# Your washing machine

**Congratulations** - You have opted for a modern, high-quality domestic appliance manufactured by Bosch. This washing machine is distinguished by its economical water and energy consumption. Each machine that leaves our factory has been inspected thoroughly to ensure that it functions properly and is in perfect condition.

For further information and a selection of our products go to our web site: www.bosch-home.com

You can find the contact details for your nearest after-sales service here or in the after-sales service directory (depending on model), see also Installation Instructions, page 7

- GB 0844 8928979 Calls from a BT landline will be charged at up to 3 pence per minute. A call set-up fee of up to 6 pence may

- **IE** 01450 2655

## **Environmentally friendly waste disposal**

All packaging must be disposed of in accordance with environmental guidelines.

This appliance is certified in accordance with European Directive 2012/19/EC on waste electrical and electronic equipment (WEEE) This directive provides the framework for the EU-wide collection and reuse of used appliances.

Intended use Programmes Setting and adjusting the programme Washing ... After washing . Individual settings Important information Overview of programmes Safety instructions Consumption values ■ Before washing for the first time/Care Information to indicator lights Maintenance ■ What to do if..

Retain the documents for subsequent use.

Danger to life

Risk of injury

**Risk of electric shock** – Never pull the cable to disconnect the mains plug.

Never insert/disconnect the mains plug with damp hands.

For worn-out appliances:

 Disconnect the mains plug. Sever the mains cable and discard along with the plug.

Destroy the lock on the washing machine door. This will prevent

children from locking themselves in and risking their lives.

Danger of suffocation Keep packaging, film and packaging parts out of the reach of

Risk of poisoning Risk of explosion

Keep detergents and care products out of the reach of children.

Items of laundry pretreated with cleaning agents containing solvents, e.g. stain remover/cleaning solvent may cause an explosion after being loaded into the washing machine. Rinse items of laundry thoroughly by hand beforehand.

The washing machine door can become very hot.

Be careful when draining hot detergent solution.

 Do not climb onto the washing machine. Do not lean on the open washing machine door.

Do not reach into the drum if it is still rotating.

 Be careful when opening the detergent drawer while the machine is in operation.

## Before washing for the first time

Do not load any laundry into the machine. Turn on the tap. Add the following to compartment with the washing machine and act accordingly.

approx. 1 litre water

detergent (dosage according to the manufacturer's instructions for light soiling and the appropriate degree of water hardness) Set the programme selector to Algodón/Algodão (Cottons) 60 °C and select Inicio (Start) D. At

asy-Care 40 °C*	2.5 kg	0.60 kWh	501	1 1/2 h
Delicate cold	2 kg	0.10 kWh	551	3/4 h
Wool cold	2 kg	0.20 kWh	301	1 h

Programme setting for testing in accordance with currently applicable EN60456 standard. Note on comparative tests: When testing the test programmes, wash the specified load using the maximum

Programme	Load	Annual energy consumption	Annual water consumption
Cottons Eco 40 / 60 °C **	5.5/2.75 kg	182 kWh	9020

Programme settings for testing and energy labelling in accordance with europian standard 2010/30/EU with cold water(15 °C).

\*\*The values may deviate from the specified values depending on water pressure, water hardness, and inlet temperature, ambient temperature, type, amount and level of laundry soiling, detergent used, fluctuations in the power supply and selection of options.

Maintenance

Risk of scalding. Allow the detergent solution to cool down

## Detergent solution pump

Turn the programme selector to **Stop** (**Off**) and disconnect the mains

- 1. Remove the service flap for detergent solution pump.
- **2.** Carefully unscrew the pump cover (residual water).
- 3. Clean the interior, pump cover thread and pump housing (the impeller in the detergent solution pump must rotate).
- **4.** Replace the pump cover and screw it tightly.

**5.** Place the service flap back.

To prevent unused detergent from flowing straight into the drain during the next wash: Pour 1 litre of water into compartment II and start the \( \mathbb{F} \) (Empty) programme.

## Drainage hose at the siphon

Turn the programme selector to **Stop** (**Off**) and disconnect the mains plug.

- 1. Loosen the hose clamp, carefully remove the drainage hose
- . Clean the drainage hose and siphon connecting piece.
- 3. Reattach the drainage hose and secure the connection with the hose

Reduce the water pressure in the supply hose:

- 1. Turn off the tap.
- 2. Select any programme (except Centrif. adicional © (Spin) / \(\varpsite{\pi}\) (Empty) )
- 3. Select Inicio (Start) D. Let the programme run for approximately 40

- **5.** Clean the filter: Disconnect the hose from the tap. Clean the filter using a small brush.
- and/or for Standard and Aqua-Secure models

Remove the filter with pliers and clean.

## What to do if ... Water is leaking out - Attach/replace the drainage hose correctly

## Environmentally friendly waste disposal

All packaging must be disposed of in accordance with environmental guidelines.

This appliance is certified in accordance with European Directive 2012/19/EC on waste electrical and electronic equipment (WEEE). This directive provides the framework for the EU-wide collection and reuse of used appliances.

# R

## Environmental protection/Conservation tips

- Always fill the washing machine with a maximum amount of laundry for the relevant programme.
- Wash normally soiled washing without a pre-wash.
- The selectable temperatures apply to the care labels on the textiles. The temperatures in the machine may deviate from this so that you get the optimum mix of energy-saving and washing results
- Measure the detergent according to the manufacturer's instructions and water hardness.
- If the laundry is then dried in the tumble dryer, select the spin speed according to the instructions of the dryer manufacturer.

## Intended use

- for use in the household only,
- for machine-washable fabrics and hand-washable wool in detergent solution,
- to be operated with cold drinking water and commercially available detergents and care products which are suitable for use in washing machines.
- The washing machine may be operated by children from 8 years of age, by persons who have limited physical, sensory or mental abilities and by persons who have inadequate experience or knowledge, provided they **are supervised** or **have been instructed** by a responsible person.

- Observe the safety instructions on page 8.
- Do not leave children unattended near the washing machine.
- The washing machine is not to be used by children or persons not familiar with the operating instructions.
- Keep pets away from the washing machine.
   Read these instructions and the separate installation instructions before operating the washing machine.

## Preparation

Correct installation according to the separate Installation instructions.

## Checking the machine

- Never use a damaged machine.
- Inform the after-sales service.

# Connecting the mains plug

Make sure your hands are dry.
Take hold of the plug only.

## Turning the tap on

Compartment II: Detergent for the main wash, water softener, bleach, stain remover

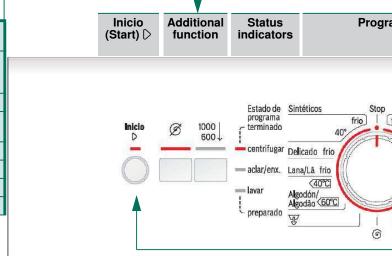

Compartment %: Fabric softener, starch

Compartment I: Detergent for pre-wash

## **Programmes**

## Safety instructions

 Read the instruction manual and installation instructions and all other information enclosed with the washing machine and act accordingly.

Retain the documents for subsequent use.

- Risk of electric shock Never pull the cable to disconnect the mains plug.
  - Never insert/disconnect the mains plug with damp hands.

Danger to life

For worn-out appliances:

- Disconnect the mains plug.
- Sever the mains cable and discard along with the plug.
- Destroy the lock on the washing machine door. This will prevent children from locking themselves in and risking their lives.

Danger of suffocation

 Keep packaging, film and packaging parts out of the reach of children.

Risk of poisoning Risk of explosion

- Keep detergents and care products out of the reach of children.
- Items of laundry pretreated with cleaning agents containing solvents, e.g. stain remover/cleaning solvent may cause an explosion after being loaded into the washing machine. Rinse items of laundry thoroughly by hand beforehand.

Risk of injury

- The washing machine door can become very hot.
- Be careful when draining hot detergent solution.
- Do not climb onto the washing machine.
- Do not lean on the open washing machine door.
- Do not reach into the drum if it is still rotating.
- Be careful when opening the detergent drawer while the machine is in operation.

wash and spin	<ul> <li>Open the tap completely.</li> <li>Supply hose kinked or trapped.</li> <li>Clean the filter → page 10, Water pressure too low.</li> </ul>
rinse and spin	Detergent solution pump blocked; Clean the detergent solution pump → page 10.  Drainage hose/waste pipe blocked; Clean the drainage hose at the siphon → page 10.

## Maintenance

Risk of scalding. Allow the detergent solution to cool down. Turn off the tap.

## **Detergent solution pump**

Turn the programme selector to **Stop** (**Off**) and disconnect the mains pluq.

- 1. Remove the service flap for detergent solution pump.
- **2.** Carefully unscrew the pump cover (residual water).
- 3. Clean the interior, pump cover thread and pump housing (the impeller in the detergent solution pump must rotate).
- **4.** Replace the pump cover and screw it tightly.
- 5. Place the service flap back.

To prevent unused detergent from flowing straight into the drain during the next wash: Pour 1 litre of water into compartment II and start the \( \mathbb{F} \) (Empty) programme.

## Drainage hose at the siphon

Turn the programme selector to **Stop** (**Off**) and disconnect the mains plug.

- 1. Loosen the hose clamp, carefully remove the drainage hose (residual water).
- 2. Clean the drainage hose and siphon connecting piece.
- 3. Reattach the drainage hose and secure the connection with the hose

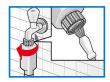

## Filter in the water supply

## Risk of electric shock

Do not immerse the HydroSafe safety device in water (contains an electric valve).

Reduce the water pressure in the supply hose:

- **1.** Turn off the tap.
- 2. Select any programme (except Centrif. adicional @ (Spin) / F (Empty) ).
- 3. Select Inicio (Start) D. Let the programme run for approximately 40 seconds.
- 4. Turn the programme selector to **Stop** (**Off**). Disconnect the mains plug.

- **5.** Clean the filter:
  - Disconnect the hose from the tap. Clean the filter using a small brush.

and/or for Standard and Agua-Secure models:

Remove the hose on the rear of the appliance, Remove the filter with pliers and clean.

6. Connect the hose and check the leak tightness of the connection points.

# What to do if ...

Wilat to do		
Water is leaking	out Attach/replace the drainage hose correctly Tighten the screw connection of the supply hose.	
No water supply Detergent not di	<ul> <li>Inicio (Start) Donot selected?</li> <li>spensed Tap not turned on?</li> <li>- Filter blocked? Clean the filter → page 10.</li> <li>- Supply hose kinked or trapped?</li> </ul>	
Washing maching cannot be open		
Programme doe start.	s not - Inicio (Start) ▷ selected? - Washing machine door closed?	
Detergent solution drained.	on is not — Clean the detergent solution pump → page 10.  — Clean the waste pipe and/or drainage hose.  — Is Rinse stop	
Water not visible drum.	in the — Not a fault - water below the visible area.	
Unsatisfactory s result. Laundry wet/too	the spin cycle because of uneven distribution of the laundry.	
Spin cycle perfo several times.		
Residual water i compartment & products.		
Odour formation washing machin	3	
Foam escaping detergent drawe		our
Intense noise for vibrations and "wandering" dur spin cycle.	Secure the appliance feet $\rightarrow$ Installation instructions.	
Indicator lamps function during operation.	do not - Power cut? - Fuses triggered? Reset/change the fuses If the fault occurs repeatedly, call the after-sales service.	
Programme seq longer than usua	<ul> <li>imbalance by repeatedly distributing the laundry.</li> <li>Not a fault - foam detection system active - adds an addition rinse cycle.</li> </ul>	
Detergent residuthe laundry.	<ul> <li>on – Occasionally, phosphate-free detergents contain water-insolul residues.</li> <li>– Select (Rinse) or brush the laundry after washing.</li> </ul>	ble

If you cannot correct a fault yourself or a repair is required:

- Turn the programme selector to **Stop** (**Off**) and remove the mains plug from the socket.
  Turn off the water supply and call the after-sales service → *Installation instructions*.
