

Even more room
for your favourite dishes.

Bosch 90cm Oven Range

BOSCH

Invented for life

Our ovens: fit every kitchen and every need.

With up to 112 usable litres of oven capacity, you have even more space for roasting and baking your favourite dishes. The larger capacity, combined with Bosch HotAir even heat distribution means you can cook simultaneously on all levels. The wider trays provide more surface area for roasting big batches of potatoes and vegetables. This makes our 90cm ovens perfect for entertaining your friends and family.

More room for your favourite dishes

XXL Cavity – 112 usable litres

The full-size 90cm oven offers 112 usable litres of cooking space and larger baking trays. The increased cavity creates uniform baking results on up to five levels due to the improved heat circulation between the racks.

XL Cavity – 85 usable litres

The compact 90cm oven models have an interior capacity of 85 usable litres. It also comes with the large baking trays which can be used on up to four levels.

Pyrolytic self-cleaning: the oven that cleans itself

During the pyrolytic cleaning function, the oven heats up to 480°C to burn off grease and food residue. This means you never have to clean your oven again.

Simply follow these 3 steps:

1. Activate the pyrolytic cleaning function.
2. Choose from three different cleaning levels, depending on the degree of residue that has accumulated.
3. Once the program is finished, wipe off the thin layer of ash in the base of the oven.

LED-display

The new red LED-display is equipped with 7 heating programs and cleaning function, controlled via pop-out knobs. These knobs do not only provide easy control and temperature adjustments, they also allow for convenient cleaning.

LCD-display

The pyrolytic ovens are equipped with a white LCD-display and pop-out knobs. The temperature appears in the display and can be set using the +/- knob. During preheating, the rising temperature is indicated by a gradual increase of the red light line, which then becomes shorter as the program progresses.

Features and functions for everyday use.

HotAir

HotAir distributes the heat quickly and evenly throughout the entire oven cavity, allowing you to cook simultaneously on all levels.

ClipRail telescopic rails

These new rails can be installed on any level, including the grill level for more convenient toasting. The level-independent rails are easy to install and uninstall meaning they can be easily clicked on a different level.

90cm Overview

Serie | 6

Series 6 | VBD578FS0 90cm Pyrolytic Built-in Oven

Heating functions

10 functions

Capacity – XXL Cavity

112 usable litres (net) with grey enamel
5 shelf positions

Convenience

Retractable control knobs
with LCD-display
Electronic clock/timer with
end-time programming
1 ClipRail telescopic rails
Drop down door
Halogen lighting
Cooling fan
Bar handle

Safety

Maximum door temperature 40°C
Child lock (door & display)
Residual heat indicator
Automatic safety switch-off function
Door contact switch

Cleaning

Pyrolytic self-cleaning
Full glass inner door

Dimensions (HxWxD)

594 x 896 x 570mm
