**BOSCH**

---

## Intended use

This appliance is intended for domestic use only. Use the appliance only for processing normal quantities of food and for normal amounts of time for domestic use.

This appliance is suitable for mixing liquid or semi-solid food, for cutting/mincing raw fruit and vegetables, for puréeing food and for cutting deep-frozen food (e.g. fruit) or crushing ice cubes. It must not be used for processing other objects or substances.

Additional applications are possible if the accessories approved by the manufacturer are used. Only use the appliance with approved genuine parts and accessories. Never use the accessory parts for other appliances. Only use the appliance indoors at room temperature and up to 2000 m above sea level.

---

## Important safety information

Read and follow the instruction manual carefully and keep for later reference! Enclose these instructions when you give this appliance to someone else. If the instructions for correct use of the appliance are not observed, the manufacturer's liability for any resulting damage will be excluded. This appliance can be used by persons with reduced physical, sensory or mental capabilities or lack of experience and/or knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and if they understand the hazards involved. Keep children away from the appliance and connecting cable and do not allow them to use the appliance. Do not let children play with the appliance. Cleaning and user maintenance must not be performed by children.

### **Risk of electric shock and fire!**

- Connect and operate the appliance only in accordance with the specifications on the rating plate. Do not use the appliance if the power cord and/or appliance are damaged. Only our customer service may repair the appliance, e.g. by replacing a damaged power cord, in order to avoid hazards.
- Do not place the appliance on or near hot surfaces, e.g. hobs. The power cord must not come into contact with hot parts or be pulled across sharp edges.
- Never immerse the base unit in water or place it in the dishwasher. Do not steam-clean the appliance. Do not use the appliance with damp hands.
- After each use, whenever the appliance is unsupervised, prior to assembly, prior to disassembly, prior to cleaning and in the event of an error, the appliance must always be disconnected from the mains.

**⚠ Risk of injury!**

- Care should be taken when handling the sharp cutting blades, emptying the container and during cleaning.
- Before replacing accessories or additional parts which move during operation, the appliance must be switched off and disconnected from the power supply.
- Never place fingers in the attached blender. Never operate the appliance without a completely assembled blender or attached lid! Do not remove or attach blender jug until the appliance has been switched off and the drive has come to a standstill. When the appliance has been switched off, the blade continues running for a short time.
- Always work with a completely assembled universal cutter! Do not remove or attach universal cutter until the appliance has been switched off and the drive has come to a standstill.

**⚠ Risk of scalding!**

- Caution when processing hot liquids.
- If processing hot liquids, steam escapes through the funnel in the lid. Add a maximum of 0.5 litres of hot or frothing liquid.
- While working, always hold the lid firmly with one hand. However, do not place hand over the refill opening!

**⚠ Risk of suffocation!**

Do not allow children to play with packaging material.

**⚠ Important!**

- We recommend that the appliance is never switched on for longer than is necessary to process the ingredients. Do not operate at no-load.
- It is essential to clean the appliance thoroughly after each use or after it has not been used for an extended period. → *“Cleaning and servicing” see page 8*

**Congratulations on the purchase of your new Bosch appliance. You can find further information about our products on our web page.**

## Safety systems

### Start lock-out

The appliance cannot be switched on until the blender jug has been turned firmly into place.

### Automatic disconnection

The appliance switches off automatically if the blender jug accidentally becomes detached during operation.

### Overload protection

If the motor switches itself off while the appliance is being used, the overload protection feature has been activated. Possible causes:

- very large amounts of ingredients,
- appliance operated too long.

If a safety system is activated, see “Troubleshooting”.

## Overview

Please fold out the illustrated pages.

### 1 Motor block

### 2 Rotary switch with illuminated ring

The illuminated ring flashes slowly when the appliance is ready for use (**on**).

The illuminated ring is lit continuously when the appliance is in operation.

Rapid flashing signals a fault (see “Troubleshooting”).

#### a MMB43.. :

**0/off** = Stop

**on** = Appliance switched on

**1** = Lowest operating speed

**5** = Highest operating speed

#### b MMB64.. :

**0/off** = Stop

**on** = Appliance switched on

**min** = Lowest operating speed

**max** = Highest operating speed

**Pulse** = pulse circuit at maximum speed, hold down switch for required duration

### 3 Quick-selection buttons

Preset buttons for optimum results.

For some models:

 = for crushing ice cubes (crushed ice). Press button 1x briefly.

 = For making mixed drinks and smoothies. Press button 1x briefly.

For an even more delicate result, press the button a second time.

 = For cutting ingredients in the universal cutter. Press button 1x briefly.

**Pulse** = Pulse circuit at maximum speed. Hold down button for required duration.

Pay attention to **Figure 1**!

When the quick-selection buttons    have been pressed, the preset programme runs. To end the programme early, press any quick-selection button or turn the rotary switch to **0/off**.

### 4 Cord store

### 5 Drive

### 6 Blade holder with blender/cutting blade and seal

For the blender jug and the universal cutter jug.

### 7 Blender jug made of borosilicate glass

Especially heat-resistant, even very hot ingredients can be processed.

### 8 Lid with feed tube

### 9 Measuring cup with scale (max. 50 ml)

### 10 Smoothie insert / fruit filter\*

For the preparation of fruits and other ingredients into juices and smoothies.

The insert ensures that pips and other solid ingredients are filtered out and do not get into the drinks.

### 11 Universal cutter jug\*

\* Not all models.

## Operation

### Preparation

- Before operating the appliance and accessories for the first time, clean thoroughly; see "Cleaning and servicing".
- Place motor block on smooth, stable and clean base.
- Unwind the cable to the required length.

### Blender

The blender is suitable for

- blending and frothing liquids,
- cutting and chopping raw fruit, vegetables, nuts and chocolate,
- puréeing soups, cooked fruit and vegetables,
- preparing mayonnaise and sauces.

The appliance is suitable for preparing the following quantities:

Solid food	100 g
Liquids	max. 1.5 l
Hot or frothing liquids	max. 0.5 l

#### Risk of injury from sharp blades/rotating drive!

Never place fingers in the attached blender jug. Never operate the appliance without a completely assembled blender or attached lid! Do not remove or attach blender jug until the appliance has been switched off and the drive has come to a standstill. When the appliance has been switched off, the blade continues running briefly.

#### Risk of scalding!

If processing hot liquids, steam escapes through the funnel in the lid. Pour maximum 0.5 litres of hot or frothing liquid into the blender jug.

#### Warning!

Never operate an empty blender. Always work with a completely assembled appliance. Screw the blender jug fully onto the motor block.

#### Fig. B

- Put blender jug down with the base face up.
- Place seal on the blade holder. Ensure that the seal is positioned correctly.

### Important information

If the seal is damaged or not correctly positioned, liquid may run out.

- Grip blade holder by the handle and insert into the blender jug.  
Note shape of the parts (**Fig. B-2a**)!
- Move handle (**Fig. B-2b**). This locks the blade holder in the blender jug.
- Turn blender jug over.
- Attach blender jug to the drive on the motor block. Arrow on the blender jug points towards the dot on the motor block.
- Attach blender jug by turning it all the way **clockwise**.
- Add ingredients.
- Put lid on and press down all the way. Insert measuring cup into feed tube.
- Insert the mains plug.
- Switch on the appliance: set the rotary switch to **on**.
- Turn rotary switch to the required operating speed.

or

- Press required quick-selection button ( or **Pulse**).
- Grip the edge of the lid while operating the blender. Do not grip the feed tube!

### Recommended operating speed

Making mayonnaise	<b>MIN/MAX*</b>
Soups	<b>MAX</b>
Smoothies	 <b>/MAX</b>
Raw fruit and vegetables	<b>MAX</b>
Cocktails, Milkshakes	 <b>/MAX</b>
Frozen ingredients	<b>MAX</b>
Ice cubes	 <b>/Pulse</b>
Very hard ingredients	<b>Pulse</b>

\* **MIN** = Lowest operating speed

**MAX** = Highest operating speed

### Add more ingredients

- Set the rotary switch to **0/off**.  
Either
  - Remove lid.
  - Add more ingredients.
- or
- Take out measuring cup.
  - Add liquids and solid (fairly small) ingredients through the feed tube in the lid.
  - Switch on appliance again.

## Working with the smoothie insert / fruit filter

With this insert it is particularly easy to make smoothies made of fresh fruits, milk, soya milk, yoghurt and juices.

### Fig. 9

- Prepare blender as described above.
- After attaching and screwing on the blender jug, the smoothie insert / fruit filter is inserted into the blender jug.
- Put lid on and press down all the way.
- Insert the mains plug.
- Put ingredients through the feed tube into the blender jug; chop up fruit beforehand if required.

### Warning!

Do not put large, hard ingredients in the blender jug, e.g. stones from avocados or plums.

- Insert measuring cup into feed tube.
- Switch on the appliance.

## After using the appliance

- Set the rotary switch to **0/off**.
- Remove mains plug.
- Remove the blender jug by rotating it in an anti-clockwise direction.
- Take the lid off the blender jug.
- Empty blender jug.

### Instructions for the smoothie insert / fruit filter:

Take measuring cup out of the lid and plug into the smoothie insert / fruit filter. This prevents integral components from falling out of the insert into the drink.

- Turn blender jug over and put down with the opening face down.
- Remove blade holder. To do this, fold the handle upwards and pull out the blade holder.
- Clean all parts, see "Cleaning and servicing".

## Universal cutter

for cutting smaller quantities of meat, hard cheese, onions, parsley, garlic, fruit and vegetables.

Pay attention to **Figure 11**!

It is not permitted to cut coffee beans, pepper corns, sugar, poppy seeds and horseradish.

**Note:** If the universal cutter is not included with the blender, it can be ordered from customer service (order no. 12007111).

### ⚠ Risk of injury from sharp blades/ rotating drive!

Do not remove or attach universal cutter until the appliance has been switched off and the drive has come to a standstill.

### Fig. 10

- Put down universal cutter jug with the opening face up.
- Add food, which is to be cut, in the universal cutter.
- Place seal on the blade holder. Ensure that the seal is positioned correctly.

### Important information

If the seal is damaged or not correctly positioned, liquid may run out.

- Grip blade holder by the handle and insert into the universal cutter jug. Note shape of the parts (**Fig. 10-2**)!
  - Move handle (**Fig. 10-3**). This locks the blade holder in the universal cutter jug.
  - Turn universal cutter jug over.
  - Place universal cutter jug on the drive on the motor block. Arrow on the universal cutter jug points towards the dot on the motor block.
  - Attach universal cutter jug by turning it all the way clockwise.
  - Switch on the appliance: set the rotary switch to on.
  - Turn rotary switch to **Pulse** and hold.
- or
- Press required quickselection button () or **Pulse**, depending on model).

**Note:** The longer the appliance remains switched on, the finer the ingredients are cut. In the case of herbs the required cutting result can be achieved very quickly after switching the appliance on.

## After using the appliance

- Set the rotary switch to **0/off**.
- Remove mains plug.
- Remove universal cutter jug by turning it anti-clockwise.
- Turn universal cutter jug over.

- Remove blade holder. To do this, fold the handle upwards and pull out the blade holder.
- Empty universal cutter jug.
- Remove the rest of the chopped food from the jug using a suitable implement (e.g. spoon).
- Clean all parts, see "Cleaning and servicing".

---

## Cleaning and servicing

The appliance requires no maintenance! Thorough cleaning guarantees a long service life. An overview of cleaning the individual parts can be found in **Fig. 3**.

### **⚠ Risk of electric shock!**

Never immerse the motor block in water and never hold under running water and do not clean in the dishwasher.

### **Warning!**

Do not use abrasive cleaning agents. Surfaces may be damaged.

### **Tips:**

- Preferably clean the parts immediately after use. This will prevent residue from drying on and attacking the plastic (e.g. by essential oils in herbs).
- If processing e.g. carrots and red cabbage, the plastic parts will become discoloured by a red film which can be removed with a few drops of cooking oil.

## Cleaning the motor block

- Remove mains plug.
- Wipe motor block with a damp cloth. If required, use a little detergent.
- Then wipe dry.

## Cleaning blade holder

### **⚠ Risk of injury from sharp blades!**

Do not touch blender blades with bare hands. Clean them with a brush. Do not clean blade holder in the dishwasher, but under running water using a brush. Do not leave in water! Remove seal for cleaning.

## Cleaning the blender

The blender jug, smoothie insert / fruit filter, lid and measuring cup are dishwasher-safe.

**Tip:** Pour a little water and washing-up liquid into the attached blender. Switch to setting **Pulse** for several seconds. Pour out the water and rinse the blender with clean water.

## Cleaning the universal cutter

The universal cutter jug is not dishwasher-safe.

---

## Troubleshooting

### **⚠ Risk of injury!**

Before rectifying a fault, pull out the mains plug.

### **Important information**

The illuminated ring on the rotary switch flashes rapidly

- if the blender jug or universal cutter jug has not been attached properly,
- if the blender jug or universal cutter jug becomes detached during operation,
- if the motor stops during operation due to an overload.

### **Fault:**

Blender does not start or appliance switches off during operation.

### **Possible cause:**

The appliance was overloaded (e.g. tool jammed by food) and the electronic fuse has tripped.

### **Remedial action:**

- Set the rotary switch to **0/off**.
- Remove mains plug.
- Eliminate the cause of the overload.
- Switch the appliance on again.

### **Possible cause:**

Blender jug or universal cutter jug has become detached.

### **Remedial action:**

- Set the rotary switch to **0/off**.
- Correctly attach blender jug or universal cutter jug and screw on all the way.
- Switch the appliance on again.

## Important information

If the fault cannot be eliminated, please contact customer service (see customer service addresses at the end of this booklet).

## Recipes

### General notes:

First mix the solid ingredients with half the amount of liquid, then add the remainder of the liquid.

When preparing smoothies, place the mixing beaker back into position after draining it and briefly switch on the highest level in order to obtain the remaining liquid.

### Mayonnaise

**Note:** Mayonnaise can be prepared in the blender with whole eggs only.

#### Basic recipe:

- 1 egg
- 15 g vinegar or lemon juice
- 1 pinch of salt
- 1 pinch of sugar
- 250 ml oil

Ingredients must be at the same temperature.

- Switch on the blender at low speed.
- Process the ingredients (except the oil) at low speed for several seconds.
- Switch the blender to maximum speed, slowly pour the oil through the funnel and blend for approx. 2 minutes.

### Hot chocolate

- 50-75 g frozen cooking chocolate
- ½ l hot milk
- Whipped cream and grated chocolate as required
- Cut the cooking chocolate into pieces (approx. 1 cm) and chop up completely in the blender at maximum speed.
- Switch off the blender and add the milk through the funnel.
- Blend for 1 minute at maximum speed.
- Pour the hot chocolate into glasses and serve with whipped cream and grated chocolate as required.

### Banana ice shake

- 2-3 bananas (ca. 300 g)
- 2-3 heaped tbs. vanilla or lemon ice cream (80-100 g)

- 2 packets of vanilla sugar
- ½ l milk

■ Put all ingredients in the blender jug.

■ Press quick-selection button .

or

■ Blend for 1 minute at maximum speed.

**Tip:** Insert the smoothie insert / fruit filter for even smoother results.

### Fruit sundae

- 250 g frozen fruits (e.g. strawberries, banana, orange, apple)
- 50-100 g sugar
- 500 ml cold water
- Ice cream as required

■ Peel fruit and cut into pieces.

■ Put all ingredients (except the ice cream) in the blender jug.

■ Press quick-selection button .

or

■ Blend for 1 minute at maximum speed.

■ Serve with the ice cream.

**Tip:** Insert the smoothie insert / fruit filter for even smoother results.

### Sportsman's cocktail

- 2-3 oranges (ca 600 g)
- 1-2 lemons (ca 150 g)
- ½-1 tbs. sugar or honey
- ¼ l apple juice
- ¼ l mineral water
- Ice cubes as required

■ Peel the oranges and apples, cut into pieces.

■ Put all ingredients (except the apple juice and mineral water) in the blender jug.

■ Press quick-selection button .

or

■ Blend for 1 minute at maximum speed.

■ Add the apple juice and mineral water.

■ Blend briefly until the drink is frothy.

■ Pour the cocktail into glasses and serve as required with ice cubes.

**Tip:** Insert the smoothie insert / fruit filter for even smoother results.

## Green smoothie

- 1 green apple (ca. 100 g)
  - Juice of one lemon (approx. 20 g)
  - 20 g kale
  - 10 g celery
  - 10 g coriander leaves
  - 10 g linseeds
  - 1 g ground cinnamon
  - 250 g cooled water
  - Cut apple, celery and kale into pieces.
  - Put a little of the water in the blender jug.
  - Put all solid ingredients in the smoothie insert / fruit filter and top up with water.
  - Press quick-selection button .
- or

■ Blend for 60 seconds on setting **Pulse**.  
**Tip:** Insert the smoothie insert / fruit filter for even smoother results.

## Grape smoothie

- 250 g green grapes
  - 25 g baby spinach
  - 100 g frozen banana pieces
  - 200 ml cold green tea (suitable for children)
  - Put a little of the tea in the blender jug.
  - Put grapes, spinach and banana pieces in the smoothie insert / fruit filter and top up with the remaining tea.
  - Press quick-selection button .
- or

■ Blend at maximum speed until the smoothie is ready.

**Tip:** Insert the smoothie insert / fruit filter for even smoother results.

## Red fruit pudding

- 400 g fruit (pitted sour cherries, raspberries, black/red currants, strawberries, blackberries)
- 100 ml sour cherry juice
- 100 ml red wine
- 80 g sugar
- 1 packet of vanilla sugar
- 2 tbs. lemon juice
- 1 pinch of cloves (ground)
- 1 pinch of cinnamon (ground)
- 8 gelatine leaves
- Soak the gelatine in cold water for approx. 10 minutes.
- Bring all the ingredients (except the gelatine) to the boil.
- Dry the gelatine and melt in the microwave, but do not cook
- Blend the hot fruit and gelatine at medium speed for approx. 1 minute.
- Pour the red fruit pudding into small bowls rinsed out with cold water and refrigerate.

**Do not process more than 500 ml of hot liquid in the blender jug!**

**Tip:** Red fruit pudding tastes good with whipped cream or vanilla sauce.

## Basil pesto

- 10 g pine nuts
- 3 g garlic
- 5 g salt
- 40 g Parmesan cheese
- 10 g fresh basil
- 70 g olive oil
- Put pine nuts, garlic, salt and Parmesan cheese in the glass container and close with the blade holder.
- Grind for 15 seconds on setting **Pulse**.
- Add basil and olive oil and mix everything for 10 seconds on setting **Pulse**.

## Pumpkin soup

- 600 g yellow-flesh pumpkin
- 200 g potatoes
- 1 l vegetable stock
- 2 onions
- 2 garlic cloves
- Ground pepper and salt
- 30 g butter
- 2 tablespoons of extra virgin olive oil
- 5-6 basil leaves
- 2-3 sage leaves
- 1 sprig of parsley
- 1 sprig of thyme
- 1 sprig of marjoram
- ¼ teaspoon of ground cinnamon
- Grated Parmesan to taste
- Cut the pumpkin into slices and remove peel and pips. Cut pumpkin into small pieces.
- Peel the potatoes and also cut into small pieces.
- Peel the onions, chop finely and fry gently in a frying pan with butter, olive oil and chopped garlic.
- Add pumpkin and potato pieces and steam until soft, stirring continuously. Gradually pour in the vegetable stock and add the bouquet garni.
- Leave to simmer for approx. 25-30 minutes on a low heat and add more stock if required.
- Take out the bouquet garni.
- Add salt and pepper to taste, finish off with a pinch of cinnamon and a dash of extra virgin olive oil.
- Pour 500 ml of the soup at a time into the blender jug.

### Do not process more than 500 ml of hot liquid in the blender jug!

- Serve with finely grated Parmesan.

## Carrot soup with cumin

- 780 g carrots
- 720 ml water
- 1 tsp cumin
- Salt and pepper
- Dice the carrots (approx. 15x15 mm).
- Pour the carrots and the water into the blender jug.
- Mix for a few seconds at maximum speed.
- Pour the mixture into a saucepan and add the cumin.
- Cook everything for 30 minutes. You can add water while cooking if you would like the soup to be thinner.
- Season with salt and pepper.

## Disposal

Dispose of packaging in an environmentally-friendly manner. This appliance is labelled in accordance with European Directive 2012/19/EU concerning used electrical and electronic appliances (waste electrical and electronic equipment – WEEE). The guideline determines the framework for the return and recycling of used appliances as applicable throughout the EU. Please ask your specialist retailer about current disposal facilities.

## Guarantee

The guarantee conditions for this appliance are as defined by our representative in the country in which it is sold. Details regarding these conditions can be obtained from the dealer from whom the appliance was purchased. The bill of sale or receipt must be produced when making any claim under the terms of this guarantee.

Changes reserved.
