store and access your shopping

✓ **Multi Airflow:** innovative technology that ensures equal temperature throughout the fridge cavity

✓ **No Frost:** no more defrosting!

✓ **External ice and water dispenser:** ice-cold water at the touch of a button

Model shown: KFF96PIEP

3 door

✓ **Wide not deep:** by halving the door size, you can get a big capacity without the door cutting into your kitchen walkway

✓ **VitaFresh pro:** to keep your fruit and veg fresh for longer

✓ **Effortless Access:** designed with 3 doors to give you easy access

✓ **Internal Water Dispenser:** keeps the appliance exterior looking seamless

✓ **Automatic Ice Cube Maker:** instant ice for those hot summer days

Model shown: KFN96APEA

4 door

✓ **XXL capacity:** easily store your weekly shop

✓ **VitaFresh technology:** keep your fruit and veg fresh for longer

✓ **No Frost:** no more defrosting!

✓ **Super storage:** the freezer cavity comes with two No Frost Big Boxes – ideal for stacking meal prep containers

Instant refreshment with ice & water.

There's nothing better on a hot day than a cold glass of filtered water and cubed or crushed ice for your drinks. That's why our multi doors with the quick ice & water dispenser gives you instant refreshment with up to 5kg ice within 24h - including a water filtration system. It also has a hands-free bottle filling function for water with adjustable filling height.

Select the right fridge freezer for you.

Height, width and fridge freezer split.

Our fridge freezer options are tailored to suit every household's needs, so you can ensure that you choose the right appliance for your family. For those who shop little and often, try a smaller capacity fridge and freezer which doesn't impact on space. If you have a busy household and do a full weekly shop, a spacious 70/30 fridge freezer would be ideal.

TO FIND OUT MORE ABOUT OUR BOSCH FREESTANDING FRIDGE FREEZER RANGE, PLEASE SCAN THE QR CODE BELOW:

Controlling your appliance.

Across the range of cooling appliances, there are different ways you can control the temperature inside your fridge freezer. Below are the different variations:

Exterior touch control (digital control)

Interior LED button control

Interior LED button (freezer only)

The XXL fridge freezers. Keep more, waste less.

The Bosch XXL fridge freezers are extra-large, providing much more space for your food. Designed for convenience, they feature fully flexible safety glass shelves with a smooth pull-out mechanism ensuring effortless usability and organisation.

Across the range of 70cm-wide and 86cm-wide models, include a **Big Box** freezer drawer, for the practical stacking of frozen food containers or large frozen items and the **VitaFresh** function which ensures food is kept fresh for longer – thanks to extra low temperatures for fish and meat, and adjustable humidity for fruit and vegetables.

Make room for freshness with XL and XXL built-in cooling.

It only takes a little more space in your kitchen to get a lot more space in your fridge. Our new XL models are slightly taller and utilise the additional cavity space in your built-in cabinets, to give you more cooling capacity. If you're looking for even more, our new XXL models are taller and wider, with 45%* more cooling space, meaning up to 123 litres of extra volume! With a larger interior that gives a perfect overview and maximum flexibility of freshness. These models may be larger in size, but that doesn't mean you need to compromise on freshness. These models are still packed with all our innovative cooling solutions.

XL models
193.5cm (H) x 54cm (W)
Capacity: 290L

XXL model
193.5cm (H) x 69.1cm (W)
Capacity: 383L

Model shown for illustrative purposes

*Comparison between XXL size fridge freezer (KBN96NSE1G) vs. standard size fridge freezer (KIN86GNFE0G).

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.

Select the right model for your kitchen.

Built-in fridge freezer

Built-in fridge freezers blend seamlessly into your kitchen cabinets, making it easy to access your chilled food, and still provide plenty of storage for your frozen goods. Select from a variety of options to suit your needs for either larger fridges or freezers.

Built-in fridge

Built-in fridges integrated into your kitchen cabinets. Add to the expanded space you have for keeping your chilled food fresh.

Built-in freezer

Bosch has a wide range of built-in freezers to suit every kitchen size. From tall upright freezers to compact under-counter models, all Bosch freezers are built to maximise storage space and minimise energy consumption.

Built-under fridge and freezer

Our built-under fridges and freezers are ideal for those limited on space within the kitchen. Under-counter cooling solutions will allow you to have easy access to your chilled food, all while being discreetly tucked under your counter.

Hinges to fit in with your kitchen.

Fixed hinge

Fixed hinges allow heavier furniture doors to be fitted to the appliance, ideal for kitchen cabinets made from heavier hard wood. This also allows the door to be open at a wider angle, making the whole fridge cavity easily accessible.

Sliding hinge

Sliding hinges are designed for integrated kitchens and are designed to sit between the appliance and the kitchen furniture, which is secured by a number of brackets. As you open the furniture door, the appliance door also opens, thanks to the series of brackets.

Quietly does it

As there could be many small and larger hands opening and shutting the fridge door, it's nice to know that we've integrated **Soft Closing doors** into many models – so doors don't get left open accidentally.

Introducing **MicroClean™** Technology

Our best ever dust pick-up[1]. Over **99.9%**[2] with the **MicroClean™** Brush.

Model shown: BBS1041GGB

Model shown: BBS931WGB

MicroClean™ Technology

Clean beyond the visible with **MicroClean™**. With the **MicroClean™** Sensor, the Unlimited 9 and 10 vacuums can effectively pick up even the tiniest particles that are typically overlooked. Rest easy with the **MicroClean™** Ring, which emits a blue light when your surfaces are completely clean, providing reassurance during each cleaning session.

The pioneers of power

Today, our batteries are unrivalled, offering compact and lightweight long-life batteries that consistently deliver on power, performance and efficiency – making Bosch the number one choice for cordless technology in the home and garden. The exchangeable **Power4All System** only requires a single battery pack, which means complete flexibility when charging. The battery is part of our **Power4All system** so it's compatible with more than 20 power tools and lawn and garden products from Bosch.

Explore more at **bosch-home.co.uk / bosch-home.ie**

[1]Average dust and debris removal on hard floor and carpet with the Bosch Unlimited 9/10 compared to other Bosch cordless vacuum cleaner series [2]Dust pick-up measured in Turbo mode on hard floors with crevices. Tested according to EN IEC 62885-4:2020/A1:2023.

Our range of vacuum cleaners

Whether you need your vacuum to be flexible enough to tackle those hard to reach places, to vacuum and mop at the same time for convenience, or powerful enough to take on your whole house from floor to ceiling, the Bosch range of vacuums has a model to suit you.

Model shown: BBS1041GGB

2 different brush heads supplied

Model shown: BCS71HYGGB

Model shown: BBH3280GB

The **Unlimited** Range

The intelligent one.
Great for different floor types.

Provides the perfect combination of high performance and flexibility. Powered by the Power4All System, the battery is exchangeable and is one of the largest cross-brand 18V battery systems in the market. Lightweight, compact, and powerful, the Unlimited range gives you thorough but flexible vacuuming. Guaranteeing effective cleaning on all kinds of floors.

The **Unlimited 7 Aqua**

The convenient one.
Vacuum and mop in one go.

The Aqua head offers highly effective cleaning by fusing vacuuming and mopping together in one appliance, allowing you to tackle dusty floors and stained surfaces at the same time. With a range of features to enable this, you can now save time and avoid the need to clean twice.

For dry and carpet cleaning, simply swap on the the Unlimited 7 AllFloor DynamicPower Brush head that comes in the same box.

The **Flexxo**

The flexible one. Perfect for those hard to reach spaces.

Easy to use, fast and thorough, the cordless Flexxo 2in1 handheld and handstick vacuum cleaner is lightweight and compact.

Bosch Motor Technology – Power made in Germany.

At Bosch we design motors to make a difference. And because we not only expect a vacuum cleaner to deliver optimal results but also to be long-lasting, we guarantee you high performance with our free 10 years motor warranty*.
