BOSCH

Safety instructions

Please read and follow the operating instructions carefully and keep them for later reference! Enclose these instructions when you give this appliance to someone else. This appliance is designed for domestic use or for use in non-commercial, household-like environments. Household-like environments include, for example, use in staff kitchens in shops, offices, agricultural and other small businesses, as well as use by guests at bed-and-breakfast establishments, small hotels and similar residential facilities.

⚠ Danger of electric shock!

The appliance may only be connected to a power supply with alternating current via a correctly installed socket with earthing. Ensure that the protective conductor system of the domestic supply has been correctly installed. Connect and operate the appliance only according to the type plate specifications.

To avoid potential hazards, repairs such as replacing a damaged cable must only be carried out by our customer service personnel. This appliance may be used by children aged 8 years and older and by persons with reduced physical, sensory or mental capabilities or who lack experience and / or knowledge if they are supervised or have been given instruction in the safe use of the appliance and have understood the dangers involved.

Keep children under 8 years of age away from the appliance and the connecting cable and do not allow them to use the appliance. Children may not play with the appliance. Cleaning and user maintenance may not be carried out by children, unless they are 8 years old or older, without supervision.

Never immerse the appliance or the power cord in water. Do not bring the power cord into contact with hot parts, do not pull it over sharp edges and do not use as a carry handle.

Do not use if the power cord or appliance show any signs of damage. Should a fault occur, pull the plug or disconnect from the mains immediately.

⚠ Risk of burns and fire!

Do not connect the appliance to or operate it by means of a time switch or remote control socket. Bread can burn. For this reason, never operate the toaster near or underneath inflammable materials such as curtains. Do not place the appliance on or near hot surfaces, e.g. hobs. Do not touch parts other than the operating controls as the toaster can become hot during toasting.

Never leave the toaster unattended while it is in use!

Do not use near water contained in bath tubs, sinks or other containers.

To clean, allow the toaster to cool, remove the crumb tray and wipe it down. Use a firm brush to remove crumbs that may have accumulated under the warming rack.

⚠ Risk of suffocation!

Do not allow children to play with packaging material.

Congratulations on purchasing this Bosch appliance. You have acquired a high-quality product that will bring you a lot of enjoyment.

Parts and operating controls

- 1 Selector for toasting level
Adjustable from 1–6
Level 1 = shortest toasting level
Level 6 = longest toasting level
- 2 Push-down/start lever
- 3  button
- 4  button
- 5 Stop button
- 6 Toast slot
- 7 Crumb tray
- 8 Cable tidy

The two sides of the toaster, each with two toast slots, can be used independently of each other.

Before using for the first time

- Remove any stickers or film.
- With the window open, operate both sides of the toaster without bread in it at least three times at the highest toasting level setting and let it cool down.

Operation

General

Please use this toaster solely for toasting, heating or defrosting, e.g. sliced bread. Do not insert any objects into the toast slot. Only operate the toaster when it is upright. Never cover the toast slot. Do not place any food on the toaster to heat it up. Press down the push-down/start lever only for toasting; never block it. Do not use any food that could drip during toasting.

Caution!

Do not operate the appliance without the crumb tray!

Toasting

- Unwind the power cable to the required length and plug it in.
 - Set the desired toasting level using the selector **1** on the required side of the toaster.
 - Place the food to be toasted in the toast slot.
 - Press the push-down/start lever down until it engages. The stop button lights up.
 - Toasting ends when the bread being toasted is raised up.
- To end the toasting process prematurely, press the stop button.

Tip: Push the push-down/start lever up to remove toasted items more easily.

Caution, hot surface!

Do not touch parts other than the operating controls as the toaster can become hot during toasting.

Warming cold bread or toast

- Insert the bread to be toasted into the toast slot.
- Press the push-down/start lever down until it engages. The stop button lights up.
- Press the  button. The  button lights up.
- Warming ends when the bread being toasted is raised up.

Info: Setting the toasting level does not affect warming.

Preparing frozen bread or toast

- Set the desired toasting level with the selector.
- Insert the bread to be toasted into the toast slot.
- Press the push-down/start lever down until it engages. The stop button lights up.
- Press the * button. The * button lights up.
- Defrosting ends when the bread being toasted is raised up.

Notes

- If the item being toasted gets stuck, the toaster turns itself off automatically.
- If the item being toasted gets stuck in the toast slot, pull out the plug and carefully remove the bread after the toaster has cooled down.
- For one slice of toast, set the toasting level lower than for two slices.
- Toast the bread until it is golden brown and not dark or brown, remove any burnt edges. Do not over-toast foods containing starch, especially grain and potato products (to reduce the production of acrylamides).

Cleaning and maintenance

Risk of electric shock!

Pull the power plug and let the toaster cool down.

Never immerse the appliance in water or place it in the dishwasher!

Do not steam-clean the appliance.

Do not use oven or grill spray for cleaning.

- Remove the crumb tray and wipe it clean.
- Clean the toaster's exterior with a damp cloth; do not use strong or abrasive cleaning agents.

Tip: Clean the stainless steel surface with a commercial stainless steel product.

Technical specifications

Electrical connection (voltage – frequency)	220-240 V~ 50/60 Hz
Power	1510-1800 W

Disposal

Dispose of packaging in an environmentally-friendly manner. This appliance is labelled in accordance with European Directive 2012/19/EU concerning used electrical and electronic appliances (waste electrical and electronic equipment – WEEE). The guideline determines the framework for the return and recycling of used appliances as applicable throughout the EU. Please ask your specialist retailer about current disposal facilities.

Guarantee

The guarantee conditions for this appliance are as defined by our representative in the country in which it is sold. Details regarding these conditions can be obtained from the dealer from whom the appliance was purchased. The bill of sale or receipt must be produced when making any claim under the terms of this guarantee.

Changes reserved.
