Why choose Bosch?

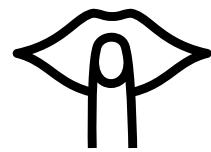

Experience

Producing high-quality, technologically advanced products, Bosch continues to play an active part in the Australian floorcare market. The Bosch factory in Germany is one of the largest in Europe and produces in excess of 1.8 million vacuum cleaners each year.

Quality

At Bosch 'German Engineering' stands for high-class workmanship – and for the legendary quality of Bosch domestic appliances. We never compromise, so we wouldn't expect you to either. That's why all of our vacuum cleaners have top of the range features as standard.

Silence

Noise is measured in numeric decibels or dB(A). It is important to note that a few decibels can make a huge difference. Our entire floorcare range is exceptionally quiet, amongst the quietest vacuums in Australia. This is due to our latest Compressor Motor Technology, internal insulation and housing and unique floorhead design.

Suction/Performance

A combination of quality design elements contribute to exceptional suction power and dust pick up. These include our powerful Bosch engineered motors, high grade filtration systems and specially designed floorheads which facilitate maximum cleaning performance.

SmartSensor Technology

Our bagless vacuum cleaners take out the guess work when it comes to cleaning and maintenance. The internal sensor continuously measures airflow rates to ensure that the vacuum cleaner operates at optimal performance throughout its lifetime. When the filters become dirty, the system will automatically power down and activate its own self cleaning process to prevent an airflow blockage (on models BGS5PERFAU, BGS5ZOOOAU and BGS5SL66AU). Alternatively you may override this function by pressing the SelfClean button to manually start the process at your convenience, for example after each use if desired. On all other bagless and Athlet models, the SmartSensor Technology will prompt the user to clean the filters by powering down and flashing the red LED light.

Tested for superior quality and reliability.

To ensure high standards of reliability, Bosch vacuum cleaners undergo tests which are more stringent than the testing carried out by consumer protection organisations.

Reliability guaranteed.
No compromises.

All Bosch home appliances are produced with maximum care and high-quality materials. We promise it in our 2-year manufacturer's warranty on all appliances.

SilenceSound System™

A few decibels make all the difference.

At Bosch we understand the value of clean and peaceful surroundings. That is why our vacuum cleaners combine the latest innovations in airflow optimisation for powerful dust pick-up and noise-reduction that is unbelievably silent.

SilenceSound System™: a diverse and comprehensive package of sound reducing measures for quieter operation.

- 1 Sound controlled motor with CompressorTechnology**
Reduces transfer of motor noise, air resistance, and vibration.

- 2 Sound control insulation**
Sophisticated materials with micro structure material absorb noise.

- 3 Silent airflow with sound reducer**
Aerodynamic airflow is supported by air guiding channels. The air flows smoothly with little twists and is much quieter.

- 4 Silent accessories**
Silent nozzle and sealed tubes ensure the air flows smoothly and joints are sealed.

Intelligent airflow systems. The key to efficient dust pick up.

What makes a good vacuum cleaner? A strong suction most may say, for example higher wattage. Not anymore, with the intelligent airflow systems found in Bosch vacuum cleaners that maximise airflow and multiply the quantity of dust pick up for a cleaner home.

Bosch has discovered that the higher the airflow measured at the end of the vacuum cleaner tube, the more thoroughly small, light dust particles are removed, resulting in more effective cleaning.

The Bosch intelligent airflow systems are designed for faster airflow and promise a superior cleaning performance with a powerful dust pick up.

Bagless

RobustAir™ System: for maximum airflow

The innovative secret behind the deep cleaning performance of our **Bagless Relaxx'x range**. Every component has been optimised for maximum airflow such as optimised air seals for minimal air leakage, high performance nozzles, dust separation filters, and high spin motors. This results in incredibly strong cleaning performance.

CrossFlow™ system: for cleaner exhaust air

Exclusive to our **Bagless Runn'n range**. Large dust particles are separated out into the dust container at speeds of up to 180km/h. The smaller particles are then captured by the fine-pored high-tech filter membranes. Thanks to the **HEPA filter**, allergy sufferers can also breathe freely as the air expelled is cleaner than the ambient air.

AirTurbo System: removes pet hair efficiently

Unique to **Bagless and Bagged Zoo'o ProAnimal models** (BGS5Z000AU and BGL8Z000AU), the AirTurbo System features a **powerful motor** and an innovatively designed ProAnimal turbo brush which efficiently converts the airflow into a **rotating motion**. This eradicates pet hair throughout your home.

Bagged

QuattroPower System: for class-leading pet hair and dust pick up

Exclusive to **In'Genius Zoo'o ProAnimal** (BGL8Z000AU), the QuattroPower System produces maximum performance through a **high performing nozzle** and a **high-spin motor** for superior dust pick-up, efficient airflow and effective dust filtration. Designed to deliver class-leading pet hair and dust pick-up.

PowerProtect System: for long-lasting cleaning performance

Allows the dust bag to unfold optimally and has a higher dust pick-up capacity thanks to the **multi-layered hi-tech filter material**. Ensures long-lasting cleaning performance, even when the bag fills up.

Exclusive to
Bosch bagless
vacuum cleaners
Athlet, Relaxx'x
and Runn'n.

SmartSensor Technology: for a vacuum cleaner that keeps running smoothly.

Your vacuum's filter is the heart of the vacuum, keeping it clean and healthy is a priority in order to maintain outstanding operating performance and to enjoy longer appliance lifetime. When filters become clogged the suction performance drops. Bosch SmartSensor Technology constantly monitors the airflow rates throughout the vacuum to ensure it is operating at its optimal level, similar to a heart monitor.

If the filter becomes clogged the SmartSensor Technology responds by either initiating an automatic self-cleaning process (BGS5PERFAU, BGS5ZOOOAU and BGS5SL66AU only), or by indicating with a red light that the filter needs cleaning manually (for all other Relaxx'x & Athlet models).

Intelligent self-cleaning: no contact with dust during the filter cleaning process.

The intelligent self-cleaning system with SmartSensor Technology is fully automatic, ensuring that you get the optimum performance level from your Relaxx'x for many years. When triggered, the self-cleaning system will initiate a brief automatic motorised filter agitation process where small dust particles preventing airflow through the GORE™ filter are expelled into the dust container ready for disposal.

Keep your vacuum operating optimally
You can press the Self-Clean button at any time to give the filter a quick clean, for example after each use if desired.

No follow-up costs
The washable HEPA and GORE™ high-tech filters last for the entire life of the appliance.

Disposal made easy
The dust container has a secure locking system and an impressive capacity, so it can tackle numerous vacuuming sessions.

Asthma and allergens – reduce your exposure with a Bosch filtration system.

The HEPA filters used in Bosch vacuums are at the highest level, ranging from HEPA 12 – HEPA 14 which ensure at least 99.95% of airborne particles are absorbed. Due to this filtration level that the HEPA and motor filter within the Bosch vacuum achieves, combined with the high power motor, the air that is expelled from the vacuum is actually cleaner than the surrounding air we breathe.

Where can allergens be found?

Allergens, such as house dust mites, pollen, pet hair and mould, are one of the most common triggers for asthma. The best prevention of allergen triggers is reducing your exposure to them.

Dust Mites
Like moderate temperatures and high humidity. They are found in bedding, flooring and furniture.

Pets
Our furry friends are the most common cause of pet allergies. They shed hair daily.

Pollen
Enters the house on clothing and shoes, so regular cleaning is the best way to reduce pollen in your home.

Mould
Is mostly found in houses with rising damp and poorly ventilated areas, such as bathrooms or built-in robes.

Relaxx'x high-spin motor. Made in Germany.

Bosch vacuums are made for exceptional performance with the new high performance QuattroPower system, so you can enjoy superior cleaning performance with lower energy consumption and savings on your utility bills.

Low energy consumption
Energy savings with the same performance level.

German quality
High durability and longer lifespan.

Low noise level
Quieter indoor operation.

Note: Applies to Bosch Relaxx'x range

Which Bosch is for me?

Cordless

Bagged

Bagless

Athlet

- Cordless vacuum with the performance of a barrel vacuum.
- The cordless Athlet range is ideal for any type of home, from small apartments to larger homes, there are no limits.
- With a 0.9L canister and up to 75 minute run time, the Athlet range is suitable for cleaning the entire house, without needing to recharge mid way through.

Free'e & In'Genius

- Exceptional performance for your whole home.
- The bagged In'Genius is ideal for a larger home, the Free'e is ideal for a smaller home.
- There's a suitable option for any floor type, with a range of included accessories for all your vacuuming needs.

Relaxx'x

- Full size bagless vacuum.
- For a thorough clean of your whole home.
- The bagless Relaxx'x range, equipped with a larger 3L canister, is ideal for a larger home.
- There's a suitable option for any floor type, with a range of included accessories for all your vacuuming needs.

Runn'n

- Compact size bagless vacuum.
- Excellent performance for apartment living or a smaller home.
- The bagless Runn'n range is equipped with a 1.9L canister.
- There's a suitable option for any floor type, with a range of included accessories for all your vacuuming needs.

Zoo'o ProAnimal: The range for our furry friends.

The Zoo'o ProAnimal range from Bosch removes animal hair up to 30% faster.*

Cleaning animal hair is a chore, as it spreads all round the home and is hard to get rid of. Conventional vacuum cleaners can perhaps keep up on parquet and tiles – but when it comes to textiles, carpets or crevices, they reach their limits.

The Zoo'o ProAnimal Range effortlessly picks up animal hair on all types of flooring and with handy accessories, it lets you tackle pet hair on furniture and in crevices as well.

Available in cordless, bagless and bagged models.

Zoo'o ProAnimal roller

Picks up pet hair 30% faster.* Specialised soft red bristles have been optimised for carpets to remove animal hair quickly and efficiently.

EasyClean™

Not only can you remove the roller in one movement, it's also easy to clean. This means the brush is easily cleaned and ready to remove hair time and time again.

Zoo'o Accessories

Specialised Zoo'o Accessories take the hassle out of removing unwanted pet hair effectively from crevices, your car, or any type of furniture.

Cordless

Bagged

Bagless

Athlet Zoo'o ProAnimal

- Cordless vacuum with the performance of a barrel vacuum and a 0.9 litre canister.
- Powerful performance with minimal maintenance effort: unique SmartSensor Technology alerts you when the filter needs cleaning.
- Easily remove pet hair thanks to the ProAnimal motorised brush, ProAnimal accessories, and EasyClean™ system.
- Up to 60 minutes runtime, thanks to powerful and durable Lithium-Ion battery technology.
- Includes additional replacement ProAnimal brush roller for convenience.

In'Genius Zoo'o ProAnimal

- Full size bagged vacuum with 5 litre dust bag and 15m operating radius.
- Easily removes pet hair with powerful ProAnimal turbo brush and accessory nozzles for all floor types.
- Ideal for allergy sufferers thanks to a washable Lifetime HEPA hygienic filter.
- Reduction of pet odours thanks to the innovative Bionic filter.

Relaxx'x Zoo'o ProAnimal

- Full size bagless vacuum with 3 litre dust capacity and 11m operating radius.
- Powerful performance with minimal maintenance effort: unique SmartSensor Technology alerts you when the filter needs cleaning.
- Easily removes pet hair with powerful ProAnimal turbo brush and accessory nozzles for all floor types.
- Ideal for allergy sufferers thanks to a washable Lifetime HEPA hygienic filter.
- Fully automated SelfClean System: no contact with dust during the filter cleaning process.

*Fibre pick up on carpet in comparison to a 2400 watt vacuum cleaner from Bosch with turbo brush (BGL3PWERAU).

High-performance Lithium-Ion rechargeable batteries with an extra-long life.

Long-lasting high performance.

The tried and tested Bosch Lithium-Ion Technology used in Bosch Power Tools and E-Bikes is synonymous with high performance, short charging times and long battery life. When combined with the highly efficient and aerodynamic long life motor, the cordless Athlet range is equipped for intensive use.

Long running time – short charging time.

The highly efficient system and Bosch's Lithium-Ion batteries with their outstanding capacity means that the Athlet range can operate for up to 75 minutes without interruption*. In addition, the battery is already 80% charged after just 3 hours. A three-stage electronic protection system reliably prevents overcharging, overheating and deep discharge of the batteries.

*Operation time varies depending on the model and power setting selected.

Extra long run time: up to 75min.**

SmartSensor Technology:

If the filter becomes clogged the SmartSensor Technology responds by either initiating an automatic self-cleaning process or by indicating with a red light that the filter needs cleaning manually.

Results comparable to a 2400 watt vacuum cleaner*.

Up to 75 minutes of autonomous operation**

The combination of a motor with long-lasting lithium-ion battery (25.2V) allows the Bosch Athlet vacuum to function for up to 75 minutes**.

Lithium-Ion Technology:

Fast charging with lighter and highly durable batteries.

Motorised AllFloor HighPower Brush

Thorough and effortless results on all types of flooring, thanks to its fast spinning action and specialised bristles that pick up dust and hair.

Easy to maneuver

Unrestricted freedom of movement with no power cord for vacuuming around corners, under sofas, cupboards and chests of drawers.

On all types of flooring the cleaning results are comparable with a conventional vacuum cleaner with a cord**.

Dust pick-up on carpet

Dust pick-up on hard floors

Dust pick-up in cracks and crevices

* Dust pick up in comparison to a 2400 watt vacuum cleaner from Bosch (BGL3PWERAU) on carpet and hard floor with crevices.
** Operation time varies depending on the model and power setting selected.

In'Genius Zoo'o
BGL8Z00AU

Free'e ProPower
BGL3PWERAU

Ideal for allergy sufferers.

Our high performance PowerProtect system allows for maximum airflow and high filtration at the same time. This results in optimum suction, picking up minute dust particles, mites, fungi, pollen and bacteria, which are common triggers for asthma and allergies.

Bosch PowerProtect bags trap dust before it can escape. The multilayer filter membrane captures 99.9% of fine dust particles. The air then passes through the HEPA hygienic filter system which ensures the air discharged back into the room is 99.99% clean. This is even cleaner than normal room air.

Tried, tested and convenient.

PowerProtect Dustbags

Ensure high suction power even as the dustbag fills up.

Newest fleece technology for a longer service life with multiple layers for highest filtration

- Up to 60% more suction power when the dustbag fills up in comparison to our conventional dustbags
- Hygienic - 99.9% of fine dust particles are filtered and a hygiene lock ensures clean disposal
- Up to 50% longer performance: Less frequent dust bag changes compared to our conventional bags thanks to extra high dust pick-up capacity

15-metre operating radius

Thanks to the extra-long cable, you will be able to reach even the remotest corners without having to plug the machine into a different socket. Not only is this more convenient, it also saves time.

Washable HEPA filter

The integrated HEPA filter is washable and doesn't have to be replaced. This saves unnecessary additional costs. The HEPA filter allows allergy sufferers to breathe easier.

5-litre capacity

The dust bag of the In'Genius has an extra large capacity, which means it doesn't have to be changed very often.

Four soft wheels

Wherever you go, the In'Genius follows on its four soft wheels, which are kind to your flooring.

No follow up costs...

In Bosch bagless vacuum cleaners, centrifugal forces separate the dust from the air flow and push it into a separator before it is fed into a dust container that can be emptied. The advantage: no follow up costs for bags and filters.

Ingenious high-tech solution.

The large surface area of the CLEANSTREAM® filter with its unique GORE™ membrane technology ensures that dust cannot penetrate the filter and block it permanently. The result is a high level of performance, all year round.

Super simple cleaning.

The dust container can easily be rinsed under running water once it has been emptied.

This much is for sure:
you can trust in our service.

Reliable, experienced, fast. The customer service of Bosch; before and after purchase.

Quality service straight from the manufacturer. Original Bosch.
We are committed to quality even when it comes to after-sales service because no one knows Bosch appliances better than our highly trained service engineers. Working with the latest equipment for measuring, diagnostics and repairs, Bosch service engineers only use original Bosch spare parts.

Reliability guaranteed. No compromises.
All Bosch home appliances are produced with maximum care using high-quality materials. We promise it in our 2-year manufacturer's warranty on all appliances.

Lifetime service. It goes without saying at Bosch.
Once your warranty period is over, we are still there to assist you. You can rely on expert care and first-rate service throughout the life cycle of your appliance. From missing instruction manuals to appliance repair – we take care of everything.

Original accessories. Effective care products.
Take a look at our extensive range of accessories for some inspiration: discover additional uses, replace old materials for optimum operation or simply give a trusty home appliance a good work-over. With the right care, you will be able to enjoy your high-quality appliance for many years to come. To help you do so, we offer a wide range of Bosch certified cleaning and care products.

Extensive customer service network. Just a call away.
Customer Care
Our friendly Bosch Customer Care team is on-hand to provide competent, reliable assistance. Before or after purchase, the Bosch team will be happy to advise you on products, their use and special functions.

Service & Repairs
Our team is there to provide the right advice on faults, arranging a visit of a service engineer and ordering the right accessories or spare parts.
