BPZ11ES FreshUp Protection Sleeve

Plasma textile refresher, FreshUp BPR11EEGB

The first effective¹ and portable fabric refresher which removes unpleasant odours from fabrics - without added chemicals.

Instantly refresh your clothes

- Portable fabric refresher: The first effective¹ and portable solution against unpleasant odours on textiles – without added chemicals.
- Odour removal: Get rid of unpleasant odours such as body odour, smoke or food smells from your clothes and other dry fabrics.
- For dry fabrics: FreshUp can be used on all common dry fabrics including most delicate ones such as silk, wool, cashmere.
- Average treatment time: on spot = 30 sec., t-shirt = 2 min., jumper = 5 min.

Bosch Plasma Technology with Smart Plasma Management

- Plasma power: dissolves odour molecules on your clothes and fabrics without washing or added chemicals.
- Smart Plasma Management: keeps the plasma power in check by constantly measuring a fabric's resistance. Ensures optimum performance and runtime while keeping you and your garments safe.

Portable & Compact

- Compact: 35 x 65 x 160 mm (H x W x D) and as small as a glasses case.
- Lightweight: 200g
- Bosch Battery Technology: lithium-ion-power battery with up to 60 min runtime.
- Cordless: re-chargeable within 3-4 hrs: micro-usb cable and power adapter included
- Protection sleeve included: for transport and storage, use the sleeve to protect the device from scratches.

Material & Design

- Made in Germany: innovative technology designed and made in Germany to the highest-possible quality standards.
- High-quality materials: plasma source made of glass-fibre reinforced ceramics and a gold coated copper electrode.
- Protection: included protection sleeve made of durable high-quality neoprene.

Safety & Maintenance

- Safe to use: FreshUp is safe to use even while wearing clothes.
- Low maintenance: no need to refill the plasma source, simply re-charge the battery and the device is ready-to-use.
- Easy cleaning: use a soft cloth to clean the plasma treatment area.

¹ Significant odour reduction confirmed for tobacco smoke, fried fat/onion and artificial food smells: smoked bacon, anchovy, smoked ham. Investigation WL 2232/20 by wfk – Institut für Angewandte Forschung GmbH, N=270 samples
