Invented for life.

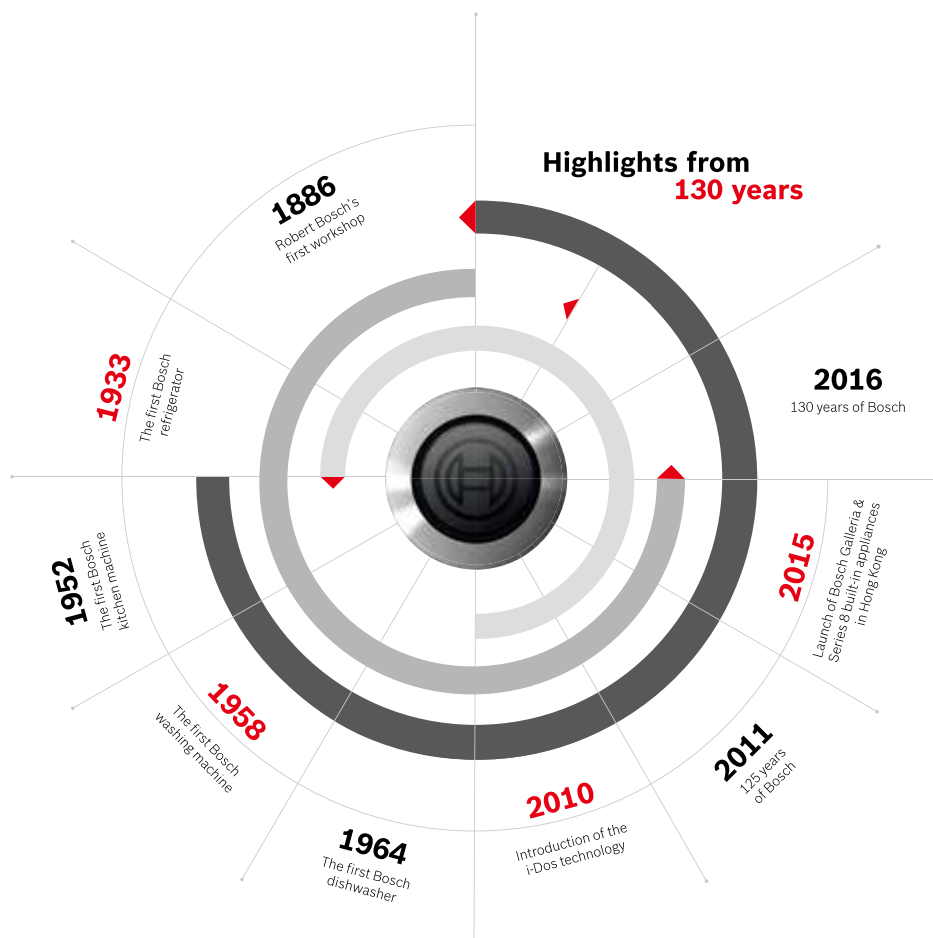

The beauty of German craftsmanship and design, perfectly showcased by Bosch over 130 years.

Founded in 1886, Bosch has been synonymous with outstanding technology and craftsmanship. Through continuous innovation, precise electrical engineering and electronic technology, Bosch has become the world's pioneer in industrial technology. Simple yet elegant, Bosch home appliances make every kitchen an art space with their concise design and aesthetics of life.

Today, Bosch is one of the leading home appliances brands in Europe. The brand offers a full spectrum of small domestic, free-standing and built-in appliances in Hong Kong. Renowned for its one-stop cooking solution, Bosch products include the highly-rated kitchen machines; professional, high quality ovens, steam ovens, cooktops, cookerhoods, refrigerators and dishwashers. Other home appliances include vacuum cleaners, washing machines, irons and coffee machines, offering a complete solution for living with innovative designs to fulfil the unique need of every consumer.

"I would rather lose money than trust", the philosophy of company founder, Robert Bosch, continues to guide Bosch in developing high-quality products and assuming social responsibility wherever it operates. Treating people and nature with respect has been a corporate principle from the beginning and is reflected in the company's energy-efficient, resource-conserving and sustainable products and processes.

True to the brand's philosophy brand "Invented for life", Bosch will continue to offer consumers with quality and perfect technology for a better life.

Designing perfection.

“We take rational values and make them tangible at an emotional level”

Robert Sachon, Global Design Director of Bosch Brand

“Bosch” Stands for perfection

Bosch Home Appliance has stood for technical perfection and superior quality. The design team has always presented rational values, making them tangible through comprehensive and intuitive design. Bosch's appliances showcase high-quality materials and deliver them right down to the smallest detail. We treat design as a key part of brand management. Our design team has always played a critical role in the development of product concepts from inception to ensure perfection is concisely achieved and quality is perceived with all senses.

Bosch is “Red Dot: Design Team of the Year 2015”

Our products have received applause world-wide with more than 500 awards in the past 10 years, thanks to their groundbreaking technology, outstanding quality and intelligent design. Today, Bosch continues its outstanding record of winning numerous prestigious international awards and accolades including the Red Dot Design Award and iF Product Design Award. For the 60th anniversary of the Red Dot Award, one of the largest and most prestigious award in the world, Bosch was given the honorary title of “Red Dot: Design Team of the Year 2015”. These honors demonstrate premium quality, advanced technology, ease of operation and outstanding German tradition, which Bosch has been able to rely on.

Quality from Bosch, around the world.

Bosch appliances offer premium home solutions for property developers worldwide.

North America: In the heart of Las Vegas and on the cutting edge.

The MGM CityCenter is a 308,000 m² large building complex which was commissioned by MGM International Resort and realized by eight internationally renowned architects. Being one of the most expensive privately funded construction projects in the U.S., it offers plenty of leisure space for the 2,700 exclusive apartments – many of them are fully equipped with Bosch appliances.

Arabia: New standards in Dubai and around the world.

The unique combination of traditional Arabic elements with modern architecture and unprecedented technology, Tom Wright created a Dubai landmark. At 321 meters high, the hotel is one of the tallest, most luxurious and expensive hotels in the world. Therefore it's no wonder that the demands for quality kitchen appliances in each of the 16 suites were just as high.

Australia: Bright prospects.

At a height of 323 meters, the Q1 Tower is one of the tallest residential buildings in the world, dominating the skyline of Australia's famous Gold Coast. Spread across 80 floors, the luxury apartments offer breathtaking views of the coast on the outside – and in the interior, the best views of German engineering.

Europe: Aiming high.

The renowned Spanish architect, Santiago Calatrava designed the Turning Torso. At 190 meters, it's the tallest skyscraper in Scandinavia and is the urban highlight in Malmö. The building, with its exciting design evokes the impression that it revolves around its own axis. Trusted by Samark Arkitektur & Design AB who create extraordinary interiors, the 150 apartments were fitted with modern, Scandinavian design – and Bosch home appliances. Therefore, the building is an architectural masterpiece on both the inside and outside.

Online experience redefined.

Our website now not only includes a localised Chinese version, but also features a surprisingly simple user interface, even on smartphones and tablets. Get the latest news on our products and shop your Bosch home appliances at our online store anytime.

Discover Bosch at your fingertips.

Now you can experience a complete home solution anywhere you go, with the new Bosch Home Hong Kong mobile app. The app offers a user-friendly interface for browsing the latest product range. It's more than just a digital catalogue. Conveniently, it also includes useful tools to help design and build the perfect home, so you will always find it handy.

My Kitchen Inspirator.

Get closer to your dream kitchen.

The kitchen is the heart of your home. Whether you are dreaming of your whole family eating together, cooking for your friends when they come over or simply want your personal, professional cooking space. Bosch My Kitchen Inspirator, a digital world full of images, ideas and information relating to kitchens helps you plan your dream kitchen.

www.kitchen.bosch-home.com/en-hk/

Hoods

A range of designs to suit your dream kitchen. From focal point canopy to hidden integrated hoods our whisper-quiet hoods will be a pleasant surprise and will allow you to enjoy cooking even more.

Food Preparation

Our multi-functional, award winning kitchen machines, food mixers and processors are packed with innovative, labour-saving technology so you can chop, blend, shred, mix and whisk your way more quickly through your food preparation task.

Refrigeration

Stylish matching your kitchen cabinetry and packed full of sensor technology keeping your food fresher for longer.

Hobs

Choose a hob to match your cooking habits: From our revolutionary gas hobs to innovative induction.

Bosch cooking appliances. Designed to make your everyday life easier.

The appliances from Bosch perfectly compliment each other to make every moment in your kitchen a perfect, tasteful and relaxed moment.

Bosch 
Cooking

EFFORTLESSLY DELICIOUS

Dishwashers

A dishwasher is a must in any modern kitchen to save you the hassle of cleaning up. Choose from built-under, semi and fully integrated models to perfectly integrate into your kitchen.

Ovens

High-quality stainless steel combined with sleek black glass offers a timeless design, while sophisticated features deliver the best results meaning less work and more cooking pleasure.

Cool Solutions.

Discover more

More space for keeping food fresh for longer.

Flexible to fit your kitchen, Bosch built-in refrigeration options and smart technology keep your food as fresh as possible for as long as possible.

Perfect pairs.

Thanks to our clever design, single door fridge and freezer can be combined to give you just the right capacity. You can now personalize your kitchen perfectly.

Save more, waste less.

Internal sensors constantly monitor the temperature in the fridge, thanks to the **FreshSense** technology, the cooling circuit and compressor continually adjust to ensure a stable interior temperature and provide prolonged freshness.

Keep food fresher for longer.

The **VitaFresh** vegetable drawer features a humidity controller which allows you to lock in moisture. This preserves vitamins and flavour in fruit and vegetables so they last up to twice as long.

More space.

Freezer is extra spacious meaning you will find it easy to fit everything in. The extra large **BigBox** is big enough for large bulky items.

Save time with flexible storage.

You save time more easily by making fewer shopping trips, as food lasts longer and get what you need faster too, thanks to **EasyLift** (height adjustable) shelves and fully extendable drawers.

Quietly does it.

It's nice to know that we've integrated **SoftClosing** doors to avoid improper door closing.

Dishwashers.

Discover more

**WORLD'S
BRAND NO.1***

Why use a dishwasher?

Because there are many more important things in life.

Better Hygiene

Remove 99.99%** = Keep you and your family healthy of harmful bacteria and germs

Time Saved

1 hour of dishwashing per day = 15 days of quality time with family

Protected Hands

Stay out of contact from detergent = Keep your hands smooth and supple

DID YOU KNOW

You only spend **\$1*** per wash with our dishwasher!

* Calculation per wash is based on:

0.83kWh x \$1.2 = \$0.996

(Energy x Electricity Tariff)

0.0095 x \$4.16 = \$0.004

(based on 9.5L water consumption x rate/m³)

* based on SMV68TD06G Eco Wash 50°C

The dirty truth about your kitchen.

Did you know that most harmful germs in your home multiply around the kitchen sink?

Kitchens contain more harmful bacteria than we think.

A study on kitchen and food preparation hygiene practices found that while 80% of the households surveyed think there is below moderate risk of getting food poisoning at home, 88% of homes surveyed contained harmful bacteria such as E.coli and Salmonella.

'Germiest' item: the kitchen sponge.

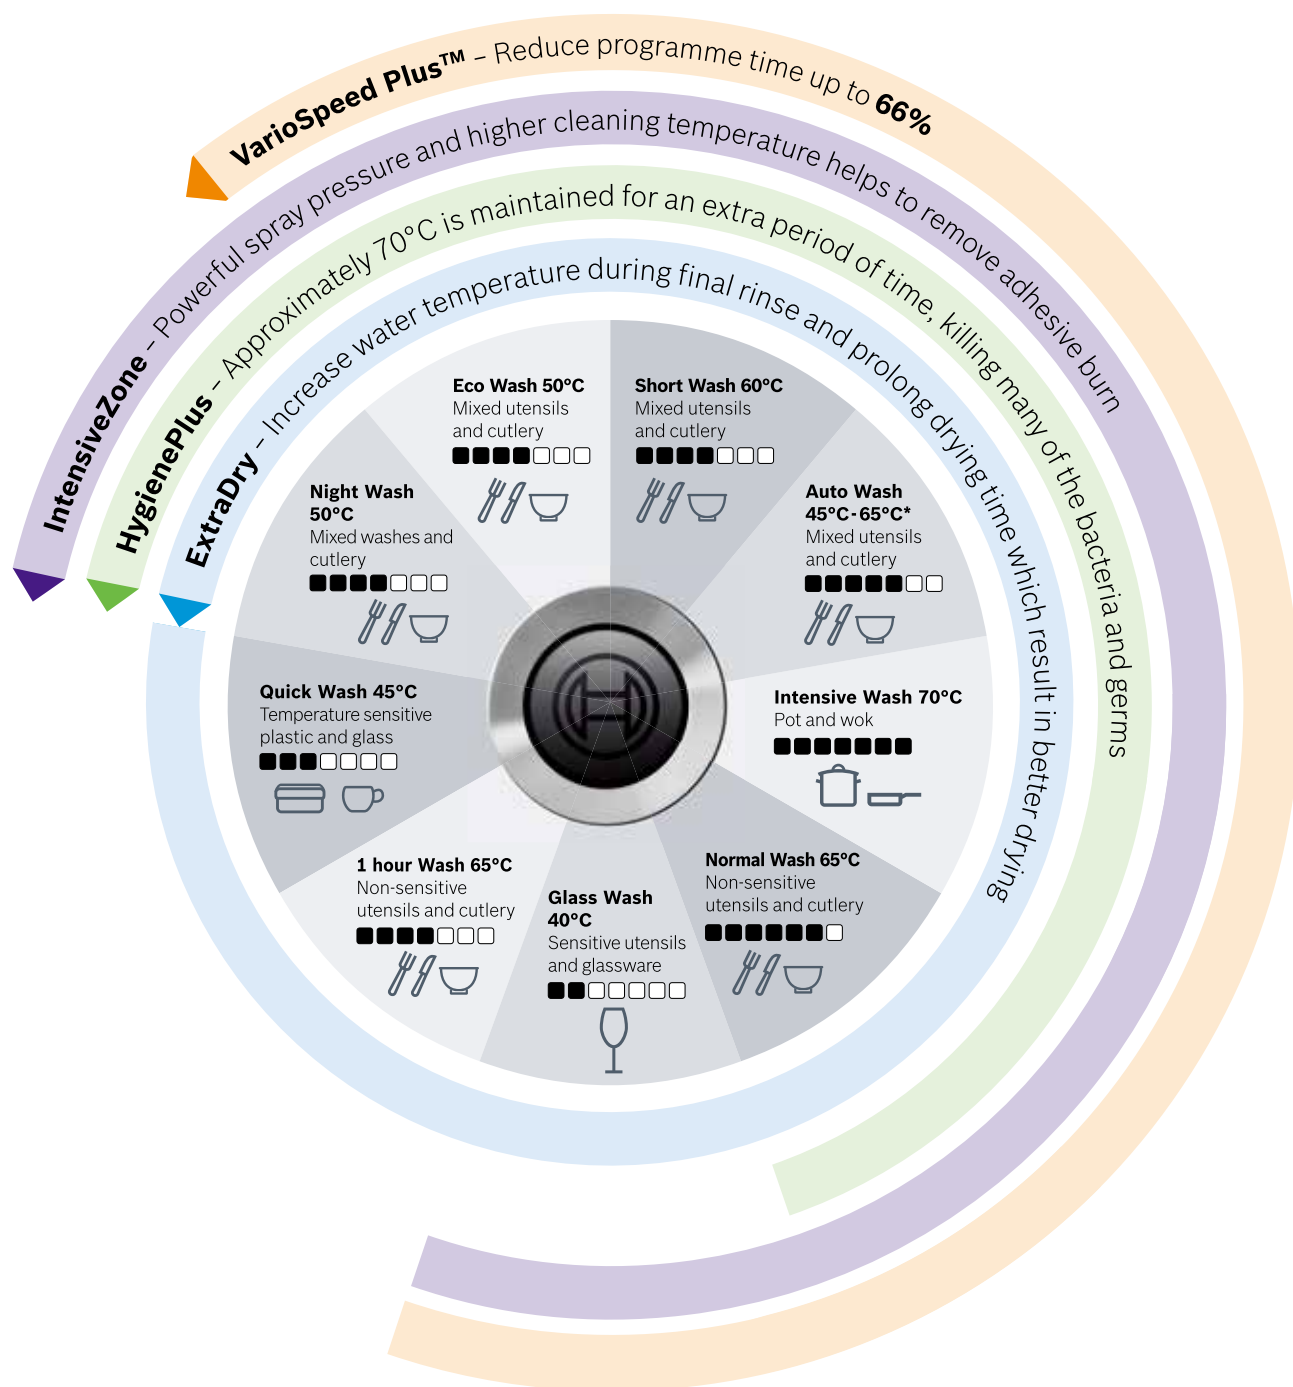

88% of the sponges tested were found to contain Salmonella and/or E.coli. However, only 20% of households changed their kitchen sponge regularly (every two weeks or less).

Hot water is necessary to kill bacteria.

Most bacteria are not able to survive in temperatures above 70°C, which makes hot water an important element in the cleaning process. Some dishwashers are now equipped with Machine Care Programme. It will signal the user after 30 washing cycles and request a high temperature water to clean the cavity to ensure hygiene at all time.

Invented to clean: Remove 99.99%^{**} of bacteria and germs.

* Temperature varies according to the soiling with the aid of sensor

** 99.99% reduction on Escherichia coli, Staphylococcus aureus, test report HKGEC1700301402 (dated 02/18), HKGEC1700303101 (dated 05/17), HKGEC1700303202 (dated 02/18), HKGEC1700303301 (dated 05/17), HKGEC1700350301 (dated 05/17) issued by SGS Hong Kong Limited.

Saving 50 litres.

A dishwasher in Hong Kong saves an average of 50 litres* of water a day compared to high-consumption hand washing. Doing your bit for the environment.

* Apply to SMV68MD01G using Eco Wash 50°C programme. Assuming 60 litres of water is used for hand washing per day.

Saving energy and resources naturally with PerfectDry

Cutting edge technology

Using advanced drying technologies, Bosch dishwashers keep energy consumption to a minimum. Thanks to PerfectDry, the technology behind this is called Zeolith® – a process applied to most cycles that uses natural minerals that heat up when they come into contact with water. The warm air is then distributed evenly over the load. Zeolith® regenerates after every cycle and will last the lifetime of the appliance.

Award winning technology

Bosch' Zeolith® dishwasher has been awarded the "Innovation Prize for Climate and Environment" by origination. This affirms Zeolith® drying technology's dedication to environmental protection and excellent energy efficiency.

Cleaning Phase

The Zeolith® has to be heated with a heating element to ensure it is dry and ready for use.

Drying Phase

Zeolith® absorbs moisture, converts it to heat energy and dries the dishes.

Rinising Phase

At the end of the final rinse, water evaporates from the heated dishes. The humid air is sucked into the Zeolith® container.

Laundry.

Discover more

The simplest way to clean and dry laundry.

Bosch built-in home laundry appliance with green technologies saves you even more water, energy and time. It makes great cleaning results and your life easier.

Prewash

A 20-minute, 35°C wash for especially dirty clothes. The prewash loosens and removes dirt prior to the main wash.

Intensive

The Intensive option extends wash programme to give a more intensive wash and brings the equivalent of an A-class wash performance to a wider range of temperatures than ever before, unlike most washing machines on the market.

Reduced ironing

The laundry is tumbled gently periodically during the normal programme spin cycle and then again at the end of the spin phase, keeping laundry fluffy and tangle free. The result is reduced creasing and therefore easier ironing.

Water Plus

A higher water level is used throughout the wash and rinse cycles of the chosen wash programme for best rinsing results.

Flexi Time

Designed especially for lightly soiled items, Flexi Time allows you to reduce the wash time by up to 30%. Press the button once to reduce the wash time or if the items are only very lightly soiled press it twice to reduce the wash time even further.

Fluff Clean

For use after each drying cycle, the Fluff Clean programme conveniently cleans the drum preventing fluff on the next wash load.

MultiSafe

All Bosch washing machines are designed with safety in mind, from the highly pressure-resistant water supply hose and overflow prevention systems, to the electronic lock that prevents the porthole from being opened unintentionally mid-cycle.

SafetyLock

The safety lock feature will prevent little fingers from interfering with the machine when it is functioning.

Our service quality. Awarded!

Our Bosch customer service scores top marks around the world for its performance. In Great Britain, for instance, it was winner of the "Total Excellence & Quality Award".

Quality service straight from the manufacturer. Original Bosch.

We are committed to quality – also when it comes to after sales service. For no-one knows our appliances better than our highly trained service engineers. They are working with the latest equipment for measuring, diagnostics and repairs, and use only original Bosch spare parts.

Fair repair prices. Guaranteed.

Our customer-friendly pricing system is transparent and reliable. We will be happy to advise you the best solution. An extra 2-month warranty will be offered on chargeable repairs performed after the 2-year warranty period.

Lifetime service. It goes without saying at Bosch.

Once your warranty period is over, we are still there to assist you. You can rely on expert care and first-rate service throughout your appliance's life cycle. From missing instruction manuals to appliance repair – we take care of everything. A promise is a promise.

Original accessories. Effective care products.

Take a look at our extensive range of accessories available for order: discover additional uses, replace old materials for optimum operation or simply give a trusty home appliance (designated models) a good work-over. With the right care, you will be able to enjoy your high quality appliances for many years to come.

Extensive customer services network. Just a call away.

Help in your home for large appliances such as washing machines or dishwashers need specialised engineers who offer on-site diagnosis and repairs. We are just a phone call away!
