\*Programme setting for testing in accordance with currently applicable EN60456 standard. Note on comparative tests: When testing the test programmes, wash the specified load using the maximum spin speed.

Programme	Load	Annual energy consumption	on Annual water consumption
Cottons Eco 40 °C / 60 °C **	5.5/2.75 kg	182 kWh	8800 I

- Programme settings for testing and energy labelling in accordance with europian standard 60456 Ed.5 with cold water(15 °C).
- \*\*\*The values may deviate from the specified values depending on water pressure, water hardness, and inlet temperature, ambient temperature, type, amount and level of laundry soiling, detergent used, fluctuations in the power supply and selection of options.

### Before washing for the first time

Do not load any laundry into the machine. Turn on the tap. Add the following to compartment II:

– approx. 1 litre water

 detergent (dosage according to the manufacturer's instructions for light soiling and the appropriate degree of water hardness)

Set the programme selector to **Cottons 60** °C and select **Start**. At the end of the programme, turn the programme selector to **Off**.

#### Care

Risk of electric shock. Disconnect the mains plug. Risk of explosion. No solvents.

#### Machine housing, control panel

- Remove detergent residue immediately.
- Wipe off with a soft, damp cloth.
- Do not clean with a jet of water.

#### Cleaning the detergent drawer ...

... if it contains detergent or fabric softener residues.

- 1. Pull out, press insert down, remove drawer completely.
- 2. To remove the insert: press the insert upwards from below with your finger.
- 3. Clean the detergent dispenser tray and insert with water and a brush and dry it.
- 4. Attach the insert and engage (connect the cylinder to the guide pin).
- 5. Push in the detergent drawer.

Leave the detergent drawer open so that any residual water can evaporate.

#### Drum

Leave the washing machine door open so that the drum can dry out. Rust stains - use chlorine-free cleaning agent, not steel wool.

#### Descaling

#### Ensure there is no laundry in the machine

This should not be necessary if the correct detergent dosage has been used. If it is necessary, however, proceed according to the descaling agent manufacturer's instructions. Suitable descalers can be obtained via our website or from our after-sales service ( $\rightarrow$  page 1).

## Information to indicator lights

Indicator lights for status displays flash:

maioator lighto for ota	ado diopidyo ndon.
Wash and Rinse	Close the washing machine door properly; laundry may be caught.
Wash and Spin	<ul> <li>Open the tap completely.</li> <li>Supply hose kinked or trapped.</li> <li>Clean the filter → page 10, Water pressure too low.</li> </ul>
Rinse and Spin	Detergent solution pump blocked; Clean the detergent solution pump  → page 10.  Drainage hose/waste pipe blocked; Clean the drainage hose at the siphon  → page 10.

#### Maintenance

Risk of scalding. Allow the detergent solution to cool down. Turn off the tap.

#### \_ Detergent solution pump

Turn the programme selector to **Off** and disconnect the mains plug.

- 1. Remove the service flap for detergent solution pump.
- **2.** Carefully unscrew the pump cover (residual water).
- **3.** Clean the interior, pump cover thread and pump housing (the impeller in the detergent solution pump must rotate).
- 4. Replace the pump cover and screw it tightly.
- **5.** Place the service flap back.

To prevent unused detergent from flowing straight into the drain during the next wash: Pour 1 litre of water into compartment **II** and start the **Drain** programme.

#### Drainage hose at the siphon

Turn the programme selector to **Off** and disconnect the mains plug.

- Loosen the hose clamp, carefully remove the drainage hose (residual water).
- 2. Clean the drainage hose and siphon connecting piece.
- 3. Reattach the drainage hose and secure the connection with the hose clamp.

#### Filter in the water supply

#### Risk of electric shock

Do not immerse the HydroSafe safety device in water (contains an electric valve).

Reduce the water pressure in the supply hose:

- 1. Turn off the tap.
- 2. Select any programme (except Spin / Drain).
- 3. Select Start. Let the programme run for approximately 40 seconds.
- 4. Turn the programme selector to Off. Disconnect the mains plug.

Clean the filter: Disconnect the hose from the tap. Clean the filter using a small brush.

and/or for Standard and Agua-Secure models:

Remove the hose on the rear of the appliance, Remove the filter with pliers and clean.

**6.** Connect the hose and check the leak tightness of the connection points.

9

	Programme does not start.	<ul><li>Start selected?</li><li>Washing machine door closed?</li></ul>
	Detergent solution is not drained.	<ul> <li>Clean the detergent solution pump → page 10.</li> <li>Clean the waste pipe and/or drainage hose.</li> </ul>
	Water not visible in the drum.	<ul> <li>Not a fault - water below the visible area.</li> </ul>
	Unsatisfactory spin result. Laundry wet/too damp.	<ul> <li>Not a fault - the unbalanced-load detection system has cancelled the spin cycle because of uneven distribution of the laundry. Distribute small and large items of laundry evenly inside the drum.</li> <li>Selected speed too low? -&gt; page 5.</li> </ul>
	Spin cycle performed several times.	<ul> <li>Not a fault - unbalanced load detection system adjusts the imbalance.</li> </ul>
•	Residual water in the compartment & for care products.	<ul> <li>Not a fault - the action of the care product is not affected.</li> <li>Clean the insert if necessary -&gt; page 9.</li> </ul>
	Odour formation in the washing machine.	<ul> <li>Run programme Cottons 90 °C without laundry. Use standard detergent.</li> </ul>
	Foam escaping from the detergent drawer.	<ul> <li>Too much detergent used?</li> <li>If foam is escaping from the detergent drawer:</li> <li>Mix 1 tablespoon of fabric softener with ½ litre of water and pour into compartment II (not with outdoor or down fabrics).</li> <li>Reduce the detergent dosage for the next wash cycle.</li> </ul>
	Intense noise formation, vibrations and "wandering" during the spin cycle.	<ul> <li>Are the appliance feet fixed?         Secure the appliance feet → Installation instructions.</li> <li>Transportation safety devices removed?         Remove the transportation safety devices → Installation instructions.</li> </ul>
	Indicator lamps do not function during operation.	<ul><li>Power cut?</li><li>Fuses triggered? Reset/change the fuses.</li><li>If the fault occurs repeatedly, call the after-sales service.</li></ul>
•	Programme sequence longer than usual.	<ul> <li>Not a fault - unbalanced load detection system adjusts imbalance by repeatedly distributing the laundry.</li> <li>Not a fault - foam detection system active - adds an additional rinse cycle.</li> </ul>
	Detergent residues on the laundry.	<ul> <li>Occasionally, phosphate-free detergents contain water-insoluble residues.</li> <li>Select Rinse or brush the laundry after washing.</li> </ul>

- If you cannot correct a fault yourself or a repair is required:

   Turn the programme selector to **Off** and remove the mains plug from the socket.

   Turn off the water supply and call the after-sales service → *Installation instructions*.
