Values determined according to the valid version of EN50229.

* Observed values may deviate from the indicated values due to influence of water pressure, hardness and inlet temperature, ambient temperature, type, amount and soiling of laundry, detergent used, fluctuations in power supply and selected additional functions.

** EU energy label performance tests according to the valid version of EN50229 and Directive 96/60/EC for washing with max. load, cold water (15°C) and maximum spin speed.

*** EU energy label performance tests according to the valid version of EN50229 and Directive 96/60/EC for washing with max. load, cold water (15°C) and maximum spin speed and for drying, which is divided into 2 parts for 2 drying cycles.
