Additional programs

Program selector	Notes / Application	Program duration in min. (approx.) *
Spin	Spin cycle for spinning hand-washed laundry. Water is drained before the spin cycle. Please comply with the maximum spin speeds as specified in the operating and installation manuals.	11
Soak	The Soak setting is used to pre-treat heavily stained items. Please comply with the maximum spin speeds as specified in the operating and installation manuals.	120
Drain	Drains water after a wash program with the No final spin setting for gentle treatment of delicate laundry.	3

* The program duration varies from the indicated values depending on the water pressure, water hardness, water inlet temperature, ambient temperature, type of washing and amount, detergent, fluctuations in the mains voltage and selected additional options.

** Recommended for ½ load only.

Further information can be found in the operating and installation manual.
Please read the manual carefully and comply with the safety instructions.
