 GERMAN ENGINEERING

# Bosch in every detail. German Engineered.

Every detail of every appliance has been carefully designed, produced and tested by our engineers to fully satisfy the highest standards in quality, performance and convenience. The result is cutting-edge technology, timeless design and remarkable ease of use, reducing the workload for you in the kitchen and consistently delivering perfect results.

## Why choose Bosch?

### Proven quality

Bosch appliances offer premium quality, advanced technology, ease of operation and outstanding German made and engineered technology. These attributes have earned us many national and international accolades, such as the reddot Design Award, the if product design award and other endorsements, year after year.

### Top performance

What drives us every day is our desire to improve. We strive to make the best even better, by developing functional, durable and energy-efficient innovations that surpass all expectations.

### Maximum convenience

Bosch is dedicated to making your life easier. Our innovative built-in appliances are easy to use, while sophisticated features deliver the best results every time, saving you time and effort.

## Why front load washing machine?

### Resource Efficiency

Front load washing machines are well known for using less water and detergent per load while providing better washing results.

### Clothing Care

Laundry is washed with a tumbling motion similar to washing by hand. This imposes less friction on clothes, minimising wear and tear.

### Silence

Front load washing machines have a load sensor, counterweights and padding to ensure silent performance.

### Space Saving

What's more, a front loader is the perfect solution for using space efficiently. It can double as a benchtop or a dryer can be stacked on top of it, saving precious floor space.

## Advanced technologies from Bosch.

### i-DOS: The automatic self-dosing system.

The integrated automatic dosing system carefully determines the exact wash conditions and automatically dispenses the correct amount of liquid detergent to the very millilitre. Fill up once and wash up to 33 times\*. No more over- or under-dosing, the Bosch i-DOS does everything exactly right.

\*Based on Persil standard liquid detergent (1 litre) - average 30ml dose each load.

### Allergy Plus for hygienically clean laundry.

Our Series 6, 8 and HomeProfessional washing machines with Bosch Allergy Plus, wash with a 60°C program that ensures 99.99% of bacteria will be removed\*\*. Particularly suited for items that need to be hygienically clean such as towels, bed sheets or pillow cases.

\*\*99.99% bacterial reduction as tested by TUV SUD PSB Singapore on 16 Oct 2019 on 'AllergyPlus' wash program at 60°C for a recommended load of 4kg.

## Features and functions for everyday use.

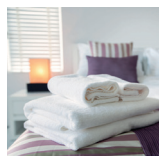

### **ActiveWater Plus technology:**

#### **Advanced automatic load sensing system.**

ActiveWater Plus uses a pressure and water flow sensor that measures the washing load, fabric water absorption and adjusts water intake to 256 precise levels for improved running costs and water savings.

### **VarioDrum: Offering the best in garment care.**

Unique waved surface of the drum designed for powerful and gentle treatment (steep structure for heavily soiled clothes and flat structure for delicate laundry).

### **Quick Wash programs.**

Short wash program of approximately 15 minutes for up to 2kg of lightly soiled washing (SuperQuick 15)\*. Selected models have a 30 minute wash program for up to 3.5kg (SuperQuick 30).

\*Features vary depending on model.  
Please check individual product specifications.

### **EcoSilence Drive motor:**

#### **Silent performance for peace of mind.**

Bosch washing machines with EcoSilence Drive are equipped with an advanced, brushless motor that optimally reduces friction for better energy efficiency, durability and exceptionally quiet operation.

### **AntiVibration design: Greater stability, less vibration.**

The design of the side walls provides greater stability and reduces vibration. The enhanced insulation also regulates noise levels, making Bosch washing machines very quiet even during the spin cycle.

### **Reload function: Add or remove items after the wash program has started.**

Add laundry or remove items at almost any time during the wash cycle (if it is within safe water and temperature levels)

# Customer service support you can rely on.

Trust Bosch customer service to help you throughout the lifetime of your appliance.

Experts repairs from our qualified engineers with only original spare parts

Create a MyBosch account to register your appliance warranty

Enjoy extra protection from Bosch with a 10-year EcoSilence Drive on our washing machine

Our Customer Call Center is available from Monday to Friday 08.30-17.30, Saturday 08.30-12.30. Closed on Sunday and public holidays.

All Bosch home appliances are produced with maximum care, with high quality materials. We promise it in our 2 year manufacturer's warranty on all appliances
