Bosch in every detail. German Engineered.

Every detail of every appliance has been carefully designed, produced and tested by our engineers to fully satisfy the highest standards in quality, performance and convenience. The result is cutting-edge technology, timeless design and remarkable ease of use.

Why choose Bosch?

Proven quality

Bosch appliances offer premium quality, advanced technology, ease of operation and outstanding German made and engineered technology. These attributes have earned us many national and international accolades, such as the reddot Design Award, the iF product design award and other endorsements, year after year.

Top performance

What drives us every day is our desire to improve. We strive to make the best even better, by developing functional, durable and energy-efficient innovations that surpass all expectations.

Maximum convenience

Bosch is dedicated to making your life easier. Our refrigerators are packed with great ideas, features and technology to make food storage better and easier than ever.

We've discovered the secret of freshness for your food

The answer to better refrigeration storage under the most optimal conditions? VitaFresh freshness systems. With low temperatures and the right humidity levels, they make sure your food remains fresh for longer – so you can enjoy them for a longer period of time.

Storage Guide⁺

Vegetables	VitaFresh	VitaFresh plus
Asparagus	up to 5 days	up to 10 days
Broccoli	up to 8 days	up to 10 days
Cabbage	up to 30 days	up to 50 days
Carrots	up to 50 days	up to 60 days
Celery	up to 20 days	up to 23 days
Leek	up to 17 days	up to 20 days
Lettuce	up to 10 days	up to 14 days
Mushrooms	up to 2 days	up to 3 days
Spinach	up to 3 days	up to 4 days

Fruits	VitaFresh	VitaFresh plus
Apples	up to 70 days	up to 120 days
Apricots	up to 10 days	up to 14 days
Blackberries	up to 3 days	up to 3 days
Cherries	up to 10 days	up to 15 days
Grapes	up to 15 days	up to 20 days
Kiwi	up to 20 days	up to 30 days
Peaches	up to 7 days	up to 10 days
Plum	up to 7 days	up to 8 days
Raspberries	up to 3 days	up to 3 days
Strawberries	up to 3 days	up to 4 days

⁺ Actual storage life of fruits and vegetables may vary depending on the state of the food item when bought, type of storage compartment and different test and storage conditions.

Feature may vary depending on models. Please check individual product specifications.

VitaFresh

Keeps food fresh longer.

Our VitaFresh compartments maintain optimal storage conditions in two different climate zones.

With a low temperature setting of about 0°C, you can store your fish and meat in a hygienic environment without worrying about odour transfer.

The big drawer at the bottom is specifically designed to keep fruits and vegetables fresh for longer.

VitaFresh^{plus}

Keeps food fresh up to two times longer.

Our VitaFresh Plus compartment comes with two separate drawers. It also features special drawers seals, so fruits and vegetables can be stored in the bottom drawer under optimal storage conditions.

With a low temperature setting of about 0°C, you can store your fish and meat in a hygienic environment without worrying about odour transfer.

Humidity is maintained & can be easily regulated with 2 settings by an advanced slider.

Freshness and hygiene

SuperCooling: Lowers temperature for super quick chilling

With SuperCooling activated, food that you have just placed into the fridge cools quickly. SuperCooling switches off automatically after 6 hours to save energy.

SuperFreezing: Fast freezing for any amount of food

SuperFreezing prevents frozen food items from defrosting as you add new food items into the freezer. Once the set temperature is reached, SuperFreezing switches off automatically to prevent energy wastage.

AirFresh Filter: Prevents any odour transfer of food

Some foods stored in your fridge can overpower others, creating an unpleasant mix of smells and flavours. Our AirFresh Filter minimises odour transfer from one food to another, retaining the natural flavour of your produce.

Multi Airflow System: Food stays fresh longer

Greatly improves circulation of air around the fridge, regulating temperature and humidity levels to help your food retain their flavour and freshness.

Flexible storage space

EasyAccess shelf: Extendable shelves for perfect access to items at the back.

The fully extendable safety glass shelves can be pulled out for easy access and storage of food items. You will get a clear view of all food items – even those at the back of the fridge.

BigBox: Lots of space for huge frozen items

An extra-large frozen food drawer for practical stacking of frozen food containers or large frozen items like cakes or pizzas. Whether you have to store huge quantities of food for your house party or freeze a large turkey, you will find enough space for large frozen food items.

Improved energy efficiency* with Bosch VariolInverter

Unlike a conventional compressor that operates consistently at a single speed, the Bosch VariolInverter compressor adjusts its speed efficiently according to the surrounding conditions and refrigerator loads. This helps to optimize the cooling conditions for you to enjoy improved energy efficiency and freshness at the same time.

Fast cooling

VariolInverter reaches the desired temperature faster than conventional compressors with its ability to adjust and optimize the compressor speed continuously.

Low noise*

VariolInverter lets you and your family enjoy a quiet living environment with its silent performance.

*Based on test requirements between similar Bosch bottom freezer models.
Energy savings may vary depending on test conditions and models.

Smart organisation for your food

Thoughtfully designed to take care of your back

Our bottom freezers are ergonomically designed for easy access. As common food items are stored in the main compartment at eye level, you no longer have to bend your back frequently for your food.

With Bosch bottom freezer refrigerators, healthy living is well within reach – simply open the door.

DID YOU **KNOW** ?

Top Freezer Refrigerators

you will need to bend

80%

of the time to reach
frequently accessed food items

Bosch Bottom Freezer

You only bend

20%

of the time to reach frequently accessed
food items as they are stored in the main
compartment at eye level.

For top fridge compartment

- Reach for milk, vegetables, fruits, fish and meat easily without having to bend down frequently
- Allows easy cleaning of drawers

For bottom freezer compartment

- Compartmentalised drawers for easy sorting of food items
- Removable drawers for easy cleaning

Innovative control. 2 Cooling Systems

Separate evaporators for the fridge and freezer section not only prevents the transfer of odour, but also allows the fridge and freezer temperatures to be controlled separately. This helps to ensure a more stable temperature level.
