# Why choose **Bosch**?

### Quality

Over 130 years of experience paired with the latest German engineering allows Bosch to manufacture quality products that make everyday life easier.

WORLD'S  
**NO1**  
COMPANY  
ovens\*

### With Bosch you get the best.

That's why we've been named the number one oven company brand in the world.

### Most trusted brand.

In 2023, Bosch is again elected the 'Most Trusted Brand' for Home Appliances in Germany by consumers.

reddot winner 2023

UX  
DESIGN  
AWARDS  
product  
2023

### Design

Every detail of every appliance has been carefully designed, where everything just matches perfectly and makes your time spent in the kitchen as enjoyable as possible.

**The right  
combination  
for your  
kitchen**

# Selecting the right oven for you and your kitchen.

Whether you're designing a new kitchen or you are simply updating one of your appliances, we have a wide variety of cooking products available to you to choose from. Depending on the space you have in your kitchen, you can choose from a single product or combination.

## Single ovens

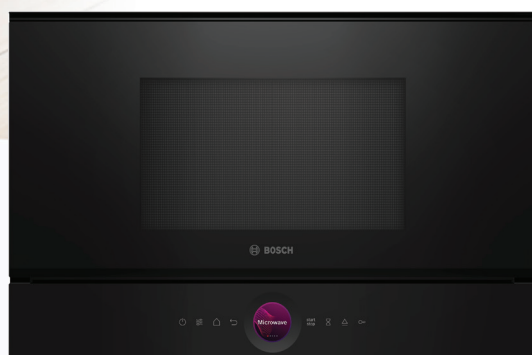

## Compact ovens

Choose our built-in companion appliances to compliment your built-in oven.

## Microwave

## Warming drawer

# True kitchen art.

Discover a seamless design that integrates perfectly into the kitchen environment. With a stainless steel look and the Digital Control Ring engraved in the glass – a design element found in the entire Series 8 oven range. For full cooking ease, the range also comes with a brilliant TFT Touch Display with clear texts and images that provide easy navigation for the various

### Thin Handle.

A thin stainless steel-look handle with an embossed Bosch logo highlights the elegant design.

UX  
DESIGN  
AWARDS  
product  
2023

### Digital Control Ring.

With the Digital Control Ring, you can adjust your oven settings intuitively. Just move your finger across the ring engraved in the glass on the control panel and confirm the desired setting.

### TFT Touch Display.

Additionally, you are supported by a high-resolution TFT Touch Display: clear, vivid images and info texts take you through each step as you navigate the program options. Thus, you enjoy a complete overview and full control over your appliance's functions. For those who love an extra good overview, we have designed the enlarged TFT Touch Display Plus and the 6.8-inch full-surface TFT Touch Display Pro.

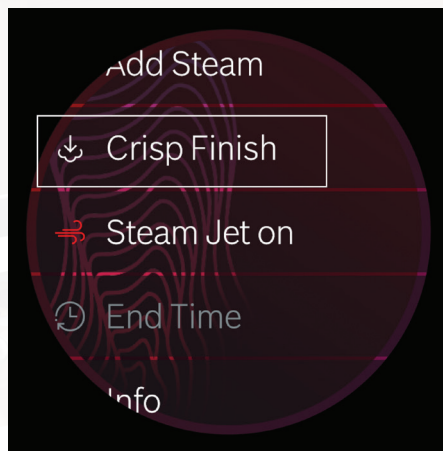

# New Ovens, New Functions.

## Air Fry Function.

The program combines fast air movement and heat from the grill to achieve a crispy finish. Simply place thin slices on the Air Fry and Grill tray, add a little oil, select the Air Fry Function, and soon you'll have yummy healthy snacks

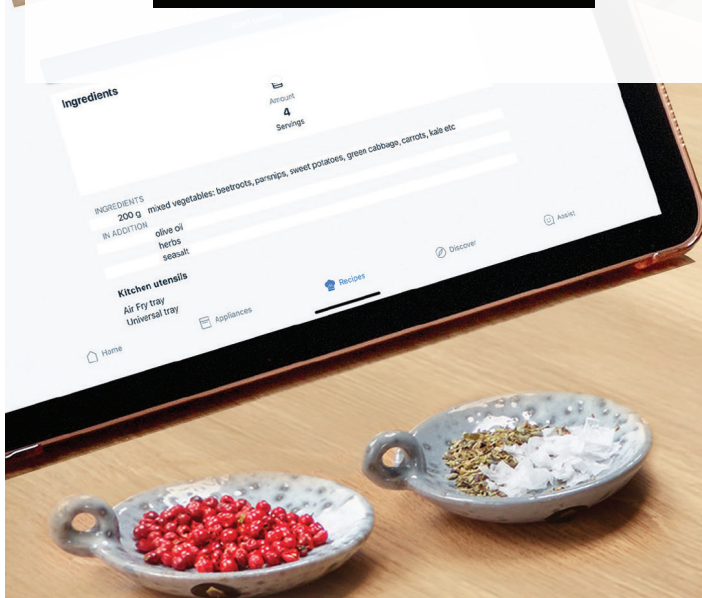

\*Applies to some selected Model

## Crisp Finish Function.

The Crisp Function removes moisture directly from the oven cavity during the roasting or baking process. This gives your finished dish the extra crispiness you want.

\*Applies to some selected Model

## Cooking the Intelligent Way.

The new Series | 8 ovens learn using Artificial Intelligence from the growing anonymized data of numerous baking and roasting processes. The more you use the oven the more precisely your oven makes the prediction about the exact end time of your cooking process. Home Connect and Artificial Intelligence support features like PerfectBake Plus or the PerfectRoast Plus.

### PerfectBake Plus.\*

Choose your desired dish from the Assist Menu, press 'Start' and your oven will automatically choose the right setting. Thanks to Artificial Intelligence within the Home Connect app and the Baking Sensor that measures the humidity inside your oven, you can see how many minutes are left until your dish is ready to serve.

### PerfectRoast Plus.\*

Using the 3-point Meat Probe Assistant with PerfectRoastPlus, you can now achieve your preferred degree of doneness. The recommended core temperature will be determined using the Meat Probe Assistant, and using Artificial Intelligence through the Home Connect app, the minutes it will take to achieve your desired roast will be shown.

\*Features available with selected models.

# The perfect ingredient for perfect cooking results: steam.

What could be nicer than the fragrance of fresh baked bread – with a perfect crust on the outside and still fluffy on the inside? Or a perfect Sunday roast, juicy on the inside and crisp on the outside? It's easy when you use steam functions of our ovens.

## Added Steam.

The Added Steam function gives your food mouth-watering texture, inside and out. It's ideal for baking bread, giving your loaves a deliciously crispy crust while keeping the inside fluffy. You can also use it for superb results when roasting and re-heating. Simply fill up the water container and your oven does the rest.

## More vitamins and nutrients.

Steaming broccoli at a temperature over 100°C, retains up to 54% more nutrients and up to 10% more Vitamin C than conventional cooking methods\*\*. Whereas steaming red pepper at a temperature over 100°C retains up to 15% more Vitamin C!\*\* They also keep their full, natural flavor, so you can go easy on the extra seasoning and use much less salt when cooking. In short – healthy food has never tasted better.

\*\* Steam Function Plus compared to cooking in boiled water, University of Hohenheim test results 5/2022 and 10/2022

# Perfect heating modes to meet your every cooking need.

From Bosch ovens offer heating functions that deliver everything from haute cuisine to everyday feasts.

Possible to use added steam for this type of heating (operation only possible when the water tank is full). ^To cook on all four levels simultaneously, four wire racks are required for best results. For up to three levels, all accessories are suitable, ie. universal tray or baking tray. Features may vary depending on models. Please check individual product specifications.

# Programs and Functions.

Perfect baking and roasting not only require the right temperature, but also the appropriate heating function for each dish. From 4D HotAir to Slow Cooking, Bosch ovens are there for all your cooking needs.

## 4D HotAir

Heat is distributed swiftly and evenly throughout your oven's interior. Place your tray or rack on any level from one to four and enjoy consistently perfect results from top to bottom.\*

## 3D HotAir

By maintaining the right temperature across three shelf levels, consistently even cooking results are achieved.

## HotAir Gentle

The fan distributes the heat evenly throughout the oven cavity, which can help save energy. When baking on a single level – such as small baked goods, cakes in tins or cakes on a baking tray – no preheating is necessary.

## Top and Bottom Heat

Uses both the upper and lower heating elements. Heat travels to the centre of the oven which is the best position to obtain the selected temperature. Suitable for traditional baking and roasting and offers best results for cakes with moist toppings.

## Top and Bottom Heat Gentle

With this heating mode, you can prepare small baked goods, bread and rolls to perfection every time. Depending on the particular food and method of preparation, you can also save energy.

## Bottom Heat

This targeted form of heat is especially suited for dishes cooked in a water bath or in need of additional baking or browning on the bottom.

## HotAir Grill

Once the desired temperature has been reached, the fan switches on and optimally distributes the hot air, especially around large dishes. Ideal for perfectly crisp roasts, poultry and whole fish.

Features may vary depending on models. Please check individual product specifications.

\*To cook on all four levels simultaneously, four wire racks are required for best results. For up to three levels, all accessories are suitable, i.e. universal tray or baking tray.

### **Pizza Setting**

Create crispy pizzas or give any dish that extra heat that's needed from underneath by using a combination of heating elements.

### **Keep Warm**

This function keeps dishes warm – to help you serve multiple dishes.

### **Slow Cooking**

For slow and gentle cooking at low temperature, e.g. 85 °C, for super-tender vegetables or poultry.

### **Preheat Ovenware**

This function pre-heats your plates to the perfect temperature so that foods stay hot longer after serving.

### **Fast Pre-heating**

With rapid heating you can shorten the heat-up time for selected heating functions, including 4D HotAir and top and bottom heating.

### **Fan Assisted Top and Bottom Heating**

Uses both upper and lower heating elements while a fan disperses heat evenly.

### **Defrost**

Gently defrosts food evenly and more quickly than it would take on the kitchen counter.

### **Reheating**

For plated meals and baked items. Cooked food is gently reheated. The steam ensures the food does not dry out.

### **HotAir Steam**

Use with steam bowl for delicious baking and roasting results.

### **SoftMove door**

A special damping mechanism prevents the oven door from slamming. It prevents the door from fully closing and then gently and quietly closes itself. When opening the door, it gently comes to a stop.

### **AutoPilot**

Every dish is a perfect success thanks to pre-set automatic programs.

# At last there's someone in the house who likes to clean.

Thanks to Pyrolytic self-cleaning and Eco Clean Direct, as well as the furnished universal pan with a ceramic non-stick coating, cleaning the oven and baking tray is now effortless. Our doors are also designed to be easily disassembled for cleaning, – so you can spend a minimum of time cleaning and have even more time to enjoy cooking.

#### **Pyrolytic self-cleaning.**

Our pyrolytic self-cleaning ovens let you say goodbye to this unpopular chore once and for all. Just select the feature, press “Start” and, depending on the degree of soiling, your oven heats up to 480°C, burning away grease or food residue – no chemicals needed. Once the oven has cooled down, simply wipe out the bit of ash and you’re done. So you can enjoy more time savouring the results and less time cleaning up.

\*Only in selected model

#### **Eco Clean Direct.**

Eco Clean Direct takes the effort out of oven cleaning. A special coating of microfine ceramic spheres on the oven walls and roof gently breaks down grease splatters while you roast or bake. Whenever you want to clean the oven, you only need to clean simply wipe the oven floor and the glass door. For optimum cleaning, simply activate the regeneration cycle from time to time. This long-lasting coating saves you time and energy.

\*Only in selected model

#### **Cleaning Assistance.**

Is your oven lightly soiled and in need of a quick cleaning? Just place approximately 400 ml of water with a drop of liquid detergent in the bottom of the oven cavity and select the proper cleaning programme. The environmentally friendly cleaning system softens baked-on residue, making it much easier to wipe off afterwards.

\*Only in selected model

#### **Universal pan with ceramic non-stick coating.**

Bosch is now offering an universal pan with a ceramic non-stick coating. This special non-stick coating makes the surface easy to clean. And the ceramic coating has another advantage: You no longer need to use parchment paper or to grease the tray, which makes baking, roasting and cleaning much easier.

\*Only in selected model

#### **Easy-clean door.**

Most Bosch oven doors are extremely easy and time-saving to clean. Whereas the cover is often bolted onto the actual oven door, on selected models you can easily release the right and left sides with the touch of a finger and remove the pane for cleaning. The chore of removing the screws is gone forever.

### Eco Clean Direct.

Eco Clean Direct takes the effort out of oven cleaning. A special coating of microfine ceramic spheres on the oven walls and roof gently breaks down grease splatters while you roast or bake. Whenever you want to clean the oven, you only need to clean simply wipe the oven floor and the glass door. For optimum cleaning, simply activate the regeneration cycle from time to time. This long-lasting coating saves you time and energy.

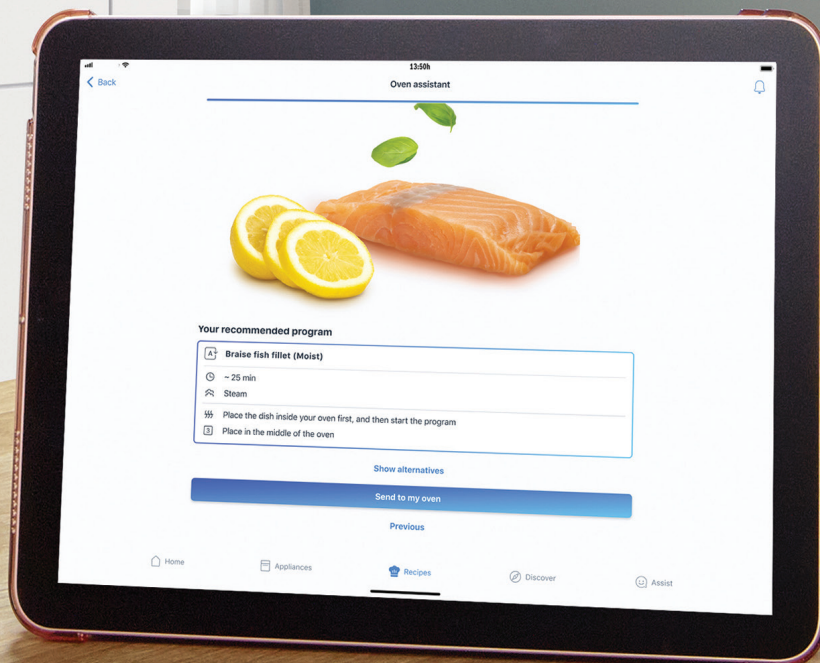

\*You will need to install Home Connect partner apps to use these functionalities.

# Say Hello to the future.

A smart home should be built around your needs! Our smart appliances make daily living even easier. With just your mobile device and our Home Connect app, you are in complete control, from wherever you are.

## CoffeeWorld and CoffeePlaylist.

Control your built-in Bosch coffee machine with any smart device. Try CoffeeWorld, the tech that offers a variety of international coffee specialties for your coffee machine to create. Use Coffee Playlist to add various beverages into a list and prepare them one after another.

## Recipe World.

HomeConnect transfers your selected recipe's cooking setting requirements directly to your oven. To enjoy this feature, just connect your oven to your registered Home Connect account.

# Now your favourite café is open 7/24.

Espresso, cappuccino or latte macchiato? With the Series 8 built-in coffee machine, you can treat yourself and your guests to any beverage at the touch of a button. Bosch technology guarantees a full-bodied aroma and perfect crema – for coffees as delicious as those brewed in your favourite café.

#### **Aroma Select**

Enjoy espresso just the way you like it. With Aroma Select, you can adjust the strength of the coffee to your personal preferences. Simply choose between three different aroma profiles: mild, balanced or distinctive. Whichever aroma profile you choose – you'll enjoy it.

#### **AutoMilk Clean.**

Say goodbye to the hassle of cleaning the milk system each day. Fully automatically, AutoMilk Clean steam-cleans the system, keeping it clean and hygienic. By thoroughly cleaning the milk system after each drink, it saves you from having to do it every day.

## The world of **Bosch** electric hobs.

Bosch's induction cooktops boast a wide range of modern features designed to make it easier and quicker for you to create the dishes you love.

\*Source Euromonitor International Limited; BSH Hausgeräte GmbH in Built-in Major Appliances includes Large Cooking and Refrigeration Appliances, volume sales 2023

# Why induction?

Bring 2 litres of water to a boil in just 4.7 minutes. Our PowerBoost function can increase the power output to a selected cooking zone by approximately 50%. Saving you precious time.

## Why is it so fast, so easy to clean and safe?

Induction Hobs are easier to clean, because the ceramic glass doesn't get as hot. Any spillages can be quickly and easily wiped away.

With an Induction Hob, micro-currents are generated in the bottom of the pot. Consequently, heat is only created when the pan is connected to the hob – heating will stop as soon as it's removed, which means it's far safer than cooking with traditional hobs.

DID YOU  
KNOW

Time (in minutes) for heating 2 litres of water from 15°C to 90°C

Radiant

Gas

Induction

Induction with  
PowerBoost

# The Best Cooking needs just One Ingredient: **Bosch**

Modern cooking offers so many wonderful new tastes and textures You  
need a cooktop that's flexible enough to keep up.

#### FlexInduction.

The unique coil shapes, you get the ultimate flexibility and heat distribution. At the touch of a button, two induction zones become one large FlexInduction surface.

#### Combi Induction.

With Bosch Combi Induction, you have the freedom to use your biggest pans and baking trays for more adventurous cooking. Switching from small to large pans is as simple as a single touch that merges two standard cooking zones into one large CombiZone.

#### Induction.

Cooking with induction is safer than all other alternatives. Only the base of the pan is heated and not the entire cooktop, which remains almost completely cold.

# Perfect Result Anytime

## PerfectCook

Our hobs are designed with a sensor so you'll be able to control your cooking by the temperature in the pot rather than the power level. So whether you're defrosting, warming up, cooking or deep fat frying, you're in control with our smart CookingSensor. Because precise temperature control guarantees perfect cooking results.

The CookingSensor is compatible with hob model **PXX375FB1E**, **PXX675DV1E**, and **PXX975DC1E** only

\*Contact Customer Service Hotline for process ordering

## PerfectFry

Enjoy perfectly cooked steak, however you like it. Our clever FryingSensor measures the temperature for perfect results. So when you're reducing a sauce, the heat will be low and gentle, and when you want a high heat for frying a steak, you'll have precisely the right temperature. Say goodbye to overcooking and under-cooking your favourite meals

Different types of oil have different smoke points and without exact temperature management, food can be burnt easily. PerfectFry shows you when the ideal temperature for adding the oil to the pan has been reached.

Achieving perfect results with the 5 PerfectFry temperature levels:

# Electric hobs.

## Features and Benefits.

### Performance

#### Quality ceramic top

High quality and durable ceramic top that can withstand heat up to 700°C.

#### 17-stage power setting

Enjoy total control on every recipe with 17-stage power settings. This function allows cooking zones to be set in increments of 0.5 (eg. 0.5, 1, 1.5, 2...9).

#### Automatic pan recognition

The automatic pan recognition function allows our induction hobs to identify the size of the pan and only heats up the base of the pan, not the entire zone, saving time and energy.

#### PowerBoost

With PowerBoost, the power level of your induction hobs is increased to help you give that little extra boost when cooking. This means you can bring a pot filled with two litres of water to boil almost three times as quickly as on a conventional ceramic hob.

## Safety

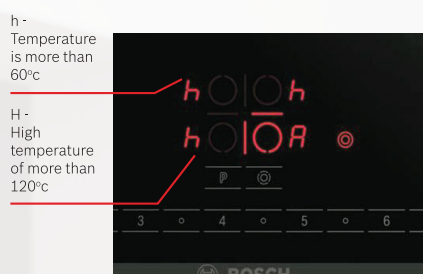

### Childproof lock

Maximum protection for children's hands: the integrated lock function allows you to secure your cooking area and protect it against unwanted operation. This guarantees total safety – for both you and your loved ones.

### Overflow protection

A safety system protects the hob. If a metal object is placed on the hob or should there be any spillage, the hob may switch off and sound an alarm. An "E" naming message will appear on the display. This ensures safety for your loved ones.

### 2-stage residual heat display

The 2-stage residual heat display provides clear indication on the heat of the zones after it is turned off, providing enhanced safety for the family.

### ReStart

If the hob is accidentally switched off, you can restore the last selected setting by just turning on the hob.

### QuickStart

The cooktop automatically detects where a pot has been placed after being switched on, and the zone is indicated on the display. You can get started immediately and select the desired cooking level for your pot.

# The **Bosch** cooktop with integrated ventilation.

Fits perfectly into any kitchen

### **Innovative design and function.**

With our cooktop ventilation, You always have a clear view of your hob and can comfortably look inside the pans at the back without the inconvenience of ducking or perhaps even bumping your head.

### **Open layout**

The cooktop ventilation offer brand new design options for your kitchen. You can now install lamps or shelves above your hob in place of a hood. And without a cooker hood, small kitchens look much larger-and without an island hood. Open-plan kitchens look even more spacious.

Whether installed beneath a window or a slanted ceiling, the hob with integrated ventilation module offer's you new options for planning your kitchen. And thanks to its compact size, you can still use the cabinet below for storage

# The cooktop that also Ventilates perfectly.

## DirectSelect 1.0 touch control.

Easy to understand, even easier to use: the intuitive operation lets you select cooking zones with ease and directly set the desired individual temperature levels. Also adjusting the ventilation level is quite easy.

## Even if something goes wrong, everything turns out right.

In the unlikely event that liquid does penetrate into the module, it is reliably diverted to a reservoir. And if you spill even more liquid, don't worry – the motor is so robust that neither water nor oil can damage it.

### Superior technology.

The Bosch worktop ventilation solutions, however, generate a powerful cross-current that's up to four times faster which the steam is extracted directly on the hob and not allow far fewer grease and odour particles to settle on furniture and fabrics.

### 9+2 power levels.

The integrated ventilation module has nine power levels and two intensive setting that provide the optimal extraction rate for every cooking situation

### AutoOn.

Hobs equipped with AutoOn function automatically activate air extraction, as soon as you activate a cooking zone. AutoOn takes the ventilation module to a level 3 preset without you having to lift a finger.

Choose any spot for your pots,  
pans and roasters.

#### **FlexInduction, Series 8.**

Your cooktop automatically detects the size and position of cookware that's in the zone. Whether you want to make a pot of espresso, or warm a large roasting tray, your cooktop heats all types of cookware precisely and efficiently.

When you're cooking, sometimes the surface of the cooktop can get a little crowded – especially when you have to prepare several dishes at once. Whether you use one pot or several, or even position them one behind the other – with the induction cooktops from Bosch, the choice is all yours.

### Combi Zone

If you need more space for a long single piece of cookware, such as a roaster, you can combine two individual 21 cm wide cooking zones into one large one with a combined heat level at the touch of a button with Combi Zone.

# The world of **Bosch hoods.**

Leave your kitchen feeling fresh  
and clean, all with quiet efficiency

Our rangehoods swiftly and reliably extract odours and grease particles from your kitchen. They create a consistently fresh ambience before, during and after cooking. At the same time, they perfectly illuminate your worktop area and still look good even after all that hard work. Selected Bosch rangehoods feature the CleanAir module that eliminates odours with the recirculation system just as effectively as a ducted system.

For selected Series 6 and 8 models, the Home Connect feature is available, letting you remotely monitor and control your rangehood from your smartphone.

## Island solutions

An island hood is the perfect ventilation solution for you if you're looking for an open kitchen design and your kitchen block is not located next to a wall. Our island solution is mounted at the ceiling – above the cooking island.

## Wall Solutions

You can install your wall hood as a standalone feature of your kitchen wall where it's the perfect eye-catcher, or place it between two wall units. Either way, the wall hood integrates itself perfectly into your kitchen.

## Built-in Solutions

Built-in solutions are perfect for those who prefer continuous wall-unit shelves. These solutions are integrated into wall units above the hob, so that the hood is more or less hidden in the kitchen cabinets. Depending on the product, there will still be space in the upper unit to store smaller cooking utensils or herbs and spices.

## Relax in a quieter kitchen.

### **EcoSilence Drive®**

EcoSilence Drive® motor operates without carbon brushes, eliminating the disadvantages of conventional motors. Instead of energy loss, wear and noise, you get efficiency, durability, and smooth operation.

To reduce motor noise even further, we have optimised the airflow inside the hood. The result: low noise levels with high power.

### **Inner frame**

The patented Bosch inner frame is specially shaped to permit an optimum flow of air and leading stability to the hood. Without any edges, cleaning the frame is also easy.

# Bosch Rangehoods.

## Series 8

Our Series 8 rangehoods offer high quality design, combined with leading edge technologies, including automatic extraction rate control with the PerfectAir sensor, making the kitchen a more pleasant environment.

## Series 6

Ultimate convenience and tasteful design make our Series 6 rangehoods an asset to any kitchen. Electronic controls give you ease of use alongside elegant LED lighting.

## Series 4

Our Series 4 rangehoods are quiet and easy to use, all within an impressive modern design, ensuring your kitchen has a comfortable atmosphere, free of cooking steam and disruptive noise.

## Series 2

Our Series 2 rangehoods make your life easier, with easy to use controls and dishwasher proof metal grease filters for greater convenience.

## Hoods.

### Features and Benefits.

## Performance

### Powerful extraction rate

With models offering up to 1000m<sup>3</sup> /h maximum extraction and ventilating capability, the Bosch line of efficient, high-performance hoods aids in removing steam, odours, grease and smoke quickly.

### Dishwasher-safe metal grease filters

All Bosch filters have up to 5 layers of filters and for easy cleaning it can be safely loaded into any Bosch dishwasher for sparkling results.

### Active carbon filter

A recirculating kit with active carbon filter eliminates unpleasant odours and is easy to install and replace.

## Convenience

### Variable power settings

Odours, smoke and moisture can be effectively removed with the variable power settings on Bosch hoods. An intensive extraction setting on selected hood models provides an extra boost to the performance of the hood when needed.

### Electronic clean-filter indicator

A light is illuminated when the filter needs a cleaning, ensuring optimal efficiency of the hood.

### After running

Continuing operation of the hood for approx ten minutes after normal usage ensure vapours and odours are effectively removed.

### Automatic switch back

When the intensive setting is selected, it may be set to automatically revert back to a pre-defined normal level after a short period of time.

# Dishwashers

\*Source: Euromonitor International Limited;  
Consumer Appliances, retail volume sales 2016-2024.

8 years  
WORLD'S  
**No1**  
BRAND  
dishwashers\*

# Bosch – a brand you can trust.

## Reliability guaranteed. No compromises.

All Bosch home appliances are produced with maximum care with high-quality materials. We promise it in our 2-year manufacturer's warranty on all appliances.

## 10 Years\* Rust-through warranty for the inner tub

We have developed special surface treatments as well as production and joining technologies that are precisely tailored to the materials used in the interior of our dishwashers. We also use high-quality sheets of stainless steel. As a result, we are able to offer a 10 year warranty against interior rust-through on all of our dishwashers as standard.

### Integrated

Can be concealed entirely behind a door panel to match the design of your kitchen cabinetry

Control panel neatly integrated into the top of the dishwasher door

Continuous kick panel provides seamless integration

Optional stainless steel front panel accessory

# The best care and drying of the dishes.

Zeolith guarantee the best care for the dishes, the minimum consumption and the best results perfect drying.

## **What are Zeolith?**

Zeolith are 100% natural minerals porous surface, which thanks to their properties, allow efficient drying, delicate and perfect tableware.

## **What benefits does this technology bring?**

Fundamentally perfect drying, even of plastic materials. In addition, they improve efficiency achieving energy savings of up to 10% on the highest energy classification on the market A +++. The drying process is carried out at a low temperature, so it is a more delicate treatment of your dishes. When the cycle ends, there is no shedding steam opening the dishwasher door and additionally the dishes do not get too hot.

## **How do they work?**

In the drying stage the Zeolith absorb the humidity inside and transform it into heat to dry the dishes. During the washing stage, they regenerate and are ready for the next washed without any maintenance.

# Discover the features available as standard in our dishwashers.

Our new Bosch dishwashers come with many convenient features included as standard, quieter, more efficient and with improved safety features.

## **EcoSilence Drive®**

Our advanced motor has been built to provide you with maximum efficiency, economy, and durability while operating. EcoSilence Drive® wash and drain pumps work without brushes, resulting in ultra-silent performance and top results.

## **DosageAssist™ detergent system**

Detergent tablets are dissolved efficiently in a special tray, preventing these tablets sticking in between dishes, pots and pans for an enhanced cleaning performance.

### Speed Perfect

Our SpeedPerfect+ option reduces programme times without compromising on quality. So you still get hygienically clean and dry dishes but the duration of the cycle could be reduced by up to half the time\*\* – ideal for busy households and entertaining.

### Intelligent Programme

Our intelligent programme adapts itself for your maximum satisfaction. After 3 cycles, you will be prompted to leave your feedback on the cleanliness, drying or length of the programme, or you can do so manually after every cycle.

### Add Home Connect

Control over your dishwasher wherever you are, whenever you want.

Remote Control is designed to bring your life more freedom and comfort. You can easily do all the controls that can be done on dishwasher via HC app, such as start/pause your dishwasher remotely, select programs and options, set timings and edit dishwasher settings via Home Connect app wherever and whenever you want.

### Pre-treatment

Leave the Pre wash Phase to Your Dishwasher

Pre-washing your dishes by hand and putting them in the machine is not only tiring but also wastes water. Pre-treatment option in Bosch dishwasher washes your dishes at a temperature above 50 degrees, softening the dirt and preparing the dishes for normal washing. With the help of Bosch Self Cleaning Filter\*, the heavy dirt in your dishes will not stay in the filter and the performance of your dishwasher will not be affected.

\*Only in specific models \*\*Except: Prewash, Express 45° and Express 65° programme.

### Heat Exchanger

Uses residual heat to rinse and dry dishes, saving energy, reducing temperature shock, and providing hygienically clean results by not drawing air from outside the dishwasher.

### AquaSensor

Monitors the progress of the wash and decides the exact temperatures, duration and amount of water used, saving 4 litres of water every cycle.

### Time Light

Bosch dishwashers are so quiet that sometimes it's hard to tell whether they are on or off, especially on fully-integrated models where there is no visible control panel. The Time Light indicates the programme status and time remaining onto any floor surface.

### Info Light

Coloured light beam projects onto the floor when the machine cycle is started, and turns off when finished.

### Emotion Light

Lights up the dishwasher cavity with 2 white LED lights.

### Machine care.

Your dishwasher will look after itself with this smart function. Optimising the water and energy consumption, it works on a short run time of 80-90 minutes at high temperatures. It eliminates limescale and grease deposits inside the dishwasher and works with a standard machine-care detergent. On selected Series 8 and Series 6 models, it will even remind you to run the programme every 30 cycles.

### ActiveWater Technology

The world's first in water efficiency multiplies the cleaning power of every drop of water by 400 times, resulting in optimum dishwashing with only 6.5 litres of water used per wash.

وداعاً لبقع الأطباق - نظافة مثالية بأسهل الطرق!

The easy way to perfectly **spotless dishes**.

## Discover our baskets and drawers

Thanks to their flexibility, our Bosch dishwashers make it easy for you to get all your dishes cleaned all at once – even with larger pots and pans.

### **VarioDrawer™ and VarioDrawer™ Pro**

A third loading level for cutlery and utensils. VarioDrawer™ Pro provides loading flexibility for larger items.

### **Stage Rackmatic™**

Height-adjustable upper basket can be adjusted in height up to 3 levels offers more flexibility and loading options with a simple touch even with a full load.

### **Extra Clean Zone**

Extra thorough cleaning for heavily soiled items in the upper basket. This intensive zone doesn't need higher temperatures, it uses 3 jets to clean those stubborn items. So no more pre-soaking before going into the dishwasher!

### **Glassware support with smooth gliding baskets**

New anti-slip elements and stemware support within the upper basket will give extra protection to all glassware. Baskets will glide effortlessly along the internal brackets, thanks to our new pull out systems.
