

**BOSCH**

Invented for life

We didn't discovered  
fire, but we've taken  
it to a new level.  
Nine, to be precise.

The new gas cooktops with FlameSelect from Bosch.

Precise flame control

## Finally, a fire that does exactly what you want.

Fire still fascinates us today as it did half a million years ago when man first discovered it. A lot has happened since then.

Our new Bosch gas cooktops with FlameSelect offer absolute control of fire when it comes to adjusting the flame. Packed with an innovative technology that allows you to control nine predefined heating levels, you will enjoy a completely new level of precision in the kitchen.

### The Evolution of Fire

Making fire  
with wood

Making fire  
with charcoal

Igniting fire with  
regular gas hobs

Controlling fire with  
FlameSelect gas hob

Defined heating levels

# With FlameSelect, you'll save yourself the guesswork.

While cooking with gas is a delightful experience, there's a lot of guesswork involved when it comes to adjusting the flame. Our new gas cooktops with nine precisely defined heating levels let you adjust the strength of the flames easily and reliably. You no longer have to worry about checking the flame constantly or overcooking your food again.

Innovative valve technology

## Precise flame control, now in your hands.

We wanted to make cooking with gas as easy, safe and enjoyable as possible. That's why we developed FlameSelect. Unlike conventional gas cooktops with inconsistent flame levels, FlameSelect has an innovative valve technology that accurately controls the flame within nine defined heating levels.

The cooktop also displays which pan supports may still be hot when it is turned off, giving you all the benefits of gas cooking—with the comfort and precision of an electric cooktop.

**Nine levels of precise flame selection.**

Designed for easy cleaning

# Years to design. Only seconds to clean.

Besides perfect cooking results, there is one thing you don't have to worry about with our gas cooktops: Cleaning it. We have designed them with materials that are easy to clean, so you can enjoy the time spent in the kitchen even more. Before, during and after cooking.

## **Cleaning rounded off to perfection.**

The rounded edges of our gas cooktops ensure effortless cleaning – dirt simply doesn't collect anywhere. The stainless steel surfaces are also much less susceptible to discolouring around the burners.

## **Easy cleaning for pan supports.**

Bosch pan supports are dishwasher safe, so you can simply place them into your dishwasher and let it do the work for you.

Feature may vary depending on models. Please check individual product specifications.

**Ceramic glass cooktops.**

Beautiful and practical: Our gas cooktops look stunningly elegant with high quality ceramic glass.

Made for your kitchen

## Where German engineering meets beautiful design.

Our gas cooktops are not only masterpieces in terms of function, but also of design. With their sleek and seamless construction, they guarantee a clean, timeless look in every home. And we know tastes differ and every kitchen has its own special demands; no matter which surface material you prefer, with Bosch you can always be sure to find the perfect cooktop for your kitchen.

92cm Stainless steel gas hob

**Our pan supports:**

When it comes to design, our continuous pan supports provides high stability for cookware.

92cm Ceramic glass gas hob

**Our gas cooktop surfaces:**

We offer you a version of our cooktops that perfectly matches your kitchen and individual taste – high quality ceramic glass, or premium stainless steel.
