Series 6 & 4 - Slim Trays*

Meals are now twice as tasty and half the work.

We know cooking for your family takes plenty of time and coordination, with everyone's different preferences to consider. Keep it simple with the Slim Tray*, your ultimate multi-tasking kitchen tool. It makes meal preparation a breeze and caters to different tastes. Now everyone's happy — and you have more time to spare.

Cook everyone's favourites at one go

Go big for family meals with the Slim Tray*. Sized perfectly for multiple items and safe handling, it lets you cook different dishes at the same time without using extra vessels. Now, you can accommodate everyone's preferences and save time without breaking a sweat.

Delicious meals with no mess

Less is more with the Slim Tray*. Thanks to its smaller size, juices from your food are more concentrated in a single area to deliver tastier meals. Worried about cooking multiple dishes and messing up your oven? The Slim Tray* is thoughtfully designed to keep ingredients from mixing together. Problem solved.

Effortless handling

Cleaning up doesn't have to feel like a chore with the Slim Tray*. It fits perfectly into Bosch dishwashers for easy cleaning and its size makes it simple to store in your refrigerator if you need to do so before or after cooking — a perfect fit for your kitchen and your life.

Feature may vary depending on model. Please check individual product specifications.

*Optional accessory available to suit new Bosch Series 6 & 4 60cm ovens.

Series 6 & 4 - Ceramic Non-Stick Tray*

When cleaning
is this simple, it's easy
to enjoy cooking.

Revolutionise the way you clean with the new Ceramic Non-Stick Tray*. Now you can prepare meals without any extra mess and clean up effortlessly after you're done. That means less time cleaning and more time to enjoy the cooking. So focus on the food, we'll take care of the rest.

Anti-stick, anti-mess

The Ceramic Non-Stick Tray's* special anti-stick coating makes it impossible for food to stick to—and incredibly easy to clean. As an added bonus, say goodbye to baking papers and grease. Simply place your food on the tray and you're good to go.

A lifetime of perfectly prepared meals

With a higher temperature resistance than Teflon, the Ceramic Non-Stick Tray* is incredibly strong and durable. Now you can cook anything at any temperature, without worrying about damage. Welcome to a world of endless possibilities for your family meals.

* Optional accessories available to suit new Bosch Series 6 & 4 60cm ovens.

- Universal pan with ceramic non-stick coating - for moist cakes, baked items, frozen food and large roast.
- Baking tray with ceramic non-stick coating - for tray bakes and small baked item.

Series 6 & 4 - Adjustable Clip Rails*

Perfection on every level.

You're in charge of your own kitchen. That means your appliances should accommodate you and not the other way round. Cook exactly the way you want to with the adjustable Clip Rails* that give you total flexibility. Position the level-independent rails however you see fit – that's cooking made comfortable.

**Total flexibility for your cooking**

Enjoy complete control over your oven and what goes on in it. A standard oven provides no more than three positions for telescopic rails. With the level-independent Clip Rails*, you can position them at any level you need. Switch between the different levels anytime or even use them for the grill level – anything to achieve your desired results.

**Easy handling for fuss-free cooking**

The Clip Rails* are easy to install and uninstall – and even easier to handle. With the push symbol, remove them and easily snap them right back into place at the level you want.

A little help from technological innovation

Take your cooking further with an oven that anticipates your needs.

Any oven can bake and roast. The Series 4 and 6 Ovens go the extra mile. Meal preparation is that much smoother when your oven knows exactly what you need and is equipped with just the right functions to deliver it.

Single Point Meat Probe

Savour the taste of precise roasting. The Single Point Meat Probe measures your food's interior temperature and alerts you when it has reached the desired core temperature. Simply enter the heating mode, temperature and desired core temperature and enjoy roasts, fillets and poultry cooked to perfection every single time.

3D Hotair

Cook sweet and savoury dishes at once and make the most of your time with the 3D Hotair system – it provides balanced temperatures by distributing heat quickly and evenly throughout the oven, letting you cook on up to three levels at the same time. Now you can sort out an entire meal in no time and spend it with the people you're preparing it for.

Intelligent Knob Haptics

It's easier than ever to take control of your cooking. The retractable oven knob is designed for optimum comfort and sturdy handling, and lets you change your temperature or function settings with assurance and comfort. It works perfectly – and looks good too, with its sleek and minimalist design.

Feature may vary depending on model. Please check individual product specifications.

For ultimate convenience

An all-rounder oven that loves to cook and clean.

The right oven leaves you with less work to do — and your search for it ends with Series 4 and 6. Engineered to lighten your load, these ovens come with an array of features that make cooking and cleaning a breeze.

Telescopic Rails*

Keep your oven organised and efficient with the Telescopic Rails, now redesigned with new, smooth geometry for effortless handling. Whether it's single, double or triple telescopic rails, all of our shelf systems are safe and easy to use. When fully extended, a special mechanism snaps them into place on both sides for a completely stable rack and an easier time baking and roasting.

Pyrolytic Self-Cleaning

No more hard-to-remove stains in your oven with a special self-cleaning system that heats up the oven and burns off grease and residue. All that remains is some ash that you can easily wipe away with a damp cloth. Just press "Start" and your oven does the rest.

EcoClean Direct

The Series 4 and 6 Ovens' cavities are covered with a special direct coating of microfine ceramic particles, which absorbs grease and grime and breaks them down through oxidation for excellent cleaning performance — just wipe the bottom and inside of the glass door. The coating regenerates every time the oven heats up and will do so for the rest of your oven's life for a constant state of cleanliness.

Series 2 Ovens

Meals made simple,
cooking made easy.

Meals are meant to be enjoyed. With the new Series 2 Oven, preparation is simple, convenient and fun with sturdy haptics and features you truly need. Now you have less to do and more to enjoy.

Gentle Hotair

Cook your entire tray of food gently and evenly with the Gentle Hotair system—it circulates warm air throughout the oven to maintain a consistent temperature, on your roasted meat, gratins, seafood or vegetables to retain its moisture.

EcoClean Direct Coating

Save yourself the trouble of scrubbing your oven by hand. We coat the back panels of our Series 2 Ovens with EcoClean coating, which absorbs grease and grime and breaks them down through oxidation for excellent cleaning performance.

Intelligent Knob Haptics

It's easier than ever to take control of your cooking. The retractable oven knob is designed for optimum comfort and sturdy handling, and lets you change your temperature or function settings in comfort. It works perfectly—and looks good too, with its sleek and minimalist design.
