**Starting from 2023 production

Dishwashing #LikeABosch

With Bosch dishwashers in your home, you'll always find more time to do what you love. Whether it's pursuing a hobby or spending some extra time with your dear ones, you'll enjoy the freedom to not miss joyful moments at home, while Bosch dishwasher delivers squeaky clean dishes and pans. Also, Bosch dishwasher not only kill germs & bacteria, but also washes off any chemical residue from dish soap, to protect you and your loved ones.

Dishwashing

VS

Hand Washing

Low water consumption: **9,5 litres**

Hygienic Washing: **Kills germs & bacteria** by washing utensils in 70° C water

Consumes **less electricity** : **0,92 kWh** per wash**

Minimal labour: Only loading and unloading of utensils required. Can be wash **115+ utensils in one go**

Automatic Washing: Pre-rinse, washing & drying, **thoroughly cleans** the oily & soiled utensils

Delicate washing: **Protects crockery** from damage

High water consumption: **60 litres**

Unhygienic: Cold water and soiled sponge **promotes bacterial growth**

Additional Physical Energy: Consumes **time and effort**

Labour intensive: Increased **physical stress** and piling of unhygienic utensils due to **limited washing**

Manual Process: Soaking, washing and wiping, giving **below optimal output**

Rigorous Washing: Possibility of **damage to crockery**

ActiveWater Technology - a world's first in water efficiency

Multiplies the cleaning power of every drop of water by 400 times, resulting in optimum dishwashing results with only 6.5 litres of water used per wash.

The DosageAssist a special tray for dissolving the detergent

Ensures the reliable cleaning of the dishes. Integrated into the top basket, it allows for a controlled and complete dissolving of the tabs.

Heat Exchanger

Maximises performance by using heat generated in the main washing cycle to pre-heat cold water used for the rinse cycle.

AquaSensor

Monitors the progress of the wash and decides the exact temperature, duration and amount of water used, saving 4 litres of water every cycle.

Load Sensor

The load weight is detected by a rotary speed sensor, which recognizes the water level. This optimizes water usage for half or partial loads, resulting in savings for your utility bills.

Advanced Filter System

An additional 50% of surface area allows up to 15% more water to be circulated through the system, providing a more effective cleaning performance.

Performance And Safety

Superb Performance – EcoSilence™ Drive

Our advanced motor has been built to provide you with maximum efficiency, economy and durability while operating. EcoSilence™ Drive wash and drain pumps work without brushes, resulting in ultra-silent performance and top results.

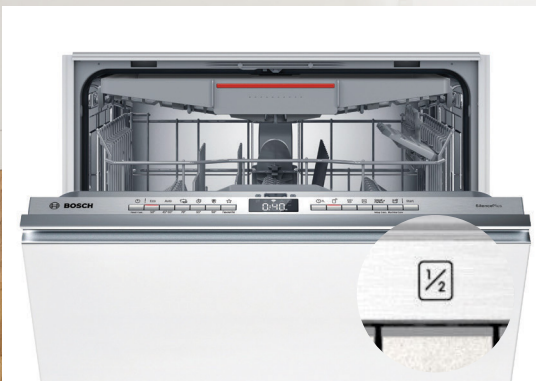

VarioSpeed™ Plus – Express wash option

With this feature, you can look forward to 100% cleanliness in only up to 66% of dishwashing time, without sacrificing any washing and drying results.

AquaStop™

The AquaStop™ system consists of a double-walled supply hose, a safety valve, as well as a floor sump with float switch, offering a 100% protection against water damage, provided the dishwasher is switched on.

Half Load

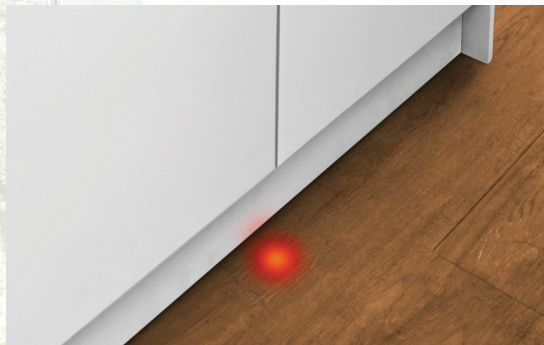

Unlike other systems that only wash in either the top or bottom baskets, Half Load provides the best possible wash performance for dishes stacked anywhere within the dishwasher.

Convenience

TFT Display

The new high-resolution display presents all information on the activated cycles clearly for your easy viewing and benefit.

InfoLight™

A red info light on the floor indicates whether the dishwasher is switched on or off. It turns on when the cycle has started, and turns off when finished.

Alternating Tines

They can be folded down to accommodate larger pots, pans and dishes by creating more space between the tines.

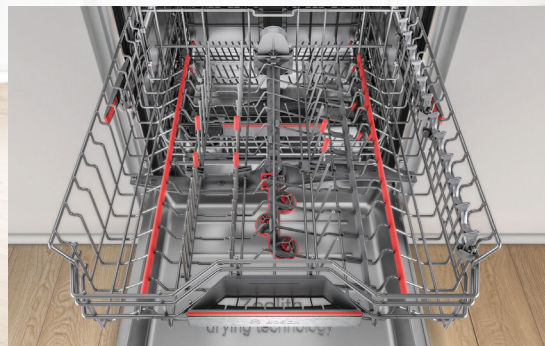

VarioDrawer™ and VarioDrawer™ Pro

A third loading level for cutlery and utensils. VarioDrawer™ Pro provides loading flexibility for larger items.

Rackmatic™ Rack

The loading height in the upper or lower basket can be varied by 5cm by manually adjusting the upper basket between 2 levels. Moreover this feature can still be utilized even with a full load.

VarioFlex Baskets with touchpoints

Enhanced re-adjusting options, highlighted in red.

Compact dishwasher

SKS68BB008

55 cm, Black, Free-standing Compact Dishwasher

Performance

- Capacity:
6 place settings up to 60 utensils
- 8 programmes:
IntensivePlus 70°C, Auto 45-65°C,
Super 60°C, Eco 50°C,
Delicate 40°C, Express 65 °C,
Express 45°C, Prerinse
- 5 Options:
Vario Speed, Extra dry, Intensive Zone,
Hygiene Plus, Extra Rinse

Features

- EcoSilence Drive Motor
- ActiveWater
- Self-cleaning filter system with 3-fold corrugated filter
- Interior tub material: Stainless Steel/ Polinox
- Cutlery basket
- Touch Interphase
- Time delay: 1-24 hours

Convenience and Safety

- Single water protection
- Quiet Operation: 49 dB

Technical Information

- Total Connection Rating: 2.400 W
- Energy Consumption: 0,61 kWh per cycle**
- Water Consumption: 8 L per cycle**
- Voltage: 220-240 V
- Power Frequency: 50-60 Hz
- Dimensions (HxWxD): 450x551x500 mm

About the HomeConnect App

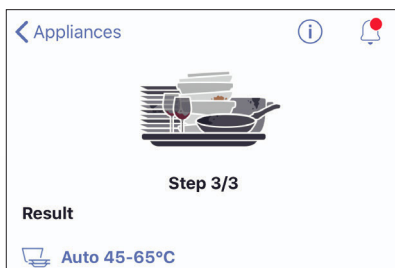

With Home Connect, you can control your home appliances easily. It's the feature that will help simplify these processes and offer you more quality time.

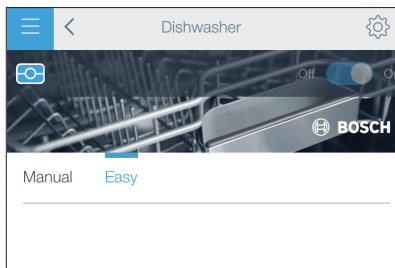

Tablet Counter

No more running out of dishwasher tablets again with the Tablet Counter as it automatically sends a push notification to your smart device when your pack is finishing.

Easy Start – Dishwashing made easy

The Easy Start assistant recommend the ideal settings for different types of dish loads via the app – that's one load off your mind.

Machine Care Reminder

The Machine Care programme ensures your machine is always functioning in tip-top condition with push notification reminders after every 30 wash cycles.

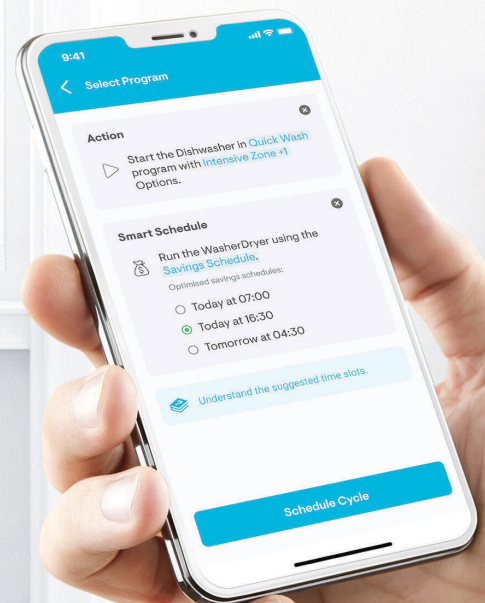

One app is all you need

The app is the smart control centre for all your Bosch Home Appliances with Home Connect. It works on most smartphones or tablets with a steady Wi-Fi connection.

Scan the QR code to download the Home Connect app from the App Store or Google Play Store and discover the plethora of features via the demo mode.
