Program options

Program selector	Notes / Application	Program duration in min. (approx.) **
Spin	**Spin** cycle for spinning hand-washed laundry. Water is drained before the spin cycle. Maximum spin speed: 800 r.p.m.	9
Soak	The **Soak** setting is used to pre-treat heavily stained items:	120
Drain	Drains water after a wash program with the **no final spin** setting for gentle treatment of delicate laundry.	3

* Add detergent to dispenser **II** (on left) for all programs.

** The program duration deviates from the indicated values depending on the water pressure, water hardness, water inlet temperature, ambient temperature, type of washing and amount, detergent, fluctuations in the mains voltage and selected additional options.

*** Recommended for ½ load only.

Further information can be found in the operating and installation manual.
Please read the manual carefully and comply with the safety instructions.
