EUROPE'S BRAND NO

Introduction to Bosch Bosch's legacy of innovation.

Robert Bosch, our founder, centered the organisation's philosophy on performing even the smallest of tasks to perfection. For decades, we have upheld this belief by creating home appliances of unparalleled quality that deliver absolute perfection.

Our assurance of perfection is credited to German engineering – a combination of high-class workmanship, creativity and the innovative strength of our engineers. Crafted with the finest quality materials, our products are hailed as the finest in Europe.

Why choose Bosch?

Proven quality

Bosch appliances offer premium quality, advanced technology, ease of operation and outstanding German-made and engineered technology. These attributes have earned us many national and international accolades over the years, such as the prestigious reddot Design Award and the iF Product Design Award.

Top performance

What drives us every day is our desire to improve. We strive to make the best even better, by developing functional, durable and energy-efficient innovations that surpass all expectations.

Exceeds your expectations

Bosch is dedicated to making your life easier. Our washing machines are packed with great ideas, features and technology to make your laundry experience better and easier than ever.

Introduction

Top notch results from our top load washing machine.

The success of our washing machines is in the tiny details. Not a single one is sold without going through endless quality testing so that every component, big and small, comes together to deliver perfect wash results in your home.

Introducing Bosch's very first top load washing machine, powered by the innovative PowerWave wash system and VarioInverter motor, this game-changer will amaze you with satisfyingly clean laundry. PowerWave Wash System

Wash your clothes – and your worries away.

Your laundry requires a powerful yet gentle touch. The unique PowerWave wash system does just that, combining an innovatively designed impeller and a multi-directional waterflow system for perfect wash results. Its powerful and dynamic water displacement capabilities wash your clothes thoroughly. This multi-directional water movement also enables your clothes to glide gently against the drum surface, giving you spotlessly clean clothes and absolute peace of mind. Benefits of A Top Load Washing Machine

Why a top load washing machine?

Slow down your pace with faster wash cycles

The beauty of a top load washing machine lies in its speed—most wash programmes take just one hour, saving you precious time for the things that matter.

Laundry at its absolute simplest

No time to figure out every function and feature? A top load washing machine is perfect for you. It makes laundry so easy, you simply need to do one thing - press the One Touch Start button.

Ample capacity for all your washing needs

Sometimes, more is more – and a top load washing machine delivers more. It has a higher range of maximum load capacities. That means it's perfectly suited to big households with heavy washing needs.

Leave no outfit behind

No more panicking if you have additional or forgotten laundry after starting a wash cycle. Simply add it in at any point of time during the wash programme.

O PowerWave

Innovative Impeller Design

Thoughtful Features

State-of-the-art engineering to take the load off.

VarioInverter Motor Make it last with an energy-efficient motor system that is powerful, silent and backed by a 10-year warranty.

Lint Filter Keep the clothes spotless and your drain clear with a filter to keep out lint and fluff.

Delay Start You get to decide exactly when your clothes are cleaned. Go ahead and schedule the wash cycles for up to 24 hours – you're in charge.

One Touch Start Skip the headache of not knowing which water level or wash options to select. Simply press the button and we'll decide for you.

SpeedPerfect There's no rush with this time-saving feature that delivers the same perfect

results 20% faster.

Soft Closing Lid With Toughened Glass No more loud noises or injuries. Keep things safe and light with this gradually closing lid. Made with smooth, toughened clear glass, it gives you an unhindered view of what's in your washing machine at all times.

Animal Protection Panel The unique Animal Protection Panel keeps lizards and insects out of your washing machine's hardware, protecting the system's operation.

Power Off Memory No power? No problem. The wash cycle simply resumes instead of restarts, once the power's back.

Memory Wash Your laundry routine is now perfectly smooth with Memory Wash. It memorises your selected options and programme steps, even after being powered off. The next time you turn it on, simply use your saved settings. Fewer steps, more control.

Variety of Wash Programmes

Clean any fabric easily with a variety of wash programmes: 'Daily Wash' for everyday wear, 'Delicates' for new and delicate clothes and 'Bed Sheets' for heavy loads.
