### Environmental protection/Conservation tips

- Always fill the washing machine with a maximum amount of laundry for the relevant programme.

- Wash normally soiled washing without a pre-wash (model-
- The selectable temperatures apply to the care labels on the textiles. The temperatures in the machine may deviate from this so that you get the optimum mix of energy-saving and washing
- Measure the detergent according to the manufacturer's instructions and water hardness.
- If the laundry is then dried in the tumble dryer, select the spin speed according to the instructions of the dryer manufacturer (model-dependent).

### Intended use

for use in the household only,

- for machine-washable fabrics and hand-washable wool in detergent solution,
- to be operated with cold drinking water and commercially available detergents and care products which are suitable for use in washing machines.

- $\wedge$  Do not leave children unattended near the washing machine.
- The washing machine is not to be used by children or persons not familiar with the operating instructions.
- Keep pets away from the washing machine.

**Read these instructions and the separate** installation instructions before operating the washing machine.

### Programmes

Detailed overview of programmes  $\rightarrow$  page 7.

Algodón/Algodão (Cottons)	hard-wearing fabrics
Algodón/Algodão + Prelav. (Cottons + Prewash)	hard-wearing fabrics, prewash at 30 °C
🖙 (Rinse)	with subsequent spin cycle
𝔄 (Spin)	laundry washed by hand
₩ (Empty)	the rinsing water
🖗 / Lana/Lã (Wool)	hand/machine-washable tex- tiles
Delicado/Seda (Delicate)	delicate washable fabrics
Sintéticos (Easy-Care)	easy-care fabrics

### Preparation

Correct installation according to the separate Installation instructions.

### Checking the machine

### Connecting the mains plug

**Turning the tap on** 

Make sure your hands are dry. Take hold of the plug only.

Pour liquid detergent into the appropriate dispenser and place in the drum.

**Compartment II:** Detergent for the main wash, water softener, bleach, stain remover

**Compartment I**: Detergent for pre-wash (*model-dependent*)

**Compartment %**: Fabric softener, starch

Programme selector

#### Before washing for the first time Wash once without any laundry $\rightarrow$ page 9.

### Sorting and loading laundry

- Follow the manufacturer's care information. According to the information on the care labels. According to type, colour, soiling and temperature. Do not exceed the maximum load  $\rightarrow$  page 7
- Observe the important information  $\rightarrow$  page 6. Insert large and small items of laundry. Close the washing machine door. Take care not to trap items of laundry
  - between the washing machine door and the rubber seal.

### Add detergent and care products

Dilute thick fabric softener and fabric conditioner with water. This prevents blockages.

### Setting and adjusting programmes

#### - **Risk of electric shock.** Disconnect the mains plug - Risk of explosion. No solvents.

#### e washing for the first time

- ot load any laundry into the machine. Turn on the tap.
- the following to compartment II:
- prox. 1 litre water
- tergent (dosage according to the manufacturer's instructions for light soiling and the propriate degree of water hardness)
- the programme selector to **Algodón/Algodão (Cottons) 60** °C and select **Inicio (Start)**. The end of the programme, turn the programme selector to **Stop (Off)**.

#### nine housing, control panel

- pe with a soft, damp cloth.
- not use any abrasive cloths, scourers or cleaning agents (stainless steel cleaners). move detergent and cleaning agent residue immediately.

not clean with a jet of water.

#### ning the detergent drawer ..

- contains detergent or fabric softener residues.
- ut, press insert down, remove draw completely.
- move the insert: press the insert upwards from below with your
- n the detergent dispenser tray and insert with water and a brush and \_
- h the insert and engage (connect the cylinder to the guide pin). in the detergent drawer.
- e the detergent drawer open so that any residual water can

the washing machine door open so that the drum can dry out. stains - use chlorine-free cleaning agent, not steel wool.

#### Ensure there is no laundry in the machine

cale the appliance according to the descaler manufacturer's instructions. This should not ecessary if the correct dosage of detergent is used.

### Information to indicator lights

	<b>9</b>
Indicator lights for status	displays and/or buttons flash:
Indicator lights aclar/enx. (rinse) and lavar (wash) flash	Close the washing machine door properly; laundry may be caught.
Indicator lights <b>centrifugar (spin)</b> and <b>lavar (wash)</b> flash	Open the tap completely, supply hose kinked or trapped; Clean the filter $\rightarrow$ page 10, Water pressure too low.
Indicator lights centrifugar (spin) and aclar/enx. (rinse) flash	Detergent solution pump blocked; Clean the detergent solution pump $\rightarrow$ page 10. Drainage hose/waste pipe blocked; Clean the drainage hose at the siphon $\rightarrow$ page 10.
Indicator light aclar/enx. (rinse) flashes	Motor fault. Call the after-sales service.
All indicator lights flash	Turn off the tap and call the after-sales service.

### Maintenance

- Detergent solution pump
- Turn the programme selector to **Stop (Off)** and disconnect the mains plug.
- **1.** Open and remove the service flap.
- 2. For models with a drainage hose: Remove the drainage hose from the retainer and pull it from the housing. Remove the container. Remove the sealing cap, allow the detergent solution to flow out. Replace the sealing cap and place the drainage hose in the retainer.
- 2\* For models without a drainage hose: Carefully unscrew the pump cover until the detergent solution begins to flow out. When the service flap is half full, close the pump cover and empty the service flap. Repeat the above steps until all the detergent solution has completely drained out.
- **3.** Carefully unscrew the pump cover (residual water).
- 4. Clean the interior, pump cover thread and pump housing (the impeller in the detergent solution pump must rotate).
- **5.** Replace the pump cover and screw it tightly in place. 6. Place the service flap back on and close.
- To prevent unused detergent from flowing straight into the drain during the next wash: pour 1 litre of water into compartment II and start the 🐨 (Empty) programme.

#### Drainage hose at the siphon

- Turn the programme selector to **Stop (Off)** and disconnect the mains plug.
- **1.** Loosen the hose clamp, carefully remove the drainage hose (residual water).
- **2.** Clean the drainage hose and siphon connecting piece.
- **3.** Reattach the drainage hose and secure the connection with the hose clamp.
- 2. Select any programme (except for  $\mathfrak{O}$  (Spin) /  $\mathfrak{F}$  (Empty)).
- 3. Select Inicio (Start). Let the programme run for approximately 40 seconds.
- 4. Turn the programme selector to Stop (Off). Disconnect the mains plug.

#### Clean the filter:

**1.** Depending on model: Disconnect the hose from the tap. Clean the filter using a small brush.

and/or for Standard and Agua-Secure models:

- Remove the hose on the rear of the appliance. Remove the filter with pliers and clean.
- 2. Connect the hose and check for leaks.

Risk of scalding.

What to do i

- Spin cycle performed sev times.
- Residual water in the compartment for care products.
- Odour formation in the wa machine.
- Foam escaping from the detergent drawer.
- Intense noise formation. vibrations and "walking" the spin cycle.
- Noises during spin and o cycles.
- The indicator lights do no function during operatio
- Programme sequence than usual.
- Detergent residues on th laundry.
- Turn off the water supply and call the after-sales service  $\rightarrow$  Installation instructions.

)	Water is leaking out.	<ul><li>Attach/replace the drainage hose correctly.</li><li>Tighten the screw connection of the supply hose.</li></ul>

Programmes	Э°	тах.	Type of laundry TT a w TT A	2 2 2 The Additional functions; information
Algodón/Algodão (Cottons)	frío (cold), 20, 40, 60, 90 °C	2 L 2	Hard-wearing fabrics, heat-resistant fabrics made of	000
Algodón/Algodão + Prelav. (Cottons + Prewash)	D. 09	ĥy /	cotton or linen	600.4, 🖵
Sintéticos (Easy-Care)	frío (cold), 40 °C	3 kg	Easy-care fabrics made of cotton, linen, synthetic	10001, 🖵
Delicado/Seda (Delicate)	frío (cold)		For delicate, washable fabrics, e.g. made of silk, satin, $\frac{1000}{600}$ , $r_{\rm c}$ ; synthetic fibres or blended fabrics (e.g. curtains) No spin b	aou, — ; boo spin between rinse cycles
🔊 / Lana/Lã (Wool)	frío (cold)	2 kg	Hand- or machine-washable fabrics made of wool or E containing wool	Particularly gentle wash programme to prevent shrinkage of laundry. Longer programme breaks (fabrics rest in the detergent solution)
Additional programmes			🔤 (Rinse), © (Spin), 🐺 (Empty)	🐨 (Empty)
i Programmes without prewash - (model-dependent).	ash - add detergent to o	compartm	add detergent to compartment II, programmes with prewash - distribute the detergent between compartments I and II	int between compartments I and II

ightarrow refer to the table of consumption values on page 8 and notes on page 6.

Overview of programmes

Safety instru	uctions
	nanual and installation instructions and all other information enclosed hine and act accordingly. for subsequent use.
Risk of electric shock	<ul> <li>Never pull the cable to disconnect the mains plug.</li> <li>Never insert/disconnect the mains plug with damp hands.</li> </ul>
Danger to life	<ul> <li>For worn-out appliances:</li> <li>Disconnect the mains plug.</li> <li>Sever the mains cable and discard along with the plug.</li> <li>Destroy the lock on the washing machine door. This will prevent children from locking themselves in and risking their lives.</li> </ul>
Danger of suffocation	<ul> <li>Keep packaging, film and packaging parts out of the reach of children.</li> </ul>
Risk of poisoning	- Keep detergents and care products out of the reach of children.
Risk of explosion	<ul> <li>Items of laundry pretreated with cleaning agents containing solvents, e.g. stain remover/cleaning solvent may cause an explosion after being loaded into the washing machine. Rinse items of laundry thoroughly by hand beforehand.</li> </ul>
Risk of injury	<ul> <li>The washing machine door can become very hot.</li> <li>Be careful when draining hot detergent solution.</li> <li>Do not climb onto the washing machine.</li> <li>Do not lean on the open washing machine door.</li> <li>Do not reach into the drum if it is still rotating.</li> <li>Be careful when opening the detergent drawer while the machine</li> </ul>

### Consumption values depending on model

is in operation.

Robert Bosch Hausgeräte GmbH Carl-Wery-Str. 34 81739 München / Deutschland

7

Programme	Load	Electricity**	Water**	Programme duration**
Algodón/Algodão (Cottons) 20 °C	7 kg	0,33 kWh	67 I	2 ¼ h
Algodón/Algodão (Cottons) 40 °C	7 kg	0,78 kWh	67 I	2 ¼ h
Algodón/Algodão (Cottons) 60 °C	7 kg	1,22 kWh	67 I	2 1⁄2 h
Algodón/Algodão (Cottons) 90 °C	7 kg	1,94 kWh	731	2 ¾ h
Sintéticos (Easy-Care) 40 °C	3 kg	0,61 kWh	52 I	1 ¾ h
Delicado/Seda (Delicate) frío (cold)	2 kg	0,29 kWh	51 I	3⁄4 h
/ Lana/Lã (Wool) frío (cold)	2 kg	0,17 kWh	33	1 h
Programme		Load	Annual energy consumption	Annual water consumption
Algodón/Algodão (Cottons) 砸 / 🚳 *		7 kg	172 kWh	107801

Programme setting for testing and energy labelling in accordance with EU directive 2010/30/EU with cold water (15 °C).

\* The values deviate from the indicated values depending on water pressure, hardness, and inlet temperature, ambient temperature, type, amount and soiling of the laundry, detergent used, fluctuations in the power supply and selected additional functions.

8

### Care

Risk of electric shock. Disconnect the mains plug.
 Risk of explosion. No solvents.

#### Before washing for the first time

Do not load any laundry into the machine. Turn on the tap.

Add the following to compartment II:

- approx. 1 litre water
- detergent (dosage according to the manufacturer's instructions for light soiling and the appropriate degree of water hardness)

Set the programme selector to Algodón/Algodão (Cottons) 60 °C and select Inicio (Start). At the end of the programme, turn the programme selector to Stop (Off).

#### Machine housing, control panel

- Wipe with a soft, damp cloth.
- Do not use any abrasive cloths, scourers or cleaning agents (stainless steel cleaners).
- Remove detergent and cleaning agent residue immediately.
- Do not clean with a jet of water.

#### Cleaning the detergent drawer ...

- ... if it contains detergent or fabric softener residues.
- 1. Pull out, press insert down, remove draw completely.
- **2.** To remove the insert: press the insert upwards from below with your finger.
- 3. Clean the detergent dispenser tray and insert with water and a brush and dry it.
- 4. Attach the insert and engage (connect the cylinder to the guide pin).
- 5. Push in the detergent drawer.

Leave the detergent drawer open so that any residual water can evaporate.

#### Drum

Leave the washing machine door open so that the drum can dry out. Rust stains - use chlorine-free cleaning agent, not steel wool.

#### **Descaling** Ensure there is no laundry in the machine

Descale the appliance according to the descaler manufacturer's instructions. This should not be necessary if the correct dosage of detergent is used.

### Information to indicator lights

	$\sim$
Indicator lights for status	displays and/or buttons flash:
Indicator lights aclar/enx. (rinse) and lavar (wash) flash	Close the washing machine door properly; laundry may be caught.
Indicator lights centrifugar (spin) and lavar (wash) flash	Open the tap completely, supply hose kinked or trapped; Clean the filter $\rightarrow$ page 10, Water pressure too low.
Indicator lights centrifugar (spin) and aclar/enx. (rinse) flash	Detergent solution pump blocked; Clean the detergent solution pump $\rightarrow$ page 10. Drainage hose/waste pipe blocked; Clean the drainage hose at the siphon $\rightarrow$ page 10.
Indicator light aclar/enx. (rinse) flashes	Motor fault. Call the after-sales service.
All indicator lights flash	Turn off the tap and call the after-sales service.

### Maintenance

**Risk of scalding.** Allow the detergent solution to cool down. Turn off the tap.

- \_\_\_ Detergent solution pump
- Turn the programme selector to **Stop (Off)** and disconnect the mains plug.
- **1.** Open and remove the service flap.
- 2. For models with a drainage hose: Remove the drainage hose from the retainer and pull it from the housing. Remove the container. Remove the sealing cap, allow the detergent solution to flow out.

Replace the sealing cap and place the drainage hose in the retainer.

- 2\* For models without a drainage hose: Carefully unscrew the pump cover until the detergent solution begins to flow out. When the service flap is half full, close the pump cover and empty the service flap. Repeat the above steps until all the detergent solution has completely drained out.
- 3. Carefully unscrew the pump cover (residual water).
- **4.** Clean the interior, pump cover thread and pump housing (the impeller in the detergent solution pump must rotate).
- 5. Replace the pump cover and screw it tightly in place.
- 6. Place the service flap back on and close.

To prevent unused detergent from flowing straight into the drain during the next wash: pour 1 litre of water into compartment **II** and start the **T** (**Empty**) programme.

#### Drainage hose at the siphon

- Turn the programme selector to **Stop (Off)** and disconnect the mains plug.
- 1. Loosen the hose clamp, carefully remove the drainage hose (residual water).
- 2. Clean the drainage hose and siphon connecting piece.
- 3. Reattach the drainage hose and secure the connection with the hose clamp.

#### Filter in the water supply

Reduce the water pressure in the supply hose:

- **1.** Turn off the tap.
- **2.** Select any programme (except for  $\mathfrak{S}$  (Spin) /  $\mathfrak{V}$  (Empty)).
- 3. Select Inicio (Start). Let the programme run for approximately 40 seconds.
- 4. Turn the programme selector to Stop (Off). Disconnect the mains plug.

Clean the filter:

1. Depending on model: Disconnect the hose from the tap. Clean the filter using a small brush.

and/or for Standard and Aqua-Secure models:

Remove the hose on the rear of the appliance. Remove the filter with pliers and clean.

2. Connect the hose and check for leaks.

### What to do if ...

Water is leaking out.	<ul> <li>Attach/replace the drainage hose correctly.</li> <li>Tighten the screw connection of the supply hose.</li> </ul>
No water supply. Detergent not dispensed.	<ul> <li>Inicio (Start) not selected?</li> <li>Tap not turned on?</li> <li>Filter blocked? Clean the filter → page 10.</li> <li>Supply hose kinked or trapped?</li> </ul>
Washing machine door cannot be opened.	<ul> <li>Safety function active. Wait approx. 2 minutes.</li> <li>→ (without final spin) selected? → page 3, 4.</li> </ul>
Programme does not start.	<ul><li>Inicio (Start) selected?</li><li>Washing machine door closed?</li></ul>
Detergent solution is not drained.	<ul> <li>→ (without final spin) selected? → page 3, 4.</li> <li>Clean the detergent solution pump → page 10.</li> <li>Clean the waste pipe and/or drainage hose.</li> </ul>
Water not visible in the drum.	- Not a fault - water below the visible area.
Unsatisfactory spin result. Laundry wet/too damp.	<ul> <li>Not a fault - the unbalanced-load detection system has cancelled the spin cycl because of uneven distribution of the laundry. Distribute small and large items of laundry evenly inside the drum.</li> <li>Too low a speed selected? → page 5.</li> </ul>
Spin cycle performed several times.	- Not a fault - unbalanced load detection system adjusts the imbalance.
Residual water in the compartment for care products.	<ul> <li>Not a fault - the action of the care product is not affected.</li> <li>Clean the insert if necessary → page 9.</li> </ul>
Odour formation in the washing machine.	<ul> <li>Run programme Algodón/Algodão (Cottons) 90 °C without laundry. Use standard detergent.</li> </ul>
Foam escaping from the detergent drawer.	<ul> <li>Too much detergent used? If foam is escaping from the detergent drawer: Mix 1 tablespoon of fabric softener with ½ litre of water and pour into compartment II (<i>not with outdoor or down fabrics</i>).</li> <li>Reduce the detergent dosage for the next wash cycle.</li> </ul>
Intense noise formation, vibrations and "walking" during the spin cycle.	<ul> <li>Are the appliance feet fixed? Secure the appliance feet → Installation instructions.</li> <li>Transportation safety devices removed? Remove the transportation safety devices → Installation instructions.</li> </ul>
Noises during spin and drain cycles.	- Clean detergent-solution pump $\rightarrow$ page 10.
The indicator lights do not function during operation.	<ul> <li>Power cut?</li> <li>Fuses tripped? Reset/change the fuse.</li> <li>If the fault occurs repeatedly, call the after-sales service.</li> </ul>
Programme sequence longer than usual.	<ul> <li>Not a fault - unbalanced load detection system adjusts imbalance by repeated distributing the laundry.</li> <li>Not a fault - foam detection system active - adds an additional rinse cycle.</li> </ul>
Detergent residues on the laundry.	<ul> <li>Occasionally, phosphate-free detergents contain water-insoluble residues.</li> <li>Select (Rinse) or brush out the laundry after washing.</li> </ul>

- Turn the programme selector to Stop (Off) and remove the mains plug from the socket.
   Turn off the water supply and call the after-sales service → Installation instructions.
