## Recirculation kit HEZ9VRUD0

---

- Mandatory installation accessory for unducted recirculation configuration. Recommended for island bench installation with recommended furniture air flow measurements below. Includes: - 4 high-performance CleanAir odour filters with optimized odour reduction performance for cooking applications with complex odor molecules (e.g. fish). Large scale filter surfaces with high odour reduction capabilities and a lifetime of 360 hours of cooking (nonregenerative). Filters are additionally optimized for low-noise. - A telescopic slider element with integrated sealings and a self-gluing fixation frame to easily connect the appliance's air outlet with the cut-out in backpanel of the furniture. This "Plug 'n Play" installation kit enables very convenient plannings and very convenient and quick installations. A return-flow aperture of  $\geq 400\text{cm}^2$  is to be respected in the plinth area. This configuration requires a vertical aperture of minimum 25mm behind the backpanel of the furniture (suggested for ideal performance use 50mm).
