

Overview of programmes

Programme/Type of laundry/Instructions	Settings
Name of the programme Brief explanation of the programme and for which fabrics it is suitable.	Max. load; Temperature can be selected Spin speed can be selected; * Max. spin speed, depending on the model Possible programme settings
Algodón/Algodão (Cottons) Hard-wearing fabrics, heat-resistant fabrics made of cotton or linen	max. 7 kg frio (cold), 20, 40, 60, 90 °C
Algodón/Algodão (Cottons) 60 °C + Prelavado (Prewash): Programme with prewash, prewash at 30 °C; divide detergent between compartments I and II	1400* rpm
Algodón/Algodão (Cottons) <40°C <60°C: Hard-wearing fabrics, heat-resistant textiles made of cotton or linen Energy-optimised washing by reducing the temperature while achieving a comparable washing result for the Cottons programme.	max. 7 kg <40°C, <60°C 1400* rpm
Sintéticos (Easy-Care) Textiles made of synthetic materials or blended fabrics	max. 3 kg frio (cold), 40 °C 1200* rpm
Delicado/Seda (Delicates/Silk) For delicate, washable fabrics, e.g. made of silk, satin, synthetic fibres or blends (e.g. silk blouses, silk scarves)	max. 2 kg frio (cold) 800 rpm
Notes ■ For delicates or silk, use a detergent suitable for machine-washing. ■ No spin cycle between the rinse cycles	

Programme/Type of laundry/Instructions	Settings
Lana/Lã  (Wool ) Hand- or machine-washable fabrics that are made of wool or contain wool; particularly gentle wash programme to prevent laundry from shrinking, with longer pauses in the programme (during which the items rest in the water)	max. 2 kg frio (cold) 800 rpm 1000 600 ↓ 
Notes ■ Wool is of animal origin, e.g. Angora, alpaca, llama, sheep. ■ For wool, use a detergent that is suitable for machine-washing.	
 (Empty) Drain the rinsing water after a programme using the  Rinse Stop setting (without final spin) for gentle treatment of delicate laundry	max. 7 kg - - -
 (Spin) Laundry washed by hand	max. 7 kg - 1400* rpm 1000 600 ↓
 (Rinse) Rinse Plus with spin	max. 7 kg - 1400* rpm 1000 600 ↓ 

Consumption values table

Programme length and residual moisture of main wash programmes

(approximate values)

Programme	Load size	Energy consumption*	Water consumption*	Programme duration*
Cottons 20 °C	7 kg	0.33 kWh	67 l	2 ¼h
Cottons 40 °C	7 kg	0.78 kWh	67 l	2 ¼h
Cottons 60 °C	7 kg	1.22 kWh	67 l	2 ½h
Cottons 90 °C	7 kg	1.94 kWh	73 l	2 ¾ h
Easy-Care 40 °C	3 kg	0.61 kWh	52 l	1 ¾ h
Delicates/Silk cold	2 kg	0.29 kWh	51 l	¾ h
Wool cold	2 kg	0.17 kWh	33 l	1 h

Programme	Approximate information on the residual moisture**			
	WAE28... max 1400 rpm	WAE24. .. max 1200 rpm	WAE20... max 1000 rpm	WAE16... max 800 rpm
Cottons	53 %	58 %	68 %	80 %
Easy-Care	40 %	40 %	40 %	40 %
Delicates/Silk	30 %	30 %	30 %	30 %
Wool	45 %	45 %	45 %	45 %

* The values may deviate from the indicated values depending on water pressure, water hardness, water inlet temperature, ambient temperature, type of laundry, amount and soiling of laundry, detergent used, fluctuations in the power supply and the selected additional functions.

** Information on residual moisture based on program-dependent spin-speed limit and maximum loads.

Most efficient programmes for cotton fabrics

The following programs (standard programs, indicated by ) are suitable for cleaning normally soiled cotton fabrics and are the most efficient with respect to combined energy and water consumption.

Standard programmes for cottons in accordance with regulation (EU) No. 1015/2010	Load size	Approximate programme duration
Cottons programme  / 	7 kg	4 h
Programme setting for testing and energy labelling in accordance with Directive 2010/30/EU with cold water (15 °C). The specification of the programme temperature is based on the temperature stated on the care label in the textiles. The actual washing temperature may deviate from the stated programme temperature for energy-saving reasons.
